Big  
2022

# Pigalog®

# OUR SMALL TOWN ROOTS ANCHOR THE WORLD'S #1 BRAND.

## A TIMELINE OF LEAK & SPILL LEADERSHIP

### 1985 CENTRAL PENNSYLVANIA

Our founders invent the world's first contained absorbent — the PIG Original Sock — from the "Pig Pen" in Tipton, PA. New Pig is born and leak and spill management is revolutionized.

### COAST TO COAST GROWTH

It didn't take long for word to travel about our cleaner, safer, better ways to work. As our product offering grew, the PIG brand skyrocketed to clay-replacing fame in factories across the US.

### CONTINENTAL SHIFTS

By establishing offices in Asia, Europe and the UK, more people in more oil-soaked workplaces could get their hands on PIG. As it turns out, an oil spill is an oil spill, and everyone hates slip-and-fall claims.

### TODAY WORLD'S BEST STUFF

International success led to more New Pig locations, plus partnerships with thousands of distributors and resellers around the globe. As the world's #1 brand of absorbents, PIG Products have reached more than 300,000 facilities in over 100 countries — on all 7 continents!

## FREE CARHARTT LONG SLEEVE HENLEY

with any \$249 purchase

We believe that hard-working people deserve hard-working products — and that includes the shirt on your back. This Carhartt® long-sleeve shirt brings your rugged attitude to a nice-lookin' Henley. Carhartt logo sewn on the left chest pocket and New Pig printed on the arm makes for the perfect pairing when it comes to taking pride in your work. **Yours FREE using the Promo Code from the back cover.**

\$30 value

Sleeve detail:  
If anyone asks,  
tell them you have  
friends in Tipton!

# WE'LL KEEP YOU HAPPY!

## THAT'S THE PIG PROMISE.

### Super-Awesome Service

You'll never have to wade through recorded phone menus at New Pig. An actual human being answers your call within two rings, and orders only take a few minutes. Our team is fast, friendly and up to snuff on all our stuff!

### FREE Expert Advice

From product support to regulatory compliance, and every head-scratching subject in between, our Technical Service Reps are educated on the issues that affect you most. We love solving problems and figuring out fixes for the issues at your workplace.

### Reliable Shipping

Thanks to our speedy warehouse crew, modern logistics and massive in-stock inventory, most orders ship same day. And when you order using Autoship, your favorite products ship automatically so you never run out. (See [newpig.com/autoship](http://newpig.com/autoship)).

### Risk-Free Shopping

We stand behind 100% of our products, 100% of the time. So if you're not happy, we'll refund every single penny, including shipping both ways. We'll even schedule the return from your location. Zero risk. No guff. All good.

For orders, service and product support by phone, call Monday–Friday, 7 AM–8 PM EST:

## TOP 5 REASONS TO REGISTER AT NEWPIG.COM

1. **Faster Checkout** — Say goodbye to guest checkouts and take advantage of speedy purchases based on your saved info and preferences.
2. **Order History Access** — We'll keep all your previous orders in one place. That comes in handy when your guys say, "just get what we got last time."
3. **Saved Carts** — Sometimes you're waiting on an authorization, sometimes you're just not ready to buy yet. Either way, we make it quick and easy to finish up when you come back.
4. **Saved Shipping Addresses** — Some lucky people can send every order to the same location. For the rest of us, keeping all those destinations one click away is a real time-saver.
5. **Shipment Tracking** — All our customers get email updates on shipments, but registered users can track progress in their order history. Convenient!

### REGISTERING IS QUICK AND EASY. HONEST!

Don't worry, you won't be bombarded with hundreds of fields or asked to attend a timeshare meeting in Florida. We keep it short and sweet! In addition to all the benefits above, your newpig.com account will also let you manage Autoship orders online (details on the opposite page).

Sign up now at [newpig.com/registernow](https://www.newpig.com/registernow)

Offer ends at midnight EST on 12/31/2022 and may not be combined with other promotions. The promo code will be applied to your shopping cart upon registration, so please build your cart and then register using the special registration page: [www.newpig.com/registernow](https://www.newpig.com/registernow). Applies to first-time online orders only. Free shipping up to \$1000.00. Does not include cabinets or custom orders. Limited to the continental United States, excludes AK, HI, and PR.

**Newpig.com is the perfect destination for product research and resources.**

### ✓ Expert Advice

Over the years, the leak and spill experts in our product and technical areas have contributed hundreds of articles, white papers, case studies and videos. Search our library to read up on regs, applications, product selection and more at [newpig.com/expertadvice](http://newpig.com/expertadvice).

### ✓ Product Reviews

What can you expect from your PIG Products? We have some great people in our marketing department, but truth be told, our customers say it best! Get the lowdown on whatever you're buying, and then write your own review once you've had a chance to try out your purchase.

### ✓ Live Chat

Some sites like to trick you with "live chat" windows that are just canned, automated replies. At New Pig, the same friendly reps who greet you at 1-800-HOT-HOGS are manning the keyboards to help you online. Got a question? Get an answer right away!

# NEVER RUN OUT!

Get the stuff you use most, right when you need it, **shipped automatically.**

Easy setup. Easy changes. Cancel any time.

#### Save time

No need to spend time placing orders when stock gets low. It's one less thing to remember!

#### Never run out

Tell us how much you need and how often to ship it. Adjust anytime to keep your inventory just right.

#### Get FREE stuff

Hats, T-shirts, mugs and more — you get a fun PIG freebie in every shipment!

## Autoship

Registered users can manage your orders online!  
Get started at [newpig.com/autoship](http://newpig.com/autoship)

# NEW! INDUSTRY-FIRST PIG EXCLUSIVE!

## **Aerosol Four-Can Recycler** — Save time with the only four-can recycler on the market.

- Puncturing and draining aerosol cans **turns hazardous waste into non-hazardous waste** that can be recycled as scrap metal
- **Eliminates risks** associated with illegal aerosol disposal and the expense of haz waste handling
- **Minimizes worker injuries** caused by fire, explosion or VOC release from improperly emptied cans
- Unit **mounts to specialized drum lid** (included in kit); must be used with a 55-gallon open-head steel drum (drum should not be filled more than 70% full to provide proper displacement for released contents)
- Adjustable threaded support plungers make it easy to safely **puncture 2-3" diameter cans** - cans under 7" in height will require support plungers; cans over 7" will require support plungers to be removed
- Combination coalescing/carbon **filter captures odors** and potentially harmful VOCs released by punctured aerosol cans
- Timestrip indicator **eliminates the guesswork** of filter changeouts; filter life is three months
- Angled hardened steel pins **puncture cans cleanly** without leaving jagged edges
- ◆ **Helps you comply** with 40 CFR 261.1(c)(6) that defines scrap metal

<b>DRM4003 Contents</b> • 5 Neoprene Gaskets • 4 Puncture Pins			

**NOTE:** Always operate system outdoors or in a well-ventilated area

DRM4000 includes everything pictured here. See below for full list of contents.

Turn empty cans into valuable scrap metal!

**CHECK  
NEWPIG.COM  
FOR PRODUCT  
AVAILABILITY**

One-piece filter captures odors and VOCs released by punctured aerosol cans.

## UP TO YOUR EYEBALLS IN AEROSOL CANS?

**Problem:** Our original Aerosol Can Recycler has been popular, but many of our customers go through thousands of aerosol cans every month. Puncturing that many cans one by one isn't efficient, and paying for a disposal service is expensive.

**Finding the solution:** It would have been easy to develop a two-can recycler and call it a day, but that's not the PIG way. We wanted to do something that hasn't been done before, so we pushed past a three-can design and went for the very first four-can recycler. Go big or go home, right? We know time is money, so now you can empty four aerosol cans at once — cha-ching!

**Problem Solved: PIG Aerosol Four-Can Recycler**

Instruction poster (included) reminds workers of proper recycling procedures.

Durable aluminum construction resists rust and corrosion.

Punctured cans have no sharp, jagged edges.

Ground wire helps prevent static electricity buildup.

## PIG® Rubber Drainage Mat — Place this mat in spill-prone areas to protect employees and customers from slips and falls.

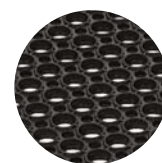

- Provides **better slip resistance** than ceramic or cement floors in high-traffic, wet or spill-prone areas
- **Low profile and beveled edges** help prevent trips and falls
- **Drainage holes channel liquid** to prevent pooling and slipping
- Lightweight, **easy to clean** and autoclavable
- 3' x 5' mat is **great for small areas** or individual workstations
- Lengths up to 20' **easily cover large areas** without the trip hazards of side-by-side mats

PIG® Rubber Drainage Mat			PIG
Item #			1+
FLM1000	3' W x 5' L x 0.5" H	\$44	*
	3' W x 10' L x 0.5" H	\$134	*

\* ⚠ **WARNING:** Cancer, Birth Defects and Reproductive Harm - [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov)

Holes allow drainage to keep mat surface dry

## PIG® Commercial Kitchen Rubber Drainage Mat — Superior traction and drainage make this the best mat to combat grease, oil and fats.

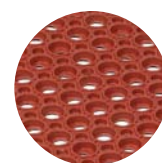

- Nitrile rubber material **provides superior resistance to oils and fats**; ideal for adding traction in wet, greasy areas
- **Perfect for industrial and restaurant kitchens**, bars, food processing facilities and other grease-prone areas
- **Low profile and beveled edges** help prevent trips and falls
- **Drainage holes channel liquid** to prevent pooling and slipping
- Lightweight, **easy to clean** and autoclavable
- 3' x 5' mat is **great for small areas** or individual workstations
- Lengths up to 20' **easily cover large areas** without the trip hazards of side-by-side mats

Drainage holes help to prevent slips

### Application Key

Continuous water contact

Continuous chemical contact

Light water splashes

Continuous oil/grease contact

For dry areas only

Light oil/grease splashes

Light chemical splashes

NOTE: For chemical compatibility information on mats, please call Technical Services or visit [newpig.com](http://newpig.com).

## PIG® Diamond Plate Anti-Fatigue Mat — Unbeatable durability meets comfort for extended-standing workstations.

- Cushioning **relieves stress** on knee, foot and ankle joints
- Durable material **withstands constant foot and cart traffic**
- **Textured surface** provides slip resistance in dry areas
- Available in **two thicknesses**; choose Double Cushioned version for nearly a full inch of PVC foam

\* ⚠ **WARNING:** Cancer - [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov)

Three color choices:  
black, black with easy-to-see  
yellow border or gray

## PIG® Anti-Slip Mat Roll for Wet Areas — Specifically designed to add traction for bare feet in places like pools and locker rooms.

- Ideal for heavy barefoot traffic in wet areas: **high-traction, anti-fungal, anti-bacterial** and comfortable to walk on
- **Slip-resistant, embossed surface** adds traction to reduce the risk of slips and falls
- **Perfect for wet, slippery areas** like pools, showers, locker rooms, saunas, spas and jacuzzies
- **UV resistant** for outdoor use (except Mulberry Red color); great for indoors too

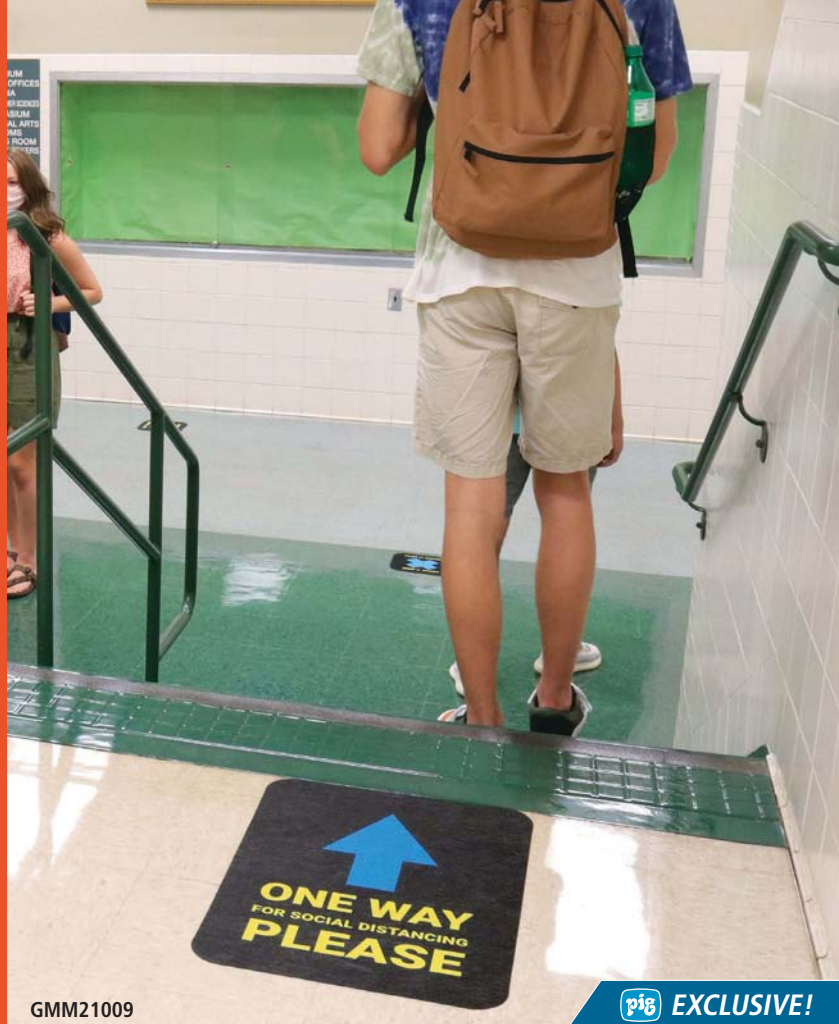

PIG® Anti-Slip Mat Roll for Wet Areas

## Social Distancing Floor Signs & Markers — Mark the spot, not your floor, to promote health guidelines.

- **Remind employees and guests** of social distancing, handwashing and face coverings
- Nonpermanent adhesive sticks to clean, dry floors, but **peels up easily**
- Anti-slip sign absorbs moisture and **won't become slippery** like decals, tapes, and paints
- **Unlike vinyl decals or tapes**, our adhesive-backing withstands full foot traffic, floor scrubbing and disinfectant use
- **Leave in place and clean** with mop or floor scrubber; can be scrubbed, vacuumed or swept off without affecting performance
- Available for use on **hard surface floors** (GMM) or **on carpet** (GMC)

NO

NOTE: New Pig's Adhesive-Backed Mats work with most common industrial and commercial floor surfaces. To determine the suitability for your application, test a 6" x 6" piece in a non-critical area before use. See notice on page 216 for more information.

# THIS BOLD MAT WON'T BUDGE!

**EXCLUSIVE!**

## **PIG** Grippy Caution Adhesive-Backed Absorbent Mat — Alert workers to slip hazards at workstations and machinery.

- **Bright yellow color and caution message** draw attention to potential slip hazards from leaks and drips around machinery, workstations and poorly lit areas
- **Adhesive-backed mat** stays exactly where you put it with no shifting, bunching up or flipping over
- Sticks to most **commercial floor surfaces** like cleaned and sealed concrete, vinyl tile, linoleum, ceramic and quarry tile
- **Walk all over it!** Tough, spunbond top layer with heavy-duty zigzag stitching stands up to foot and light-wheeled traffic; keep in service until saturated or shows signs of wear
- Makes it **easy to sweep up debris** like metal shavings and wood chips while also absorbing common industrial fluids
- **Easy to cut and install:** just roll it out, cut to size, stick it down and apply pressure to smooth it out

### A CLOSER LOOK

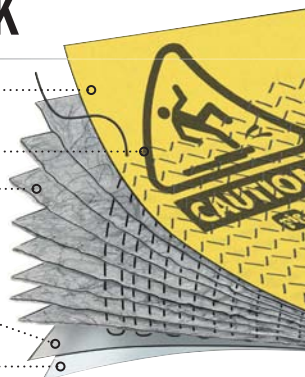

Spunbond top layer stands up to traffic.

Zigzag stitching adds strength.

**PIG exclusive!** Multiple layers of thermally-bonded, melt-blown polypropylene provide high absorbency.

Poly backing stops liquid from passing through to floors.

Fully coated adhesive backing holds tight but peels up easily.

**NFSI**   
**HIGH-TRACTION**

**ADHESIVE BACKING!**

## Pre-Treated Sanitizing Towels — Just add water to clean.

- Towels are **pretreated** with quat sanitizer for convenient, wet-and-go cleaning
- Measure 1 gallon of water into a bucket, add 1 towel, squeeze to activate the solution and begin wiping (**follow package instructions**)
- Creates an **EPA-approved** 200 ppm food surface contact sanitizer
- **Color transfers** from towel to water to indicate sanitizer has been activated
- **Easy and convenient to use**; removes the guesswork from mixing cleaning chemicals
- Medium-duty use; **ideal for foodservice** applications, schools, cafeterias, industrial workspaces and offices

Towels come pre-saturated with quat sanitizer. Just add water to start sanitizing.

*"Amazing product —  
I use it all over my shop."*

— Vernon, PIG Grippy  
Absorbent Mat Customer

# ABSORBENTS

## World's first sock: The PIG that launched an industry.

In the early '80s, our founders were working hard cleaning up oil and grime in dirty factories. The worst job was shoveling up the loose, oil-soaked cat litter around the bases of leaking machinery. The clay pellets stuck to everything. It was a nightmare, and it was everywhere. When they started losing money on these jobs, they set out to find a better way to soak up the oily mess.

They cut up panty hose and stuffed them with everything from sawdust to rice hulls. Then they laid these sausage-shaped things into pools of oil to see what would happen. Nothing worked. Finally, they tried the ground corncob they used to blast oil off factory walls — and the first PIG was born.

The **PIG Original Sock** is still the most preferred absorbent sock in the world — sucking up oils, coolants, solvents and water in all kinds of workplaces. Don't miss the PIG Socks on pages 28–32 to see how our offering has grown!

## PIG Mat: It's mat with muscle!

When absorbent mats came on the scene 37 years ago, they were flimsy and fell apart. So we made one that was better. Today, PIG Mat is still the most durable absorbent mat you can buy.

### Exclusive multi-layer construction

No other brand delivers the perfect combination of fine-fiber materials, thermal bonding and multilayered design. That all adds up to absorbency, retention and durability that just can't be beat.

## “SOAK IT UP WITH THE #1 BRAND.”

The quality and engineering that go into our absorbents are second to none. Nothing outperforms or outlasts PIG, and we never stop looking for ways to get even better.

Chris Iuzzolino —  
Director of Product Operations

Neutralizing Absorbents.....	72–75

# UNIVERSAL MATS

Perform everyday maintenance and clean up spills of oils, coolants, solvents and water.

WORLD'S  
#1  
ABSORBENT  
BRAND

## What is Universal?

Also called "MRO" absorbents, they soak up the widest range of liquids for everyday applications, including:

- Hydraulic oil
- Vegetable oil
- Coolants
- Isopropyl alcohol
- Lubricants
- Water-based solvents
- Propylene glycol
- Acetone
- Toluene & Xylene
- MEK (methyl ethyl ketone)
- Many other noncorrosive liquids

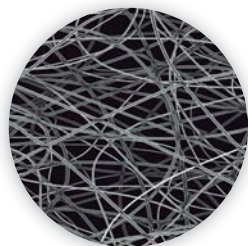

# TRIED & TRUSTED

PIG Mat delivers the perfect balance of absorbency, retention and durability.

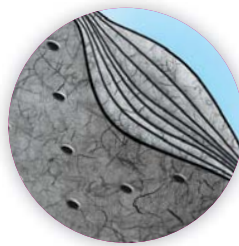

## SOAKS UP FAST

Our exclusive dimple pattern speeds up the wicking of liquid throughout the mat. Leak and spill cleanup is quick and easy.

## HOLDS ITS LIQUID

Highly absorbent fine fibers trap liquids so they don't pour back out when you pick up the mat. The mess is gone for good!

## LASTS 2X LONGER

Multiple layers of thermally bonded polypropylene give PIG Mat superior strength and abrasion resistance.

# WE MAKE MATS FOR EVERY WAY YOU WORK

## MAINTENANCE MATS (pages 8–17)

When you need an absorbent mat for catching everyday leaks and drips or soaking up small spills, PIG Mat delivers. These mats keep your workstations clean, and they're perfect for jobs without much foot traffic:

**Pig Blue Mat**

**PIG Mat**

**PIG Rip-&-Fit Mat**

**PIG High-Visibility Mat**

## WALK-ON MATS (pages 18–21)

Got a messy application that will see a fair share of foot traffic? Make sure you're choosing a mat that's built for the job. Step up to these PIG Mats with a spunbond top layer for extra walk-on durability:

**PIG Ham-O Mat**

**PIG 4 in 1 Mat**

**PIG Chat Mat**

## HIGH-TRAFFIC MATS (pages 22–26)

If leaks and spills are hitting your busiest aisles and walkways, you need our roughest, toughest PIG Mats. These high-traffic mats are designed to withstand a daily barrage of wheels and workboots:

**PIG Grippy Absorbent Mat**

**PIG Traffic Mat**

**PIG Grippy Floor Mat**

**PIG Elephant Mat**

# DRINKS OTHER MATS UNDER THE TABLE!

BLU101

**EXCLUSIVE!**

**Blue Mat** — Our most absorbent mat stays down longer so you use less and save money.

- **Clean up big, persistent leaks and drips** with our maximum absorbency pads — they pack more absorbency than any other mat we offer
- Requires **fewer changeouts** than standard mats; perfect for underneath machines, generators and other hard-to-reach areas
- **Saves you time and money** by staying down longer; won't fall apart, even when soaked; absorbs fast for easy cleanups
- **Contains 75% recycled fibers**; ideal in situations where green products are desired or required
- **Fire retardant for added safety**; flame tested in accordance with ASTM Standard E84-08
- **Absorbs oils, coolants, solvents and water**; not recommended for acids, bases or other corrosive liquids
- ◆ **Helps you comply** with 29 CFR 1910.22(a)(2) for maintaining floors in a clean, dry condition

## A CLOSER LOOK

Fused natural and synthetic fibers create strength ..... and enhance absorbency.

Lofty inner ..... core provides superabsorbency.

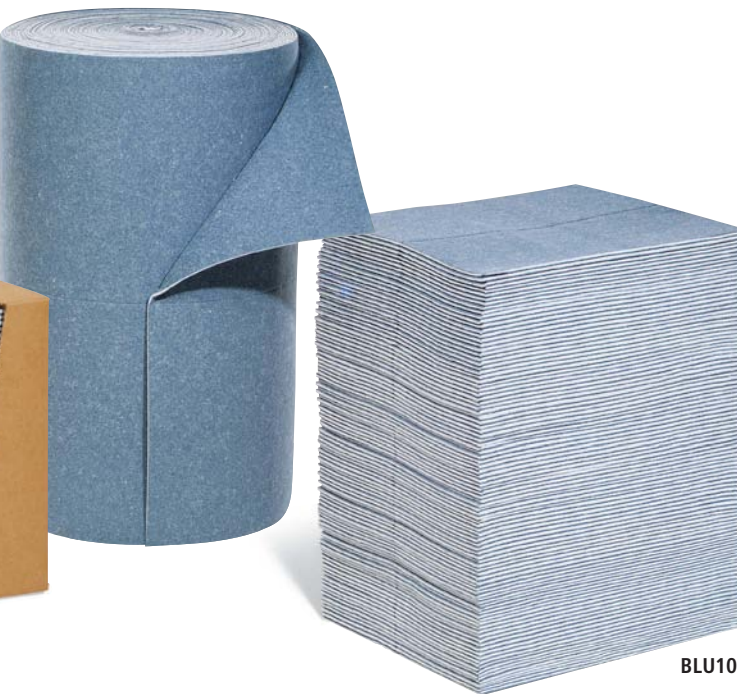

**ABSORBS  
UP TO  
43<sup>oz</sup>  
PER PAD!**

# STAYS ON THE JOB 2X LONGER

MAT240

ALL-TIME  
BEST  
SELLER!

**PIG** EXCLUSIVE!

## **PIG** Mat Pads — The one absorbent mat pad to have if you only have one. Absorbs anything, anywhere.

- **Multiple layers** of 100% polypropylene are thermally bonded to make PIG Mat the strongest mat on the market; it won't rip, tear or fray even when saturated
- **Highly absorbent**, fine-fiber construction won't leave liquids or fiber residue behind; easy-tear perforations for less waste
- Absorbs **common industrial liquids**; oils, water, solvents, coolants and more
- **Exclusive dimple pattern** speeds wicking of liquid throughout mat for faster, easier cleanup
- **Flame-resistant**; won't burn immediately like untreated cellulose mats
- Dark gray color **hides grime** so mat stays on the job longer
- Choose **lightweight** for small jobs or for routine changeouts; **mediumweight** as a great general purpose mat; and **heavyweight** for bigger spills and leaks
- **Pads are ideal** for catching drips and soaking up spills
- Can be wrung out and incinerated after use to **reduce waste**
- ◆ **Helps you comply** with 29 CFR 1910.22(a)(2) for maintaining floors in a clean, dry condition

### A CLOSER LOOK

**PIG exclusive!** Multiple layers of thermally-bonded, melt-blown polypropylene make PIG Mat the **toughest mat on the market.**

*"Since we started using PIG products we cut our spill cleanup costs almost in half! PIG Mats are the perfect size for an automotive shop. There are nasty spills here, and your mats kick 'em to the curb! Thanks for your superior products and excellent service!"*

— Rebecca, MAT412 Customer

MAT240

MAT203

MAT203

MAT285

PIG Mat offers the perfect balance of absorbency, retention and durability to keep it on the job soaking up leaks and drips 2X longer than ordinary mats.

Poly-Back Mat (MAT285) provides an extra layer of protection to floors, counters or other surfaces; place over a spill with poly-back side up to suppress potentially harmful, flammable or irritating vapors.

**EXPERT  
ADVICE**

See why PIG Mat is the #1 Mat  
in the world!

[newpig.com/pig-mat-video](http://newpig.com/pig-mat-video)

MAT140

PIG Mat lets you work grit-free to keep your shop clean and your tools and parts in top condition.

MAT283

Poly-Back Mat (MAT283) provides extra protection for floors, counters or other surfaces; place over a spill with poly-back side up to suppress potentially harmful, flammable or irritating vapors.

# **Rip-&Fit Rolls** — Create custom sizes without cutting!

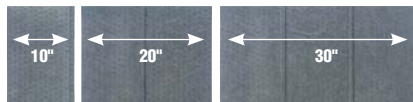

- **Extra perforations** in our Rip-&Fit Mat allow you to easily "rip" this PIG Mat and "fit" it to your application without cutting
- No matter how you rip it, this mat features the proven multi-layer, 100% polypropylene construction of PIG Mat, the **strongest mat on the market!**
- **Standard mat** (MAT242, MAT243) is perforated every 3.75" across width and every 10" along length; ideal for shelves, ledges and drips in tight or awkward spaces
- **Extra-wide mat** (MAT252, MAT253) is perforated every 10" across width and length; prefolded for increased absorbency and compact storage; unfolds to cover large work areas
- **Dispenser box** (MAT253, MAT242) makes it easy to carry and store your mat while protecting it from dirt and moisture

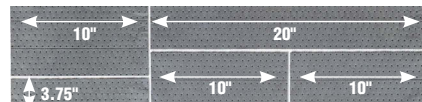

MAT242

 **EXCLUSIVE!**

**MAT253**  
Unfold to cover large work areas, or leave it folded to target heavy leaks and drips.

**MAT243**  
Tear at the perfs to create the right mat size for any area, any shape!

# HAMOUFLAGE YOUR LEAKS & SPILLS

MAT116

 EXCLUSIVE!

**PIG Ham-O Mat** — Bring the fun to workplace messes! Grime-hiding top lets you keep it down til it's soaked.

- Exclusive **"hamouflage" top layer** saves on product and disposal costs; **absorbed grime is invisible**, so you'll leave mat in place longer and save money!
- **Fast-wicking dimple pattern** transfers liquids from the top layer into the absorbent inner layers; spills disappear in seconds
- Absorbs and retains **oils, coolants, solvents and water**
- Available in **two grime-hiding colors**
- **Easy-tear perforations** let you take only what you need so you use less mat and save money
- Tough, scuff-resistant, spunbond top layer **stands up to foot traffic**; won't rip, tear, fray or create a trip hazard, even when saturated
- **Flame-resistant material** won't burn immediately like untreated cellulose mats; melts when exposed to high heat while on the job

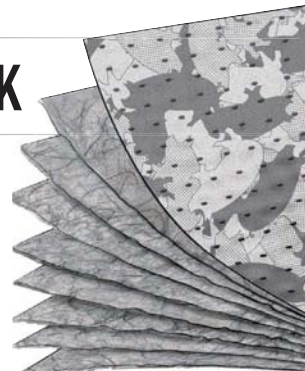

NOTE: Ham-O Mat is not recommended for absorbing solvents or corrosive liquids that may affect the printed pattern.

**Now you see it... now you don't!**  
Oily leaks, drips and spills disappear as they're absorbed.

## A CLOSER LOOK

**PIG exclusive!** Multiple layers of thermally-bonded polypropylene and a **spunbound top** provide absorbency and wear resistance.

DISPENSE YOUR HAM-O MAT FROM  
A ROLL HOLDER. SEE PAGE 27.

Poly-Back Mat (MAT132) prevents absorbed liquids from reaching floors; place poly-back side up to suppress harmful vapors.

Distinctive Ham-O top conceals absorbed leaks and drips to keep the mat on the job and looking good until it's completely saturated.

"These really suck up the spills very well. **The pattern helps hide the stain on the mats**, they look better than a white sheet with brown/black stains. They help keep the shop looking clean and neat."

— Paul, MAT191 Customer

## PIG® 4 in 1 Mat — Pull it out and tear it to size. It's four products in one!

- Exclusive 4 in 1 Mat is a **pad, roll, sock and wiper** all in one!
- Use as a **pad** to catch drips and soak up spills; **roll** out to cover large areas; fold along score lines to make a thick, absorbent **sock**; tear off a piece to use as a low-lint **wiper**
- Builds on the proven multi-layer, 100% polypropylene construction of PIG Mat, **the strongest mat on the market!**
- **Scuff-resistant, spunbond outer layer** resists wear and tear, even under heavy foot traffic or abrasive conditions
- **Exclusive dimple pattern** speeds wicking of liquid throughout mat for faster, easier cleanup
- **Highly absorbent**, fine-fiber construction won't leave liquids or fiber residue behind
- **Flame-resistant material** won't burn immediately like untreated cellulose mats; melts when exposed to high heat while on the job
- Rolls are scored and perforated every 10"; **easy to tear to size**, use only what you need; ideal size for lining shelves and ledges along machines

**PIG EXCLUSIVE!**

## **PIG** Grippy Absorbent Mat — Soak up messes to stop slips, trips and falls around workstations and machinery.

- Adhesive-backed absorbent mat stays exactly where you put it with **no shifting, bunching up or flipping over**
- Proprietary adhesive sticks to the floor with a super-tight grip, but **peels up easily** for quick changeouts
- Tough, spunbond top layer with heavy-duty zigzag stitching stands up to foot and **light-wheeled traffic**
- **Multiple layers** of fine-fiber polypropylene safely absorb leaks, drips and overspray of oils, coolants, solvents and water
- **Traps oil, grease and grime** to keep them from being tracked around; leakproof backing prevents liquid from reaching the floor
- Mat rolls provide enough length to create **continuous coverage** and absorbency in oily areas near machines and equipment
- **Easy to cut and install:** just roll it out, stick it down and smooth it out (also available in precut pads)
- ◆ **Helps you comply** with 29 CFR 1910.22(a)(2) for maintaining floors in a clean, dry condition

### A CLOSER LOOK

Spunbond top layer ..... stands up to traffic.

Zigzag stitching adds strength. ....

**PIG exclusive!** Multiple layers of thermally-bonded, melt-blown polypropylene provide high absorbency. ....

Poly backing stops liquid from passing through to floors. ....

Fully coated adhesive backing holds tight but peels up easily. ....

"Grippy Mat has definitely changed the whole safety aspect of the shop. **It handles high-traffic areas like a beast.** It soaks up ALL of the oil we throw at it and stays in one place. It doesn't unpeel, wrinkle or slide AT ALL!"

— Austin, MAT32100 Customer

Mats won't bunch, curl or slide, thanks to our exclusive full-coverage adhesive backing.

## Grippy Floor and Traffic Mats — Keep floors dry, even in forklift areas, with our most durable absorbent mat.

- 100% polypropylene material is heat fused and needle punched for **incredible durability** for walk-on and wheeled traffic
- Our most durable mat **won't rip, shred or fray**, even under heavy forklift traffic!
- Absorbs and retains **oils, coolants, solvents and water**
- Dark gray color **hides grime** so mat stays on the job longer
- Rolls are **ideal for walkways** and large areas to soak up leaks and overspray
- **Cuts easily** with scissors or utility knife

*"We were using carpeting but the expense to change them out was costing us close to \$1,000 per month. Then I talked to a wonderful PIG rep who recommended this product and **WOW — it not only does a great job absorbing the oil and keeping our employees safe but it lasts 6 months or longer**, allows our tool carts to roll over it and saves us lots of money."*

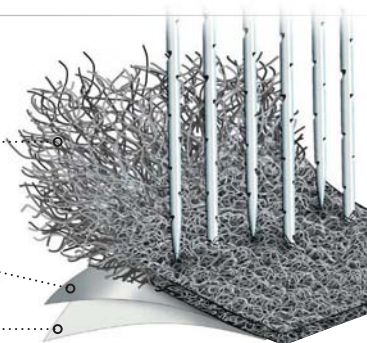

— Marge, GRP36200 Customer

### A CLOSER LOOK

Polypropylene fibers are needle punched and heat fused to give the surface superior durability.

Poly backing stops liquid from passing through to floors.

Fully coated adhesive backing on Grippy Mat holds tight but peels up easily.

# UNIVERSAL SOCKS, PANS, PILLOWS & LOOSE

PIG-tough solutions to absorb oils, coolants, solvents and water.

WORLD'S  
#1  
ABSORBENT  
BRAND

## What is Universal?

Also called "MRO" absorbents, they soak up the widest range of liquids for everyday applications, including:

- Hydraulic oil
- Vegetable oil
- Coolants
- Isopropyl alcohol
- Lubricants
- Water-based solvents
- Propylene glycol
- Acetone
- Toluene & Xylene
- MEK (methyl ethyl ketone)
- Many other noncorrosive liquids

# SOME MESSES NEED MORE THAN A MAT.

Small spills and machine overspray call for the quick absorbency of PIG Mat. But leaking machines or runaway spills must be confined before they make your floors a mess and create the potential for a slip-and-fall accident.

That's when you reach for a moldable PIG Sock. No matter what kind of mess you're facing, there's a PIG Sock to tackle it. From Original PIG Socks for general maintenance to PIG Blue Socks for diking and damming liquids, every sock we sell is PIG-tough to get the job done.

**Find out why choosing the right sock matters. Read the article at [newpig.com/look-inside-socks](http://newpig.com/look-inside-socks)**

Highly absorbent filler traps and holds liquids — they won't leach out onto floors.

Moldable skin won't fall apart.

Absorbent material is contained so socks are easy to pick up and replace.

**SEE OUR NEW SOCKS JUST FOR WATER ON PAGES 64–65**

## 3 simple steps to get the most out of your PIG Socks.

1. Clean up all loose absorbents, rags and other debris around the source of the leak. Hold each sock by its ends and shake to evenly distribute filler. This will create better surface contact.
2. Make sure your PIG Socks have direct contact with the floor and the liquid being absorbed. Don't stack socks on top of each other. When placing end-to-end, overlap them by 3."
3. If it ain't soaked, don't pitch it! Let the sock work until it's saturated. Replace the sock when you see liquid seeping out from underneath.

PIG EXCLUSIVE!

## PIG Original Sock — Control your everyday leaks with our most shape-hugging socks.

- Formable socks **hug corners and surround machine bases** to absorb leaks, contain puddles and keep workers safe
- Corncob filler **pulls liquids from the floor** for maximum absorbency; cleanup is quick and easy
- Polypropylene skin **resists tearing**; reduces dust and holds in liquid, even when saturated

PIG Clip-&-Fit Socks (PIG220) let you create custom-sized socks in seconds! Use only what you need and reduce waste.

"We have about 30 CNC machines in our shop and, of course, some of these machines leak coolant and oil. Out of everything we've tried to contain these leaks, we found that **PIG products work the best**. Very happy with our purchases from PIG."

— Adam, PIG218 Customer

# THE SPILL STOPS HERE.

Absorbents

Universal

Absorbs oils, coolants, solvents and water

**EXCLUSIVE!**

## **Blue Sock** — Our heaviest sock forms a barrier to keep spills from spreading.

- The **heaviest sock** we make features extra-dense construction to hug floors and stay in place while containing spills; ideal for **diking and damming liquids**
- **Fine-grade vermiculite filler** quickly absorbs leaks, drips and spills; great for spill response or absorbing machine leaks
- **Stitch-bonded, polypropylene skin** resists bursting; reduces dust and holds in liquid, even when saturated
- Absorbs and retains **oils, coolants, solvents and water**
- Can be **air-dried for reuse** when soaked with water

Ideal for surrounding leaking machines, too!

**GOT A BIG LEAK?**

PIG210

**EXCLUSIVE!**

## PIG® Super Absorbent Sock — Handle your high-volume leaks with our most absorbent sock.

- **Extra-thirsty, formable socks** hug corners and walls, surround higher-volume machine leaks and contain spills to keep workers safe
- Cellulose filler is **highly absorbent for big leaks and spills**; super absorbency means that you replace them less often
- **Stitch-bonded, polypropylene skin** resists bursting; reduces dust and holds in liquid, even when saturated
- Absorbs and retains **oils, coolants, solvents and water**
- 85% recycled cellulose filler is **ideal when green products** are desired
- **Wringable** for reclaiming up to 65% of absorbed liquid
- Can be incinerated after use to **reduce waste** or for fuels blending

PIG210

**BEST SELLER!**

Super Socks can be wrung out to reclaim liquids for recycling. (See page 272 for wringer.)

PIG100

## PIG® Flat Sock — More ground contact provides better protection against seepage.

- Flat design is a **hybrid of round socks and flat pillows**; hugs walls, machine bases and uneven ground to contain leaks, drips and spills
- **Low-profile design** puts more material in contact with the ground for better diking and maximum saturation
- **Stitch-bonded, polypropylene skin** resists bursting; sock is wringable for reclaiming up to 65% of absorbed liquid
- Cellulose filler is **highly absorbent** for containing and soaking up liquids

Spill pouch

## PIG® Dri Loose Absorbent — Highly absorbent granules are heavy like clay and won't blow around.

- Unlike clay, which coats itself in liquid, fast-wicking cellulose-based kaolin granules **begin to soak up liquid the moment they touch the spill**
- **100% recycled content** (a by-product of the papermaking process); ideal when green products are desired or required
- Lightweight absorbent is **easier than clay to carry and use** without injury
- Silica-free composition **does not pose the health hazards** associated with breathing in clay dust
- **Absorbs and retains** oils, coolants, solvents and water
- **Can be incinerated after use** to reduce waste or for fuels blending

### PIG® Dri Loose Absorbent

Corrosive Liquids Notice: Not recommended for acids, bases or other corrosive liquids.  
Ingredient Notice: Contains intentionally-added ingredients that may contain fragrance allergens.

"We tried several different brands from at least 6 different vendors. This product tops them all. Very little dust, **it's light, but won't blow away in outside applications** and it absorbs faster than anything we've tried. New Pig has all my shop's business for absorbent products."

— Mark, PLP213-50 Customer

Easy-to-handle pouch (PLP220) is perfect for small spills and helps reduce injuries from lifting heavy bags of loose absorbent.

**BEST  
SELLER!**

## LITE-DRI VS. CLAY? THERE'S NO COMPARISON!

What happens when we put PIG Lite-Dri Absorbent against clay on a 45-gallon spill? Lite-Dri Absorbent wins hands down!

### Number of bags needed

Lite-Dri = 5.6  
Clay = 15

### Dry weight of absorbent

Lite-Dri = 123 lbs.  
Clay = 577 lbs.

### Used absorbent & liquid

Lite-Dri = 1 drum  
Clay = 2 drums

### Disposal cost\*

Lite-Dri = \$600<sup>b</sup>  
Clay = \$1,800<sup>c</sup>

### Total costs (material, disposal)

Lite-Dri = \$779  
Clay = \$2,026

**Use PIG Lite-Dri and save \$1,247**

<sup>a</sup>Whether you use incineration or landfill, savings are 50% because you dispose of 50% less volume.

<sup>b</sup>This is because of higher Btu potential and lower ash content of Lite-Dri Absorbent.

<sup>c</sup>\$900/drum for 2 drums.

**PLP218**  
Universal  
multipack

## Lite-Dri Loose Absorbent — Lighter and easier to carry than clay, plus it absorbs up to 3X more!

- Unlike clay, which is simply coated with liquid, fast-wicking recycled cellulose actually **soaks up the spill the moment it touches the liquid**
- Three times more absorbent means you'll use less material on the spill, **reducing your labor and disposal costs**
- Silica-free composition is nonabrasive and **does not pose the health hazards** associated with breathing in clay dust
- Nonabrasive composition **won't harm finished floors or damage expensive machinery**
- **Lightweight absorbent** is easier than clay to carry and use without injury

- **Absorbs and retains oils, coolants, solvents and water**
- Bag features a **built-in handle** for easy portability, handling and dispersal
- Recycled cellulose is ideal when **green products** are desired or required

# OIL-ONLY ABSORBENTS

Soak up oily leaks and spills without wasting absorbency on water.

WORLD'S  
#1  
ABSORBENT  
BRAND

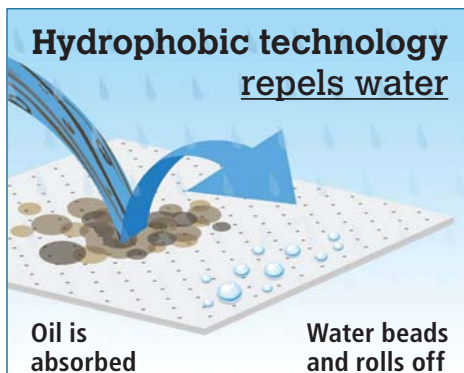

## What is Oil-Only?

Oil-only absorbents do not absorb water. They should be your first choice for any application — indoors or out — where you need to soak up oil without wasting absorbency on water. Use for any oil- or hydrocarbon-based liquids, including:

- Motor oil
- Cutting oil
- Synthetic oils
- Vegetable fluids
- Hydraulic oil
- Diesel fuel
- Vehicle fluids
- Oil-based solvents

# 2 WAYS TO ABSORB OIL AND LEAVE WATER BEHIND:

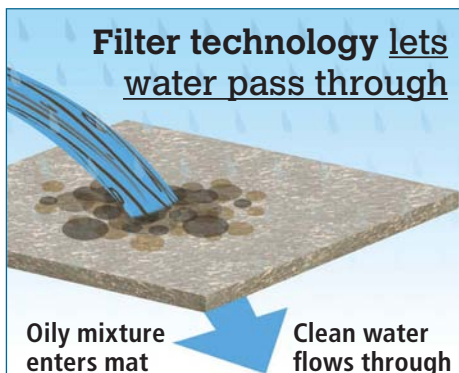

**Oil-Only Socks & Booms** — Since they float on water, you can control even large waterborne oil spills. They won't sink, even if they're soaked!

**Oil-Only Mat Pads & Rolls** — Indoors or out, if you're only cleaning up fuels or oil-based liquids, these products can maximize efficiency and save you money.

**Oil-Only Pillows** — Clean up large volumes of oil with our high-capacity absorbent pillows. Great for big spills on water or use beneath leaky machines.

**Oil Absorbent Filter Mats** — Designed for stormwater applications and oily cleanups on land, these absorbent mats work rain or shine.

**Oily Water Pour-Through Filter** — Oil filtration system uses replaceable absorbents and gravity for easy separation of oil from water.

## Frequently asked questions:

### Q: Will oil-only mats absorb diesel fuel?

**A:** Yes! PIG Oil-Only Mat absorbs all fuels and oil-based liquids including hydrocarbon-based, vegetable-based and synthetic oils and solvents. If static is a concern, choose PIG Stat Mat, sold on page 45.

### Q: Which absorbents should I use to filter oil out of water?

**A:** PIG Pour-Through Oily Water Filter and PIG Oil Absorbent Filter Mats absorb oils and fuels but let water pass through. Mats can be used for stormwater jobs or as pour-through filters for oily water. See pages 49–51.

### Q: Do you have mats for absorbing jet fuel and other flammables?

**A:** PIG Stat-Mat Pads and Rolls are specially treated to reduce the risk of electrostatic discharge when working with flammables and consistently dissipate static per ANSI and MIL spec standards in 0.05 seconds or less. See page 45 and don't miss our new Static-Dissipative Socks on page 53.

ADVICE**

Oil hates water and so does PIG Oil-Only Mat! Watch them go at it: [newpig.com/oil-absorbent-mat-video](http://newpig.com/oil-absorbent-mat-video)

# ABSORBS OIL NOT WATER

TOP 10  
BEST  
SELLER!

MAT401

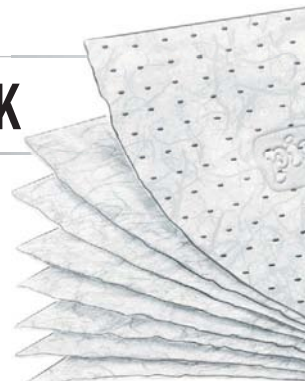

**PIG EXCLUSIVE!**

## **PIG** Oil-Only Mat — Our best mat for skimming and absorbing oily leaks wherever water is present, too.

- Multiple layers of 100% polypropylene are thermally bonded to make PIG Mat the **strongest mat on the market**; won't rip, tear or fray even when saturated
- Highly absorbent, **fine-fiber construction** won't leave behind liquids or fiber residue
- Absorbs and retains **oil-based liquids** — including lubricants — without taking in a drop of water
- Exclusive dimple pattern **speeds wicking of liquid** throughout mat for faster, easier cleanup
- **Bright white color** makes absorbed oil easier to see; draws attention to leaks and clearly shows saturation level during spill response
- **Floats** to clean up spills on water
- Choose **lightweight** for small jobs or for routine changeouts; **mediumweight** as a great general purpose mat; and **heavyweight** for bigger spills and leaks
- Can be wrung out and incinerated after use to **reduce waste or for fuels blending**
- **Flame-resistant material** won't burn immediately like untreated cellulose mats; melts when exposed to high heat while on the job
- **Pads** are ideal for catching drips and soaking up spills; **Rolls** are ideal for covering large areas and soaking up leaks
- **Easy-tear perforations** let you take only what you need, so you use less mat and save money
- **Poly-Back Mat (MAT498)** provides a layer of protection to prevent absorbed liquids from reaching floors, counters and other surfaces

### A CLOSER LOOK

**PIG exclusive!** Multiple layers of thermally-bonded, melt-blown polypropylene make PIG Mat the **toughest mat on the market.**

MAT403

Oil wicks deep into the PIG Oil-Only Mat while water beads on top of it, soaking up only what you need.

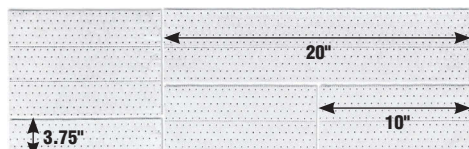

MAT423

Don't waste a heavy-weight absorbent on a small oil spill — clean it up with PIG Lightweight Oil-Only Mat.

## PIG® Rip-&-Fit Oil-Only Mat — Create a custom size to fit your workspace and reduce waste.

- **Extra perforations** allow you to easily “rip” this PIG Mat and “fit” it to your application without cutting
- Multi-layer construction is the **strongest on the market!**
- Absorbs and retains **oil-based liquids** — including lubricants — without taking in a drop of water
- **Bright white color** makes absorbed oil easier to see; draws attention to machine leaks and clearly shows saturation level during spill response

Tear at the perms to create the right mat size for any area.

## PIG® 4 in 1 Oil-Only Mat — Our most versatile mat is like four products in one.

- Exclusive 4 in 1 Mat is a **pad, roll, sock and wiper** all in one
- Use as a pad to **catch drips and soak up oil-based spills**; roll out to cover large areas; fold along score lines to make a **thick, absorbent “sock”**; tear off a piece to use as a **low-lint wiper**
- **Multi-layer, 100% polypropylene** PIG Mat construction
- Scuff-resistant, spunbond outer layer **resists wear and tear**, even under foot traffic or abrasive conditions
- Highly absorbent, fine-fiber construction **won't leave behind** liquids or fiber residue

## A CLOSER LOOK

**PIG exclusive!** Multiple layers of thermally-bonded polypropylene and a **spunbond top** provide oil-only absorbency and wear resistance.

# IT ONLY TAKES ONE SPARK!

MAT402

 **EXCLUSIVE!**

## **Stat-Mat** — The **ONLY** absorbent mat for fuels and solvents proven to dissipate static.

- Stat-Mat Pads and Rolls **pass ANSI and MIL spec standards** for static decay and surface resistivity; ideal for fueling & solvent cleanup
- **Reduces the risk of electrostatic discharge**; a critical precaution around flammable liquids and vapors
- **Absorbs and retains oils and fuels** — including acetone, benzene, gasoline, toluene, xylene, mineral spirits and jet fuels — without taking in a drop of water
- Unperforated rolls (MAT212) can be **cut to custom lengths** so you use only what you need, saving mat and money
- ◆ **Helps you comply** with 29 CFR 1910.106(h)(7)(i)(a) for preventing static that could ignite flammable vapors

MAT402

Packaged in special bags that dissipate static charge buildup for sensitive environments; bright pink color is easily distinguishable to prevent improper use or pilfering.

**PIG Static-Dissipative Absorbent Sock**  
 Reduces the risk of electrostatic discharge while surrounding spills of volatile liquids. See page 53.

SKM700

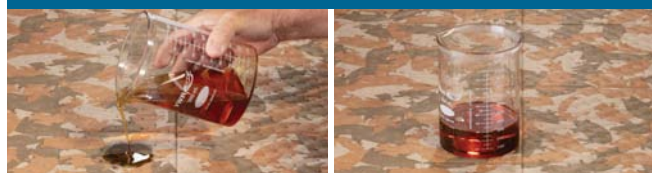

## PIG® Ham-O Oil-Only Mat — Bring the fun with a “hamouflage” top layer that makes absorbed oil invisible. Mat stays down longer!

**Now you see it... now you don't!**

Oily leaks, drips and spills disappear as they're absorbed.

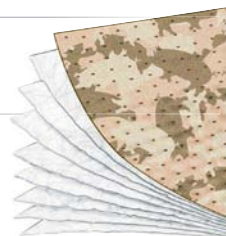

- The grime-hiding top layer lets you leave the mat in place longer and **save money**; stands up to **foot traffic**, and **won't rip, tear, fray or create a trip hazard**, even when saturated
- **Fast-wicking “diaper action”** transfers liquids from the tough, spunbond top layer into the absorbent inner layers
- Under the Ham-O top layer is the **proven multi-layer, 100% polypropylene construction of PIG Mat**
- **Absorbs and retains oil-based liquids**, not water

NOTE: Ham-O Mat is not recommended for absorbing solvents that may affect the printed pattern.

### A CLOSER LOOK

**PIG exclusive!** Multiple layers of thermally-bonded polypropylene and a **spunbond top** provide oil-only absorbency and wear resistance.

## PIG® Oil-Only UV-Resistant Mat — Leave it in the sun for up to 12 months. It won't disintegrate!

- Tough spunbond top won't rip, tear or fray and is **UV resistant up to 12 months** for long-term outdoor use without degradation
- **Proven multi-layer PIG Mat construction** is ideal for skimming oil off water, soaking up large-volume leaks and drips or lining areas around outdoor machinery or equipment and in areas where frequent changeouts aren't possible
- Absorbs and retains **oil-based liquids** — including lubricants — without absorbing water; it even floats to clean up spills on water
- **Bright white color** makes absorbed oil easier to see

## **Oil-Only Railroad Mat** — Three-ply mat protects the ground from oil-based liquids during railyard maintenance.

- Heavy-duty, three-ply mat is **designed specifically to absorb oil-based liquids during railyard maintenance**
- 59" width roll (MAT465) **fits right between standard rails**; 19" width roll (MAT466) can be used on the outside of rails
- Top layer is constructed with a tough geotextile fabric that's needle punched for **added durability**; **UV resistant** up to 12 months
- Highly absorbent polypropylene middle layer **traps oils but allows rainwater to evaporate**; bottom barrier film prevents liquids from leaching into the ground
- **Cut to size** with a utility knife or scissors

[newpig.com/railroad-spills](http://newpig.com/railroad-spills)

## **Absorbent Ground Tarp** — Keep oily leaks off the ground with our durable barrier.

- **Heavy-duty three-layer mat** ensures oily leaks and drips never reach the ground; use for outdoor equipment maintenance or storage
- Top layer is constructed with a tough geotextile fabric that's needle punched for **added durability**
- Highly absorbent polypropylene middle layer **traps oils but allows rainwater to evaporate**; bottom barrier film prevents liquids from leaching into the ground.
- **UV resistant** for extended product life
- **MAT467 is customizable**; material is pretaped on one side with hook closures to easily attach another section

MAT467

MAT445

PIG® Oil-Only Absorbent Ground Tarp 						
Weight	Item #	Size	Unit	Abs. Up To	1-2	3+
Heavy	<b>MAT467</b>	59"W x 80'L	1 roll	48 gal./bag	<b>\$690</b>	<b>\$661</b>
	<b>MAT444</b>	5'W x 5'L	1 pad	3 gal./bag	<b>\$84</b>	<b>\$80.<sup>85</sup></b>
	<b>MAT445</b>	10'W x 10'L	1 pad	12 gal./bag	<b>\$215</b>	<b>\$203</b>

**MAT467**  
Easily create custom widths of coverage.

Precut ground tarps catch leaks during maintenance; MAT444 and MAT445 feature brass corner grommets for tying in place.

Oils are captured by the filter mats before they can harm the environment.

## PIG® Oil Absorbent Filter Mats — Traps oils but lets water pass through for fast outdoor cleanup.

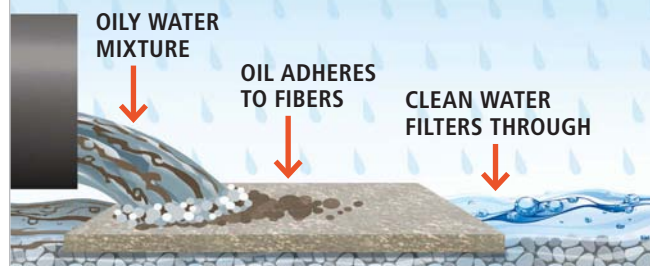

- Clean up oily leaks, drips and spills on land — **UV resistant** for rain or shine; absorbs hydraulic fluid, motor oil and other oil-based liquid
  - Absorbent mats **allow water to pass through as they capture oils** — ideal for stormwater applications
  - Heavyweight construction is superabsorbent for demanding tasks and large-volume cleanups; **great for use near storm drains**, pipes, outflows, storage tanks, roll-offs, vehicles and other oily equipment
  - Can also be used as a **pour-through filter** for mop buckets and other containers of oily water; **contains 85% recycled fibers** and can be incinerated after use to reduce waste or for fuels blending
- ◆ **Helps you comply** with SPCC and Stormwater Regulations

MAT1206 and MAT1201 — Special vacuum packaging takes up less space on your shelf and helps you respond quickly to spills.

Corrosive Liquid Notice: Not recommended for acids, bases or other corrosive liquids.

## PIG® Outdoor Oily Water Filter Bucket — Just connect to a leak diverter for help with regs.

- **Absorbent-filled bucket** captures hydrocarbons from collected liquid, but water passes right through
  - **Alternating layers** of Oil-Only Mat Pads and Oil-Only Pillows offer high oil retention for fewer changeouts
  - Hose fitting on top of container lid accepts 3/4" drainage hose **from a PIG Leak Diverter** or other liquid sources
  - **Container and absorbents are UV resistant** for long-term use
  - **3/4" connection on bottom** accepts a self bailer, drain plug (included), drainage hose (included) or use as a free-flowing drain
  - **20-gallon container (FLT730)** holds oil-absorbent media to remove up to 5 gallons of oil, grease and hydrocarbons
  - **Weatherproof containers (FLT1153)** hold oil-absorbent media to remove up to 1 gallon of oil, grease and hydrocarbons
- ◆ **Helps you comply** with 40 CFR 122.26 Stormwater Regs

Item #	1-5	6+
<b>FLT611</b> • 18"W x 18"L x 2"H • Absorbs up to 6 gal./box • 4 pillows/box	<b>\$40</b>	<b>\$38</b>

## Pour-Through Oily Water Filter — Separate oil from water.

Absorbents

Oil-Only

Absorbs oil-based liquids, but not water

- Just pour liquid into the filter and **filtered water flows out of drain**
- 55-gallon drum filter handles **up to 8 gallons of liquid per minute**
- **Outflow pipe allows hose connection** for easy draining of filtered water
- **Replaceable absorbent media** is easy to change when saturated
- **Optional carbon pillows (FLT612)** work in conjunction with included oil-only pillows to remove trace amounts of hydrocarbons
- ◆ **Helps you comply** with 40 CFR 122.26 Stormwater Regs

PIG® Pour-Through Oily Water Filter			PIG
Item #		1+	
<b>FLT521</b>	• Absorbs up to 33 gal. • Ext. Dia. 24" x 39"H	<b>\$389</b>	
<b>FLT525</b>	• Refill for PIG® Pour-Through Oily Water Filter • 6 each	<b>\$225</b>	
FLT525 Contents • 6 Pillows • 1 Polyethylene Diffuser Funnel			
Carbon Pillow for PIG® Pour-Through Oily Water Filter			PIG
Item #		1-4	5+
<b>FLT612</b>	• 3 Pillows/box	<b>\$362</b>	<b>\$338</b>

NOTE: Test effluent regularly to ensure it meets local, state and federal discharge requirements and to determine when to replace the pillows.

## Weighted Blanket — Even in 40 mph winds, this oil-absorbent pillow will stay down to soak up leaking liquids.

- Ballast keeps blanket in place, even in **winds up to 40 mph**
- Hydrophobic polypropylene filler **absorbs petroleum-based liquids** but not water
- Durable spunbond outer shell repels water and is **UV resistant up to 12 months**
- **Heavy-duty seams form self-contained pockets** to keep filler evenly distributed
- **Folds easily for conforming to uneven surfaces** or adding capacity where you need it
- **Grommets corners** allow blanket to be staked down in soil or gravel applications
- ◆ **Helps you comply** with SPCC and Stormwater Regs

PIG® Oil-Only Weighted Absorbent Blanket							PIG

<b>PIL104</b>	27"W x 36"L x 2"H	2 blankets	7.7 gal./box	<b>\$138</b>	<b>\$127</b>	<b>\$114</b>	*

\* ⚠ WARNING: Cancer - www.P65Warnings.ca.gov

PIG Oil-Only Socks are great for absorbing oil-based liquids in outdoor applications.

## PIG® Oil-Only Sock — A full year of UV resistance makes PIG the best outdoor sock you can buy.

- **Moldable socks** hug corners and surround machine bases to absorb leaks, contain puddles and keep workers safe
- Cellulose filler is hydrophobic — **absorbs oil-based liquids but not water** — in a variety of environments
- Polypropylene skin **resists tearing**; reduces dust and holds in liquid, even when saturated
- Ideal for use **on land**, but also floats to clean up oil spills **on water**
- **Attached string** conveniently allows socks to be tied down, tied together or dipped in noncorrosive wash baths
- Skin is **UV resistant** up to 12 months; meets ANSI and MIL spec standards for static decay
- **95% recycled content** is ideal when green products are desired or required

"We had a small oil spill in our parking lot and used these socks along with oil-only pads and were able to clean up the spill before the oil could get into the storm sewer. **They worked on standing water and on the pavement** where the oil was dripping! They saved the day!"

— David, SKM210 Customer

## PIG® Sump Skimmer — Perfectly sized to pull oil out of your sumps, tanks and bilges.

- **Simply lower floating skimmer** into any water-based liquid to absorb oil-based liquids without taking in water
- **Bright white color** makes absorbed oil easier to see; clearly shows saturation level
- Can be **incinerated after use** to reduce waste or for fuels blending
- SKM400 and SKM404 **meet ANSI and MIL spec standards** for static decay

Skimmer floats while absorbing oils without taking in water.

Polypropylene loop can be used for easy deployment and retrieval.

Spaghetti strip filler captures thick oils and other viscous liquids; tough outer mesh is UV resistant for long-term outdoor use.

*"Your skimmers and oil-only products saved our bacon many times during surprise environmental regulators' visits. They were impressed with how they absorb all the oil and don't drip any while being retrieved from the sump."*

— Robert, SKM400 Customer

## Sheen Clean Sock — Cleans up thin, oily residue floating on water that other absorbents leave behind.

- Proprietary filler blends high-capacity recycled cellulose with a copolymer that **pulls in thin, "rainbow" sheens of oil**
- Ideal for **long-term deployment** to remove sheen from oil spills or absorb residue in retention ponds, catch basins, tanks and more
- Polypropylene skin **resists tearing**; reduces dust and holds in liquid, even when saturated
- **Attached string** for tying socks down, together or dipping into tanks
- Absorbs and retains **oil-based liquids** — including lubricants — without taking in a drop of water
- Skin is **UV resistant up to 12 months**; provides long-term outdoor use without degradation
- ◆ **Helps you comply** with 40 CFR 122.26 Stormwater Regulations
- ◆ **Helps you comply** with 40 CFR 112.7 SPCC Regulations

## Quick-Deploy Oil-Only Absorbent Boom — Roll out a low-profile absorbent barrier for rapid response to oil spills on land.

- **Rolls out quickly** to absorb and contain oil-based spills on land — including lubricants and fuels — without absorbing water
- Flat, low-profile design puts more absorbent material in contact with the ground for **better absorption** than a round boom
- **Compact design** and packaging stores easily in vehicles, spill kits and tight spaces compared to traditional absorbent booms
- Rope running along length of boom **adds strength** for deployment and retrieval
- White color makes booms **easier to see** in outdoor environments and clearly shows saturation level
- ◆ **Helps you comply** with SPCC and Stormwater Regs

## Absorbent Boom — Control an oil spill on water with our field-proven boom.

- **Floats** to confine and soak up spills on water
- **Tough outer mesh** lets fluids easily pass through to filler material
- **Rope running along length of boom withstands up to 400 lb. loads**, adding strength for deployment and retrieval
- White spunbond polypropylene skin is UV resistant up to 12 months; **meets ANSI and MIL spec standards for static decay**
- **Dark color (BOM410–BOM415)** spunbond polypropylene boom skin is UV resistant up to 4 months
- **Bright white color** makes booms easier to see in outdoor environments and clearly shows saturation level
- **Booms float** at surface for easy retrieval, even when saturated
- **Absorbs and retains oil-based liquids** — including lubricants — without taking in a drop of water
- Strong, zinc-plated carbon steel attachment clips and rings allow you to **link booms together** for greater length
- **Can be incinerated** after use to reduce waste or for fuels blending

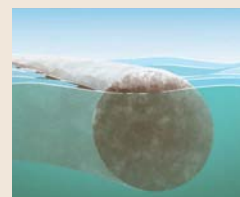

### OIL-ONLY BOOMS AT WORK

Surround spill with booms. They begin to absorb oil (not water) as soon as they're in place.

As oil is absorbed, the boom sinks in the water. Oil is now exposed to fresh absorbent.

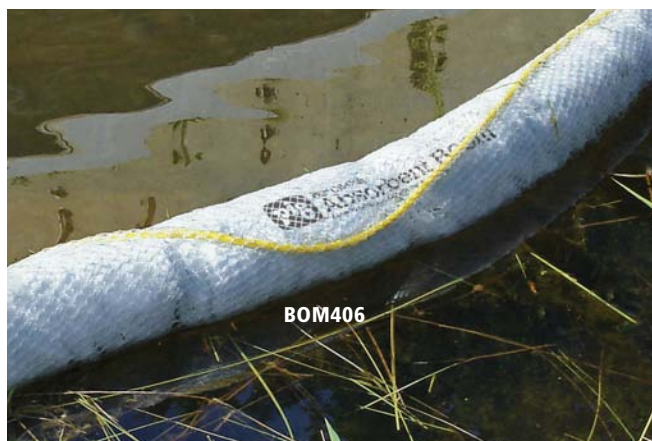

When completely saturated, the boom will "bob" just below the water's surface.

BOM304

BOM414

BOM406

Bright white booms are easier to see in outdoor environments and clearly show the saturation level.

BOM414

Dark color booms blend in while they absorb so they're barely noticeable.

# WATER ABSORBENTS

Prevent costly damage and safety hazards with our NEW specialized products just for water.

WORLD'S  
#1  
ABSORBENT  
BRAND

Any amount of water — from a few drips to heavy downpours — can do damage if it gets into the wrong place at the wrong time. Being prepared for water events can help you avoid hassles and expenses like structural damage, cleanup labor and downtime, to name a few. Stay dry with our new line of water-absorbing **Mats, Socks, Mops and Spill Kits** that are specially designed for one job: cleaning up your water problems.

## WATER ABSORBENTS

*For water, NOT oils*

### Mats

PIG Water Mat.....	62
PIG Absorb-&-Lock Pads.....	63

### Socks

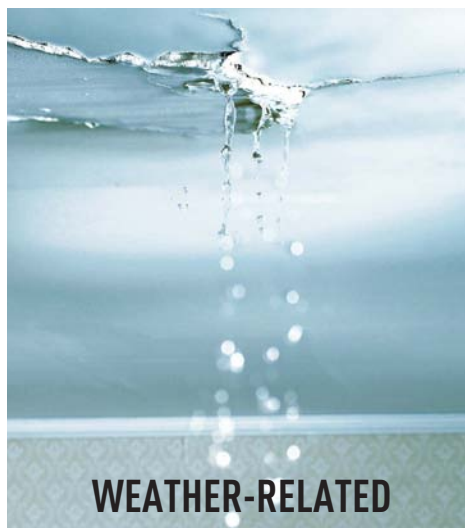

PIG Mildew-Resistant Sock.....	64
PIG Dryer-Safe Reusable Water Sock.....	64
PIG Super Water Sock.....	65
Microfiber Tube Mop.....	65
Water-Absorbing Spill Kits.....	65

The right products can help you avoid claims and generate serious savings:

- ✓ The No. 2 business insurance claim is water damage (avg. cost \$17,000)
- ✓ The No. 5 business insurance claim is slips and falls (avg. cost \$20,000)

## IT'S ONLY WATER, UNTIL YOU'RE DROWNING IN PROBLEMS.

WEATHER-RELATED

PIG Water Absorbents can help you manage weather-related issues such as a leaky roof, wet entrance or rising water at the loading dock.

OPERATIONAL

Our specialized product line can also help you with operations processes such as washdowns, cleanouts and other maintenance.

## ◆ HELPS YOU COMPLY

◆ 29 CFR 1910.22(a)(2)

# BEST. MAT. FOR. WATER.

## **pig** Water Mat — The ONE mat to stock for water cleanup caused by wet weather, ceiling leaks, burst pipes and more.

- Designed and engineered to **pull in large volumes of water on contact**; superfast wicking helps you quickly eliminate puddles to prevent damage and falls
- **Wring and re-use** during a single water spill cleanup, then dispose; wringable mats mean less hassle, less waste and more savings
- Tough, spunbond top layer holds mat together when it's fully saturated, so it **won't rip or fall apart** when you pick it up
- Be prepared for when **storms or wet weather** intrude your facility; soaks up water that comes in from roof leaks and seepage through doors and docks, cracked and older foundations or open windows
- **Soaks up excess water** in food service, food processing and other critical areas where standing water is prevalent
- Helps you deal with water from **maintenance and system breakdowns**, including burst or leaking pipes, broken hoses, leaking equipment and cleanouts
- Cleaner method than dirty mops, rags and towels, **which can recontaminate floors** by spreading bacteria, mold and odors
- **Easy-tear perforations** let you take only what you need
- Made with **60% pre-consumer recycled cellulose**

Wring water from mats and redeploy to absorb more during a single water spill!

Water Mats are perfect for soaking in water during routine maintenance and equipment malfunctions.

WTR001  
Strips

You won't believe your eyes! Strips and pads swell on contact with water to keep absorbing more.

## Absorb-&-Lock Water Strips & Pads — These low-profile absorbents swell up to pull in high volumes of water.

- Absorbed water is **"locked" inside**; won't leach or run out when you pick up or dispose, even when fully saturated
- Great for soaking up big leaks and **sewage and restroom backups** and overflows
- **Super Absorbent Polymer (SAP)** filler swells on contact and expands to pull in large volumes of water quickly
- Expanded absorbents **create a barrier** to help prevent leaks and drips from escaping and spreading into walkways
- Strips and pads (before water contact) are **low-profile** to fit tight spaces; **unobtrusive design** won't create trip hazards
- All items feature "Caution" symbol for added safety; choose long, narrow **Strips** (WTR001–WTR003) or traditional **Pads** (WTR004, WTR017)

Pads with waterproof backing (WTR005 exclusive) provide an extra layer of protection to keep floors dry.

PIG105

## PIG Mildew-Resistant Water Sock — Deploy long-term to stop maintenance headaches. Air-dry and reuse!

- Flexible socks absorb water to stop leaks, drips and condensation from **under freezers, coolers and equipment** from spreading into walkways
- 100% polypropylene skin and filler **resist the growth of mildew** unlike cellulose absorbent socks; can be left down long-term
- **Air-dry and reuse**; squeeze water from sock for faster drying times
- **"Caution" symbol** printed along length of sock for added safety
- **Two color options**: choose yellow socks for high visibility or blue to blend in with surroundings

Strong skin resists tearing, reduces dust and holds in liquid, even when fully saturated.

PIG105

<b>WTR019</b>	Ext. Dia. 3" x 38"L	10 socks	2.65 gal./box	<b>\$126</b>	<b>\$120</b>

## Super Water-Absorbing Sock — Quickly absorbs and locks in large volumes of water. No leakage when you pick them up!

- Confines pools and puddles to prevent damage and slip-and-fall injuries; super absorbent polymer (SAP) filler **saves cleanup time**
- Each sock retains 1.75 gallons of liquid and **absorbs 15 times its weight** so it can act as a weighted berm when saturated
- Great for indoor applications where water needs to be **quickly absorbed or diverted**; soaks up water from windows, cracked foundations and seepage under doors
- Ideal for **surrounding machines** during breakdowns; use around pipes, hoses, leaking hot water tanks or malfunctioning equipment

WTR020

Use with water-based, non-corrosive liquids (not for use with acids, bases or corrosive fluids)

WTR018

Each sock delivers four feet of leak-stopping power to stop problems from spreading.

WTR020

### PIG® Super Water-Absorbing Sock

### PIG® Water-Absorbing Spill Kit

Item #	1-2	3-5	6+
KIT914 • In See-Thru-Bag Absorbs up to 7.5 gal.	<b>\$74</b>	<b>\$72</b>	<b>\$69</b>
KIT914 Contents • 3 Socks • 10 Mat Pads			
KIT917 • Absorbs up to 24.5 gal.	<b>\$207</b>	<b>\$203</b>	<b>\$197</b>
KIT917 Contents • 8 Socks • 25 Mat Pads • 4 Pillows			

KIT917

Wring and reuse Water Mats to clean up a single spill — then toss when you're done.

# HAZMAT ABSORBENTS

Specially treated to absorb most acids, bases, corrosives and chemicals.

WORLD'S  
#1  
ABSORBENT  
BRAND

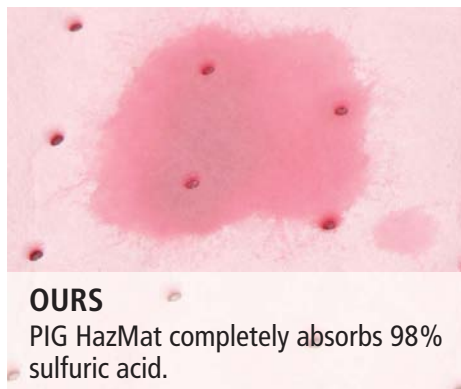

## What is HazMat?

PIG HazMat Absorbents are specially treated to soak up spills without degrading or reacting to corrosive liquids, including:

- Sulfuric acid
- Nitric acid
- Phosphoric acid
- Potassium hydroxide
- Hydrochloric acid
- Hydrofluoric acid
- Sodium hydroxide
- Hydrogen peroxide

# KICKIN' ACID AND TAKIN' NAMES

## OURS

PIG HazMat completely absorbs 98% sulfuric acid.

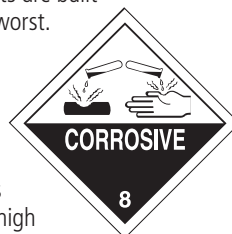

## THEIRS

Highly concentrated corrosives just puddle on top.

**Clean up acids and bases with the only mats and pads for high-concentration chemicals.**

Only PIG HazMat Absorbents are built to handle the worst of the worst. Highly corrosive liquids like 98% sulfuric acid and 30% sodium hydroxide can cause inferior cellulose mats, socks and pillows to degrade or react. But PIG is specially treated to absorb high concentrations of corrosive chemicals.

PIG HazMat Absorbents provide the widest range of chemical resistance you can buy, but don't let the pink color fool you — they're all tough as nails. You get the same strength and durability that make PIG the world's #1 selling absorbent brand. Nasty chemical spill? Think pink!

## NEUTRALIZING ABSORBENTS

**Absorb and neutralize small spills of most acids and bases for safer handling and cleanup.**

Neutralizers and neutralizing absorbents are made for spills of 5 gallons or less. If you're working with small quantities of acids or bases, neutralizers can help make these liquids safer to clean up and handle. Because the process of neutralizing acids and bases generates heat, it can also create the potential for a fire, making neutralizers impractical for large corrosive spills.

### Color change helps you work safer.

To further minimize your risk during chemical cleanup, many of our absorbents feature color-change technology. Take our PIG Encapsulating & Neutralizing Absorbents on pages 72 and 73. They change color on contact and during neutralization with acids or bases; color change continues until pH becomes neutral and is safe for handling.

## HAZ MAT ABSORBENTS

*For most acids, bases & corrosives*

MAT302

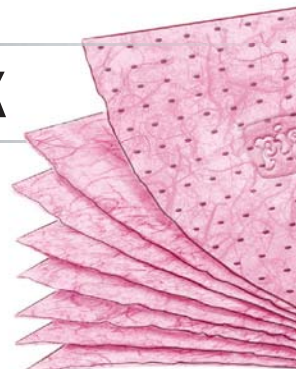

PIG EXCLUSIVE!

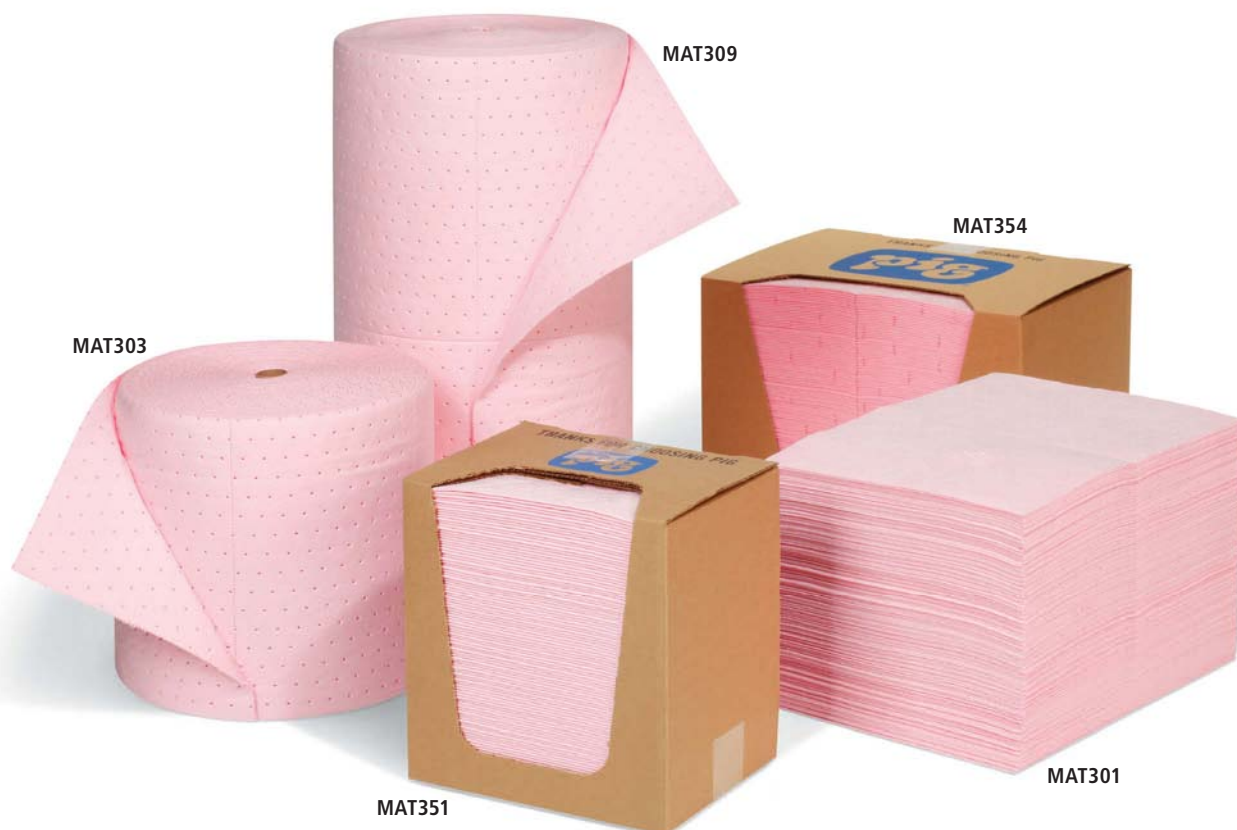

## PIG HazMat Pads and Rolls — Safely soak up acids, bases, corrosives and hazardous chemical spills.

- Soaks up the widest range of acids, bases, corrosives, chemicals and unknown liquids — even those with high concentrations like **98% sulfuric acid and 30% sodium hydroxide**
- **Ideal for use** in chemical storage areas, around battery packs and dip tanks, in cleaning agents used in food processing plants, in boiler rooms, labs and R&D departments
- **Hi-viz pink color** is designated for hazardous chemicals and easy to identify in a spill emergency or cleanup
- **Chemical-resistant mat** won't degrade or cause a dangerous reaction upon contact with corrosive spills
- PIG Mat **lasts 2X longer than competitive mats** and won't rip, tear or fray even when saturated; liquids absorb quickly for faster, easier cleanups and safer workplaces
- Two mat weights available: **heavyweight** is highly durable and absorbent for demanding tasks and large-volume cleanups; **lightweight** delivers the best value for cleaning up small leaks and drips of hazardous liquids from workbenches, counters and shelves

### A CLOSER LOOK

**PIG exclusive!** Multiple layers of thermally-bonded, melt-blown polypropylene make PIG Mat the **toughest mat on the market.**

HazMat Notice: To ensure effectiveness and your safety, we recommend that you conduct compatibility and absorption testing of your chemicals with PIG HazMat products prior to purchase. If you have any questions or need samples to test, please call Technical Services.

*"I work for a chemical delivery company, and we must be prepared for spills at all times with special pads and socks. New Pig has the best products hands-down, and we never worry if they're going to work. All the area fire departments also use PIG products."*

— Cory, MAT354 Customer

Tear off a section of Rip-&-Fit HazMat Roll (MAT342) to line an acid cabinet — then use the rest for the shelf it sits on!

### PIG® Chemical Barrel Top Absorbent Mat — Perfect fit to keep drum tops clean.

- Shaped to fit on drum tops to keep them clean
- 2" bung cutouts
- Chemical-resistant mat **won't** degrade or cause a dangerous reaction

### PIG® HazMat Chemical Barrel Top Absorbent Mat

Item #	1-2	3-6	7+
<b>MAT355</b> • Heavyweight • Use with 55-Gallon Steel/Poly Drum 25 pads • Absorbs up to 5.9 gal./box	<b>\$112</b>	<b>\$107</b>	<b>\$100</b>

# PIG® HazMat Socks and Dikes — Contain and absorb spreading spills of highly concentrated corrosives.

- Absorbs the **widest range of acids, bases and unknown liquids**, even those with high concentrations like 98% sulfuric acid and 30% sodium hydroxide
- Chemical-resistant socks and dikes **won't degrade or cause a dangerous reaction** upon contact with corrosive spills
- Polypropylene skin **resists chemicals and tearing**; reduces dust and holds in liquid, even when saturated
- Polypropylene filler is **highly absorbent** for containing corrosive or reactive spills
- **Socks** (124CR and PIG301) are excellent for quickly diking and stopping the spread of **smaller chemical spills**; **dikes** (HA1010) are excellent for quickly diking and stopping the spread of **larger chemical spills**
- **Pink color is easily distinguishable** to assure workers use the correct dike during a spill emergency
- **Can be incinerated** after use to reduce waste

HA1010

PIG301

PIG® HazMat Chemical Absorbent Sock/Dike						
Item #	Size	Unit	Abs. Up To	1-2	3-9	10+
HA1010	Ext. Dia. 5" x 10'L	2 socks	18 gal./box	\$240	\$235	\$230

<b>BEST SELLER!</b> 124CR	Ext. Dia. 3" x 46"L	12 socks	9 gal./box	\$192	\$172	\$164

HazMat Notice: To ensure effectiveness and your safety, we recommend that you conduct compatibility and absorption testing of your chemicals with PIG HazMat products prior to purchase. If you have any questions or need samples to test, please call Technical Services.

Watch how PIG Socks dike and stop the spread of smaller chemical spills: [newpig.com/sockvideo](http://newpig.com/sockvideo)

## PIG® Chem Guard Sock — Form a barrier to stop corrosive spills from spreading.

- Each sock **absorbs 80 oz.** of acids, bases, coolants, solvents and water; should not be used with hydrofluoric acid or hydrazine
- **Fast-wicking** amorphous silicate filler retains liquids after absorbing
- **Flexible socks** are great for diking and molding around chemical spills

PIG® Chem Guard Hazardous Chemical Absorbent Sock			
Item #	1-2	3-9	10+
PIG305 • Ext. Dia. 3" x 48"L 12 socks • Abs. up to 7.5 gal./box	\$130	\$124	\$118 *

See note above for more details on compatibility and testing.  
Acid Absorbents Notice: Not for use with hydrofluoric acid.

\* ⚠ **WARNING:** Cancer - [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov)

## HazMat Pillow — More absorbency for large chemical cleanups.

- Absorbs the **widest range of acids, bases and unknown liquids**, even 98% sulfuric acid and 30% sodium hydroxide
- **Pillow won't degrade** or cause a dangerous reaction upon contact with corrosive spills
- Pillow has large surface area, high capacity and fast-wicking filler to quickly soak up liquids; **great for adding absorbency during spill response**
- **Pink color is easily seen** to assure use of the correct pillow

### PIG® HazMat Chemical Absorbent Pillow in Dispenser Box

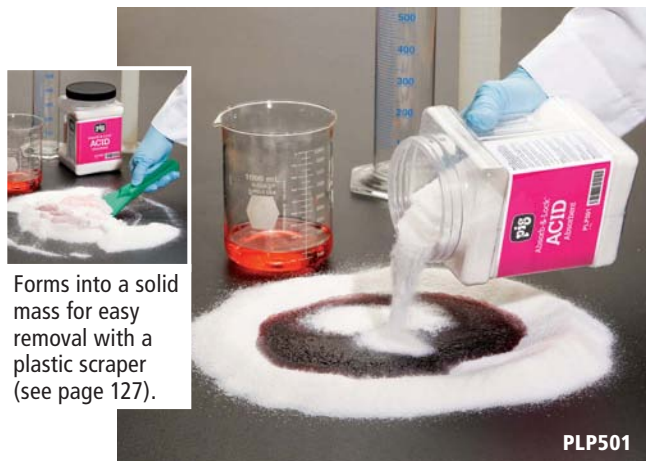

Item #	Size	Unit	Abs. Up To	1-4	5-11	12+
PIL302	8"W x 8"L x 1"H	20 pillows	4.69 gal./box	\$165	\$159	\$150
PIL306	8"W x 8"L x 1"H	10 pillows	2.34 gal./box	\$97	\$91	\$83

See note on page 70 for more details on compatibility and testing.

BEST SELLER

Forms into a solid mass for easy removal with a plastic scraper (see page 127).

## PIG® Acid Solidifying Absorbent Powder — Solidifies absorbed acids and locks them into the material for easier cleanup.

- **Permanently solidifies** absorbed acids; won't leak or revert to liquid state when handled or placed under pressure
- Environmentally friendly product **absorbs acids and corrosives**
- **Helps you comply with EPA requirements** when used to solidify waste prior to shipment or landfilling

### PIG® Acid Solidifying Absorbent Powder

Item #	1-2	3+
PLP501 • 4 - 4 lb. Containers • Abs. up to 16 gal./box	\$280	\$271

## PIG® Loose Absorbent — Our HazMat Pad in loose form.

- With the power of PIG HazMat in a loose absorbent, it can be used for **various applications**; ideal for hard-to-reach spaces or final cleanup
- Chemical-resistant absorbent **won't degrade** or cause a dangerous reaction

### PIG® HazMat Chemical Loose Absorbent

Item #	1-4	5-11	12+
HA8010 • 1 - 5 lb. bag • Abs. up to 6.5 gal./box	\$77	\$72	\$69

See note on page 70 for more details on compatibility and testing.

## PIG® Base Encapsulating/Neutralizing Absorbents — Handle bases in one easy step for safer spill cleanup.

PLP805

PLP804

PLP805

MAT353

Color change technology helps indicate safe handling.

- Choose from **mats, pillows, socks and loose** to help encapsulate and neutralize common bases in one step
- **Changes color on contact and during neutralization** with liquid bases (pH above 7); color change continues until pH becomes neutral and is safe for handling
- **Gelling agents solidify bases** during neutralization; prevents them from leaching out of absorbents
- **Instantly absorbs** up to 50% potassium hydroxide and other bases

PIG® Base Encapsulating & Neutralizing Absorbents			
Item #	1-2	3-6	7+
<b>MAT353</b> • Mat Pad • 25 pads/box • Absorbs up to 80 oz./box 11"W x 12"L	\$88	\$83	\$81
<b>PIL353</b> • Pillow • 4 pillows/box • Absorbs up to 1 gal./box 12"W x 12"L x 1"H	\$85	\$82	\$76
<b>PIG353</b> • Sock • 4 socks/box • Absorbs up to 1.5 gal./box Ext. Dia. 2" x 4"L	\$75	\$70	\$66

PIG® Base Encapsulating & Neutralizing Loose Absorbent			
Item #	1-2	3-6	7+
<b>PLP804</b> • 1 - 40 lb. Pail • Neutralizes up to 11 gal.	\$350	\$342	\$336
<b>PLP803</b> • 1 - 8 lb. Pail • Neutralizes up to 2.5 gal.	\$126	\$122	\$116
<b>PLP805</b> • 10 - 2 lb. Shaker Bottles • Neutralizes up to 5.7 gal.	\$290	\$284	\$275

Base Absorbents Notice: Avoid contact with metallic nitrates, cyanides, sulfides and strong oxidizers. Contact with sodium or calcium hypochlorite creates chlorine gas.

HazMat Notice: To ensure effectiveness and your safety, we recommend that you conduct compatibility and absorption testing of your chemicals with PIG HazMat products prior to purchase. If you have any questions or need samples to test, please call Technical Services.

## Battery Acid-Neutralizing Pillows — Protect equipment and flooring from corrosive leaks by lining acid-resistant trays with absorbent pillows.

PAK3003

PIL3003

PIL3003

PIL3000

- Low-profile tray is easy to use with cabinet and **Valve Regulated Lead Acid (VRLA)** battery applications; also use with motive power and backup battery power systems
- **Acid-resistant tray** is compatible with a wide range of chemicals
- Designed for use with **battery acid-neutralizing pillows** (sold separately below) based on your battery type and application
- **Acid-neutralizing filler** protects your people and equipment against dangerous leaks, drips and spills
- **Changes color on contact** with acids or electrolytes (but not water)
- **UL Recognized** Pillows have been tested to meet Class 1 fire ratings; **FM Approved** Pillows meet approval standard 4955 (see ordering information below)

Battery Acid-Resistant Tray				
Item #	Size	Sump Capacity	1-2	3+

## PIG® Acid Encapsulating/Neutralizing Absorbents — Four absorbent choices, one easy step for safer acid cleanup.

- Choose from **mats, pillows, socks and loose** to help encapsulate and neutralize common acids in one step
- **Changes color on contact and during neutralization** with liquid acids (pH below 7); color change continues until pH becomes neutral and is safe for handling
- **Gelling agents solidify acids** during neutralization; prevents them from leaching out of the absorbent
- **Acid neutralizer** instantly absorbs up to 98% concentrations of sulfuric acid and other acids

Color-change technology takes the guesswork out of safe handling.

MAT304

Quick-acting mats absorb, encapsulate and neutralize common acids.

PIG309

Stop a spreading spill with socks, and use mats and pillows to encapsulate the acid.

PLP802

Loose absorbent neutralizes and solidifies spilled acid for safe and easy cleanup.

### PIG® Acid Encapsulating & Neutralizing Absorbents

Item #	1-2	3-6	7+
<b>MAT304</b> • Mat Pad • 25 pads/box • Absorbs up to 80 oz./box 11"W x 12"L	\$83	\$77	\$74
<b>PIL352</b> • Pillow • 4 pillows/box • Absorbs up to 1 gal./box 12"W x 12"L x 1"H	\$87	\$84	\$80
<b>PIG309</b> • Sock • 4 socks/box • Absorbs up to 1.5 gal./box Ext. Dia. 2" x 4'L	\$76	\$71	\$67

Notice: Not for use with hydrofluoric acid.

### PIG® Acid Encapsulating & Neutralizing Loose Absorbent

Item #	1-2	3-6	7+
<b>PLP801</b> • 1 - 40 lb. Pail • Neutralizes up to 13 gal.	\$160	\$154	\$151
<b>PLP800</b> • 1 - 8 lb. Pail • Neutralizes up to 3 gal.	\$66	\$64	\$61
<b>PLP802</b> • 10 - 2 lb. Shaker Bottles • Neutralizes up to 6.5 gal.	\$213	\$207	\$198

Notice: Not for use with hydrofluoric acid.

HazMat Notice: To ensure effectiveness and your safety, we recommend that you conduct compatibility and absorption testing of your chemicals with PIG HazMat products prior to purchase. If you have any questions or need samples to test, please call Technical Services.

**Need help choosing the best absorbent for your job?**  
**Call our Tech Team at 1-800-HOT-HOGS!**

PLP301

## PIG® Battery Acid Neutralizing Absorbent — It's pelletized!

- Contains, absorbs and neutralizes
- Pellet formula **absorbs more and requires less cleanup**; safe around sensitive equipment
- **Doesn't create hazardous respirable dust** or leave residue

PLP303

PIG® Battery Acid Neutralizing Loose Absorbent			
Item #	1-4	5-9	10+
PLP303 • 30 lb. Pail • Neutralizes up to 10.5 gal./pail	\$250	\$246	\$239
PLP301 • 10 lb. Pail • Neutralizes up to 3.5 gal./pail	\$99.15	\$93.90	\$87.55

See note on page 70 for more details on compatibility and testing.

MAT1400

## Formaldehyde Pads — Minimize vapors for safer formaldehyde cleanup.

- Specially treated polypropylene **quickly absorbs formaldehyde**, formalin, formaldehyde-based fixatives, glutaraldehyde and other aldehyde solutions
- **Rapidly neutralizes** formaldehyde vapors to help protect workers
- **Durable top surface** resists rips, tears and abrasion

Formaldehyde Neutralizing Absorbent Mat Pads			
Item #	1-2	3-6	7+
MAT1400 • 16"W x 20"L • Absorbs up to 4.5 gal./box 25 pads/box	\$420	\$408	\$392

GEN864

## PIG® Hydrofluoric Acid Neutralizer — Converts acid into calcium fluoride and inorganic salts for safer cleanup.

- Liquid changes from beige to red during neutralization, then returns to normal when neutralization is complete; helps identify the best time to handle with the least amount of risk
- **Safer to use** than caustic soda neutralizers which can form a poisonous gas by-product
- Liquid formula works at a **1:1 ratio**

GEN864

PIG® Hydrofluoric Acid Neutralizer		
Item #	1-2	3+
GEN864 • 4 - 1 gal. Bottles • Neutralizes up to 4 gal.	\$380	\$366

PLP806

## PIG® Hydrofluoric Acid Neutralizing Loose — Powder safely convert acids into calcium fluoride and inorganic salts.

- Product **contains, absorbs and neutralizes** hydrofluoric acid
- **Pelletized formula** absorbs more and requires less cleanup than traditional hydrofluoric acid neutralizers
- **Doesn't splatter** or create hazardous dust

PLP806

PIG® Hydrofluoric Acid Neutralizing Loose Absorbent			
Item #	1-2	3-6	7+
PLP806 • 6 - 1.5 lb. Containers • Neutralizes up to 1.4 gal./box	\$114	\$108	\$102

## Spill-X Adsorbents — Neutralize spills up to 5 gallons for cleanup and handling.

- **GEN322 and GEN381 neutralize and solidify most mineral and organic acids** including sulfuric, hydrochloric, nitric and hydrofluoric
- **GEN323 and GEN382 neutralize and solidify many caustics** including sodium hydroxide (50%) and ammonium hydroxide (29%)
- **GEN324 adsorbs spills of many common hydrocarbon solvents** (including mineral spirits, naphtha and xylene), reagents and fuels; solidified liquid is easy to clean up

GEN322

### Spill-X® Neutralizing Adsorbents

Item #	1+
<b>GEN382</b> • Spill-X-C® Caustic-Neutralizing Adsorbent • 168 lb. Fiber Drum Neutralizes up to 20 gal.	<b>\$1928</b>
<b>GEN381</b> • Spill-X-A® Acid-Neutralizing Adsorbent • 168 lb. Fiber Drum Neutralizes up to 20 gal.	<b>\$1107</b>
<b>GEN324</b> • Spill-X-S® Solvent Adsorbent • 16 lb. Pail • Neutralizes up to 3 gal.	<b>\$581</b>
<b>GEN323</b> • Spill-X-C® Caustic-Neutralizing Adsorbent • 44 lb. Pail Neutralizes up to 4–6 gal.	<b>\$529</b>
<b>GEN322</b> • Spill-X-A® Acid-Neutralizing Adsorbent • 50 lb. Pail Neutralizes up to 4–6 gal.	<b>\$338</b>

BEST  
SELLER!

## Spill-X Portable Spill Treatment — Neutralize a variety of small spills for safer cleanup and handling. Great for labs!

- **GEN522** is a portable kit packed with agents that **neutralize a wide range** of hazardous chemicals and solvents
- **Includes** guide, safety goggles, rubber gloves, disposal bags, scraper, pick-up pans and pH test paper
- **GEN527 has separate neutralizers** for acids, caustics and organic solvents
- **GEN528** is packed with spill control agents that **neutralize and solidify acid** spills; works on **most mineral and organic acids** including sulfuric, hydrochloric, nitric and hydrofluoric
- **GEN529** has spill control agents that **neutralize and solidify caustic** spills including sodium hydroxide (50%) and ammonium hydroxide (29%)

Spill-X® Portable Chemical Spill Treatment Kit	
Item #	1+
<b>GEN522</b> • Multi-Purpose Spill Treatment Kit • 6 - 2 lb. Shaker Bottles Neutralizes up to 3 gal.	<b>\$694</b>
<b>GEN522 Contents</b> • 1 Portable Plastic Case • 6 Spill-X® Shaker Bottles • 1 Pair of Safety Goggles • 1 Pair of Safety Gloves • 2 Clean-up Pans, Mixers, Scrapers • 6 Chemical Spill Waste Bags • 1 Spill Kit Treatment Guide • 1 Package pH Indicator Paper • 1 Package Wall-mount Hardware	
<b>GEN527</b> • Multi-Purpose Spill Treatment Kit • 6 - 2 lb. Shaker Bottles Neutralizes up to 3 gal.	<b>\$196</b>
<b>GEN528</b> • Acids Spill Treatment Kit • 6 - 2 lb. Shaker Bottles Neutralizes up to 3 gal.	<b>\$136</b>
<b>GEN529</b> • Caustics Spill Treatment Kit • 6 - 2 lb. Shaker Bottles Neutralizes up to 3 gal.	<b>\$209</b>

GEN522

**GEN527**  
Multi-pack includes agents for cleaning up acids, caustics and organic solvents.

**SEE BATTERY ACID SPILL KITS ON  
PAGES 118–119.**

*"Great value! Kit includes all items needed to handle spills at our location."*

— Becky, PIG Spill Kit Customer

# SPILL KITS

## You can always expect the best from PIG Spill Kits!

Is it your job to make sure that a manageable mishap doesn't turn into a spill catastrophe? Be prepared for the worst by stocking your facility with the best — PIG Spill Kits are a no-brainer if you're serious about protecting your facility and staying in compliance with OSHA and EPA spill preparedness regulations. Here's what separates PIG from the pack:

### Packed with PIG Absorbents

PIG Mats, Socks, Pillows and Loose are the world's #1 brand of absorbents — and you'll only find them in PIG Spill Kits.

### Filled for fast response

Every PIG Spill Kit is filled in the order you need the contents. No digging required! Cleanup starts the second you open the lid.

### More choices to fit your facility

From UN Rated overpack salvage drums to grab-and-go bag kits, you'll find a PIG Spill Kit that's perfect for your application. Turn the page for help choosing!

## “WE’VE GOT SPILL RESPONSE DOWN TO A SCIENCE”

As the leak-and-spill leader since 1985, every kit in our lineup is built on 37 years' experience.

Kelli Steindl — Product Manager

**Spill kits can help you meet SPCC requirements for active secondary containment.**

If your facility is subject to SPCC requirements, spill kits can be an effective active secondary containment strategy for areas where you don't store bulk containers but you still have the potential for oil discharges.

**Make PIG Spill Kits part of your plan for SPCC and Stormwater Regulation compliance.**

### ◆ SPCC 40 CFR 112.7

*Facilities must have written plans and documentation of the products that are in place to prevent discharge of oil into waters.*

### ◆ STORMWATER

**40 CFR 122.26**

*Facilities with an SWPPP must describe the plan and equipment available to prevent illegal discharge of pollutants into waterways.*

# 3 WAYS TO CHOOSE A SPILL KIT

## 1 SHOP BY LIQUID

Choose a spill kit with the right kind of absorbents for the liquids you manage at your facility.

### Universal Spill Kits

Also called "MRO" (Maintenance, Repair and Operations) absorbents, they soak up about anything that spills — oils, coolants, solvents and water.

**Common liquids absorbed:** hydraulic oil, vegetable oil, gasoline, diesel fuel, water-based solvents, propylene glycol, acetone, toluene, xylene and MEK

See pages 80–95

ABSORBS OILS, COOLANTS,  
SOLVENTS AND WATER

### Oil-Only Spill Kits

PIG Oil-Only Absorbents repel water, so you can clean up fuel and oil-based spills, even in outdoor applications.

**Common liquids absorbed:** motor oil, hydraulic oil, cutting oil, diesel fuel, synthetic oils, vegetable fluids and oil-based solvents

See pages 96–107

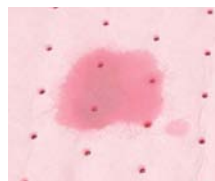

ABSORBS OIL BUT NOT WATER

### HazMat Spill Kits

PIG HazMat Absorbents are specially treated to soak up acids and bases without degrading or reacting.

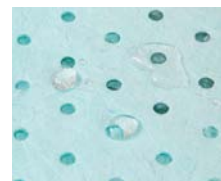

**Common liquids absorbed:** sulfuric acid, hydrochloric acid, nitric acid, hydrofluoric acid, phosphoric acid, sodium hydroxide, potassium hydroxide and hydrogen peroxide

See pages 108–115

#### OURS

Even 98% sulfuric acid is completely absorbed.

#### THEIRS

Highly corrosive liquids just puddle on top.

## 2 SHOP BY CONTAINER

Identify spill-prone areas and choose your spill kit based on where it's stored and how it's used.

We've got a container for every conundrum, giving you more spill kit choices than anyone else. Most of our kits are available in three versions to absorb any mess: Universal, Oil-Only or HazMat (see opposite page).

**Overpack Kits** — UN Rated containers are perfect when you need to ship your spill cleanup waste.

**Economy Kits** — Basic "trash can" containers do the job without the extra cost of a UN Rated shippable container.

**Response Chests** — Our largest kits can be centrally located as an absorbents "warehouse" or wheeled to a large spill

**Carts & Mobile Container Kits** — Roll your spill response supplies right to the spill site in these containers with wheels.

**Bucket Kits** — Grab-and-go convenience that can also double as a UN Rated shipping container.

**Bag Kits** — Stuff these kits just about anywhere for easy access and quick transport to the scene of the spill.

## 3 SHOP BY APPLICATION

Choose from popular spill kit lines designed for specific areas and special tasks.

We've developed several lines of spill kits to meet the specific demands of certain applications. These kits have been fine-tuned with unique containers, essential protective equipment and job-specific absorbents.

**Fuel Station Kits** — Rugged, weather-resistant containers packed with our best static-dissipative absorbents for spilled fuel and oil.

**Water-Absorbing Spill Kits** — Be ready for quick response to intruding rain and floodwater with our best absorbents for controlling and soaking up water.

**Truck Kits** — Rugged spill kits are road-ready and packed with supplies for cleaning up oil, gas and other vehicle fluids.

**PIG Fuel Station Spill Kits**  
available in 3 container types (Overpack shown)

**Battery Acid Kits** — Stay ready for battery charging blunders with these spill kits for cleaning up and neutralizing battery acid.

**Biohazard Kits** — Stay safe and minimize the yuck factor with these specialized kits made just for biofluid cleanups.

**PIG Truck Spill Kits**  
available in 6 types (Duffel shown)

KIT202

Ship leaking drums — or used absorbents from a spill cleanup — in our UN Rated overpacks.

TOP TEN  
BEST  
SELLER!

## **pig** Spill Kit in Overpack Drum — Strong enough to earn a UN Rating for shipping spill cleanup waste.

- **Packed with PIG Absorbents** for the durability and retention you need for spill cleanup
- Lift-out baskets in 50-, 65- and 95-gallon kits **provide speedy access** and block damaging UV rays
- Overpacks are **X-rated for Packing Groups I, II and III** for shipping spill cleanup waste by land, sea or rail
- Lightweight, 100% plastic container **resists chemicals and keeps contents clean and dry**
- Overpacks are available **with or without wheels**
- **Leakproof, twist-on lid** protects contents from water damage
- Ledges molded into container make kit **easy to move by forklift**
- **Tamperproof seal** helps prevent pilfering of spill response supplies
- ◆ **Helps you comply** with HAZWOPER 29 CFR 1910.120 (j)(1)(vii)
- ◆ **Helps you comply** with 40 CFR 112.7 SPCC Regulations

**Exclusive UV InnerShield® System** protects kit contents and provides easy access.

Lift-out baskets make it easy to reach the supplies you need. They also provide side protection against UV rays.

Lid insert protects against UV exposure from the top down. Keep your absorbents covered for longer life and maximum effectiveness!

# HIT THE ROAD WITH PIG!

Your truck's external compartments are perfect for spill kit storage. And now you can buy a kit that fits!

**EXCLUSIVE!**

## **PIG** Truck Spill Kits — Space-saving spill response stashes behind or underneath your seat.

- Designed just for trucks! Packed with PIG Absorbents and essential spill supplies to clean up **oil, gasoline, coolants and other vehicle fluids** (see contents at right)
- **Hi-viz yellow bag** is easy to find; increases driver visibility and safety during spill response
- **Bold "Spill Kit" lettering** on front and sides for quick identification
- **Rugged construction** for the rigors of the road; bags won't rip or tear, so you can refill and reuse them
- Use carrying straps to **pull bag from its space** and take to the spill
- ◆ **Helps you comply** with 40 CFR 263.30(a) and 40 CFR 263.31

*"Everything that is required for spill control in one easy to store package. Fits nicely behind the seat of my trucks or in the storage bins. High visibility bag means that my crew will always be able to find it during an emergency."*

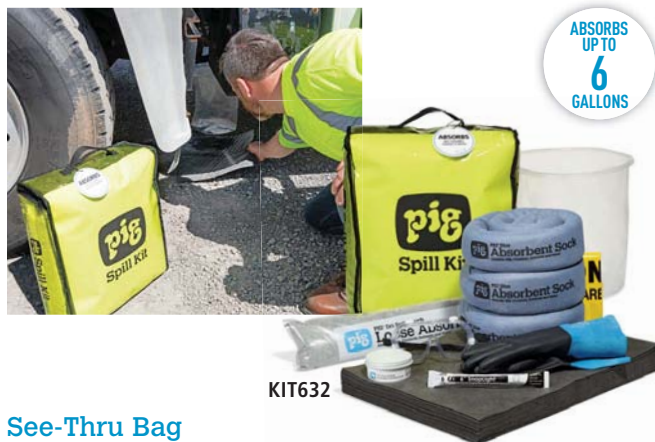

— Russell, KIT622 Customer

**PIG** EXPERT ADVICE

Learn about our spill kits designed specifically for all kinds of trucks:  
[newpig.com/truckkitsvideo](http://newpig.com/truckkitsvideo)

### See-Thru Bag

- Fits behind or beneath the seat of a truck or other vehicle; carrying strap makes it easy to pull bag from its storage space
- See-through bag allows for easy inspection of kit contents
- Bag is constructed of heavy-duty, cold-resistant vinyl with a reinforced zipper and seams

### Stowaway Bag

- Suitcase-style stowaway bag is designed to fit behind or underneath the seat of a truck or other vehicles
- Three interior compartments help segregate contents

### Tote Bag

- Cube-shaped tote bag fits in a mounted storage box or large external compartment of a truck or other vehicles

### Duffel Bag

- Fits wheel well boxes and other long, narrow areas
- Side and end straps let you easily pull bag from storage

**NEED A CUSTOM KIT?**  
GIVE US A CALL AND WE'LL BUILD ONE FOR YOU!

## PIG® UV-Resistant Oil-Only Spill Kit — Overpack and contents resist UV rays for up to 12 months.

- **Opaque container blocks UV** from degrading contents for up to 8,000 hours
- **All absorbents resist UV for up to 1 year** (12 hours/day of direct exposure for 12 months) and float to absorb oil on water
- **Lift-out, prepacked baskets** allow easy access to contents
- **Overpack drum is UN Rated** for shipping waste after cleanup
- **Reflective tape** on the lid adds visibility
- **Leakproof, twist-on lid is notched** for easy removal or tightening with a 2x4 or pole
- Ledges molded into container make kit **easy to move by forklift**
- **KIT416** contains PIG Oil-Only Booms, PIG Oil-Only UV-Resistant Mat and Pillows, PIG Lite-Dri Loose and temporary disposal bags
- **KIT467** includes the same absorbents as KIT416 plus materials for responding to **ruptured or punctured transformers** (see contents)
- ◆ **Helps you comply** with 40 CFR 112.7 SPCC Regulations

### Meet both sides of the SPCC equation with active and passive containment.

If your facility is subject to SPCC regs, you need both active and passive containment. Absorbents, spill kits and drain covers comply as active containment; pallets, decks, dikes and berms as passive.

## PIG® Oil-Only Forklift Spill Kits — Strap a kit on your forklift: It's your first response to spills of fuels and oils.

Forklifts are a leading cause of spills from punctured drums, burst pipes, leaky tanks or upturned containers. These kits have basic spill response materials to stop a spill at the source and protect the responder.

- Kits are in reusable, weather-resistant, **grime-hiding black bags with attached straps**; easy to grab and go
- **Yellow reflective striping** on bags improves visibility
- Clean up spills of **up to 6 gallons** of fuels and oil-based liquids but no water
- ◆ **Helps you comply** with 40 CFR 112.7 SPCC Regulations

# KEEP TRUCKIN' WITH PIG!

**EXCLUSIVE!**

## **Oil-Only Truck Spill Kits** — Space-saving spill response stashes behind or underneath your seat.

- Designed just for trucks! Packed with PIG Absorbents and essential spill supplies to clean up **oil, gasoline and other vehicle fluids** (see contents at right)
- **Hi-viz yellow bag** is easy to find; increases driver visibility and safety during spill response
- **Bold "Spill Kit" lettering** on front and sides for quick identification
- **Rugged construction** for the rigors of the road; bags won't rip or tear, so you can refill and reuse them
- Use carrying straps to **pull bag from its space** and take to the spill
- ◆ **Helps you comply** with 40 CFR 263.30(a) and 40 CFR 263.31

*"This is a great product for transportation crews to have with them in case of an accident to help with spill control. **The tote bag fits perfectly in tool box for storage.** Great product all around."*

— Brandie, KIT625 Customer

Learn about our spill kits designed specifically for all kinds of trucks:  
[newpig.com/truckkitsvideo](http://newpig.com/truckkitsvideo)

### See-Thru Bag

- Fits behind or beneath the seat of a truck or other vehicle; carrying strap makes it easy to pull bag from its storage space
- See-through bag allows for easy inspection of kit contents
- Bag is constructed of heavy-duty, cold-resistant vinyl with a reinforced zipper and seams; tough enough to refill and reuse

### Stowaway Bag

- Suitcase-style stowaway bag is designed to fit behind or underneath the seat of a truck or other vehicles
- Three interior compartments help segregate contents

### Duffel Bag

- Side and end straps let you easily pull bag from storage

### Tote Bag

- Cube-shaped tote bag fits in a mounted storage box or large external compartment of a truck or other vehicles

ATTENTION: Independent testing indicates that PIG HazMat products are compatible with and absorb most acids and bases. Due to variables and conditions of applications beyond our control, New Pig cannot guarantee that this product will absorb to your satisfaction. To ensure effectiveness and your safety, we recommend that you conduct compatibility and absorption testing of your chemicals with PIG HazMat products prior to purchase. If you have any questions or need samples to test, please call us toll free at 1-800-HOT-HOGS.

- **Highly visible** pack is easy to locate

KIT367

### See-Through Bag

- Compact kit **with zipper closure** is easy to store and carry
- **Transparent bag** lets you check chemical spill supplies at a glance while keeping contents clean and dry

# SPECIALTY SPILL KITS

An extra measure of safety for chemical spill cleanups.

Sometimes you need more than absorbents to clean up a chemical spill safely — and these specialized kits help you do just that. Neutralizers are impractical for large corrosive spills because the process of neutralizing them generates heat and creates the potential for a fire. But for smaller spills of a half-gallon or less, neutralization can help make these liquids safer to clean up and handle.

Find the PIG Neutralizing Spill Kit that's right for you on pages 116-119.

**PLS1850 – PIG Biohazard Spill Kit**  
(See page 122)

**KIT322 – PIG Battery Acid Spill Kit in See-Thru Bin**  
(See page 119)

After neutralizing a dangerous hydrofluoric acid spill (above), absorb it with the included PIG HazMat Pads!

# TAKE CHARGE OF BATTERY ACID SPILLS

KIT352

## **pig** Battery Acid Spill Kits — Safely respond to battery acid spills with specially equipped spill kits.

Corrosive liquids require special handling and extra precaution when they hit the floor. Everyday absorbents just don't cut it when you're dealing with the nasty stuff. That's why we pack our **Battery Acid Spill Kits** with specialized contents. We've hand-picked the perfect mix of neutralizers, absorbents and personal protective equipment to help you clean up the mess — and stay safe doing so.

### Battery management must-haves!

Speaking of safety, we've also put together a selection of products specifically designed for safer handling of batteries and battery acid. From specialized absorbents to spill kits to cleaners and PPE, you'll find a solution on pages 72 and 119–120 to help you protect workers and comply with OSHA regulations. For used battery containers, see page 275.

◆ **Helps you comply** with 29 CFR 1910.178(g)(2)

KIT610

We don't mess around when it comes to battery acid. Our kits contain everything you need to clean up a spill — and do it safely.

**EXPERT  
ADVICE**

Use this checklist to ensure your battery storage and charging areas are in compliance with OSHA standards:

## Battery Handling PPE Kit — Wall-mounted kit holds PPE for handling leaky batteries.

- All components are attached to a **hi-viz, wall-mounted board** labeled "Battery Changing Area" (hardware included)
- Includes gloves, goggles, faceshield and apron for **protection from battery acid**; also includes flashlight (batteries not included)

- Includes **easy-to-read hydrometer** to accurately measure acid concentration

### Battery Handling PPE Kit

Item #	1+
<b>WPL105</b>	<b>\$178</b>
<b>WPL105 Contents</b> • 1 Mounting Board • 1 Battery Hydrometer • 1 Flashlight • 1 Battery Cap-Off Tool • 1 Faceshield Headgear • 1 Faceshield • 1 PVC Apron • 1 Pair of Neoprene Gloves • 1 Pair of Goggles	

## PIG® Battery Maintenance Kit — All the essential items you need to maintain your batteries and handling equipment.

- **Helps reduce trickle discharges, shorts** and corrosion damage; can also be used to **pinpoint leaks**
- **Color-change indicators** show when neutralization is complete
- Included spray cleaner **neutralizes, cleans and degreases** batteries; foam **gets into cracks and crevices** with no runoff
- ◆ **Helps you comply** with 29 CFR 1910.178(g)(2) (CLN1001)

CLN1001 Kit includes PPE, neutralizers and tools. Cleaner included in kit is also sold separately. (CLN1000)

### PIG® Battery Cleaning & Maintenance Kit

Item #	1-3	4+
<b>CLN1001</b> • Absorbs up to 16 oz.	<b>\$226</b>	<b>\$219</b>
<b>CLN1001 Contents</b> • 5 Mat Pads • 2 Battery Acid Neutralizer & Cleaner • 100 Wipers • 30 Neutralizing Wipes • 1 Large Brush • 1 Small Brush • 1 Goggle with Faceshield • 1 Apron • 2 Pairs of Gloves • 2 Disposal Bags and Ties		
Item #	1-2	3+
<b>CLN1000</b> • PIG Battery Cleaner & Acid Neutralizer • 12 - 20-oz. Canisters	<b>\$113</b>	<b>\$104</b>

See note on page 108 for more details on compatibility and testing.  
Acid Absorbents Notice: Not for use with hydrofluoric acid.

## PIG® Battery Acid Wipes — Color-changing cleanup!

- **Premoistened wipers** neutralize battery acid residue while cleaning the surface of batteries, tools, workstations and small spill sites
- Wipers **change color to indicate neutralization**; when wipe is completely colored, neutralizing ability is exhausted
- **Plastic container** with snap-tight lid neatly dispenses wipers

### PIG® Battery Acid Cleaner and Neutralizer Wipes

Item #	1-4	5+
<b>WIP700</b> • Center-pull Roll • White 30/pack • 7"W x 8"L	<b>\$18</b>	<b>\$17</b>

## **pig** Mercury Spill Kit — Keep the dangers of mercury spills to a minimum with a kit that's made for the job.

- Includes **PIG Mercury Absorbent Powder** to transform up to 1,000 grams of visible mercury into a zinc amalgam
- **Suppresses hazardous mercury vapors** to limit worker exposure
- Hand **broom, dustpan and disposal bags** included
- Lightweight, **100% polyethylene container** resists chemicals
- **Screw-on lid** opens easily for access to supplies
- Includes **PPE** to guard against mercury
- **PIG Mercury Cleanup Wipers** decontaminate hands, tools and surfaces

### PIG® Mercury Spill Kit in Bucket

Item #	1-2	3-4	5+
<b>KIT600</b> • Absorbs up to 35.27 oz. • UN1H2/Y6/S	<b>\$150</b>	<b>\$145</b>	<b>\$139</b>

**KIT600 Contents** • 1 Mercury Absorbent Powder • 1 Goggles • 1 Pair of 18 mil. Gloves • 10 Wipers • 1 Spatula • 1 Dustpan & Hand Broom • 1 Disposal Bag and Tie

### PIG® Mercury Absorbent Powder

Item #	1-2	3-4	5+
<b>PLP602</b> • Absorbs Mercury • 1 - 1,000 gram Container	<b>\$119</b>	<b>\$115</b>	<b>\$111</b>

### PIG® Mercury Cleanup Wipers

Item #	1-2	3-5	6+
<b>WIP1404</b> • Center-pull roll • White • 10 wipers	<b>\$13</b>	<b>\$11</b>	<b>\$9</b>

NOTE: Avoid contact with metallic nitrates, cyanides, sulfides and strong oxidizers. Contact with sodium or calcium hypochlorite creates chlorine gas.

Check out these tips to properly clean up mercury spills: [newpig.com/mercury-spill-safety](http://newpig.com/mercury-spill-safety)

### Step 1

Shake PIG Mercury Absorbent Powder onto spills to absorb visible mercury, transform it into a zinc amalgam and suppress hazardous vapors.

### Step 2

Use enclosed hand broom and dustpan to sweep up stabilized mercury for easy transfer into disposal bags.

### Step 3

Eliminate dangerous residue and decontaminate hands, tools and surfaces with premoistened PIG Mercury Cleanup Wipers.

## **pig** Formaldehyde Spill Kit in Bucket — Quickly absorb and solidify formaldehyde.

- **Absorbs and solidifies** formaldehyde, glutaraldehyde, formaldehyde-based fixatives and other aldehyde solutions
- Includes **PPE and cleanup tools** for safe, effective spill response

### PIG® Formaldehyde Spill Kit in Bucket

Item #	1-2	3-5	6+
<b>KIT501</b> • Absorbs up to 1.5 gal.	<b>\$219</b>	<b>\$210</b>	<b>\$205</b>

**KIT501 Contents** • 1 Loose Absorbent • 2 Aprons • 2 Pairs of Goggles • 2 Pairs of Gloves • 2 Pairs of Boot Covers • 1 Hand Broom & Dustpan • 1 Roll Caution Tape • 1 Disposal Bag

## **pig** Mercury Vacuum Kit — Control mercury spills with a vacuum pump.

- **Vacuum pump** allows you to quickly and effectively capture mercury spills for proper recycling and disposal
- Includes **collection vials and cleanup gear** for up to six spills
- **Scoop and spatula** allow for easier gathering of scattered mercury
- Durable polyethylene **carrying case** keeps equipment in one place

### PIG™ Mercury Spill Vacuum Kit

Item #	1-2	3+
<b>KIT330</b> • Absorbs up to 6 oz.	<b>\$641</b>	<b>\$621</b>

**KIT330 Contents** • 6 Pairs of Nitrile Gloves • 6 Scoop/Spatulas • 1 Butyl Rubber Tape • 7 Plastic Zip Closure Bags • 6 Premoistened Wipers • 1 Storage/Carrying Case • 1 Vacuum Hand Pump • 6 Collection Vials • 1 Safety Glasses

**PIG® Biohazard Spill Kit** — Clean up blood, urine and other biofluids.

- Portable, multi-use kit **reduces safety risks** during cleanup
- Loose absorbent solidifies to **lock in liquids** so they won't leak or liquefy
- **Ideal for first responders**, hospitals, schools and nursing homes
- ◆ **Helps you comply** with 29 CFR 1910.1030 for bloodborne pathogens

SELLER!**

**GEN180**

Whether you use it on soil or water, if the color changes, there's oil present!

## Oil Detection Paper — Hydrocarbon-detecting strips show need for cleanup.

- **Paper quickly changes color** when in contact with hydrocarbons, including gasoline, diesel, fuel, oil, lubricating oils and mineral oils
- **Immerse in water** to test for oil contamination or press to soil to check need for remediation
- **Compact, easily stored**, hard plastic case protects remaining strips

**GEN180**

### Oil Detection Test Paper

Item #	1-4	5+
<b>GEN180</b> • 0.75"W x 2.75"L • 100/box	<b>\$55</b>	<b>\$49</b>

**PLS1559**

## pH Spill Stiks — Easy-read test strips keep hands away from acids and bases.

- **6"-long, nonwicking strip** helps keep potentially dangerous acids and bases away from hands
- **1"-square pad** of pH-testing paper is easy to read in dark or confined spaces
- One-dip, one-color system **instantly identifies pH value**
- **Included chart** features 14 colors to identify pH from 0 to 13

### Hydriion® pH Spill Stiks

Item #	1-5	6+
<b>PLS1559</b> • 1"W x 6"L • 10/container	<b>\$27</b>	<b>\$25</b>

**PLS236**

## Insta-Chek Paper — When unknown liquid spills, use this paper for pH checks.

- **Instantly indicates** any pH from 0 to 13 with one of 14 colors
- Color chart has **checkpoints at each unit pH**, determined by single-color match
- Distinct, **easy-to-read colors** for accurate readings
- **Portable kit** includes color chart, dispenser and polyethylene case

### pHydriion® INSTA-CHEK® Paper

Item #	1-3	4+
<b>PLS236</b> • 0.5"W x 50"L	<b>\$15.50</b>	<b>\$14.50</b>

**GEN179**  
Effective in concentrations down to 20 mg/L!

## Fluoride Detection Paper — Detect fluoride ions or hydrofluoric acid.

- **Paper quickly changes color** when in contact with dangerous fluoride ions or hydrofluoric acid, whether in liquid or vapor
- **Improve spill response safety** by testing unknown liquids before cleanup or by attaching to protective suit for an instant warning
- **Hard plastic case** protects remaining strips; compact for convenient storage

**PIG Steel Dolly** — Quickly move your PIG Overpack Spill Kit.

- **Wide-base design** helps keep overpacks stable during transport
- Heavy-duty rolled steel construction **holds up to 800 lbs.**
- **Lockable casters** keep overpack stationary, even on uneven surfaces

**PAK414**  
For use with 95- and 110-gal. overpack containers.

PIG™ Steel Dolly for Overpacks		PIG
Item #	1+	
PAK414 • For 95-gal. & 110-gal Overpack 800 lb. Load Capacity	\$211	

**Vehicle Bracket** — Mount your spill kit right on your truck to save cab space.

- Designed for use with PIG Spill Kit in Bucket or other PIG Spill Kits in **6½-gallon containers**
- **Corrosion-resistant aluminum** bracket is lightweight yet very durable

Truck Mounting Bracket for PIG® Spill Kit in 6.5-Gallon Bucket		
Item #	1-2	3+
BKT1213	\$143	\$138

**THIS BRACKET FITS OUR SPILL KITS IN BUCKETS ON PAGES 82, 94, 95, 97, 107, 110 AND 119.**

**Wall-Mount Hook** — Hang your PIG Spill Kit so you can find it fast.

- **Increase spill kit visibility** for faster response; establish a specific kit location
- **Durable steel hook** mounts on any surface (hardware not included); accepts most PIG Spill Kits with handles or straps
- **Wall-mounted kits build awareness** of where to find tools quickly

Wall-Mount Hook for PIG® Spill Kit			PIG
Item #	1-2	3+	
BKT214 • Use with Spill Kits w/Handles 2.5"W x 8.5"L	\$35	\$32	

**Container Wall Bracket** — Mount kits near spill areas.

- Keeps spill kits in the open and elevates them to **maximize visibility and response**
- **Hot-rolled steel** for long-term use
- Use with **20- and 30-gallon** overpack kits

Wall-Mount Bracket for PIG® Spill Kit Container			PIG
Item #	1+		
TLS468 • For 20- and 30-gal. Spill Kits	\$117		

**Wall Sign** — Display spill response instructions and designate your kit location.

- "Spill Center" signage lets you **designate a specific area to keep your spill kit**; helps you decrease response time and identify missing kits during inspections
- Bright color is **highly visible** to draw attention and create awareness

Wall Sign for PIG® Spill Kit			PIG
Item #	1-2	3+	
SGN1065 • 19"W x 24"L • 1/package	\$44	\$37	

## Tamperproof Seals — Secure kits and containers with tamper-evident seals.

- Attach a tamperproof seal to container lid and sidewall to **show when it's been opened**
- **Ideal for ensuring** that routine cleanups don't deplete your emergency spill kits
- Bright yellow color is **highly visible**

### Tamperproof Seal Label

Item #	1+
<b>LBL100</b> • 102/pack	<b>\$39</b>
<b>LBL101</b> • 6/pack	<b>\$8</b>

## Non-Sparking Tools — These tools make it safer to handle absorbents, hazardous materials and contaminated soils.

- Made of **durable, corrosion-resistant** polypropylene for excellent chemical resistance
- Non-sparking, **chemical- and corrosion-resistant**
- **Hardwood-core handle** resists hundreds of pounds of pressure
- Shovel is in two pieces for **easy storage**

*"These wipers are great! **Very strong** — you can wring them out and keep using them!"*

— Laura, PIG All-Purpose Wipers Customer

# WIPERS & RAGS

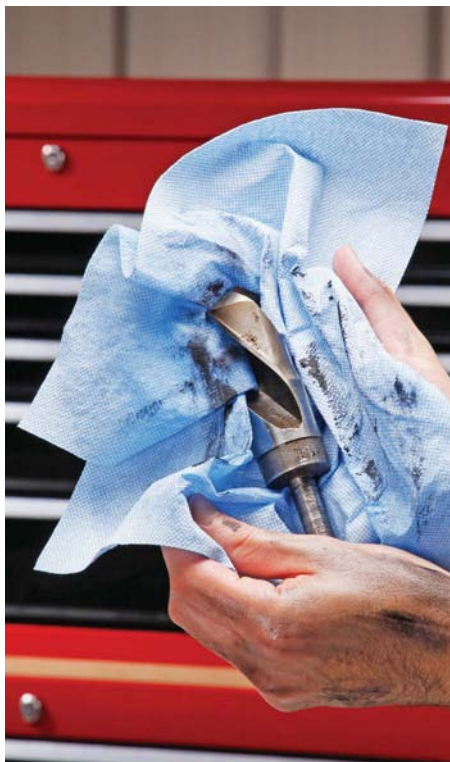

## Reusing laundered rags? Here's a better way to work.

You wouldn't use old, dirty rags for your critical wiping jobs, but that's exactly what you're getting with rental shop towels. They may be laundered, but they still contain residual oil, grease and metal shavings that can contaminate what you're wiping. So think twice before you wipe your hands or face with that "clean" red rag.

### A clean break from rental towels.

Our disposable wipers and shop rags are always clean and free from contamination. They're not only safer, but you can fine-tune the strength, absorbency and chemical resistance for every job. When you're done, just toss 'em in the proper disposal container!

## "YOU NEED WIPERS? WE'VE GOT 'EM!"

From rough scrubbing to fine dusting, you'll find exactly what you need to do the job right.

Carolyn Itle — Product Manager

### EXPERT ADVICE

#### 3 steps to choosing the right wiper, shop towel or rag.

Using the wrong wiper, towel or rag can be wasteful. You could spoil a surface that's being prepared for finishing, not clean the surface completely or cause other problems. Having the right product for the job adds efficiency and allows the job to be done right the first time.

## WHAT'S YOUR NUMBER?

Performance Ratings  
(PR) help you zero  
in on the right wiper  
for your job  
and budget.

Look for this  
icon — we've  
done the comparison  
shopping for you!

The higher the Performance  
Rating (PR), the more you can  
expect from your wiper.

- **PR100 Ultra-Duty** can be used all day and provide the highest levels of abrasion and solvent resistance
- **PR60–80 Heavy-Duty** provides extra toughness for jobs like wiping rough parts, gears and sprockets
- **PR30–40 Medium-Duty** delivers a balance of toughness, absorbency and economical cost per toss
- **PR10–20 Light-Duty** is made for high-volume use during light wiping or surface drying jobs

## **PR100 Disposable Polishing & Wiping Cloths** — Tiny pores nab dust, wax and other contaminants. Great for final wiping!

- Perfect for **no-scratch** removal of wax, polishing compound, fingerprints and smudges from surfaces, or for prepping products for painting
- Rayon/poly blend stands up to **harsh sanitizers, degreasers, cleaners and solvents**
- **Highly absorbent** and textured cloth pulls contaminants away from parts and surfaces while soaking up liquids
- **Can be rinsed and reused** for long life and less frequent replacement

Tiny pores are great for final wiping.

## **PR100 Disposable Microfiber Cloths** — Absorbent microfiber cloths are 50% stronger than T-shirt rags or shop towels.

- Binder-free, **solvent resistant** and **low linting**
- Unlike T-shirt rags, **size and performance are consistent**
- **Highly absorbent** microfiber material is strong but still soft enough for polishing
- Cloths can be **repeatedly washed and reused**; can be used wet or dry
- **Use with** Quat-Based Sanitizers, Commercial-Grade & EPA List N Disinfectants, Cleaners

Tiny microfibers lift dirt, oil and grime.

## **pig** PR80 Extra-Heavy-Duty Maintenance Wipers — No stiffness here! These wipers are tough, yet soft.

- Exceptional abrasion resistance and strength, yet **very soft and pliable**
- **One wiper can handle everything** from scrubbing rough parts to final wipedown and inspection of machined parts
- **Embossed texture grabs grime** due to a durable hydroentangled blend of cellulose and synthetic fibers
- **No chemical binders or adhesives** that could degrade in solvents; quickly absorbs liquids to leave surfaces dry and lint-free

Embossed texture helps lift dirt and grime from surfaces.

## **PR70 Heavy-Duty Maintenance Wipers** — Low-lint blend is our top seller for heavy-duty jobs.

- **Strong and solvent-resistant** for wiping machines and rough parts, but soft enough for cleaning skin or preparing surfaces
- Exceptional **abrasion resistance and wet strength** that stands up to rough surfaces, jagged edges or metal chips
- For **heavy-duty maintenance** jobs like machine wipdowns and degreasing parts

Binder-free cellulose/poly blend leaves surfaces dry and lint-free. Available in blue or white.

*"This is a high-quality product with good absorbency, and is **tough enough to wring out and keep using** all day. It can be used in places that would shred a paper towel. For durability, it's more akin to cloth than to paper."*

— Drew, WIP309 Customer

## PIG® Premoistened Hand and Surface Wipers — Dual-textured citrus power needs no water.

Tough dirt and grease have met their match in the textured side of PIG Premoistened Wipers.

*"We use these wipes multiple times daily to clean hands and surfaces. **They cut grease very well** and have a much better fragrance than other wipes. Thanks PIG for another great product."*

— David, WIP1300 Customer

- Citrus-based formula needs no water for **removing oil, paint, tar, adhesives, ink and dirt**
- 10" x 12" wipers are tough on grime but **gently condition skin**
- **Dual-textured material** has smooth, nonabrasive side for general use, textured side for scrubbing tough surface dirt and grease
- Plastic container with snap-tight lid **dispenses wipers individually** while keeping the remainder clean and moist
- Compact size makes the container **easy to transport and store** in trucks, workspaces and on equipment

Just pull the low-linting cloth from the bag and start cleaning!

## Reusable Microfiber Rags — Perfect for every surface.

- **Use for wet or dry cleaning;** microfiber cloths are durable, lightweight and dry quickly
- **Wash and reuse** to save money or dispose after a single use
- **Ideal for** utility and janitorial carts, industrial and automotive shops, office environments and healthcare facilities
- Cloths can be used on **glass, metal, painted surfaces, wood and more**

WIP1703

WIP1704

### Reusable Microfiber Rags

Item #	1+
<b>WIP1703</b> • Bulk Bag • 50/bag • Colors will vary	<b>\$30</b>
<b>WIP1704</b> • 12/bag • 12"W x 12"L • Colors will vary	<b>\$11.55</b>

WIP1700

Machine wash and dry on low setting to refresh; proven 99.5% effective after 50 cycles.

## SilverSure Towels — Eliminate microbes while cleaning to stay fresh.

- Antimicrobial towels are infused with **silver ions** to eliminate undesirable microbes from the surface of the cloth
- **Microfiber construction** works with most cleaners, disinfectants and sanitizers
- Towels **stay fresh longer** by preventing the growth of odor-causing bacteria and fungi
- Machine wash and dry on low setting to refresh; tested and proven to be **99.5% effective even after 50 cycles**
- Gray color distinguishes these towels as **silver-infused** to set them apart from other cleaning rags; **reduces cross-contamination** and the need to frequently change towels while cleaning

# WorkWipes Rags — Screened, sized and

Eco-friendly rags are conveniently packaged and made from reclaimed post-consumer materials.

- **Strict material and size requirements** mean more usable, high-quality rags in every package
- All rags are **double scanned for metallic content and many are screened for printing**, so you never have to worry about contamination or poor performance
- **Eco- and cost-friendly rags** are made from recycled, postconsumer materials
- Choose white colored material **for use with solvents**, which might cause colored rags to bleed
- **Poly bags** are compression-packed to take up half the space of loosely packed boxes; plus no heavy packaging added into the final weight
- **Cardboard boxes** provide neat storage, stacking and dispensing with handles for easy transportation; some offer compression packaging for space savings (see ordering information)

## Pick from eight reclaimed options:

- **T-shirts** are durable, low-lint cotton; ideal for staining, wiping, polishing
- **Refreshed T-shirts** are washed and scented to remove odors and stains
- **Sweatshirts** are thick, absorbent cotton and cotton blends for softness and strength; ideal for heavy-duty wiping
- **Surgical huck** is colorfast, low lint and sanitized; 100% cotton for glass cleaning
- **Denim** has no rivets or zippers, great for heavy-duty wiping and absorbing oil; ideal for high-temperature worksites
- **Flannel** is durable, absorbent, soft nonscratching cotton and cotton blends; for general wiping
- **Institutional linen** is low-lint and laundered for staining, wiping and polishing
- **Hospital blankets** are soft, absorbent, thoroughly washed and sanitized; ideal for polishing and cleaning

WIP550  
Compression-packed bags take up half the space of loosely packed boxes.

WIP560  
All 10 lb. bags feature a built-in handle, so they're easy to carry. Rags dispense right from the bag!

WIP519  
Personal-sized packs in WIP519 and WIP520 feature a slide closure for easy access to rags.

WIP529  
All boxes feature built-in handles and an opening for easy dispensing.

# scanned so you get only usable rags.

WIP551

WIP519

Master box contains five personal-sized packs of colored T-shirts. Also available with white T-shirts (WIP520).

*"If you have drains, and you have chemicals,  
you should have these."*

— Shawn, DrainBlocker Customer

# SPILL CONTROL & STORMWATER

Keep the bad stuff out of your drains with products to block or filter pollutants.

Runaway spills and stormwater pollution are an ever-present risk to your storm drains, and nobody wants to harm the environment or get popped with a violation. We're here to help you keep pollutants in check and maintain Stormwater Regulation compliance with two types of solutions.

## Block all liquids so nothing gets in

Our SpillBlocker Dikes and DrainBlocker Drain Covers go down fast and seal tight. When you need to stop a spill in its tracks or seal off a drain during a fuel delivery, nothing gets past PIG.

## Filter pollutants and let clean water pass

Need to keep things flowing? Don't miss our family of Stormwater Filtration products for easy ways to remove oil, heavy metals and sediment from your runoff without impeding the path of your stormwater. Need a hand choosing? Give us a squeal, we're happy to help!

“PIG STANDS FOR QUALITY. ALWAYS.”

We understand your liquid handling challenges — that's why we're always innovating to give you the best solutions.

Matt Riley — Product Development

## EXPERT ADVICE

We've visited hundreds of customer sites to learn the issues around stormwater management and develop practical solutions. Read about stormwater permits, pollution and more in these articles from our experts: [newpig.com/stormwater](http://newpig.com/stormwater)

## ◆ HELPS YOU COMPLY

Most of the PIG products in this section can help you protect the environment and avoid fines by meeting these EPA regulations:

### ◆ SPCC 40 CFR 112.7

*SPCC planning requirements state that facilities subject to these regulations must have written plans in place discussing the products, countermeasures and procedures that are in place, or will be taken by the facility to prevent discharge of oil into waters of the United States.*

### ◆ STORMWATER

#### 40 CFR 122.26

*When applying for a National Pollutant Discharge Elimination System (NPDES) permit, facilities must have a plan in place that describes actions, procedures, control techniques, management practices and equipment available to prevent illegal discharge of pollutants into waterways.*

# BLOCKERS & BARRIERS

Three PIG-proven ways to control liquids and avoid fines:

## 1 BUILD CUSTOM CONTAINMENT

### PIG Build-A-Berm Barrier

- Configure a semipermanent barrier to fit your leak-prone areas
- Pliable foam construction springs back to shape so you can roll wheeled equipment right in
- Big savings compared to building concrete curbs or cutting angle iron

See pages 154–157

## 2 CONFINE & CHANNEL SPILLS

### PIG SpillBlocker Dike

- Flexible and formable to the shape of the spill
- Tacky bottom layer seals tight so no liquid seeps underneath
- Confines spills or channels washdown liquids without absorbing them

See pages 158–162

## 3 COVER DRAINS

### PIG DrainBlocker Drain Cover

- Seals tight to keep out unwanted liquids
- Won't rip, tear or stretch when you pick it back up
- Use for fast spill response or long-term outdoor deployment without UV degradation

See pages 166–171

## YOU'RE PROTECTING MORE THAN A DRAIN.

### Comply with SPCC Regs to keep water sources clean and avoid fines.

The environment isn't the only thing that takes a hit when oil goes down your drains — the EPA can respond with a hit to your wallet. Our DrainBlockers, SpillBlockers and Build-A-Berm Barriers help you contain oil and keep it away from sensitive areas.

**40 CFR 112.7** states that facilities subject to SPCC Regulations must have written plans discussing what measures are in place to prevent spills. Facilities must also have documentation of the products, countermeasures and procedures that are in place, or will be in place, to prevent discharge of oil into waters.

### Stormwater Regs: Why comply?

Noncompliance with the EPA's Stormwater Regs can result in hassles and headaches that are no fun to deal with. But aside from that, protecting the environment is just the right thing to do! The products on these pages can help you on both fronts.

Does your facility need a Stormwater Plan? New Pig can help you choose the best products to get into compliance. Call our Technical Specialists at 1-800-HOT-HOGS for expert advice!

### Frequently asked questions:

#### Q: Can I reuse my DrainBlocker and SpillBlocker?

**A:** Yes, we use a very high-quality urethane, and our patented formulations are built to last. They clean up easily with soap and water so you can reuse them over and over again. (Our SpillBlocker Rough Surface Dike is designed for one-time use on asphalt.)

#### Q: Can I drive over a SpillBlocker Dike?

**A:** Yes and no. SpillBlocker Dikes are tough, but they're not built for vehicle traffic. That's why we invented the Drive-Over SpillBlocker Dike — it stands up to the heavy stuff! (See page 162)

#### Q: Can I leave my DrainBlocker out in the sun?

**A:** Yes, our Original and Drive-Over DrainBlockers are built for long-term outdoor use. If you're not using PIG, get ready for gooey degradation!

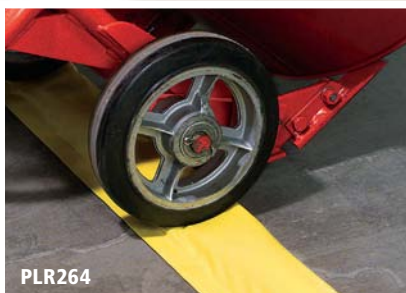

### Two containment strategies that can help you meet SPCC Regs.

If your facility is subject to SPCC regs, you need both active and passive containment. Absorbents, spill kits and drain covers comply as active containment; pallets, decks, dikes and berms as passive.

**BEST  
SELLER!**

PLR264

Open-cell foam interior springs back into shape after you walk on it or roll over it with a hand cart.

**PLR222**

Install a 2"H barrier around machines to keep leaks and drips away from walkways.

**EXCLUSIVE!**

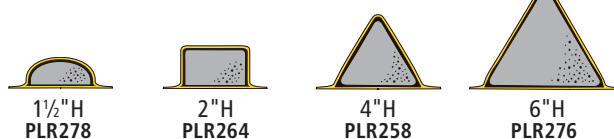

## **pig** Build-A-Berm Barrier — Configure a barrier to fit your leak-prone area.

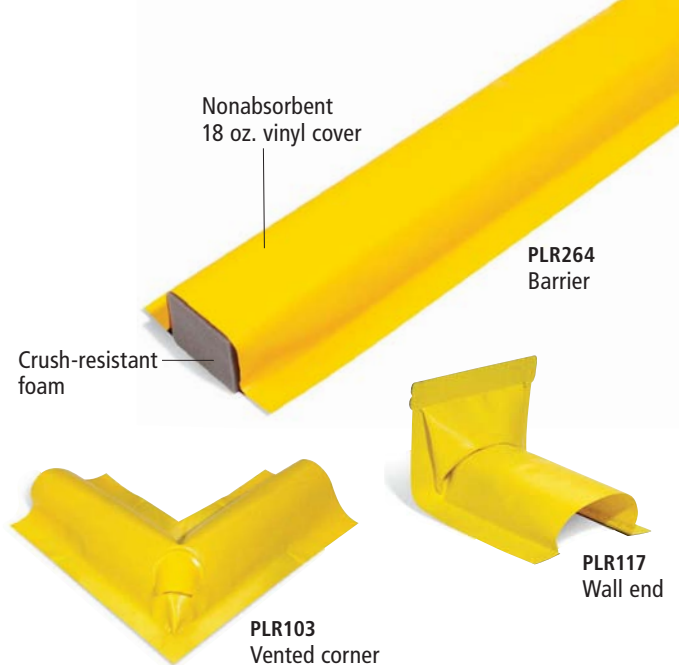

- PIG Build-A-Berm Barriers can be constructed into a **semipermanent, high-visibility barrier** that's exactly the size and shape you need — indoors or out
- Pliable open-cell foam barrier **springs back into shape** after you walk or roll over it with light, wheeled equipment (see drive-over version on page 157)
- Durable, 18 oz. vinyl covering **resists oils, coolants and most chemicals**
- **Contain leaks and spills around your machinery** without building expensive concrete curbs or cutting angle iron
- For best sealing results, **secure to a smooth, sealed surface**
- **Kit (PLR222, PLR511) includes** straight sections, corners and Sili-Thane sealant; create any length or configuration
- ◆ **Helps you comply** with SPCC and Stormwater Regulations

### Add these components to your layout:

- **Corners** let you create liquidproof junctions; join two Build-A-Berm sections at a 90° angle
- **Vented corner** prevents seam rupture by letting air escape during a cart driveover
- **Wall end** seals flush against the floor and wall for a seepage-free connection

### Available in four heights!

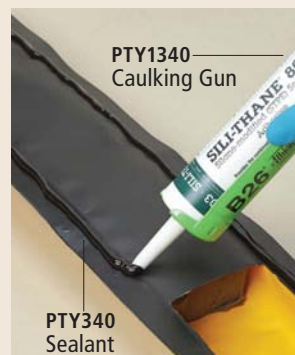

A Build-A-Berm Barrier is great for use around battery charging stations, machinery or other leak-prone areas.

**Build-A-Berm installation is easy as 1-2-3 when you use these accessories.**

#### Simple installation

1. Cut to desired length with scissors or utility knife
2. Fit pieces together and secure to floor with **Sili-Thane Sealant** (PTY340) and **Caulking Gun** (PTY1340) to form a flexible, liquidtight seal (use one tube per approx. 25 ft. of barrier)
3. Seal seams with **Industrial-Strength Vinyl Cement** (PTY105; installs approx. 10 connections)

Self-Rising Drive-Over Barrier

Easy access for pallet jacks,  
forklifts and drum trucks!

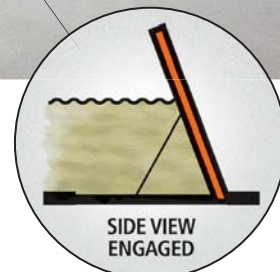

## Build-A-Berm Self-Rising Drive-Over Barrier — Roll across this special gate section, and when a spill strikes, it rises to the occasion.

- Berm wall lays flat to allow forklifts, pallet jacks and drum trucks to drive over for **easy access to containment area**
- In the event of a spill, drive-over gate will **automatically rise with the spill level** to keep liquids contained
- Berm ends can be **directly connected** to an existing 4"H Build-A-Berm system (PLR258, sold separately on page 155)
- Ends of 4"H berm are pliable, open-cell foam core covered with vinyl; gate section is **constructed of durable PVC**
- Secure to a smooth, sealed surface with Sili-Thane sealant and reinforce with predrilled aluminum mounting strips and anchors; seal seams with Industrial-Strength Vinyl Cement (**sealant and vinyl cement sold separately on page 155**)

◆ **Helps you comply** with SPCC and Stormwater Regulations

**Big leak? No worries!**  
Orange gate section rises with the liquid level for instant containment.

PLR518

It's a snap to add this drive-over gate to your existing Build-A-Berm system — hardware is included.

# TOUGH ENOUGH FOR HEAVY VEHICLE TRAFFIC

PLR283  
Drive-over barrier

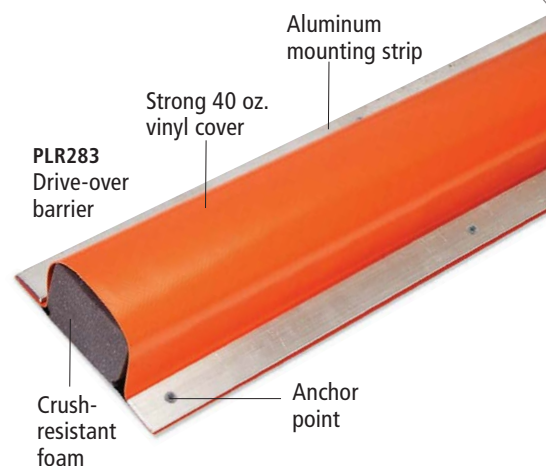

PLR108  
Corner

PLR109  
Wall End

**EXCLUSIVE!**

## **PIG** Drive-Over Build-A-Berm Barrier — Build a spill berm that can handle heavy vehicle driveovers.

- Provides **semipermanent containment** in high-traffic areas on concrete, asphalt or most sealed surfaces; for best results, use on a smooth, sealed surface
- Constructed of 40-ounce, vinyl-coated fabric with an open-cell foam core; compresses to approximately 1/4" when driven over; **springs back to shape when vehicles pass**
- Can withstand **indoor or outdoor traffic from heavy vehicles**; low-profile, 1 1/2" berm accommodates pallet jacks, heavy carts and dollies
- Predrilled aluminum mounting strips with **anchors secure berm to most surfaces**; remove anchors to reposition and **create any configuration**
- **Vented corner** allows built-up air pressure caused by heavy vehicle driveovers to escape; **wall ends** seal flush for seepage-free connection
- ◆ **Helps you comply** with SPCC and Stormwater Regulations

PLR526	Orange	4"W x 10'L	1/roll	\$52		

\* ⚠ **WARNING:** Cancer, Birth Defects and Reproductive Harm - www.P65Warnings.ca.gov

Patent 5,820,297

\* **NEW**

Secure to your floor with fast-curing Sili-Thane 803 Sealant (PTY340, sold on page 155).

Connect barrier sections and corners with vinyl cement (PTY105, sold on page 155).

# SEALS TIGHT TO STOP THE SPILL.

**PLR267**  
Built-in connectors let you  
create barriers of any length.

**BEST  
SELLER!**

**EXCLUSIVE!**

## **pig** SpillBlocker Dike — Fast protection for spreading spills and leaking machines or for capturing liquids during maintenance.

- **Exclusive New Pig formulation** resists tearing, and a tacky bottom layer seals tight to smooth surfaces
- Reusable dike is flexible and formable to shape to the spill; **confines and diverts fluids without absorbing** them, making cleanup or reclamation simpler
- **Built-in connectors create a liquidproof seal** and allow you to join as many sections as you need (add connectors and corners to PLR204 and PLR280 to join sections)
- Polyurethane material **resists water, oils and many chemicals**; **cleans easily** with soap and water
- **High-visibility color** draws attention to spill for increased safety
- ◆ **Helps you comply** with 40 CFR 112.7 SPCC Regulations where containment devices can be used to control or prevent oil discharges
- ◆ **Helps you comply** with 40 CFR 112.26 when used as a BMP in a Stormwater Pollution Prevention Plan

**PLR212**

**EXPERT  
ADVICE**

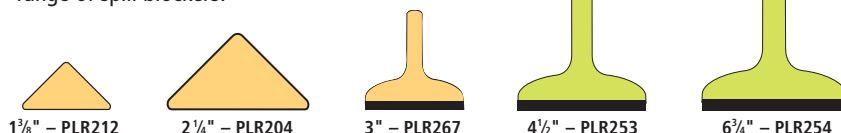

You're only 5 steps from effective  
spill response:  
[newpig.com/spillresponse](http://newpig.com/spillresponse)

Have a leak that's starting to spread? Just surround your machine with a dike to contain the liquid until you can make repairs.

## AVAILABLE IN FIVE HEIGHTS!

Contain spills from shallow to deep with our wide range of spill blockers.

**PLR254**  
Taller dikes contain more liquid.  
Our tallest dikes can handle high-volume  
spills and pooling liquids up to 6¾" deep.

**PLR205**  
Connector

**PLR204**

Contain washdown liquids or  
channel to drains.

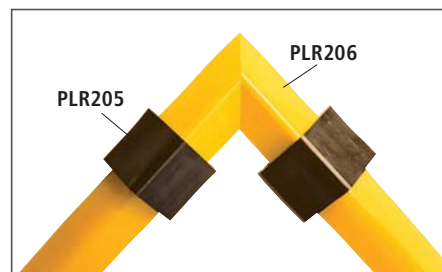

**PLR204**  
Dike

**PLR205**  
Connector

**PLR280**

Attach the **SpillBlocker Vacuum Dike (PLR280)** to your wet vac — the four intakes and integrated channels will suck up liquid faster than a traditional vacuum. You can also connect it to the 2¼" SpillBlocker Dike (PLR204) to create a larger containment area.

Add corners and connectors (PLR205 and PLR206) to PLR204 to join dike sections and/or Vacuum Dikes together.

Patent 5,236,281

NOTE: Due to the nature of softer urethane, the physical properties of these products may change over time with exposure to certain environmental conditions like temperature, humidity and UV radiation. Typical product life expectancy is five years. Inspect the product regularly to ensure it is in a usable state. For details and chemical compatibility, call Technical Services at 1-800-HOT-HOGS (468-4647) or visit us online at [newpig.com](http://newpig.com). For temporary use only. Pick up after each use, clean, then store properly. Do not leave down for extended periods of time or drive vehicles over dike.

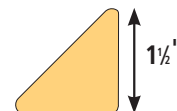

**FOR MACHINES WITH CONSTANT LEAKS, SEE SEMIPERMANENT BARRIERS ON PAGES 154–157.**

## PIG® DoorBlocker Dike — Quickly seal off a doorway from a spreading spill or washdown liquid.

- **Ideal as a barrier** during washdowns, as a **dam** to control or contain spilled liquids or as a **diverter** to direct water or liquid away from equipment or supplies
- **Polyurethane material** resists water, oils and many chemicals
- **Hi-viz yellow** color draws attention to spill
- **Fits any doorway** up to 4' wide
- Lightweight dike is **easy to handle and deploy; reusable** and easily cleaned

Unique 45° wedge design gives this special dike a tight fit against doorjamb.

### PIG® DoorBlocker Dike

Item #	1-2	3-5	6+
PLR213 • 2"W x 4'L x 1.5"H	\$241	\$225	\$218

**BEST SELLER!**

Patent 5,236,281

See note on page 159 for more details on compatibility and life expectancy.

## PIG® WashBlocker Dike — Easily keep washdown liquid from going through doorways or reaching rugs.

- Use low-profile spill dike for **routine containment** of washdown and sanitizing liquid
- **Block doorways**, protect carpeting and channel liquid to drains
- Lightweight strip is **easy to handle** and store
- **Reusable barrier** cleans up easily
- **Bright green** color is highly visible

Tear-resistant polypropylene top withstands repeated use.

Tacky urethane bottom creates a leakproof seal on dry floors.

### PIG® WashBlocker® Dike

Item #	1-2	3-5	6+
PLR500 • 1.25"W x 10'L x 0.75"H	\$243	\$236	\$232

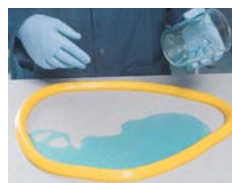

Patent 5,236,281

See note on page 159 for more details on compatibility and life expectancy.

## PIG® SpillBlocker Tabletop Dike — Create a mini-barrier in seconds with our lowest-profile dike.

- **Contains benchtop spills** without absorbing; ideal for small spills on smooth work surfaces
- **Polyurethane material** resists water, oils and many chemicals
- Cut to any length for a **custom fit**

Complete the loop for total spill containment.

### PIG® SpillBlocker® Tabletop Dike

Item #	1-2	3-5	6+
PLR229 • 1"W x 4'L x 0.75"H	\$72	\$63.15	\$58.85

Patent 5,236,281

See note on page 159 for more details on compatibility and life expectancy.

PLR230

Bottom layer "seeps" into surface cracks to form a liquidtight seal.

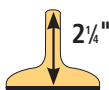

**EXCLUSIVE!**

## **pig** SpillBlocker Rough Surface Dike — Special bottom layer fills into surface cracks to stop spills on asphalt.

- **Exclusive New Pig formulation** has a super-tacky bottom layer for tight seals on rough surfaces
- Specially designed bottom layer "seeps" into surface cracks; **our best blocker for asphalt**
- **Fast protection** when spills head for your drain, **confines and diverts fluids** without absorbing for easy cleanup or reclamation
- 2¼" height contains spills up to 2" deep; **intended for one-time use only**, and should not be left down for extended period
- ◆ **Helps you comply** with 40 CFR 112.7 SPCC Regulations where containment devices can be used to control or prevent oil discharges
- ◆ **Helps you comply** with 40 CFR 122.26 when used as a BMP in a Stormwater Pollution Prevention Plan

Easy installation — lay dike down on its side, turn it over so sticky strip contacts asphalt and press into place.

Pig® SpillBlocker® Rough Surface Dike	
Item #	1+
PLR230 • 2"W x 10'L x 2.25"H	\$279
PLR230 Contents • 1 Connector • 1 Disposal Bag	

Patent 5,236,281

See note on page 159 for more details on compatibility and life expectancy.

*"We have tried several products to seal against asphalt and none have been as effective as the rough surface dike, which 'flows' into crevices and crannies to provide a **liquid-tight seal every time.**"*

— Philip, PLR230 Customer

# LIKES TO PLAY IN TRAFFIC

PLR350

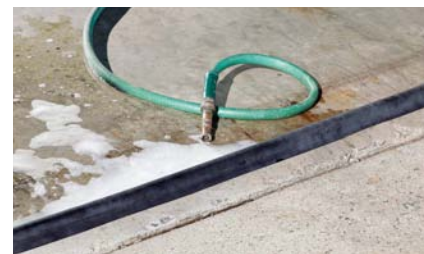

## OTHERS GET SMASHED!

PLR351

Optional corner pieces let you make sharp 90° turns to create a fully enclosed containment area.

Interlocking end joints connect dike sections to create longer lengths.

Creates a tight seal that contains liquids, diverts stormwater and helps you comply with regs.

## **PIG** Drive-Over SpillBlocker Dike — The ONLY flexible barrier designed for traffic and long-term outdoor use.

- First flexible barrier **designed for traffic and long-term outdoor use**; driveovers won't rip, tear or crush it to compromise containment
- **HogHyde skin** stands up to heavy traffic driveovers and resists UV rays
- **Molds easily** around mounting brackets or other obstacles
- **Provides a full-width bond** that strengthens over time
- **Reusable** — cleans up with soap and water; can be picked up and repositioned as needed
- ◆ **Helps you comply** with 40 CFR 112.7 SPCC Regulations where containment devices can be used to control or prevent oil discharges
- ◆ **Helps you comply** with 40 CFR 122.26 when used as a BMP in a Stormwater Pollution Prevention Plan

**Problem:** Customers were trying to use our spill response dikes for long-term outdoor and driveover applications — and they didn't work.

**Finding the solution:** To create a barrier tough enough for long-term use and driveover applications, we started with our patented HogHyde® skin. Then we combined it with our super-sealing urethane so that it would bond to concrete without adhesive. When we tested our new dike in all kinds of harsh conditions, it didn't become brittle or lose adhesion — in fact, it stayed put until a snow plow peeled it up.

**Problem solved:**  
**PIG Drive-Over SpillBlocker Dike**

with  
**HogHyde®**  
Skin

### PIG® Drive-Over SpillBlocker™ Dike

Item #	1-2	3-5	6+
PLR350 • 2"W x 10'L x 1"H	\$403	\$384	\$368
PLR352 • 2"W x 5'L x 1"H	\$209	\$196	\$190
PLR351 • Corner • 2"W x 6"L x 1"H	\$134		

Patent Pending

See note on page 159 for more details on compatibility and life expectancy.

## A CLOSER LOOK

HogHyde® skin stands up to heavy traffic and resists UV rays.

Super-sealing urethane bonds to concrete and smooth surfaces without adhesives.

## Water-Activated Flood Bags & Barriers — Dam floodwater for quick protection with the smart alternative to old-school sandbags.

- Contains super absorbent polymer that **swells on contact with water** to form a solid, heavy barrier
- Sandbag alternatives are **lightweight, compact and easy to handle** prior to activation; place in flood-prone areas when you know water is coming
- **Flood Bags** can be stacked up to three rows high; build even higher retaining walls by using a pyramid layout
- **Flood Barriers** are designed to stop water in front of entrances and dock doors; built-in wedge design helps prevent barriers from rolling out of place; choose 5'L, 10'L or 17'L

Non-activated bags are flat and easy to handle.

Activated bags swell up to stop floodwater.

PIG® Water-Activated Flood Bag 	
Item #	1+
WTR009 • 15"W x 26"L x 0.25"H • 10 bags • Absorbs up to 4 gal./bag	\$64
WTR010 • 15"W x 26"L x 0.25"H • 36 bags • Absorbs up to 4 gal./bag	\$220
PIG® Water-Activated Flood Barrier 	
Item #	1+
WTR011 • 9.5"W x 5'L x 0.25"H • 4 barriers • Absorbs up to 4.25 gal./barrier	\$52
WTR012 • 9.5"W x 5'L x 0.25"H • 16 barriers • Absorbs up to 4.25 gal./barrier	\$202
WTR013 • 9.5"W x 10'L x 0.25"H • 2 barriers • Absorbs up to 8.5 gal./barrier	\$52
WTR014 • 9.5"W x 10'L x 0.25"H • 8 barriers • Absorbs up to 8.5 gal./barrier	\$198
WTR015 • 9.5"W x 17'L x 0.25"H • 1 barrier • Absorbs up to 14.5 gal./barrier	\$41
WTR016 • 9.5"W x 17'L x 0.25"H • 5 barriers • Absorbs up to 14.5 gal./barrier	\$202

Saltwater Notice: Not for use with saltwater flooding.

BEST SELLER!

## Water-Filled Flood Barrier — Reusable barriers contain, control and divert floodwaters.

- Fill these **durable 10 mil polyurethane tubes** with water to divert floodwaters
- **Reusable**, compact and lightweight for storage, with **dual chambers** to prevent water curb from rolling
- **WTR031 and WTR030 deploy up to 10"H** when filled with water; **WTR029, WTR028 and WTR027 deploy up to 6.5"H** when filled with water

PIG® Water-Filled Flood Barrier			
Item #		1-3	4+
WTR031 • 38"W x 20'L x 10"H Capacity 700 gal.		\$463	\$440
WTR030 • 38"W x 10'L x 10"H Capacity 350 gal.		\$305	\$289
WTR029 • 23.5"W x 20'L x 6.5"H Capacity 160 gal.		\$278	\$263
WTR028 • 23.5"W x 10'L x 6.5"H Capacity 80 gal.		\$180	\$171
WTR027 • 23.5"W x 5'L x 6.5"H Capacity 40 gal.		\$121	\$115

## PIG® Water-Filled Containment Dike — Keep washdown liquids in check with our economical roll-up dike.

- Heavy-duty dike is **durable, reusable and moldable**; just place on ground and fill with water to create a gravity-based berm (not 100% watertight)
- Great for **controlling and directing water** from pressure washing operations (not for long-term containment of liquids)
- **High-visibility orange dike helps prevent trips and falls** during washdowns
- ◆ **Helps you comply** with SPCC and Stormwater Regulations

**PLR260**

Drain the water and roll it up for compact storage.

PIG® Water-Filled Containment Dike	
Item #	1+
<b>PLR260</b> • 9.5" W x 50' L • 1 each • Capacity 47 gal.	<b>\$385</b> *
<b>PLR266</b> • 9.5" W x 25' L • 1 each • Capacity 23 gal.	<b>\$225</b> *
<b>PLR225</b> • 4.5" W x 10' L • 1 each • Capacity 9 gal.	<b>\$103</b> *

**PIG OIL-ONLY MAT**  
**ABSORBS**  
**OIL**

**NOT**  
**WATER**

Don't waste an ounce of absorbency! Work smarter with our water-repellent mat.

See page 43.

## **Conical Drain Plug** — Seal drains below the grate without the hassle or permanence of cement.

- Durable polyurethane plug forms a **liquidtight**, chemical-resistant seal in seconds
- Wedge plug in drain; **easy alternative** to cement
- Installed plug is **low-profile** enough to fit below floor grate
- Allows your drain to function when plug is out; **removes easily** with hand tools
- **Conical drain plugs available in sizes** from 2" to 6"
- **Kit (PLR207)** contains **three sizes** to seal drains from 2" to 4" in diameter
- ◆ **Helps you comply** with SPCC and Stormwater Regulations

PIG™ Conical Drain Plug			
Item #		1-4	5+
PLR252 • For 6" Dia. Drains		\$192	\$186
PLR210 • For 4" Dia. Drains		\$87	\$83
PLR281 • For 3.5" Dia. Drains		\$93	\$74
PLR209 • For 3" Dia. Drains		\$86	\$81
PLR208 • For 2" Dia. Drains		\$71	\$65
PIG™ Conical Drain Plug Kit			
Item #		1+	
PLR207 • For 2" to 4" Dia. Drains		\$260	
PLR207 Contents • (1) 2" Dia. Conical Drain Plug • (1) 3" Dia. Conical Drain Plug • (1) 4" Dia. Conical Drain Plug			

See note on page 159 for more details on compatibility and life expectancy.

## **Multi-Flex Inflatable Pipe Plug** — Expands up to eight times its size to fit a wide range of pipe dimensions.

- **Small, flexible design** can be snaked through hot tap or branch pipes into larger, otherwise inaccessible pipelines
- Pipe plug **inflates up to eight times its size** to prevent the flow of liquids during repairs or to block pipes or drains in the event of a spill (connects to your air compressor)
- **Conforms to a wide range** of pipe dimensions; inflate fully or partially to fit your application
- **UV-resistant, nylon-reinforced nitrile** resists oils and has a shelf life of more than ten years
- **Compact** for storage and grab-and-go applications

 **Helps you comply** with Stormwater Regulations

NOTE: Seal may not be airtight. Not recommended for pressure tests.

When deflated, Plugs slide into just about any pipe. Three models cover a range of pipes from 3.5" to 24".

Multi-Flex™ Inflatable Pipe Plug		
Item #		1+
PLR113 • For 6" to 24" Dia. Pipes • 10 PSI Max • 2" MNPT To 1/2" Quick Connect Inflation Port		\$1290
PLR112 • For 5.5" to 16" Dia. Pipes • 20 PSI Max • 2" MNPT To 1/2" Quick Connect Inflation Port		\$849
PLR111 • For 3.5" to 8" Dia. Pipes • 30 PSI Max • 1" MNPT To 1/4" Quick Connect Inflation Port		\$471

Use compressed air supply to inflate plug and block liquid.

# FAST PROTECTION THAT'S UV TOUGH!

TOP 10  
BEST  
SELLER!

PLR403

**EXCLUSIVE!**

## **piG** DrainBlocker Drain Cover — Our patented design protects drains, seals tight and won't rip.

- **Long-lasting design** is great for outdoor deployment without worrying about degradation
- **PIG-tough top layer** resists stretching, ripping, tearing and infrared light
- **Super-sealing bottom layer** conforms to uneven surfaces and tightly seals drains
- **Diesel-compatible materials** withstand prolonged exposure to diesel fuel and gasoline
- Use for quick spill response or long-term, **outdoor deployment**
- **Eliminates the need** to frequently deploy and remove a temporary cover or permanently seal your drains
- Ideal for **drain protection** where liquid transfers, washdowns or other leak- and spill-prone jobs are common
- **DuPont Elvaloy technology** provides lifelong flexibility plus chemical, UV and infrared light resistance to vinyl top
- **DrainBlocker carrying bags and cases** available on page 171
- ◆ **Helps you comply** with SPCC and Stormwater Regulations

**Problem:** Our original DrainBlocker used to work great for spill response: seal the drain, pick it up, use it again. The problem was that people would leave it outside for weeks and it would become gooey. Or it would tear when they picked it back up.

**Finding the solution:** We wanted to come up with a top cover that could withstand long-term outdoor use and keep the urethane layer from tearing when customers pulled it off the drain. We created 15 different versions before we had the best combination. The next step was fusing the layers together. We ultimately patented a way to bond a rugged layer of DuPont Elvaloy vinyl with our super-sealing urethane to create the toughest, most weather- and UV-resistant drain cover on the market.

**Problem Solved:**  
**PIG DrainBlocker Drain Cover**

These tough covers protect your drains — no rips, no tears, no worries!

### Tear Resistant

Tougher than standard covers to resist ripping.

### Chemical Resistant

Stands up to long-term hydrocarbon exposure.

### UV & IR Resistant

Let the sun shine — this cover is made for outdoor use.

### Easy to Clean and Reuse

Dirt and grime won't stick, so the top wipes clean for storage and reuse.

### PLR403

Tough enough to use over and over again or leave down long-term — and it won't rip when you pick it back up.

"We have deployed these around the perimeter of our facility ... In case of a spill, we can put these down to **prevent anything from getting into the storm drains**. They have worked without incident in testing and drills."

PLR306

 **EXCLUSIVE!**

## **Drive-Over DrainBlocker** — The only drain cover you can buy that can handle heavy tanker traffic.

- PIG-tough top layer **resists heavy vehicle traffic**, stretching, ripping, tearing and infrared light
- **Long-lasting design** is great for outdoor deployment without worrying about degradation
- **Super-sealing bottom layer** conforms to uneven surfaces and tightly seals drains
- **Diesel-compatible materials** withstand prolonged exposure to diesel fuel and gasoline
- **Eliminates the need** to frequently deploy and remove a temporary cover or permanently seal your drains
- Ideal for **long-term drain protection** where liquid transfers, washdowns or other leak- and spill-prone jobs are common
- Also **withstands UV rays**, infrared light and all weather conditions
- Polyurethane and rubber materials **resist water, oils and many chemicals**
- ◆ **Helps you comply** with Stormwater and SPCC Regulations

**Problem:** Drain covers shred when vehicles drive over them.

**Finding the solution:** Our bottom urethane layer sealed tight and stuck just the way we wanted it to, so we set out to create a top layer that would stand up to all kinds of conditions and be tough enough to drive over. But getting it just right took years of trial and error.

We tried every type of vinyl, rubber and urethane formulation out there and finally had a breakthrough with a material that we named HogHyde®. It's the toughest, most UV-resistant and weatherproof top layer ever — and it stands up to heavy traffic.

**Problem Solved:**  
**PIG Drive-Over DrainBlocker**

Our toughest DrainBlocker can take whatever your parking lot dishes out.

### Punctures

Stands up to debris and sharp objects that trash other covers.

### Abrasion

Won't wear down even when tires track on dirt and gravel.

### UV & IR Light

Made to stand up to the baking sun in your parking lot.

### Chemicals

Resists many commonly used chemicals to keep drains secure.

PLR308

Even after repeated tanker or forklift driveovers, this DrainBlocker still seals tight. And it won't rip when you pick it back up. Use it over and over again!

PLR340 (Only)

PLR330

Built-in connectors join multiple covers to protect longer trench drains.

Round drains? No problem! We have DrainBlockers for those, too.

Patent 8,117,686

Urethane Notice: Due to the nature of softer urethane, the physical properties of these products may change over time with exposure to certain environmental conditions like temperature, humidity and UV radiation. Typical life expectancy is 5 years. Please inspect the stored product regularly to ensure it is in a usable state. For more details and for chemical compatibility, please call Technical Services. For optimum performance, ensure that the area surrounding your drain is free of debris, cracks and holes.

Do you know what materials violate regs and harm the environment if you discharge them down the wrong drains? Get the checklist here: [newpig.com/protectyourdrains](http://newpig.com/protectyourdrains)

# DRAIN PROTECTION THAT WON'T DRAIN YOUR BUDGET

SGN1060  
(Sold at newpig.com)

PLR601

**EXCLUSIVE!**

## **Pig** Rapid Response DrainBlocker Drain Cover — Stay prepared for spill emergencies and meet EPA regs.

- **Helps you meet spill plan requirements** without buying more cover than you need
- Ideal for one-time-use **emergency spill response**; mount on a wall (bracket sold separately) or store in a spill kit
- **Polypropylene top layer** prevents drain cover from stretching or tearing when you deploy it; cover resists chemicals, oils and detergents
- **Super-sealing urethane bottom layer** creates a tight seal
- Packaged in an easy-open, **hi-viz storage tube** so workers can find it fast and get to the spill
- **Storage tube (included) is for indoor use only**; for outdoor storage, search PLR700 at newpig.com
- Add a **Wall-Mount Bracket** (BKT102, sold at newpig.com) for easier access and faster response
- ◆ **Helps you comply** with SPCC and Stormwater Regulations

SELLER!**

**170 No Guff Guarantee®** • Every product. Every penny. Every time.

## **PIG® DrainBlocker Curb-Inlet Drain Cover** — You can mold this pliable drain cover to seal curved or vertical openings.

- **Thin, pliable drain cover** can form into an S-shape to block liquids from vertical storm drains
- Tear-resistant polypropylene top **withstands repeated use**
- Super-sealing urethane bottom layer creates a **tight seal on curved or face-opening drains**
- Reusable cover **resists chemicals, oils and detergents**
- ◆ **Helps you comply** with SPCC and Stormwater Regulations

PIG® DrainBlocker® Curb-Inlet Drain Cover			PIG	
Item #	1-3	4+		
PLR510 • 18"W x 120"L • For Curb-style Drains up to 12"W x 114"L	\$456	\$442		

Patent Pending  
See note on page 169 for more details on compatibility and life expectancy.

## **PIG® DrainBlocker Accessories** — Keep your drain cover protected and ready for quick response.

- **Hardshell case** (PLR285–PLR288) of rigid polyethylene is corrosion and UV resistant; threaded, screw-in brackets mount on any vertical surface
- **Carrying bag** fits rectangular and square (PLR232) or 12" round (PLR282) covers; designed for easy transportation and fast spill response
- **Wall-mount Holder** (PLR215) protects drain cover and withstands damp environments; can be installed indoors or out

### Drain Cover Carrying Storage Case

# STORMWATER FILTRATION

## Stormwater Regs: Why comply?

Noncompliance with EPA's Stormwater Regs can get you popped with a violation. But aside from the hassles and headaches, protecting the environment is just the right thing to do.

### We know NPDES, SWPPP, SWMP and BMPs

If you're in a group that must comply (call us if you're not sure!), you need to obtain National Pollutant Discharge Elimination System (NPDES) permit coverage by filing a Stormwater Pollution Prevention Plan (SWPPP) or Stormwater Management Plan (SWMP). Plan requirements may include implementing Best Management Practices (BMPs), which is where PIG products come in handy.

### New Pig can help!

Stormwater BMPs don't have to be complicated or cost a fortune. The products in this section are designed to help you protect the environment and comply with regs. So whatever's threatening to go down your drains, we can help you keep it out.

### PIG Products to help you meet Stormwater Regs:

<b>Drain Filters</b> .....	173-175
<b>Curb Drain Filter</b> .....	175
<b>Sediment Drain Filters</b> .....	176
<b>Skimmer Squid</b> .....	176
<b>Over-The-Drain Sediment Filter</b> .....	177

**All aboard the treatment train! Combine multiple products to remove more pollutants from runoff.**

PIG Stormwater Filter Sock

PIG Storm Drain Filter (installed under grate)

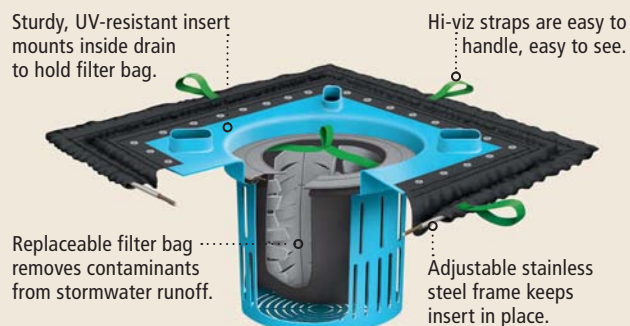

# CHANGE FILTERS IN 10 SECONDS

## **PIG** Catch Basin Filtration Insert System — Install the drain insert once, then replace just the filter bag!

- **Drop-in filter bag replacements** save you money and reduce waste; dispose and replace only the filter, not the entire insert
- Removes **oil & sediment** (FLT752–FLT753) or **heavy metals, oil & sediment** (FLT755–FLT756) from your stormwater runoff
- Filter bag **holds up to 40 lbs**; replace when clogged or full by lifting filter bag out of basket (two bags included)
- **Hi-viz, durable straps** make it easy to lift full bags from drain
- UV-resistant **drain insert lasts 2–3 years**; filter bags need to be replaced when clogged or full
- Secures under drain grate; light vehicle traffic can **drive over it**
- ◆ **Helps you comply** with 40 CFR 122.26 Stormwater Regs

### A look inside our Catch Basin Insert:

Installation is an easy, one-person job. Adjustable stainless steel frame with basket keeps filter bag in place — won't fall in the drain like frameless inserts.

PIG® Catch Basin Filtration Insert System

# GUARANTEED NOT TO FALL IN.

FLT007

**BEST  
SELLER!**

Hi-viz straps show from a distance that you're proactively managing stormwater.

## **pig** Adjustable Frame Storm Drain Filter — Adjustable frame and 4-stage filtration guard your drains against oily runoff.

- Stainless steel adjustable frame **holds up to 60 lbs.** of oil, sediment, debris and trash; stays in place even when grate is not installed
- Easy, **one-person job** to install, maintain or remove; just pull on ends of frame and expand filter to match your drain size
- **Four-stage filtration:** Stormwater flows through drain grate onto fabric shelf (Stage 1), passes over filter ring (Stage 2) into collection bag (Stage 3) and over four sets of filter strips (Stage 4)
- PET construction **removes contaminants** at multiple stages, increasing the amount of pollutants captured
- **Patented filter ring** channels water to center of collection bag to prevent untreated water from escaping through overflow ports
- **Filter strips** float freely to remove hydrocarbons from moving water
- ◆ **Helps you comply** with 40 CFR 122.26 Stormwater Regs

### Pig® Adjustable Frame Storm Drain Filter

Item #	Storm Drain Size	Product Size	Abs. Up To.	1-4	5+
<b>FLT006</b>	20"-31"W x 20"-31"L	20"W x 20"L x 20"H	1 gal.	<b>\$100</b>	<b>\$98</b>
<b>FLT007</b>	24"-37"W x 35"-49"L	23"W x 34"L x 26"H	1.25 gal.	<b>\$110</b>	<b>\$107</b>

<b>TLS330</b>	Grate Lifting Hook			<b>\$40</b>	

\* ⚠️ **WARNING:** Cancer - www.P65Warnings.ca.gov

Patent 10,508,430

### A look inside our Storm Drain Filter:

**Stage 1** — Fabric shelf starts removing pollutants immediately.

Hi-viz straps are easy to handle, easy to see.

**Stage 2** — Filter ring pulls oil from stormwater and channels runoff into collection bag.

Adjustable frame holds filter in place.

**Stage 3** — Collection Bag.

Overflow ports prevent blockage.

**Stage 4** — Filter strips act like tentacles to remove hydrocarbons.

Grommet lets you attach optional filtration products. (See FLT012 on page 176)

Read about how to handle stormwater pollution: [newpig.com/stormwaterpollutionprevention](http://newpig.com/stormwaterpollutionprevention)

## PIG® Sediment Drain Filter — Collect debris and dirt to comply with regulations and protect drains.

- **Ideal for use in the construction industry** and anywhere sediment collection is a concern
- **Geotextile constructed of monofilament polypropylene** captures sand, dirt, sediment, trash, leaves, sticks and cigarette butts
- **Hi-viz integrated straps** secure the bag in place under the drain grate without the use of rebar and cradle the grate for added support and security during installation and removal
- **Filters with overflow ports** allow excess water to release into drain during heavy flow or if filter is blocked; also provides an opening to collect samples of filtered stormwater
- ◆ **Helps you comply** with 40 CFR 122.26 Stormwater Regulations

Reusable Drain Filter makes disposing of collected sediment easy during periodic maintenance.

Integrated straps make positioning the Drain Filter in place an easy task — no need for rebar.

**FLT746**  
Without Overflow  
Ports Option

**FLT748**  
With Overflow  
Ports Option

"These inserts are much better than ones my company has been using ... they do not rip or break from the weight of the sediment being drained out ... much easier to install and replace."

— Jessica, FLT749 Customer

**BEST  
SELLER!**

### PIG® Sediment Drain Filter

(Specify: With overflow ports or without overflow ports)

Item #	Filtration	Storm Drain Size	Product Size	1-4	5+
<b>FLT746</b>	Debris & Sediment	22"–28"W x 22"–28"L	29"W x 29"L x 20"H	<b>\$62</b>	<b>\$60</b>

<b>FLT749</b>	Debris & Sediment	32"–37"W x 42"–48"L	38"W x 49"L x 20"H	<b>\$92</b>	<b>\$90</b>

Absorbent "tentacles" sweep through moving water to cover more area and capture more oil.

**FLT012**

## PIG® Storm Drain Skimmer Squid — Install a passive last line of defense to capture oils and fuels from your stormwater runoff.

- **Filters viscous and non-viscous oils**, sheens and fuels from collected water prior to outfall discharge
- **3-foot diameter reach covers the largest area** of any in-the-drain skimmer on the market
- Patent-pending design combines two unique absorbents: **absorbent spaghetti-strip pillow** floats on the surface to remove contaminants; **absorbent pompom** sweeps through moving water to capture oil below the surface
- Works effectively in **standing water or turbid conditions** during rain events
- **Designed to work in tandem** with PIG Catch Basin Filtration Insert System (page 173) or PIG Storm Drain Filter (page 174)
- ◆ **Helps you comply** with 40 CFR 122.26 Stormwater Regs

PIG® Storm Drain Skimmer Squid		PIG
Item #		1+
<b>FLT012</b>	Absorbs up to 2.78 gal./box • 2/box 24"H x 15"Dia.	<b>\$73</b>

Patent Pending

## PIG® Over-the-Drain Sediment Filter — Magnets hold this filter in place for easy installation and removal.

- Remove sediment and debris from stormwater before it enters your drains and inlets; ideal as a Best Management Practice (BMP) to help avoid violations
- Integrated magnetic strips on underside of filter allow easy installation in seconds — no lifting grate, no cable ties, no pinched fingers
- Natural coconut fibers are densely woven and vertically oriented to **maximize sediment removal and flow rate**
- Designed and tested to **remove 99%** of particulate size 0.425mm and larger
- **Reusable product** can be rinsed and reinstalled for extended service
- ◆ **Helps you comply** with 40 CFR 122.26 when used as a BMP in a Stormwater Pollution Prevention Plan

PIG® Over-The-Drain Sediment Filter					
Item #	Filtration	Storm Drain Size	Product Size	1-4	5+

FLT830	Sediment, Trash & Debris	24" x 24"	30"W x 30"L x 2.25"H	\$139	\$129

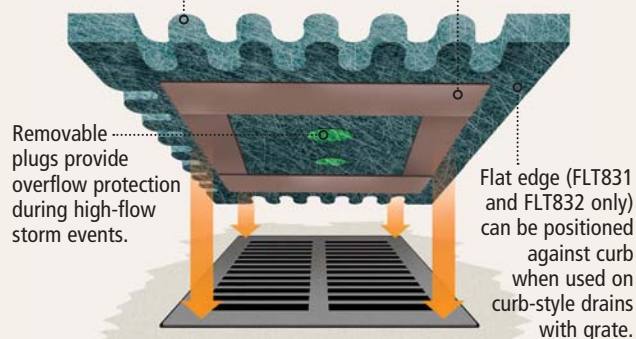

### EXPERT ADVICE

Learn how to prevent stormwater pollution at your facility with passive devices and green strategies: [newpig.com/stormwaterpollution](http://newpig.com/stormwaterpollution)

Scalloped edges and built-in ports (on top of filter) help prevent clogging.

Magnetic strips keep filter in place and make installation fast and easy.

Removable plugs provide overflow protection during high-flow storm events.

Flat edge (FLT831 and FLT832 only) can be positioned against curb when used on curb-style drains with grate.

## Trench Debris Filter — Roll out this economical, eco-friendly coconut fiber to help keep drains clean.

- Acts as a short-term **Best Management Practice** for sediment issues like construction-phase stormwater sediment removal
- **Built to withstand UV**, weather and light vehicle traffic
- Use with PIG Filter Socks (page 178) to **create a treatment train**
- ◆ **Helps you comply** with 40 CFR 122.26 Stormwater Regs

Trench Drain Debris Filter			
Item #		1-3	4+
FLT700	Filters Trash, Debris & Sediment For Storm Drains and Trench Drains up to 26" W • Overall dimensions 27" W x 21' L x 1.25" H • 1 roll/box	\$187	\$183

# FILTER OUT THE NASTY STUFF

**Heavy Metal Filter Socks**  
(FLT822–FLT823) remove oil and sediment plus zinc, cadmium, lead and other dissolved metals.

Filter Socks also available  
for **oil and sediment only**  
(FLT820–FLT821 sold below).

FLT823

## Stormwater Filter Sock — Remove pollutants to keep your runoff clean and compliant.

- Filter sock **allows water to pass through** as it removes oil, sediment, trash, debris and other pollutants from your stormwater runoff
- **Heavy Metal Sock** (FLT822, FLT823) also removes zinc, cadmium, chromium, iron, lead and other dissolved metals
- **Patented dual-chamber design:** first chamber's filler pulls in hydrocarbons; second chamber is filled with stone ballast (FLT820, FLT821) or our special media blend (FLT822, FLT823) for two-stage filtration of heavy metals
- **Weighted sock** eliminates the labor and expense of staking or trenching
- Durable geotextile skin **removes total suspended solids (TSS)** over 297 microns (50 mesh) and maintains an impressive flow rate of 2 gpm per foot
- **Flexible design** follows the contours of uneven ground for maximum surface contact; can be shaped, even at right angles, to create fully contained spaces
- **Heavy-duty handles** make socks easy to carry, install, reposition and replace
- Can use multiple socks to build a **treatment train** for source-to-drain protection
- ◆ **Helps you comply** with 40 CFR 122.26 Stormwater Regs

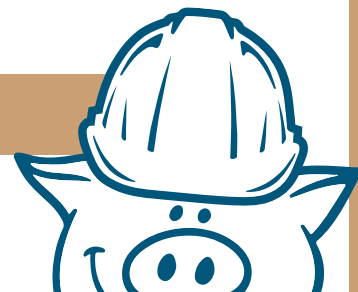

PIG® Stormwater Filter Sock 					
Item #	Filtration	Product Size	Abs. Up To.	1-5	6+

## FOR DRAINS AND SOURCE POLLUTANT REMOVAL

Our Filter Socks are ideal for use around drains, dumpsters, oil containment areas, downspouts, stock piles, property perimeters, culvert pipes, washdowns and more. Create a treatment train for source-to-drain protection anywhere you need it!

Downspouts

Dumpsters

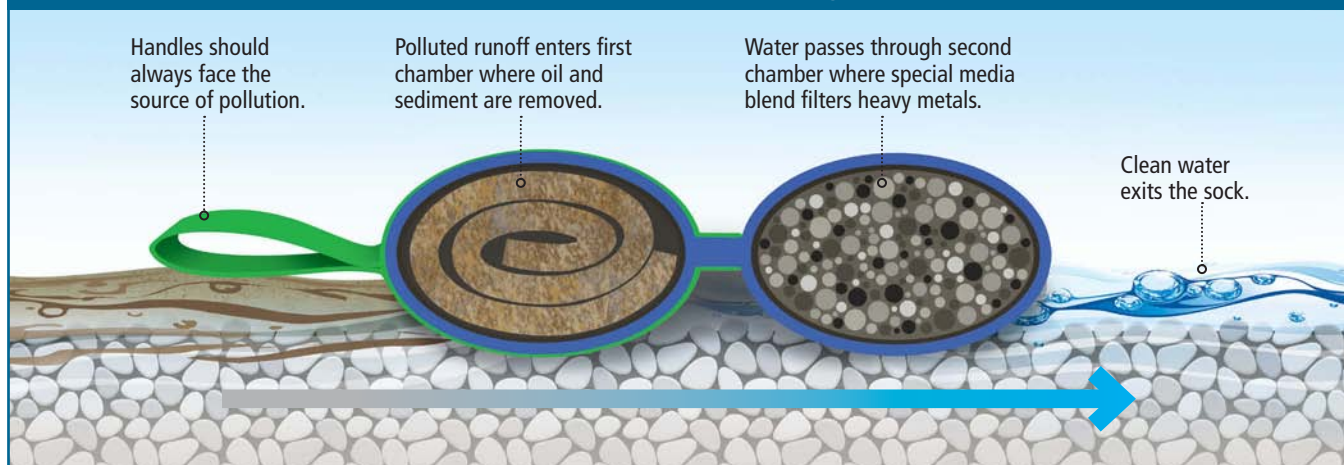

Curb drains

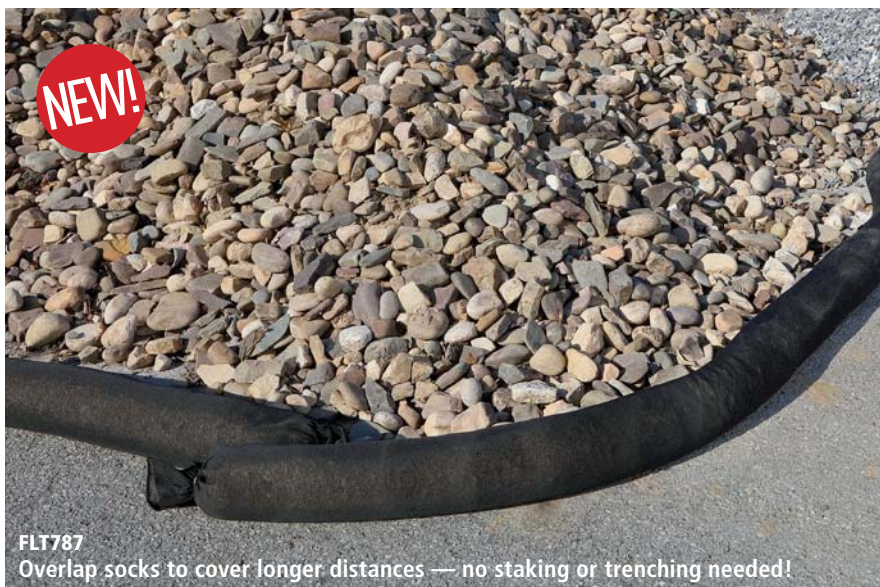

Roof drains

### A look inside our Stormwater Heavy Metal Filter Sock:

Offered in two colors that either blend into the environment or stand out for easy inspection.

FLT787

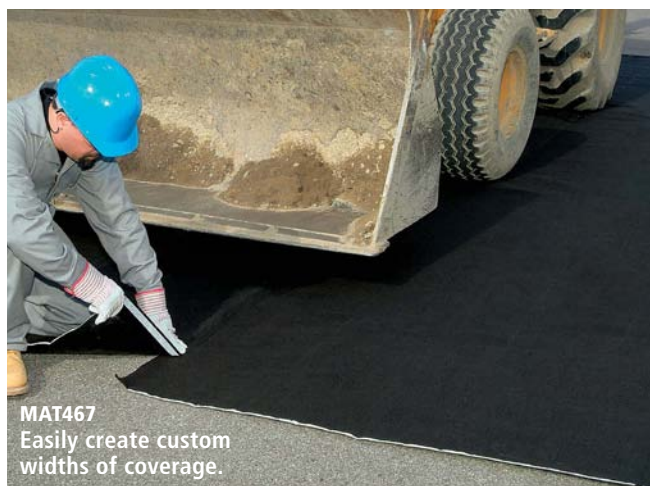

Overlap socks to cover longer distances — no staking or trenching needed!

## Sediment Filter Sock — Remove sediment and debris from stormwater runoff and boost your erosion control efforts.

- **Easy and affordable**, silt sock allows water to flow through while filter media removes total suspended solids, sediment, trash and debris before it enters the water system
- For storm drains, trench and inlet drains, stockpiles, property perimeters, **light construction activities** or as a check dam
- **Achieves max contact** on uneven ground; incredibly flexible to contour edges or drains

PIG® Sediment Filter Sock 				
(Specify color:  Black  Blue)				
Item #	Filtration	Product Size	1	2+
FLT787	Sediment, Trash & Debris	38" dia. x 10'L	\$80	\$78
FLT786	Sediment, Trash & Debris	38" dia. x 5'L	\$60	\$58

## Absorbent Ground Tarp — Keep oily leaks off the ground with our durable barrier.

MAT467

Easily create custom widths of coverage.

- **Heavy-duty three-layer mat** ensures oily leaks and drips never reach the ground; use for outdoor equipment maintenance or storage
- Top layer is constructed with a tough geotextile fabric that's needle punched for **added durability**
- Highly absorbent polypropylene middle layer **traps oil-based liquids but lets rainwater evaporate**
- **Impermeable bottom** barrier film prevents liquids from leaching into ground
- **UV resistant** for extended product life
- **MAT467 is customizable**; material is pretaped on one side with hook closures to easily attach another section

MAT467

MAT445

Precut ground tarps catch leaks during maintenance; MAT444 and MAT445 feature brass corner grommets for tying in place.

PIG® Oil-Only Absorbent Ground Tarp 						
Weight	Item #	Size	Unit	Abs. Up To	1-2	3+
Heavy	MAT467	59"W x 80'L	1 roll	48 gal./bag	\$690	\$661
	MAT444	5'W x 5'L	1 pad	3 gal./bag	\$84	\$80. <sup>85</sup>
	MAT445	10'W x 10'L	1 pad	12 gal./bag	\$215	\$203

FLT901

FLT902

Catch nuisance leaks and drips from oily runoff.

## **pig** Outdoor Filter Berm Pad — Capture oils and other hydrocarbons while rainwater flows through.

- Replaceable absorbent liner **captures leaks and spills** of oils and fuels; clean water passes through walls as hydrocarbons are filtered out
- Berm Pad is **lightweight yet durable**
- **Folds and straps shut** for quick storage and grab-and-go transportation
- **Ideal for temporary storage** of generators and other equipment or containers
- **Corner grommets** let you stake Berm Pad to the ground to help **stay in place** when empty
- ◆ **Helps you comply** with 40 CFR 112.7 and 40 CFR 122.26 Stormwater Regs

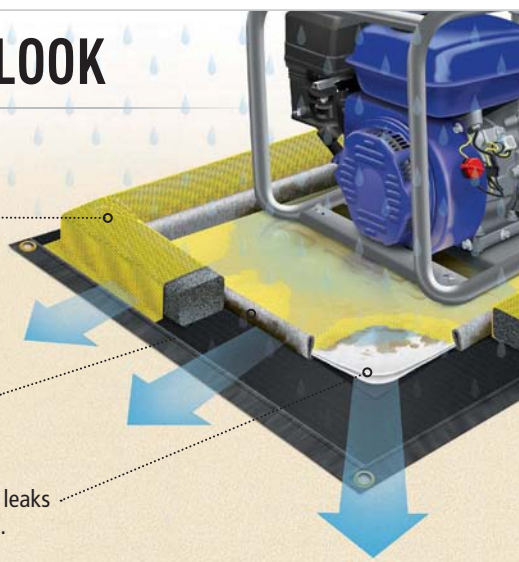

**RFL902**  
Absorbent liner is easy to remove and replace.

### A CLOSER LOOK

2" foam sidewalls provide structure and ensure adequate filtering time in the event of large rainfalls.

Clean water passes through as hydrocarbons are filtered out.

Replaceable liner absorbs leaks and spills of oils and fuels.

\* **WARNING:** Cancer, Birth Defects and Reproductive Harm - www.P65Warnings.ca.gov

## DeWatering Bag — High-surface-area design removes oil and sediment from higher-volume pumping outflows of water.

- Attach to hose or pipe (up to 6") to **remove hydrocarbons** and sediment
- Nonwoven polypropylene **construction resists chemicals**
- Ideal for **spill cleanup**, draining during construction or **pumping out** containment areas, sumps and ponds
- ◆ **Helps you comply** with 40 CFR 122.26 Stormwater Regs

DeWatering Bag		
Item #	1-5	6+
<b>FLT617</b> • 15'W x 15'L Holds 225 cu. ft. 1500 gal./min. flow rate	<b>\$250</b>	<b>\$244</b>
<b>FLT563</b> • 10'W x 15'L Holds 150 cu. ft. 1500 gal./min. flow rate	<b>\$175</b>	<b>\$170</b>
<b>FLT562</b> • 6'W x 6'L • Holds 36 cu. ft. 500 gal./min. flow rate	<b>\$75</b>	<b>\$62</b>

## PipeSock — Attach to a hose or pipe to control and contain oil and sediment during lower-volume dewatering.

- Ideal for **pumping out** containment areas, collection ponds, utility vaults and sumps
- **Remove hydrocarbons and sediment** from water by simply attaching PipeSock to a hose or pipe
- **X-Tex recycled fibers** provide high efficiency and excellent flow
- **Attaches easily to pipes and hoses** with a simple pipe clamp or heavy zip tie (not included)
- ◆ **Helps you comply** with 40 CFR 122.26 Stormwater Regs

PipeSock		
Item #	1-5	6+
<b>FLT565</b> • For 12" Dia. Pipes • Ext. Dia. 12" x 5'L • Holds 3.9 cu. ft.	<b>\$125</b>	<b>\$122</b>
<b>FLT564</b> • For 8" Dia. Pipes • Ext. Dia. 8" x 5'L • Holds 1.7 cu. ft.	<b>\$95</b>	<b>\$90</b>

## Liquid Remediate — Turn oily spills on land into carbon dioxide and water.

- Special formula of microbes that leave only carbon dioxide and water behind; **no harmful byproducts** are left in the environment
- Each mixed or diluted gallon will **remediate approximately one cubic yard of soil**; reapplication may need to occur
- Adheres to the hydrocarbon contaminant and **does not wash away**
- **Dilute product 10:1**; apply with a spray bottle, backpack sprayer or pressure washer on **pavement, soil or grassed areas**

Liquid Remediate™ Cleaning Agent		
Item #	1-2	3+
<b>CLN352</b> • 1 - 5 gal. Container	<b>\$485</b>	<b>\$465</b>

BEST SELLER!

## S-200 OilGone Liquid — Spray your spills with these enzymes to remediate hydrocarbons by enhancing naturally occurring microbes.

- Easy to use formula produces reliable results for **cost-effective cleanup** of fuel on paved and concrete surfaces, soil, water and grassed areas
- Special formula that enhances naturally occurring microbes that **leave only carbon dioxide and water behind**
- Adheres to the hydrocarbon contaminant and **does not wash away**

### S-200 OilGone® Remediation Liquid

Item #	1+
CLN645 • 1 - 5 gal. Container	\$219
CLN644 • 1 - 1 gal. Container	\$65

BEST SELLER!

## FleetKleen Cleaner & Degreaser — Need to clean oily surfaces, parts and tools? Feed your grease and grime to these hungry microorganisms.

- Highly concentrated solution uses **naturally occurring microorganisms** plus specially formulated bio-surfactants
- Leaves only carbon dioxide and water behind; **no harmful byproducts** are left in the environment
- Contains no solvents; **non-toxic and non-hazardous**
- **Dilute product 15:1**; apply using a spray bottle, pressure washer or brush on **concrete and paved surfaces**

CLN341

### FleetKleen™ Industrial Strength Cleaner & Degreaser

Item #	1+
CLN341 • 1 - 5 gal. Container	\$356

## Containment Booms — Contain oil and debris to keep it from spreading and protect the environment.

- Closed-cell polyethylene foam **corrals pollutants** while the skirting barrier hangs below the waterline to stop them from creeping under
- **Galvanized steel chain** along the length of the boom adds weight and rigidity
- Vinyl-coated polyester material is **UV resistant**
- Foam floats are segmented, so **all booms fold up neatly for compact storage**
- Built-in connectors let you **link multiple booms** (two styles shown below)
- Strap handle/anchor point allows **easy one-person deployment** (featured on all models except EconoMax Booms)
- **High-visibility yellow** for instant recognition in emergencies
- Conforms to **OPA-90 specifications** (all except BOM301 and BOM302)
- ◆ **Helps you comply** with 40 CFR 112.7 SPCC Regulations where containment devices can be used to control or prevent oil discharges
- ◆ **Helps you comply** with 40 CFR 122.26 when used as a BMP in a Stormwater Pollution Prevention Plan
- ◆ **Helps you comply** with 33 CFR 154.545(a) regarding discharge containment equipment
- ◆ **Helps you comply** with 33 CFR 154.1040 requirements for facilities that could cause harm to the environment

### Slide connectors

Most booms shown on the opposite page include marine-grade aluminum slide connectors and toggle pins. (Excludes BOM301 and BOM302)

### Snap hooks

PIG Oil and Debris Containment Booms (BOM301 and BOM302) feature snap hooks so you can easily secure and overlap booms.

# Choose your booms based on type of current and body of water:

## For calm waters, low current

Rectangular foam inserts and 16"-18" height provide enough buoyancy for calm water. Effective in bays, harbors and breakwaters.

**Choose these products:**  
EconoMax Booms  
PIG Oil & Debris Booms

BOM103

Rectangular foam insert

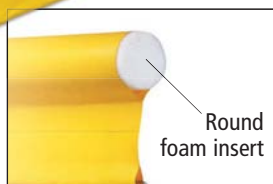

## For calm, shallow waters

10"-high boom with round foam inserts is designed for shallow waters. Use in streams, canals, drainage ditches and swamps.

**Choose these products:**  
Super Swamp Booms

BOM100

Round foam insert

**NEED TO ABSORB  
SPILLS ON WATER?  
SEE PAGES 56-58.**

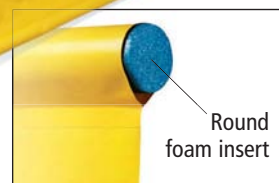

## For fast to strong currents

Round foam inserts and 18"-20" height makes these best for rough waters. Ideal for rivers, shorelines, ports and harbors.

**Choose these products:**  
Optimax Booms & Simplex Booms

BOM107

Round foam insert

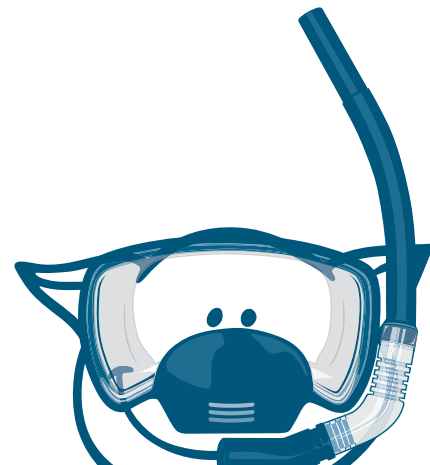

## What are freeboard and draft?

Freeboard

Draft

*Freeboard* refers to the part of the boom that remains above the waterline. The *draft* is submerged below the waterline. Both work together to contain spills.

## Nonabsorbent Oil & Debris Containment Boom

Item #	Product Name	Type of Current	Where to Use	Dimensions (L x H)	Freeboard	Draft	Breaking Strength	1	2+

# PERSONAL SAFETY & PPE

## Quality comes first at PIG, so consolidate your buying and get your PPE here!

When it comes to gloves, glasses, suits and other safety essentials, it's easy to get buried under all the choices. But we've done the heavy lifting for you, partnering with market leaders and narrowing down the selection so you can choose quickly and get back to work. Plus, every purchase comes with the perks of doing business with New Pig:

### No Guff Guarantee®

If you're not happy with your order for any reason, we'll refund every penny, even shipping both ways.

### Fast Shipping

Thanks to our speedy warehouse crew and massive in-stock inventory, most orders ship same day!

### Autoship

Never run out! Get the stuff you use most, right when you need it, shipped automatically.

### Best Service Around

Our team of product experts are armed with info and ready to help. Got a question? Fire away!

# HOW TO CHOOSE A PROTECTIVE SUIT

## Level A

Use when you need the highest level of skin, eye, respiratory and mucous membrane protection. Provides Level A protection when combined with either a Self-Contained Breathing Apparatus (SCBA) or a Supplied Air Respirator (SAR) with egress bottle.

See page 189

WPL922

## Level B

Ideal when you need the highest level of respiratory protection, but a lower level of skin, eye and membrane protection. Provides Level B protection when combined with either an SCBA or SAR with egress bottle.

See pages 189–190

WPL860

## Level C

Select this suit when the type of airborne substance is known, its concentration is measured, the criteria for using Air-Purifying Respirators (APR) are met, and skin and eye exposure is unlikely.

See pages 190–191

WPL911

## Level D

The best choice when you only require minimum protection and no eye, skin or respiratory hazards are present.

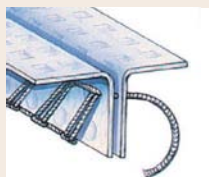

See page 190

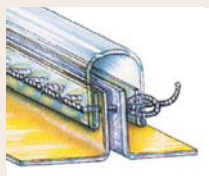

WPL718

## 3 seam types offer different levels of protection.

The best protective garments in the world are useless without strong, tight seams. Just one loose thread or gap, and the barrier of protection can unravel and leave you vulnerable to injury. Kappler offers three different seam types for its protective garments.

**Serged Seams** provide general protection. This seam is produced when three threads are interlocked around the raw edges of two pieces of material.

**Bound Seams** offer mid-range protection. A clean-finished binding totally encloses the raw edges of two pieces of fabric, then it's sewn through all layers with a chain stitch.

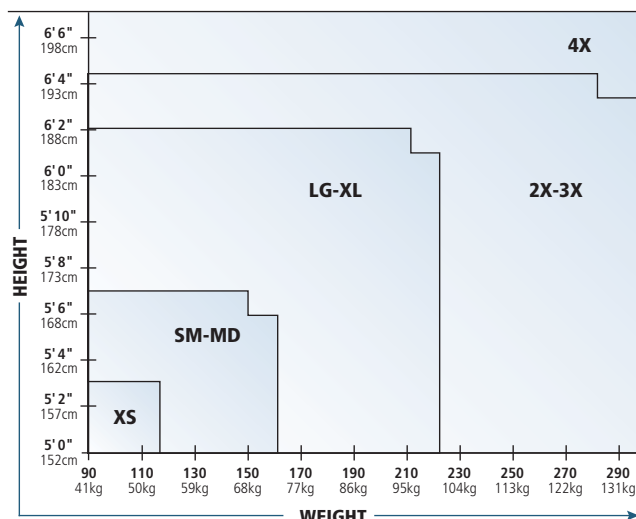

**Heat-sealed Seams** are very strong and tight for high-end chemical protection. A sewn seam is covered with a strip of compatible material, then "heat taped" or "hot air taped" as with film laminated fabrics.

## Size matters. Respond to hazards in a suit that fits.

This chart is a guide for garment selection, but a proper fit varies with individual body shape and underclothing. Always test for proper fit before use. Garment performance depends on selecting appropriate size. Sizes S–3XL are stock items (4XL is available through custom order).

When deciding which size suit to order, consider whether workers will be wearing bulky clothing under their suits. If they are, order suits one or two sizes larger than the sizing shown below.

KAPPLER PROTECTIVE CLOTHING SIZING CHART

WPL922

NOTE: Respirator not included.

### Zytron 500 Chemical Protection Suit — Superior protection with expanded face shield and anti-fog visor.

- **Industry-first innovation:** patent-pending anti-fog visor provides a clear view and resists fogging far more effectively than standard suit faceshields
- Large faceshield **increases field of vision** with 17% more visor surface area
- Effective **barrier against most organic and inorganic chemicals**, including acids, bases, salts, greases and oils
- Suits show **no permeation breakthrough** after 8 hours of exposure to the ASTM F739-85/ASTM F1001-89 list of 15 hazardous chemicals and 6 gases
- **Fully encapsulating Level A suit** made from Zytron material withstands long-term contact with wet and dry chemicals
- **Hot-air taped seams** and double storm flaps maximize strength and help prevent chemical penetration

#### Zytron® 500 Chemical Protection Suit w/Anti-Fog Visor

(Specify Color: Charcoal Orange)  
(Specify Size: L/XL or XXL/XXXL • Add \$50 to price shown for XXL/XXXL)

Item #	1-2	3+
<b>WPL922</b> • Zipper Front Hood w/ Face Shield, Gloves, Sock Boots w/ Flaps Attached	\$1261	\$1207

Product Inspection Notice: For inspection and pressure testing recommendations please visit newpig.com

WPL854

NOTE: Respirator not included.

### Tychem Level A Suit — High-level protection for hazmat first responders.

- Provides **chemical barrier for 8 hours** against any ASTM F1001 chemical and proven against 260 challenge chemicals
- **48" zipper and double-overlapping storm flap** with hook-and-loop closure help block out dangerous vapors and chemicals
- Outside, sewn, **heat-sealed seams** are liquidproof to maximize protection
- Deluxe suit features large 40-mil PVC/10-mil PTFE **face shield and heavy-duty double-layer gloves**
- **Attached sock boots** with flaps provide leakproof barriers inside outer boots
- **Bright lime green color** is highly visible in emergency and low-light conditions
- Includes handy **canvas carrying bag** to keep suit clean and dry before use

#### Tychem® TK Level A Suit

(Specify: Front or Rear Entry • Specify Size: L, XL or XXL)

Item #	1	2+

Product Inspection Notice: For inspection and pressure testing recommendations please visit newpig.com

WPL860

NOTE: Respirator not included.

### Tychem Level B Suit — Fully encapsulating suit gives field-proven protection.

- **Designed to protect wearers** from a broad range of chemicals and hazardous materials common in industry
- Also **tested against chemical warfare agents** and suitable for response to weapons of mass destruction
- **Fully encapsulating Level B suit** maximizes chemical protection with 48" zippered rear entry port with double storm flap and hook-and-loop closure
- Outside, sewn, **heat-sealed seams** are **liquidproof** to maximize protection
- **Suit features** an expanded back for added comfort, elasticized wrists, two exhaust ports with shrouds and attached sock boots with boot flaps
- 20-mil PVC **face shield** permits a broad range of vision

#### Tychem® BR Level B Fully Encapsulating Suit

(Specify Size: L, XL or XXL • Add \$10 to price shown for XXL)

Item #	1-6	7+
<b>WPL860</b> • Zipper Back, Elastic Wrists Hood w/ Face Shield, Sock Boots w/ Flaps Attached	\$383	\$362

## Kappler Zytron Level B/C Coveralls — Choose from a variety of suits for great chemical protection.

- Effective **against organic and inorganic chemicals**, including many acids, bases, salts, greases and oils
- **Attached hood** with elastic face protects head
- Zytron material **outperforms conventional materials** on chemical hold-out
- **Zytron 300 material withstands significant chemical splashes** and dry particulates (WPL911, WPL912)
- **Zytron 200 material withstands moderate chemical splashes** and dry particulates (WPL909, WPL910)
- **Zytron 100XP material withstands light chemical splashes** and dry particulates (WPL907, WPL908)

Zytron® 300 Level B/C Coveralls 			
(Specify Size: L/XL or XXL/XXXL • Add \$3 to price shown for XXL/XXXL)			
Item #	1	2-5	6+
<b>WPL911</b> • Zipper Front, Elastic Wrists & Ankles Elastic Hood Attached • Hot-air Taped Seams	\$92	\$88	\$86
<b>WPL912</b> • Zipper Front, Elastic Wrists • Elastic Hood, Boots Attached • Hot-air Taped Seams	\$99	\$94	\$90
Zytron® 200 Level B/C Coveralls 			
(Specify Size: L/XL or XXL/XXXL • Add \$2 to price shown for XXL/XXXL)

<b>WPL908</b> • Zipper Front, Elastic Wrists • Elastic Hood, Boots Attached • Serged Seams	\$21	\$20	\$19

## ChemTape — Use this seam-sealing tape with chemical-resistant clothing.

- **Ideal for hazmat response**, this tape ensures chemical resistance
- **Tears easily** by hand; protects better than duct tape
- Use to **secure gloves and boots** to protective clothing

ChemTape® 			
Item #	1-11	12-23	24+
<b>WPL591</b> • 2" W x 180' L	\$44.95	\$42.75	\$40.65

## Tyvek Coveralls — Protect against grime, spray and irritating fibers.

- Soft, lightweight, spunbond olefin **resists hazards** such as radioactivity, asbestos or lead dust
- **Wet or dry**, these coveralls remain strong and flexible to 100°F
- **Biologically inert**, low linting, minimize static
- **WPL719** has a zipper front, attached hood, elasticized wrists and ankles; **WPL720** also has attached boots
- **Meets ANSI/ISEA 101-1985** sizing reqs

Protect arms with sleeves (WPL235).

Slip shoe covers (WPL233) over shoes.

## Top Dog Clothing — Polyurethane clothing provides safety and splash protection when you need it most.

- **One-piece construction** provides durability and is impervious to animal fats and degreasers
- Made of waterproof 6-mil polyurethane to provide **chemical and abrasion resistance**
- Available in **multiple colors for easy color-coding** to comply with HACCP plans and zoning efforts
- Latex free and **reusable**
- **Machine-washable** and dryer-safe

**WPL1008**  
Reusable sleeves have elastic at both ends to ensure tight seal.

**WPL1006**  
Apron

**WPL1007**  
Gown

## Chemtex Protective Clothing — Level C protection from chemical splashes.

**WPL137**  
Coverall

- Worn alone or with the jacket (WPL136), the bib overall provides **effective lower-body splash and dust protection**
- Flame-resistant nylon/polyester is coated with impermeable PVC to **withstand acids, alkalis, oils and other chemicals**
- Heat-welded seams, heavy-duty buckles and reinforced knees/crotch **decrease rip-outs**
- Elastic **cuffs provide an effective seal** against splashes and particles
- **Nonconductive and nonsparking** for safety around electrical or combustible hazards

**WPL135**  
Bib

**WPL136**

<b>WPL137</b> • Level C Coverall with Hood • Snap Front, Elastic Wrists & Ankles Drawstring Hood Attached	\$81	\$76	

## Heavy-Duty Apron — Protects against acids, solvents and chemicals.

- **Heavy-duty nitrile blend** protects against chemicals, oils, alkalis and animal fats, even in cold temperatures
- Tough nitrile blend **withstands demanding industrial settings**
- **Lightweight comfort** and heavy-duty protection; only weighs 18 oz.
- Extra-long apron provides **full frontal coverage**
- Reinforced, rustproof grommets support straps and **protect against rips and tears**

**WPL140**

Hycar Heavy-Duty Apron <small>Ansell</small>

Ethylene Glycol	Nitrile, Neoprene or Butyl	194–196
Isopropyl Alcohol	Neoprene	195
Gasoline	Nitrile	195–196
Diesel Fuel	Nitrile	195–196

This chart gives general indications based on New Pig's glove offering and a greater-than-8-hour breakthrough time for heavy exposures as tested by the manufacturers. For more precise details on concentrations, degradation, permeation and applications, please consult New Pig Technical Services at 1-800-HOT-HOGS (468-4647) or visit newpig.com for manufacturer compatibility guides.

WPL390

## Black Knight PVC Gloves — More abrasion resistance for wet, chemical applications.

- 12"-long **fully coated cuff**; **curved, preflexed fingers and wing thumb** and no seams in working area
- **Dipped rough finish adds grip** for handling wet, lubricated parts
- **Economical choice** for tough applications where gloves become excessively contaminated by oils, grease and chemicals

SHOWA Black Knight® PVC Gloves

# Reusable Nitrile Gloves — Look no further for economical protection against harsh chemicals.

- Nitrile material **stands up to long-term submersion in many harsh chemicals**, including 30% hydrogen peroxide, ethylene glycol, gasoline and diesel fuel
- Reusable gloves** resist swelling and degradation; excellent protection against skin irritation and worker injury
- Left- and right-hand molds** are curved to match hand contours for minimized fatigue
- Embossed texture adds grip** when handling wet or oily objects
- Extra-long cuff** extends protection past wrist onto forearm
- Flock lining** (WPL588) absorbs perspiration
- Unlined gloves** (WPL587, GLV970) offer **greater economy** and tactile sensitivity
- Interlock-reinforced lining** (GLV210) increases strength and puncture resistance; soft, comfortable cotton absorbs perspiration
- Shoulder-length cuff** (GLV210) extends protection to entire arm; elastic top cinches to limit sliding and leakage
- Great for spill response**, degreasing, solvent washing, painting, acid dipping, oil refining and more

## Leather Gloves — Whole-hand protection with dexterity.

Leather gloves are great for foundry work, masonry, lumber, machinery, forklifts, construction and packaging. All our gloves share these features:

- **Gunn construction** to limit exposed seams and prolong glove life
- **Shirred elastic wrist** to provide a secure fit and help keep out dirt and debris
- **Slip-on cuff** for easy on/off
- **Top-grain leather** is smooth, rugged and flexible
- Pigskin (GLV410) **won't stiffen** even after getting wet
- Deerskin (GLV405) provides a **balance of protection and soft flexibility**

## String Knit Gloves — Reversible, dotted-palm gloves last twice as long.

- **PVC Dotted nubs** provide excellent grip and increase abrasion resistance
- **Reversible pattern** provides twice the life
- **Seamless construction** and poly/cotton blend provide breathable comfort

# MUCK 'EM UP & TOSS 'EM OUT!

GLV103

## Disposable Nitrile Gloves — Light-duty protection for handling grease, food and chemicals.

- **Nonallergenic nitrile** is more chemical resistant than latex to guard against intermittent contact and splashes
- **Resists puncture and abrasion** better than PVC or vinyl
- Offer **light protection, sensitivity and dexterity** with use-and-toss convenience
- **Thin enough to use as a liner** under another glove
- **Ambidextrous design** simplifies inventory
- Available **powder-free** to help **eliminate skin irritation, contamination and residue**
- **Beaded cuff** helps prevent ripping and creates a better seal
- **Nonsterile industrial grade** provides an affordable barrier to keep dirt or mild chemicals away from hands
- **Nonsterile medical grade** ensures reliability with strict standards
- Great for **assembly, repair, electronics, quality control, chemicals, hospitals, food, laboratories** and more
- Available **fully textured or with textured fingertips** to provide a firm grip when handling wet or oily objects

## Safety Goggle — Sporty, lightweight goggles protect your eyes from debris.

- Strap ensures goggles will stay in place; **interchangeable temples and strap**
- **Dual pane construction** features outside lens for dust/debris protection, inside lens to prevent fogging
- **Provides 99.9% protection** against harmful UV rays
- **Vented foam carriage** acts as an airflow outlet for heat, decreasing risk of fogging and losing visibility

I-Force® Safety Goggle			
Item #	1-6	7+	
GLS810 • Clear Lens • Black Frame	\$21	\$19.95	

## XPR36 Goggle — Comfort and protection against chemical splashes.

- Polycarbonate lens shields eyes with **low-profile, ergonomic design** that's appealing to wear
- Lens offers a **wide area of vision** and blocks 99% of harmful UVA and UVB rays
- One-piece, 100% polycarbonate lens is coated to **resist scratching and fogging** and exceeds ANSI Z87.1 Safety Standard

XPR36 Goggle			
Item #	1-11	12+	
GLS181 • Polycarbonate Lens Clear Frame	\$17	\$16	

## Face Shield System — Change windows quickly.

- **Designed to maximize protection**, support and comfort with inside-mount window and five-position crown strap
- Precision ratcheting adjustment makes getting a comfortable fit **quick and easy**
- Clear propionate window offers **excellent chemical resistance** (GLS383); ANSI Z87.1 compliant

AO Tuffmaster® Face Shield/Headgear System			
Item #	1-9	10+	
GLS382 • Ratchet Suspension Headgear for AO Tuffmaster Face Shield	\$31.50	\$29.40	
GLS383 • Face Shield Window Propionate Plastic	\$13.65	\$12.60	

## Proximity Safety Glasses — Enjoy clear vision with anti-fog protection.

- **H2X anti-fog protection** blocks out fog, mist, sweat and steam for clearer vision
- Soft foam padding around the inside of the lens provides a **comfortable and secure fit**
- 9.5 base curve lens provides **excellent side protection**
- Scratch- and impact-resistant polycarbonate lens **provides 99% UV protection**; exceeds ANSI Z87.1 Safety Standards for impact

Proximity® Safety Glasses			
Item #	1-9	10+	
GLS806 • Clear Lens • Black Frame	\$6.15	\$5.85	

## Skullerz® Safety Glasses/Goggles — Safety glasses convert to protective goggles.

- **Baked-in anti-fog technology** won't wash off or wear out; meets ATSM 659 Resistance to Fogging Test Requirements
- **Exceeds military ballistic standards** (MIL-PRF 32432) and ANSI Z87.1 safety standards for impact; **scratch-resistant lens** and blocks 99.9% of harmful UV rays

Skullerz® Loki Safety Glasses/Goggles			
(Specify Lens: Clear or Indoor/Outdoor)			
Item #	1-9	10+	
GLS809 • Black Frame	\$27	\$25	

## Goggle with Face Shield — Splash and dust protection that fits over glasses.

- Stylish design encourages use to help **prevent injuries from chemical splashes and flying debris**; anti-fog coating helps goggle lens remain clear in any environment
- **Ratcheting full face shield** flips up and out of the way (three adjustable positions) when not needed
- **Removable vent caps** so user can maximize ventilation or splash protection depending on the task at hand

Capstone® Goggle w/Face Shield			
Item #	1-6	7+	
GLS811 • Polycarbonate Lens	\$29	\$27	

## Venom Face Shield and Headgear — Give you full protection and comfort.

- Offers **complete facial protection** from liquids and debris
- Visor is **contoured** to provide a more complete seal than standard visors
- **Three-part adjustment system** allows for all-day comfort; includes soft brow pad and nape strap
- Meets **ANSI Z87.1+ and CSA Z94.3** standards

Venom® Face Shield and Headgear			
Item #	1-5	6+	
GLS215 • Face Shield & Headgear	\$15	\$12.85	
GLS216 • Face Shield only		\$7.50	

## Portable Eye Wash Station — Take full-flush capability anywhere you go.

- Simple, rugged polyethylene construction is well suited to **long-term use** in harsh environments
- **Built-in carrying handle** for easy transport is great for use on remote sites or from a truck bed
- Fold-down **arm activates eye wash** in one motion and protects spray outlets when not in use
- Steady flow rate of 0.4 gpm for 15 minutes **meets requirements of ANSI Z358.1**
- Each 5-ounce bottle of **water preservative** (GEN950 sold separately) preserves 6–20 gallons of water for up to 3 months
- **Wide-fill opening** with threaded cap allows easy filling, cleaning and inspection

### Haws® Portable Eye Wash Station with Wall-Mount Brackets

Item #	1-3	4+
GEN449 • Holds 16 gal. • Flow Rate 0.4-gal per Minute Minimum	\$545	\$517

GLS179 • 100/box	\$18.90	\$16.80	

## Portable Eye Wash — Provide any worksite with ANSI-compliant flushing.

- Sturdy **stainless steel tank** withstands industrial worksites; built-in handles
- Fill unit with potable water and **add preservative** to keep clean
- Eye wash heads create **gentle cleansing** streams when activated by push handle

Bradley® Portable Drench Hose & Eye Wash		
Item #	1+	
PLS1617 • Holds 10 gal. Flow Rate 0.4 gal/Minute Minimum	\$1697	*

\* **WARNING:** Cancer, Birth Defects and Reproductive Harm - www.P65Warnings.ca.gov

## Gravity-Fed Eye Wash — Get full ANSI flow in a unit that won't take up aisle space.

- Eye wash unit has a 14-gallon capacity, but **extends only 9½" from wall** when retractable tray is not in use
- Pinch-valve design and pivoting tray activate unit and ensure **flow within 1 second**
- Steady flow rate of 0.4 gpm for 15 minutes **meets requirements of ANSI Z358.1**
- Separate **5-minute fill line** meets requirements for personal eye wash
- Rugged handles make unit **easy to carry to outdoor worksites**

Hydroseep Additive (PLS726) preserves water for up to 6 months.

Encon® Gravity-Fed Portable Eye Wash Station		Encon SAFETY PRODUCTS
Item #	1+	
PLS724 • Holds 14 gal. • Flow Rate 0.4 gal/Minute Minimum	\$409	BEST SELLER!
PLS726 • Hydroseep® Water Treatment Additive • 4 - 8 oz. Bottles	\$47	

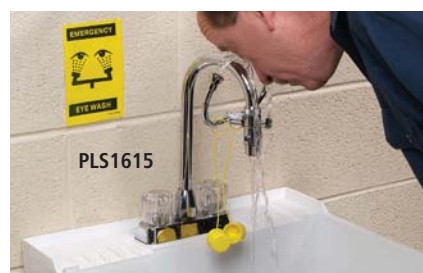

## Aquarion Eye Wash — Low-maintenance eye wash uses factory-sealed cartridges.

- **Multiple points of inspection** include a usage seal on the tray, side windows for quick inspections and a removable lid for thorough inspection of cartridges
- **Factory-sealed cartridges** are ideal when a direct plumbing line is inaccessible or inconvenient.
- Sleek design **avoids crevices** to help prevent the growth of mold, fungus and bacteria
- High-visibility eye wash is **ANSI Z358.1 compliant**
- **One-step activation**; just pull down the tray and water flow begins

Fluid cartridges (PLS456, sold separately) provide a 0.4 gpm eye wash for up to 15 minutes

## Guardian Eyewash Stations and Safety Showers — Provide easy access for workers to flush contaminants and minimize injuries.

- **Variety of plumbed safety stations** can be installed in high-risk areas to provide onsite initial treatment
- Chrome-plated brass valves with PTFE seals stay open until manually closed for **complete decontamination**
- Spray heads include flip-top dust covers plus internal flow control and filter to **remove impurities**
- Highly visible orange color helps workers to **quickly locate decon stations**
- Assembled, inspected and water-tested before shipment to ensure **quality and reliable performance** at your facility
- All models are **ANSI Z358.1 compliant**

**EXPERT  
ADVICE**

Did you know there are standards and requirements for eyewash stations and drench showers? See them at [newpig.com/eyewash-drenchshower-standards](http://newpig.com/eyewash-drenchshower-standards)

ABS plastic showerhead is corrosion resistant and highly visible.

PLS1358

## Drench Shower and Eye Wash — Install one unit for total body and MSR face decontamination.

- Ideal for installation in high-risk areas to **provide onsite initial treatment**
- Chrome-plated brass **valves stay open** until manually closed for complete decontamination
- Axion MSR **eye wash head design** works more effectively with natural eye function than standard eye washes
- Inverted streams contact eye at the inner corner and sweep contaminants toward the outside edge; **helps stop contaminants** from flowing into other eye or draining into nasal cavities
- Nearly vertical streams reach zero velocity and softly puddle in midair before falling for a **gentler, fuller flush**
- Face wash nozzles also use inverted streams to **flush entire face** as eyes are cleaned
- **Antimicrobially treated head** prevents the growth of mold and mildew
- **ANSI Z358.1 compliant**

### Haws® Free-Standing Drench Shower & Eye Wash

# PLANT SAFETY

## Avoid accidents, injuries and OSHA fines with our proven selection of safety products.

The next 34 pages are packed with PIG-approved solutions to help keep your facility on the up-and-up when it comes to safety. You'll find everything you need to comply with OSHA regulations and meet your company's best practice values.

### Proven performers from market leaders.

We've partnered with the top names in safety to bring you the best in anti-fatigue mats, floor tapes, signage, lockout/tagout and more. We know they'll get the job done because we use them ourselves!

### PIG exclusives invented right here.

We've also got industry firsts that you won't find anywhere else: **PIG Grippy Floor Mats** introduced the world to adhesive-backed mats (pages 216–221); **PIG Carpet Runners** protect your carpet with our carpet (pages 222–223); and **PIG Safety Floor Runners** (pages 224–225) are the only mats that combine a high-traction surface with a hi-viz safety edge pattern (page 224).

## ◆ HELPS YOU COMPLY

OSHA has always required that workroom floors be kept clean and dry.

### ◆ Walking-Working Surfaces

#### 29 CFR 1910.22(a)(2)

*The floor of each workroom is maintained in a clean and, to the extent feasible, in a dry condition. When wet processes are used, drainage must be maintained and, to the extent feasible, dry standing places, such as false floors, platforms, and mats must be provided.*

#### 29 CFR 1910.22(a)(3)

*Walking-working surfaces are maintained free of hazards such as sharp or protruding objects, loose boards, corrosion, leaks, spills, snow and ice.*

## “PUT YOUR TRUST IN PIG-APPROVED.”

We screen and scrutinize hundreds of safety products. The ones that make the cut are inside this Pigalog.

# ADHESIVE-BACKED MATS

**EXCLUSIVE!**

## ELIMINATE SLIPS, TRIPS AND FALLS WITH PIG GRIPPY MAT!

### World's first adhesive-backed mats

Our exclusive P54 Adhesive is formulated to perform in the wettest conditions and will never disintegrate, delaminate or leave a gooeey mess to clean up.

### The right amount of stick

Proven stick-and-release technology keeps mats in place without shifting but pulls up easily without leaving residue.

### Easy cleaning

The only adhesive that stands up to heavy traffic and deep cleaning with a mop, floor scrubber or carpet extractor.

### High-traction surface

Mats provide a safe walking surface proven to eliminate slip-and-fall hazards.

### Complete coverage

Roll out for sufficient entrance walkoff to capture dirt, grime and moisture before it's tracked into the workplace. Cut to customize for any space and provide coverage anywhere you need it.

### SAY HELLO TO GRIPPY

**New Pig Adhesive-Backed Mat Notice:** New Pig Adhesive-Backed Mats are formulated to work with most common hard-floor surfaces. New Pig Adhesive-Backed Mats are not intended for use on wood flooring with stains, finishes, or coatings. If using the Carpet Protection versions of our adhesive-backed mats, please be sure to use only on carpeted surfaces and never on uncarpeted, hard surfaces. New Pig Adhesive-Backed Mats have non-permeable barrier layers to prevent liquid pass-through and, as such, are considered to be non-breathable and may not be suitable for use on surfaces that require air curing, including, but not limited to, newly poured concrete or recently applied coatings, sealants, and finishes. All adhesive mats have some potential to leave residue or lift or discolor finish coatings, paint, and loose or pre-damaged tiles depending on the condition and age of the floors or other surfaces.

For these reasons and others, if you have questions about the suitability of New Pig Adhesive-Backed Mats for your application, test a small section of mat in a discrete or non-critical area before using on larger areas. New Pig Adhesive-Backed Mats are designed for use for up to 3-6 months depending on conditions and traffic patterns. Regardless, New Pig Adhesive-Backed Mats should be replaced immediately if they show signs of wear or damage and should always be replaced no later than 6 months after installation.

CUSTOMER ASSUMES THE RISK THAT A NEW PIG ADHESIVE-BACKED MAT MAY DAMAGE OR ALTER CUSTOMER'S EXISTING FLOORING OR FLOOR COVERING. NEW PIG PROVIDES NO WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE AND NO WARRANTY THAT THE USE OF AN ADHESIVE-BACKED MAT WILL BE ACCEPTABLE FOR USE ON CUSTOMER'S FLOORING OR ANY OTHER SURFACE. NEW PIG SHALL HAVE NO RESPONSIBILITY FOR, AND CUSTOMER HEREBY RELEASES AND DISCHARGES NEW PIG FROM, ANY DIRECT, INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGES TO OR RELATED TO CUSTOMER'S FLOORS, FLOORING MATERIAL, OR ANY OTHER SURFACES IN CUSTOMER'S DWELLING OR FACILITY. CUSTOMER IS SOLELY RESPONSIBLE FOR DETERMINING THE FITNESS AND APPROPRIATENESS OF THE USE OF A NEW PIG ADHESIVE-BACKED MAT IN CUSTOMER'S DWELLING OR FACILITY.

## GRIPPY MAT BEATS RUBBER-BACKED RUGS EVERY TIME

### RUBBER-BACKED MATS

VS

### GRIPPY MAT

- ✗ Shifts, moves and bunches
- ✗ Water puddles and pools
- ✗ Have to replace biweekly

- ✓ Stays right where you put it
- ✓ Absorbs water without leaking
- ✓ Stays down for up to 6 months

Rubber-backed mats shift out of place, flip and bunch-up creating slip and trip hazards.

## Grippy Adhesive-Backed Floor Mat — Eliminate slips, trips and falls with our proven, super-safe mat.

- Rolls out to create complete anti-slip coverage, **in any size or shape**, anywhere you need it
- **Exclusive P54 Adhesive** keeps mat securely in place but pulls up easily without leaving residue
- Lets you create sufficient walk-offs **with no gaps, ripples or overlaps**
- **Cut-to-fit for custom mats** in entrances, aisles, transitions, walkways, ramps, in front of service counters, elevators and more
- **No rippled edges** to obstruct doors or create tripping hazards
- **Low profile and ADA compliant** for wheelchairs and walkers
- **Clean your floors with mats in place** to save time and avoid the labor and hassle of dragging heavy mats around
- Stays in place for up to **3–6 months**

### Antimicrobial-Infused Floor Mat

- **For kitchens**, food prep areas and commercial food production
- Helps to **prevent the growth of odor-causing bacteria** and mold on the mats

### WHERE IT WORKS

\* NEW

NOTE: New Pig's Adhesive-Backed Mats work with most common industrial and commercial floor surfaces. To determine the suitability for your application, test a 6" x 6" piece in a non-critical area before use. See the PIG Adhesive-Backed Mat Notice on page 216 for more information.

Choose a texture, color and size to get the Grippy Entrance Mat you want.

# Get Grippy Mat with custom printed logos, promotions and messaging.

- **Easy to personalize** with your own logo, images or text
- Printed with **UL Greenguard Gold Certified ink** to meet rigorous chemical emission standards
- **Thinner and safer** than traditional floor mats; eliminates the need for heavy, outdated rubber-backed floor mats
- **Adhesive-backed** floor mat stays exactly where you put it with no shifting, bunching up or ripples that cause slips and trips; durable, high-traction surface removes dirt, grime, oil and water from shoes
- **Smooth surface** delivers higher resolution printing compared to logos on thick, carpeted mats; image won't wrinkle, wear or break apart
- **Standard and custom sizes available!**

## WHERE IT WORKS

- Entrances
- Walkways
- Transition Areas
- Wet Environments
- Aisles

DIRT

WEAR

STAINS

Carpets take a beating from daily wear, tear and accidental spills.

 **EXCLUSIVE!**

## Carpet Protection Runner w/Adhesive Backing — Protect your carpet from dirt, wear and stains in high-traffic areas.

- **100% post-consumer recycled polyester blend** top layer is soft and pliable and won't crinkle underfoot
- Non-slip runner sticks to carpet and **traps dirt, salt, water, grease and grime** to prevent it from damaging carpet fibers
- Adhesive backing **keeps the mat in place on low pile, commercial carpeted surfaces**; will not shift, flip, bunch up or get caught in closing doors
- **Covers up carpet that's excessively worn**, stained or damaged from excessive traffic patterns; reduces the need for total carpet replacement or professional cleaning
- **Protects new carpet** and extends the life of existing carpet; stops premature crushing and wear
- **Easy to maintain** — vacuum daily or deep clean with a carpet extractor
- **ADA-compliant**, low profile and won't obstruct doors

### WHERE IT WORKS

NOTE: New Pig Carpet Protection Runners are formulated to work with most common commercial carpet surfaces but are not intended for use on non-carpeted or residential surfaces. All adhesive mats have some potential to leave residue, can lift from the surface, or may cause some discoloration depending on the amount of foot traffic and the condition and age of the carpet underneath the runner. If you have questions about the suitability of the New Pig Carpet Protection Runner for your application, test a small piece in a discrete or non-critical area before use. New Pig Carpet Protection Runners should be replaced if they show signs of wear or damage or lifting and should always be changed out before 3 months of use.

CUSTOMER ASSUMES THE RISK THAT A NEW PIG ADHESIVE-BACKED MAT MAY DAMAGE OR ALTER CUSTOMER'S EXISTING FLOORING OR FLOOR COVERING. NEW PIG PROVIDES NO WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE AND NO WARRANTY THAT THE USE OF AN ADHESIVE-BACKED MAT WILL BE ACCEPTABLE FOR USE IN THE CUSTOMER'S FACILITY. NEW PIG SHALL HAVE NO RESPONSIBILITY FOR, AND CUSTOMER HEREBY RELEASES AND DISCHARGES NEW PIG FROM, ANY DIRECT, INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGES TO CUSTOMER'S FLOORS, FLOORING MATERIAL, OR ANY OTHER SURFACES IN CUSTOMER'S FACILITY. CUSTOMER IS SOLELY RESPONSIBLE FOR DETERMINING THE FITNESS AND APPROPRIATENESS OF THE USE OF A NEW PIG ADHESIVE-BACKED MAT IN CUSTOMER'S FACILITY.

# **PIG** High-Visibility Safety Floor Runner — Provide can't-miss, no-slip paths with our super-safe mat.

- Our Runner is the only floor safety solution that combines a high-traction walking surface with a **hi-viz safety edge pattern** — no more guessing about the right path to take!
- **Adhesive backing** keeps mat exactly where you put it with no shifting, bunching up or flipping over; traps dirt, salt and moisture to keep it from being tracked
- **Highly visible yellow and black marking** is designed to meet ANSI standard for floor markings and help you comply with OSHA 1910.22 (walking surfaces standard)
- Durable printed surface **withstands industrial wear and tear**
- Mat is **highly absorbent, quick-drying**, very low profile and effortless to maintain
- Easy to use and customize: **roll out continuous coverage** with no gaps, ripples or overlaps that cause slips and trips
- Proprietary adhesive sticks to the floor with a super-tight grip, but **peels up easily** to replace when mat shows signs of wear
- **Sticks to most commercial floor surfaces** including concrete, VCT, linoleum, ceramic tile, quarry tile and laminate flooring

Create professional looking walkways and intersections.

PIG® High-Visibility Safety Floor Runner				
Item #	Size	1-2	3-6	7+
GRPSB36200	36"W x 100'L	\$364	\$330	\$307
GRPSB36201	36"W x 50'L	\$190	\$183	\$173
GRPSB36206	Starter Pack (36"W x 25'L Roll, Board & Knife)	\$152		

NOTE: New Pig's Adhesive-Backed Mats work with most common industrial and commercial floor surfaces. To determine the suitability for your application, test a 6" x 6" piece in a non-critical area before use. See the PIG Adhesive-Backed Mat Notice on page 216 for more information.

# **PIG® Safety Message Mats** — Non-slip mats with adhesive backing give hi-viz warnings and help prevent slips & falls.

- **Large safety image** draws attention, won't fade or wear; alerts workers to safety requirements or specific cautions
- Proprietary **adhesive backing sticks to the floor** without shifting, bunching up or wavy edges to trip up workers; peels up easily when you're ready for a fresh mat
- Absorbent, high-traction top layer removes liquid and debris from shoes and **helps prevent falls in wet, oily work areas**
- 5 feet of walk-off coverage stops dirt, grime and moisture from being tracked around, **keeping surrounding floors clean and dry**
- **Easy to clean**; mat won't shift or be damaged by mops, vacuums, wet vacs or floor scrubbers
- **Withstands industrial environments**; takes abuse from heavy foot traffic, forklifts and pallet jacks
- **Choose from 13 legends**

(Specify Legend)

Item #	Size	Unit	1-3	4+
GRPWS2	24"W x 17"L	4/box	\$74	\$67
GRPWS3	3'W x 5'L	2/roll	\$101	

NOTE: New Pig's Adhesive-Backed Mats work with most common industrial and commercial floor surfaces. To determine the suitability for your application, test a 6" x 6" piece in a non-critical area before use. See the PIG Adhesive-Backed Mat Notice on page 216 for more information.

# PIG Paint Booth Mat with Adhesive Backing — Protect spray booth floors and mixing rooms from dust and build-up.

- Top surface helps attract and **trap dust, dirt, paint and primer overspray** before it causes paint defects during a spray job; mat keeps booth clean, bright and running efficiently
- Self-sticking back keeps mat securely in place without shifting, sliding or causing a trip hazard; **installs with no lint**
- Installs quickly, peels up for fast, easy changeouts and **lasts up to 3 months** depending on amount of overspray and cleaning
- Durable enough for heavy foot and vehicle traffic; padding reduces noise and **makes standing and kneeling more comfortable**
- Blue and gray colors **create better color matching**; helps to evenly distribute light and eliminate shadows
- **Meets NFPA33 – Static Dissipative & OSHA Standards** at conditions of 50% RH or higher
- ◆ **Helps you comply** with 29 CFR 1910.22(a)(2) for maintaining floors in a clean, dry condition

Line floors and fit any shape to catch overspray during finish painting and topcoating.

## Tools for PIG Grippy Mat — Make the easy job of installing Grippy Mat even easier with these professional tools.

- **Installation Board** (GRP001) provides cutting guides for creating perfect seams, corners and 45° angles, then helps you smooth the mat into place and eliminate air bubbles; Connect two boards together for cutting or installing mats wider than 36" or making large diagonal cuts
- **Safety Knife** (GRP012) makes quick, clean cuts without the risk of handling scissors or box cutter; recessed blade has protective edges to help eliminate injuries and property damage (Board and Knife also sold together as GRP005)
- **Installation Roller** (GRP021) unrolls the mat as you push it along and smooths out bubbles as it secures mat into place; enables easy, one-person installation and eliminates kneeling

## **Non-Slip Epoxy Tread Kit** — Add permanent traction and visibility on stairs and ramps with our custom treads.

- Add slip resistance and **create high traction surfaces** to prevent slips and trips on steps, ladder rungs, ramps, wet or oily surfaces, walk-in freezers, loading docks and sloping walkways
- Spreadable, **no-drip 2-part epoxy** tread cures quickly; excellent adhesion and grip to porous and non-porous surfaces like concrete, stone, brick, wood, metal and fiberglass
- More durable, better adherence and **longer-lasting than tread tapes and paints**; withstands exposure to chemical, weather and temperature extremes
- Hi-thrust **Dual Cartridge Epoxy Gun** (FLM865) is specially designed for dispensing PIG Non-Slip Epoxy Tread (not included with Kits but required for proper installation)
- For maximum traction in oily, high-traffic exterior areas, add **Heavy Duty Traction Grit** (FLM862) to Black or Yellow options
- Surface should be **clean, dry and free of debris**; damaged areas should be repaired before installing (see instructions at [newpig.com](http://newpig.com))
- Epoxy Cartridges (FLM857–FLM860) **require a Mixing Nozzle** (FLM864) to properly dispense

### Your choice of 4 colors

FLM853  
Black

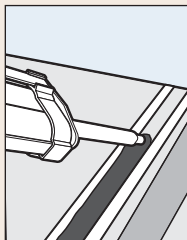

## Easy DIY installation!

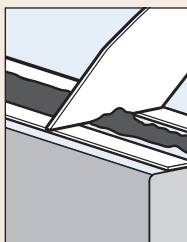

### Step 1

Apply tape form (included) to desired tread location, creating a 1"-2" space between tape edges.

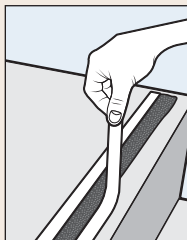

### Step 2

Insert cartridge into epoxy gun (FLM865 sold separately) and apply material to entire length of tread.

### Step 3

Spread material to the level of your tape form using included spatula spreader.

### Step 4

Remove tape and allow time to cure. (See full instructions on cartridge for specific timing.)

A quick do-it-yourself project can deliver permanent slip resistance to ramps, steps, ladders or any surface where traction matters. Alternate colors for maximum visibility.

### FLM855

Kit includes epoxy cartridge, tape, gloves, nozzles and spatula.

NOTE: Epoxy Gun sold separately

# QUICK-SELECTION GUIDE ANTI-FATIGUE MATS

We offer a wide range of anti-fatigue mats so you can find exactly what you're looking for. These mats are designed to reduce back strain and promote frequent posture changes so you can stay on your feet longer without feeling fatigued. Use the guide below to help you choose the right mat. Need help deciding? Give us a call at **1-800-HOT-HOGS!**

FLM664

## Application Key

NOTE: For chemical compatibility information on mats, please call Technical Services or visit [newpig.com](http://newpig.com).

### Dry Conditions

Use these mats primarily in dry areas, although many resist wet conditions. Some stand up to oil, grease and most chemicals. Choose from a variety of antislip surfaces to provide safe footing.

	Product Name	Light Splashes					Description	Page
		Dry Only	Water	Oil/Grease	Chemicals	Anti-Static		
Single Piece Mat/Rolls	Diamond-Tuff Classic Max Mat						Thick and comfortable with long-lasting traction	231
	Cushion Trax Mat						Diamond-plate vinyl; bottom clings to floor	231
	Pebble Step Sof-Tred						Protective coating withstands harsh chemicals	232
	Diamond Sof-Tred Mat						Abrasion-resistant top for long-lasting traction	232
	Alleviator Mat						Nearly an inch of soft foam for superior comfort	233
	Spark-Safe Mat						Resists sparks and metal shards	233

### Wet Conditions

Designed to work in wet conditions and provide long-lasting comfort without degrading. Drainage holes let liquids escape to avoid slips and falls.

	Product Name	Continuous Contact			Description	Page
		Water	Oil/Grease	Chemicals		
Modular	Safety-Step Grease-Resistant Mat				Interlocks for a sturdy, grease-resistant work area	234
	Performa Mat				Excellent drainage, available with gritted top	234
	Niru Cushion-Ease GSII Mat				Chemical resistance with permanent grit	234
Single Piece Mat/Rolls	Diamond-Deluxe with Grit-Safe Mat				Nonslip grit embedded in surface provides extra traction	235

### Specialty Mat

Work cleaner and safer with this innovative mat solution!

Product Name	Description	Page
PIG BubbleZorb Mat	Combines cushiony anti-fatigue support and universal absorbency	235

## Cushion Trax Mat — Anti-slip mat clings to the floor and prevents fatigue.

- **Built-in RedStop technology** clings to floors including painted or sealed concrete, vinyl and ceramic tile
- Durable vinyl top features a **diamond plate surface** for multi-directional slip resistance
- **Beveled edges** help reduce tripping hazards
- Dense, closed-cell PVC foam base provides cushioning to help alleviate lower back strain and **reduce fatigue**
- Solid-surface design is **ideal for dry workstations**

Diamond plate surface for better slip resistance

*"Comfortable without being bulky. Stays in place and does not slide even when the underside is wet. Love these. Will order again."*

— Liane, Cushion Trax Mat Customer

## Diamond-Tuff Max Mat — Get max comfort with this super-durable, vinyl-top mat.

- Durable vinyl top is bonded to a plush, **1"-thick ergonomic foam bottom** to provide maximum comfort
- High-profile **diamond plate-embossed texture** provides anti-slip protection
- Well-suited to **heavy-duty use** in dry work areas and multi-shift operations
- **Beveled edges** help reduce tripping hazard
- Optional **molded-in yellow border** makes mat easier to see

## Niru Mat — Interlocking system adds safety where it's slippery.

- **100% nitrile construction** provides comfort and resistance to chemicals, oils and grease
- **Modular design** makes it easy to replace individual sections and customize configurations
- Assembles easily with **built-in connectors** and channels that fit together without hammering
- Silicon-carbide grit bonded permanently to pure nitrile provides **long-lasting, nonslip traction** (yellow ramps are without grit)
- Add **beveled ramps** to reduce tripping hazards and create a finished look
- Available **with holes** for wet areas or **without holes** for dry areas

Carbide surface won't wear off.

Built-in connectors make it easy to connect ramps.

# BIGGER. BOLDER. BRIGHTER.

**piG** EXCLUSIVE!

**piG Safety Signs** — Clearly alert employees and visitors to hazards, locations and safety equipment with signage that really stands out.

- PIG Safety Signs print the full width of the sign for **bigger legends and max impact**; other brands have an unprinted border area that reduces the actual size of the legend
- New Pig's graphic designers pushed OSHA-compliant legends to the limits for **bolder messaging** that commands attention
- Printed with UL Greenguard Gold Certified ink for **brighter colors** that meet rigorous chemical emission standards
- Durability allows for placement **indoors or outdoors**

**Available in three compositions to suit your use and budget:**

- **Aluminum signs** are pre-punched, long-lasting and offer resistance to abrasion, chemicals and wear; lasts 5 to 7 years
- **Plastic signs** are pre-punched and an economical choice for light-duty use; lasts 3 to 5 years
- **Vinyl signs** provide exceptional flexibility, high-gloss film resists UV rays, water and abrasion; lasts 3 to 5 years

Call attention to spill kits and other safety equipment to help keep workers safe.

TRN100  
PIG Spill Response Tactics Training

## **pig Training** — Boring doesn't work. PIG Training is packed with tactics for safety and compliance.

- Original training content written and designed to **keep workers focused, awake and engaged** for high retention and on-the-job action
- Runtime is broken into short modules for fast-paced training that's **informative, educational and entertaining**
- **State-of-the-art 3D animation** shows real-world tactics that apply to everyday workplace applications
- Automatically adapts to **play on any computer**, projector, tablet or smartphone regardless of your connection speed
- Quizzes keep users engaged as they work toward their **named certificate of completion** (online trainings only, one certificate per user license)

Once you order, you'll receive instructions and gain access to our easy-to-use Learning Management System (LMS).

- **Login details** are emailed within 48 hours
- **Flexible licensing** allows 90 days to begin a course and 7 days to complete after starting
- Each license includes a named **Certificate of Completion**
- **Structured pricing** accommodates organizations of all sizes

### **DVD VERSION AVAILABLE!**

When you don't need a named certificate of completion, get our best-selling **PIG Spill Response Tactics Training** course on DVD.

**Topics covered** include EPA's SPCC rule, SPCC plans, storage and handling types, role of the Facility Response Coordinator, safe operating procedures, and control measures and countermeasures to protect against and clean up after oil spills.

Winner of  
*Environmental Protection's*  
**2015 New Product of the Year Award**

### V-SAFE Gate Valve Lockout — Secures and color-codes gate valves for safety.

- Clamshell-style lockout in **rugged polypropylene** resists chemicals, cracking, abrasion and temperature changes
- If not using ANSI color-coding, red can indicate **locked and closed position**
- Fully dielectric design is **easy to handle** and apply

V-SAFE® Gate Valve Lockout		NORTH	
Item #		1-5	6+
LCK114 • For 5" to 6.5" Dia. Valve Handles		\$66	\$63
LCK112 • For 1" to 2.5" Dia. Valve Handles		\$34	\$31

## Edge Halt Ladder Safety Gate — Employ a full-time guard at your fixed ladders and raised platforms.

- Clamp the ladder safety gate onto pipe railings around your ladders and unloading platforms to **help prevent falls**
- Made of durable **powder-coated steel**
- Gate opens 180°; **self-closing hinges** keep the gate closed when not in use
- Universal hinge-mounting assembly **fits railings up to 2" in diameter**
- **Mount in either direction** simply by inverting the gate
- ◆ **Helps you comply** with 29 CFR 1910.23 covering guarding floor and wall openings and holes

Edge Halt® Ladder Safety Gate

### LED Penlight — Get up to 6½ hours of illumination from these slim lights.

- Uses "battery-booster" electronics to increase output while reducing power usage; **provides 6½-hour runtime** on two AAA batteries (included)
- C4 LED offers super-bright illumination of up to 90 lumens with a **30,000-hour lifespan**

Stylus Pro® LED Penlight		STREAMLIGHT	
Item #		1-4	5+
<b>ELS212</b> • 90 Lumens Ext. Dia. 0.5" x 5.3"L		<b>\$40</b>	<b>\$38</b>
<b>ELS212 Contents</b> • 2 AAA Alkaline Battery • 1 Belt Holster			

### LED Rechargeable Flashlight — Bright light shines in demanding areas.

- Choose from **three brightness levels** and an emergency strobe
- High-capacity NiCad battery can be **recharged up to 1,000 times** before it needs to be replaced
- LED with C4 technology offers **ultra-bright illumination of up to 350 lumens** with a 50,000-hour lifespan
- Focused beam is perfect for **distance or close-up viewing**; parabolic reflector optimizes range and peripheral lighting

Stinger DS® LED Rechargeable Flashlight		STREAMLIGHT	
Item #		1-2	3+
<b>ELS201</b> • 350 Lumens Ext. Dia. 1.5" x 8.85"L		<b>\$256</b>	<b>\$242</b>
<b>ELS201 Contents</b> • 1 120V AC Charger • 1 12V DC Charger • 1 Nickel Cadmium Battery • 1 Hardware			

## Traffic Cone — Mark your hazards and danger zones with durable traffic cones.

- Polyvinyl chloride construction is **durable, long lasting and waterproof** for use indoors or out
- Fluorescent orange color signals **warning**
- Broad 15" base** resists blowing over; "grippers" add traction
- Flexible **cone springs back to shape** even if struck
- Tensacone Topper** (PLS1204) has durable plastic housing that securely **fits most cones**; **13'-long retractable webbing** is a highly visible, temporary barrier; **faster and easier** to use than string, traffic tape or rigid barriers

### Orange Traffic Cone

Item #	1-9	10+
PLS1083 • 15"W x 15"L x 28"H	\$33	\$29

### Tensacone® Topper

Item #	1+
PLS1204 • For Traffic Cones • 13'L Retractable Belt	\$152

PLS3000

## Caution Tape — Use this tape to restrict access or control traffic.

- Ideal for **quickly restricting access** during spill response
- High visibility 3-mil polyethylene caution tape warns traffic with a **message that repeats along entire length**

### Caution Tape

(Specify Legend: Caution or Caution Do Not Enter)

Item #	1-5	6-11	12+
PLS3000 • 3"W x 1000'L • Black on Yellow	\$30	\$28	\$27

## XpanDit Barricade — Block off large areas then fold it up for compact storage.

- Expands up to 11½'** then folds and locks to a compact 16½" for easy storage
- Made of recycled **polypropylene and PVC**; weighs only 17 lbs.
- Four casters** for mobility
- Link multiple units** to block wider spaces

### XpanDit™ Expandable Barricade

Item #	1-4	5+
PLS1493 • 16.5"W x 16.5"L x 37"H • Expanded Length 11.5'	\$331	\$314

## Multi-Gate Barricade — Block traffic outdoors with this all-HDPE barricade.

- Expands up to 7½'** then folds and locks to a compact 6"
- Recycled HDPE** resists impact, UV and extreme temperatures
- Fill base with water or sand** for added stability

Weighs only 15 lbs. for easy portability.

### Multi-Gate Expandable Outdoor Barricade

Item #	1-2	3+
PLS1494 • 18.5"W x 90"L x 43"H • Expanded Length 7.5'	\$404	\$383

BEST  
SELLER!

## PIG™ Adjustable Clear Barrier & Sneeze Guard — Minimize the spread of germs in open areas.

- Free-standing, adjustable divider provides the flexibility to **isolate and protect people in any environment** — simply adjust the frame height and width, then cut and attach barrier film to fit
- Portable partition disassembles and **fits in small tote bag** (included) for carrying when not in use
- **No need to repeatedly clean** like rigid plexiglass panels! Just unroll and replace the film with new material as needed
- Durable, lightweight aluminum frame is **easy to assemble**
- Clear, plastic sheeting can be **cut to desired length** and clamped onto the frame using included clips
- **Choose 3' H or 4' H Film** for PLS2028 (PLS2031 uses 3' H film only); Replacement Barrier Film (PLS2029) sold at [newpig.com](http://newpig.com)

**Tabletop Barrier (PLS2031)** is designed for use on tabletops, counters and desks; works in classrooms, reception areas, pay stations, lunch tables, communal work stations and more.

PIG™ Portable Adjustable Clear Barrier & Sneeze Guard				
Item #	Size	Film Roll	1-4	5+
PLS2028	Adjustable from 6'–9.75'W and 3.5'–7.5'H	3'H x 100'L	\$173	\$162 *
		4'H x 100'L	\$183	\$172 *
PLS2031	Tabletop model adjustable from 31"–49"W and 20"–38.5"H	3'H x 25'L	\$116	\$102 *

\* ⚠ **WARNING:** Cancer - [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov)

## PIG™ Retractable Barrier & Sneeze Guard — 6-foot high divider sets up in seconds!

- Retractable barrier deploys in **similar fashion to projector screens and roller shades**; simply pull clear plastic sheeting up from base, extend fixturing pole and secure in place
- **Portable sneeze guard** provides quick division wherever you need it; collapsed unit fits in carrying case (included) for easy transportation
- Keeps people separated to **help protect against germs** from close contact when 6-foot social distancing is not an option
- **Durable aluminum base** protects sheeting when not in use; choose 30" W or 48" W unit based on your application

PIG™ Retractable Clear Barrier & Sneeze Guard				
Item #	Size		1-4	5+
PLS2030	30"W x 72"H		\$83	\$78
	48"W x 72"H		\$118	\$108

# Make your posts look like new.

PLS195

## KEEPS BOLLARDS VISIBLE AND LIKE NEW

Neoprene tape creates vacuum to hold cover in place.

### Bollard Covers — Get durable bollard protection in your choice of sizes.

- Durable polyethylene shell **resists impact, chemicals and UV light**
- **Holds 90% of its true color** in constant sunlight for a period of five years
- **Smooth, rounded finish** won't snag clothing or hold grime
- **Slides over existing bollard for easy installation**
- **Heavy-duty covers** feature 1/4"-thick walls and neoprene tape for a vacuum-tight fit; PLS195 is available in four colors
- **Economy cover** has 1/8"-thick walls; yellow color only

#### Heavy-Duty Bollard Cover

(Specify PLS195 Diameter Size: 4" (fits 4" - 4.5" Dia.) or 6" (fits 6" - 6.625" Dia.)  
Specify Color for PLS195: Blue, Light Granite, Red or Yellow)

Item #	1-9	10+
<b>PLS195</b> • Fits Bollards up to 52"H	<b>\$83.80</b>	<b>\$78.50</b>
<b>PLS1259</b> • Yellow with Reflective Tape Fits Bollards Diameters 6" - 6.625" and up to 52"H	<b>\$97.90</b>	<b>\$90.95</b>
<b>PLS626</b> • Yellow • Fits Bollards Diameters 7" - 7.625" and up to 56"H	<b>\$123</b>	<b>\$118</b>
<b>PLS1009</b> • Yellow • Fits Bollards Diameters up to 8.625" and up to 60"H	<b>\$122</b>	<b>\$116</b>

#### Economy Bollard Cover

(Specify PLS758 Diameter Size: 4" (fits 4" - 4.5" Dia.) or 6" (fits 6" - 6.625" Dia.)  
Specify Color for PLS1261: Red or Yellow)

Item #	1-9	10+
<b>PLS758</b> • Yellow • Fits Bollards up to 52"H	<b>\$57.70</b>	<b>\$52.45</b>
<b>PLS1261</b> • With Reflective Tape Fits Bollards Diameters 6" - 6.625" and up to 52"H	<b>\$70.15</b>	<b>\$65.70</b>

PLS195 available in:

**PLS195**  
Brightly colored bollard covers add visibility.

**PLS1259**  
Hi-viz yellow bollard cover with red reflective tape alerts drivers to help reduce accidents in low-light conditions.

### How to measure your bollard for a cover:

1. Measure exact bollard circumference with flat tape and divide by 3.14 for outside diameter.
2. Find the most suitable bollard diameter range in the product information box.

**NOTE:** When purchasing multiple covers, measure each bollard to ensure that you are ordering the correct sizes.

# Foam Guards — Add bumper protection wherever you need it to limit bumps and bruises.

- **Dense foam softens blows** to help protect workers; guards equipment or facility from damage
- **Add bumper protection** in industrial work areas, railway and subway stations, public spaces or anywhere people walk
- **Flexible material** conforms to slightly irregular angles and surfaces
- Protective coating **prevents abrasion**
- **Self-adhesive backing** attaches to any clean, dry indoor surface (PLS171 slides on and holds with friction)
- Guards with **highly visible pattern** draw attention to potential hazards
- **Wide variety of shapes and styles** to fit I-beams, shelves, racks, ventilation hoods, pipes, rails and more
- **PLS1324 and PLS1325** are softer and for light duty uses; cuts easily with scissors

## Protective Foam Guards

Item #	Application	Shape	Dimensions	1-5	6+

*"When our roof starts leaking, it needs to be controlled ASAP to avoid damaging product. This thing **does the trick** without causing production delays!"*

— Tony, PIG Roof Leak Diverter Customer

# MAINTENANCE

**Be ready for any maintenance mishap that comes your way with facility-savers from PIG.**

Don't wait for something bad to happen around your facility before you stock the right products to deal with it. Because if something *can* go wrong, it usually does, and PIG can help you get through it unscathed.

## Floor-to-ceiling fixer-uppers

Overhead leak after the big storm? Grab a PIG Leak Diverter. Forklift driver puncture a drum? Patch it with PIG Drum Repair Kits. Burst pipe? PIG Pipe Wrap to the rescue! Broken part? Mend it with PIG Epoxy Putty.

You'll also find dozens of powerful PIG solutions in this section like our Compactors and Can Recycler for waste minimization, and PIG Restroom Mats with adhesive backing to keep law and order on your restroom floor.

## Maintenance

Leak Diverters.....	252–261
PIG Putty.....	263–264
PIG Drum Patch & Repair Kits .....	265
PIG Pipe Wrap & Repair Kits .....	266
Concrete Floor Patch .....	268

## Waste Minimization

## ◆ MINIMIZE WASTE

**We've got the best-selling products to help you reduce your waste streams — including the PIG Aerosol Can Recycler on pages 270–271.**

Don't dump your aerosol cans into landfills! Depressurizing cans exempts them from haz waste regulations and turns them into recyclable scrap metal. Visit [newpig.com](http://newpig.com) and search for DRM1266 to **watch our video** and see the PIG Aerosol Can Recycler in action.

## “SIMPLE SOLUTIONS MADE SUPERIOR”

**PIG has the best fixes for leaky roofs, ruptured drums and waste minimization.**

Alexis Henry — Product Manager

## **FEATURED RESOURCES: HOW TO PREPARE FOR MAJOR STORMS & WEATHER EVENTS**

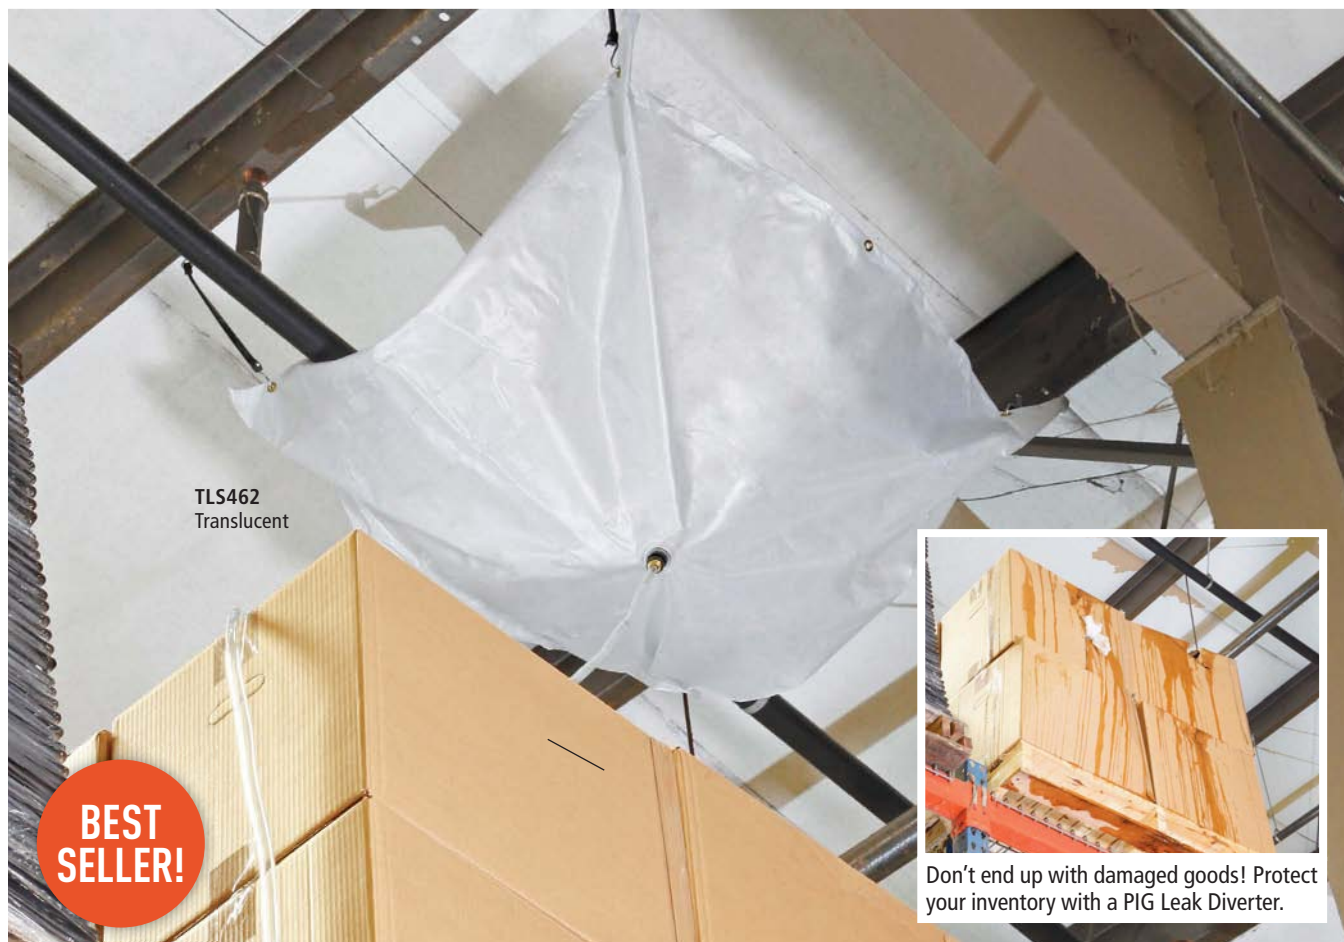

After a natural disaster, your greatest expense is the disruption of operations while salvaging equipment and materials and repairing your facility. Find out how to create a continuity plan at: [newpig.com/majorstorms](http://newpig.com/majorstorms).

# LEAK DIVERTERS

## PIG Leak Diverters are the solution to help you weather the storm.

No workplace is immune to the threat of overhead water hazards. Sometimes they're weather-related problems such as a leaky roof caused by a major rain storm. Other times, they're an operational problem such as ruptured pipes or equipment condensation.

**PIG Leak Diverters** are engineered better than others, and include:

- ✓ Anti-clog drain filters
- ✓ RF welding technology for leakproof seams
- ✓ Heavy duty PVC that eliminates tears and punctures
- ✓ The perfect shape for superior water flow
- ✓ More stability thanks to more hanging points

The benefits to having diverters on hand are endless! They'll help prevent facility water catastrophes before they happen, keep floors dry and safe, and prevent ruined equipment, inventory, lost production time and even possible injuries.

### Here's how it works:

# HOW TO CHOOSE THE RIGHT → LEAK DIVERTER

New Pig offers the biggest variety of leak diverter styles and options, each tailored to specific leak and drip challenges in your workplace. Follow these steps to pick the right one for you.

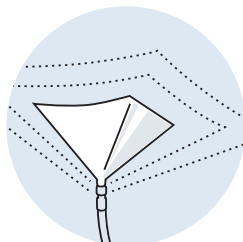

1

**Survey the spots where you're most likely to have a leak:** roof, ceiling, pipes, HVAC, etc.

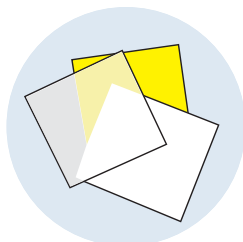

2

**Choose the diverter size and style** that matches the leak area. Custom sizes available.

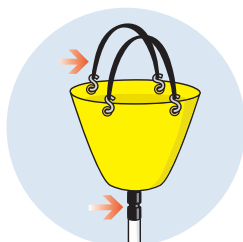

3

**Decide on the color:** clear and translucent diverters make it easy to check water flow; hi-viz yellow stands out, gray blends in.

4

**Choose the appropriate hanging straps and hose** (shown on page 255) for your application.

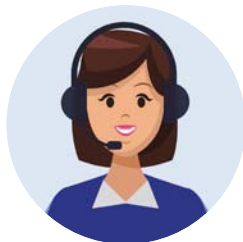

5

**Consider whether you want to divert the leak into a drain** or use a container to collect the liquid.

6

## Leak Diverters — Help protect your people, equipment and inventory from a roof leak.

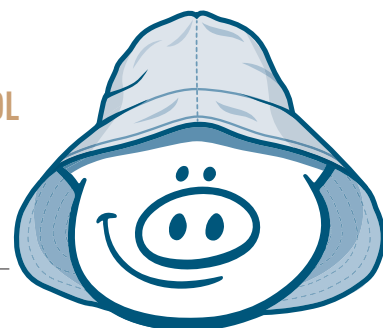

PIG Leak Diverters hang easily in problem spots to catch roof leaks and channel them to a floor drain or container.

- **Ideal for quick response** to avoid downtime after a roof leak or for long-term prevention in leak-prone areas
- Protect employees, equipment and inventory while **keeping floors dry**
- Nonpermeable **tarp is vinyl coated** for strength and durability; resists punctures, UV and mildew to last multiple deployments
- Pinched corners **funnel liquid** toward center for better drainage
- Accepts a **standard 3/4" hose connection** to channel liquid (hose sold separately)
- Flow rate of **3.33 gallons per minute** when used with a 1/2" ID hose
- **Brass corner grommets** (or stainless steel D-rings in larger models) resist tearing and make installation easy

*"I used the 5'x10' leak diverter to contain a roof leak (100 gallons a day with a moderate rainfall). I used the four corners, did not need to make any adjustments, and fully contained the leak. **Very effective design!**"*

— John, TL5553 Customer

LEAK DIVERTERS  
ON PAGES 258–259.**

# Order a PIG Leak Diverter system that fits your facility:

## 1 CHOOSE YOUR SIZE AND STYLE

Rectangular leak diverters are ideal for catching leaks and drips from long cracks or fissures. Choose a square diverter for general coverage of everyday leaks.

The 16"-wide trough-style diverter fits perfectly between ceiling joists, and the edges feature rods along the length for added stability.

### PIG® Roof Leak Diverter Tarp

## 2 ADD STRAPS AND A HOSE (REQUIRED)

Don't forget these add-ons to get your leak diverter up and running!

TLS559  
Adjustable hanging straps  
for uneven ceilings

TLS679  
Clear drainage hose

## 3 OPTIONAL ACCESSORIES

Customize your leak diverter with these handy extras.

TLS682  
Elbow hose  
connector eliminates  
kinked hoses

TLS685

Channel leaks and  
drips into portable  
Tote-N-Stor Tanks.

TLS680

Quick-connect set  
lets you instantly  
connect hose  
to diverter.

TLS683

# **pig** Roof Leak Diverter Bucket Kit — Be ready for roof leaks with all-in-one diverter kits.

Bucket doubles as a drainage container.

- **Works like a funnel** to channel liquids to a 6.5 gallon pail; printed "Caution" message doubles as a warning sign
- **Pail lid has a removable plug** to allow the drainage hose to be inserted without having to remove the lid
- Heavy-duty vinyl-coated tarp **resists punctures, UV and mildew** and lasts multiple deployments
- Flow rate of **3.33 gallons per minute** when used with a 1/2" ID hose (included)
- **Basic kit (TLS121)** has diverter, 25'L hose and separate 60"L adjustable straps
- TLS667 and TLS668 have 25'L hose, preinstalled **quick-connect set** and permanently attached 60"L **adjustable hanging straps** allow speedy setup
- Included **PIG Mat and Wipers** help you clean up to keep floors dry (TLS667, TLS668)

<b>PIG® Roof Leak Diverter Bucket Kit</b>		
Item #	1-3	4+
<b>TLS668</b> • 7'W x 7'L	<b>\$229</b>	<b>\$217</b> *

**Call our Tech Team at**  
**1-800-HOT-HOGS!**

Just remove the plug and insert the drainage hose. No need to remove the lid!

## **pig** Mobile Leak Diverter Kit — Contain roof leaks up to 30 gallons with our all in one system.

- **Quickly respond to overhead leaks** with our kit designed to catch and collect up to 30 gallons of water
- **Complete kit** includes collection container, leak diverter tarp, drainage hose, quick connect adapter and straps
- Hi-viz **30-gallon-capacity collection container** with printed caution label draws attention to the leak; wheeled for easy transport (also sold separately as TLS1100)
- Nonpermeable **leak diverter tarp** is vinyl-coated for strength and durability; resists punctures, UV and mildew
- **Quick connect set** lets you attach drainage hose in seconds without screwing or twisting (choose 10' or 25' hose)
- 60"-long **adjustable hanging straps** install almost anywhere
- **Drainage valve** lets you empty collected water directly into a drain; also accepts a 3/4" garden hose to channel liquid away
- **3.33 gpm flow rate** (from leak diverter to container) when used with 1/2" ID hose
- **Ideal for large facilities** like airports and shopping malls

TLS1101

### PIG® 30-Gallon Mobile Roof Leak Diverter Kit

(Specify for TLS1101 and TLS1102: 10' or 25' Drainage Hose • Add \$10 to price shown for 25' Hose)

# **Umbrella-Style Roof Leak Diverter Kit** — Pop open the fastest solution you can buy to catch a roof leak.

- Hang from a single point near the leak, remove the cover and it **opens like an umbrella**
- **All-in-one kit** is perfect for quick response to prevent damage to inventory or machinery and avoid slip hazards
- **Hangs easily to catch nuisance leaks;** flexible 10'L PVC drain hose in TLS461 or 25'L hose in TLS903 (included) channels them to a floor drain or collection container
- Nonpermeable **tarp** is **vinyl coated** for strength and durability; resists punctures, UV and mildew to last multiple deployments
- Tapered **sides help funnel liquid toward center** for better drainage
- 3/4" drain fitting **accepts longer hoses**
- **Flow rate of 3.33 gallons per minute** when used with a 1/2" ID hose
- **Three colors available:** yellow draws attention; clear shows liquids and lets light pass through; translucent shows liquids and blends in with white ceilings

## **PIG® Umbrella-Style Roof Leak Diverter Kit**

(Specify Color: ☒ Yellow ☐ Clear ☐ Translucent)

Item #	1-3	4+
<b>TLS903</b> • 48.5"W x 48.5"L	<b>\$303</b>	<b>\$289</b>
<b>TLS461</b> • 30"W x 30"L	<b>\$191</b>	<b>\$182</b>

**TLS903 & TLS461 Contents** • 1 Leak Diverter • 1 Hose  
1 Hose Connector • 1 Quick Connect

NOTE: Not suitable for temperatures over 170°F/77°C.

\* ⚠ **WARNING:** Cancer, Birth Defects and Reproductive Harm - www.P65Warnings.ca.gov

## PIG® Spring-Open Leak Diverter Kit — Hangs and levels easily to capture and divert overhead leaks.

- Goes from storage bag to fully functioning leak diverter in **less than two minutes**
- **Coiled diverter springs open** for easy installation
- 60"L straps, hooks and clamps can be adjusted in seconds; just **nudge diverter until it's centered and leveled**, even if hanging points are uneven
- **Rigid outer rim adds structure** so diverter keeps its shape and is easier to level
- **Conical shape** funnels leaks toward center and to a floor drain or collection container; translucent for easy monitoring
- All diverter **components are preattached for speedy setup**; flexible 25'L PVC drainage hose (included) clicks into place with preinstalled quick-connect adapter
- **Nonpermeable tarp is vinyl coated** for strength and durability; resists punctures, UV and mildew to last multiple deployments

PIG® Spring-Open Roof Leak Diverter Kit			PIG
Item #	1-3	4+	
<b>TLS753</b> • Oval • 34"W x 52"L	\$235	\$225	*
<b>TLS752</b> • Circle • Ext. Dia. 30"	\$169	\$160	*
<b>TLS753 &amp; TLS752 Contents</b> • 1 Leak Diverter • 1 Quick Connect • 1 Drainage Hose • 2 Adjustable Hanging Straps • 4 Hanging Hooks • 1 Vinyl Storage Bag			

NOTE: Not suitable for temperatures over 170°F/77°C.

Patent Pending

\* ⚠ **WARNING:** Cancer, Birth Defects and Reproductive Harm - www.P65Warnings.ca.gov

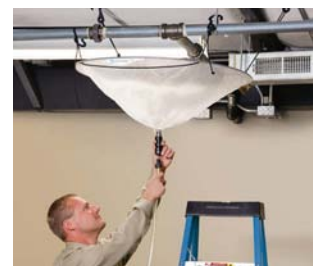

**Step 1** Hang it in places where you need fast response.

**Step 2** A rigid outer rim opens like a pop-up tent and holds the diverter open for easy installation.

**Step 3** Hang diverter by the hooks and slide it along the straps to level.

**Step 4** Click drainage hose into place and position toward a drain or collection container.

## PIG® Below-the-Ceiling Leak Diverter — Clip in place to control leaks and drips.

- **Low-profile**, hangs inches from ceiling; won't impede traffic or draw attention
- **Easily installed close to the wall**, in a corner or in middle of room with a drop ceiling
- **Internal fiberglass rods** prevent bowing and sagging
- Can **span multiple panels**
- **Diverts leaks** through 25' L hose to drain or tank

Install TLS102 anywhere in the room with grid clips.

### PIG® Below-the-Ceiling Leak Diverter Kit

Item #	1-3	4+
<b>TLS102</b> • 48.5"W x 50"L	<b>\$261</b>	<b>\$251</b>
<b>TLS102 Contents</b> • 1 Leak Diverter w/ 90° Elbow • 4 Fiberglass Rods • 1 Hose • 4 Ceiling Clips • 8 Grid Clips • 1 Plastic Chain		

NOTE: Not suitable for temperatures over 170°F/77°C.

Patent 7,331,357

\* ⚠️ **WARNING:** Cancer, Birth Defects and Reproductive Harm - www.P65Warnings.ca.gov

## PIG® Above-the-Ceiling Leak Diverter — Catch the leak before it damages your tile.

- Diverter remains **completely out of view** while diverting ceiling leaks
- Mounted on a lightweight, **sturdy frame** that sits on suspended 2' x 2' or 2' x 4' acoustical tile
- **Nonpermeable tarp** is vinyl coated for strength and durability
- **Captured liquid** drains through a 1/4" port into the attached 25'-long PVC hose; flow rate of 1 gallon per minute

### PIG® Above-the-Ceiling Leak Diverter

Item #	1-3	4+
<b>TLS620</b> • 22.25"W x 32.25"L x 7.25"H	<b>\$135</b>	<b>\$128</b>
<b>TLS620 Contents</b> • 1 Leak Diverter • 1 Frame • 1 Hose • 4 PVC Legs		

NOTE: Not suitable for temperatures over 170°F/77°C.

Patent 7,331,357

\* ⚠️ **WARNING:** Cancer, Birth Defects and Reproductive Harm - www.P65Warnings.ca.gov

## PIG® Ceiling Tile Absorbent Pad — Catch minor drips before they hit your tile.

- Eight-layer **absorbent pad** rests on top of your ceiling tile to catch minor drips
- **Poly backing** prevents absorbed liquids from staining the ceiling tile
- **Low-profile pads** won't interfere with above-ceiling structures or cause tiles to sag

### PIG® Ceiling Tile Absorbent Pad

Item #	1-3	4+
<b>TLS666</b> • Heavyweight • 23"W x 48"L • 10 pads/box Absorbs up to 5.9 gal./box	<b>\$80</b>	<b>\$76</b>
<b>TLS665</b> • Heavyweight • 23"W x 24"L • 20 pads/box Absorbs up to 5.9 gal./box	<b>\$72</b>	<b>\$69</b>
<b>TLS100</b> • Heavyweight • 15.5"W x 20"L • 25 pads/box Absorbs up to 4 gal./box	<b>\$58</b>	<b>\$54</b>

BEST SELLER!

## PIG® Ceiling Leak Catcher — Absorb overhead leaks in crowded areas.

- **All new way** to keep water off of floors and call attention to overhead leaks at the ground level
- Hi-viz container with "Caution" message **stands out in crowded areas**
- **Absorb-&Lock Pad** in bottom of container absorbs 1 gallon of water and "locks" it inside; water won't spill out

Pops open for easy assembly and folds flat for storage.

### PIG® Absorb-&Lock™ Ceiling Leak Catcher Kit

Item #	1-4	5+
<b>WTR026</b> • 16"L x 16"W x 24"H	<b>\$52</b>	<b>\$48</b>
<b>Contents</b> • 3 Absorbent Pads • 3 Disposal Bags • 1 Foldable Poly Container		

TLS248

Catch liquid from pipes during maintenance or when making repairs.

TLS190

Tight spot?  
TLS190 is  
low-profile for  
leaks where  
full-size diverters  
won't fit.

TLS147

Standard funnel design (above right) is made for single point leaks. TLS147 (above) wraps to catch spraying leaks.

TLS248

# STAY HIGH AND DRY WITH PIG!

## **PIG** Pipe Leak Diverter — Don't rig another gizmo to catch a leak. Our diverter works!

- Hangs from a leaking pipe to **catch nuisance leaks** and channel them to a floor drain or collection container
- Nonpermeable tarp is vinyl coated; **resists punctures, UV and mildew** to last multiple deployments
- Hose coupling accepts **drainage hose** (sold separately on page 255)
- **Flow rate of 3.33 gpm** when used with a 1/2" ID hose
- **Choose** yellow for high visibility; gray to blend with ceilings; clear to monitor leaks
- **TLS691, TLS248 and TLS200** have built-in grommets and 14" L rubber straps for easy hanging from a pipe
- **TLS190 is low-profile** for a leak in a tight spot, has built-in grommets; straps sold separately on page 255
- **TLS147** wraps around 3/4" to 4" pipes spraying liquids; hangs with hook-and-loop fasteners

*"Our field guys love the drain bags. They usually find a home in their trucks!  
Easy setup and take-down, always easy to order and delivery is good.  
I'd recommend to all who repair pipe leaks or backflows."*

— Don, TLS691 Customer

TLS669

## PIG® Pipe Diverter Kit — Divert a pipe leak and make permanent repairs.

- Includes a **PIG Leak Diverter for Pipes** with a preinstalled quick-connect set to attach 25' L hose to leak diverter in seconds
- Use included PIG Pipe Wrap and PIG Putty to **make permanent repairs** to damaged pipes; use PIG Mat and Wipers to clean up spills
- Pail with "Caution" message can be a **collection container**
- **Straps are included** for fast setup and response

### PIG® Pipe Leak Diverter Bucket Kit with Absorbents

Item #	1-3	4+
<b>TLS669</b> • Ext. Dia. 18" x 18"L	<b>\$257</b>	<b>\$246</b>
* <b>TLS669 Contents</b> • 1 Leak Diverter • 1 Hose • 4 Hanging Straps • 1 Bucket • 1-30 Pack "CAUTION" Mat Pads • 2-25 Pack Wipers • 1 Pack Pipe Wrap • 1 Tube Repair Putty		

NOTE: Not suitable for temperatures over 170°F/77°C.

\* **WARNING:** Cancer, Birth Defects and Reproductive Harm - www.P65Warnings.ca.gov

## PIG® Diverter Combination Kit — One kit keeps you prepared for roof and pipe leaks.

- **PIG Pipe and Roof Leak Diverter** hang to channel leaks to a drain or container
- **Hang with 14"L or 60"L adjustable straps**, then divert liquid from leak with 10' or 25' drainage hose
- **Preinstalled quick-connect set** attaches hose to leak diverter
- **PIG Mat Absorbent Pads** soak up liquids
- **Carrying bag** has 18 pockets for additional tools and supplies

Kit includes one roof diverter (5'L x 5'W) and one pipe diverter (18" Ext. Dia. x 18"H).

### PIG® Leak Diverter Combination Kit for Roofs & Pipes

Item #	1-3	4+
<b>TLS671</b>	<b>\$373</b>	<b>\$353</b>
* <b>TLS671 Contents</b> • 2 Leak Diverter • 2 Drainage Hoses • 4 Adjustable Hanging Straps • 1-30 Pack "CAUTION" Mat Pads • 2-25 Pack Wipers • 1 Pack Pipe Wrap • 1 Tube Repair Putty • 1 Nylon Carrying Bag		

NOTE: Not suitable for temperatures over 170°F/77°C. Dimensions are nominal size due to pinched corners and reinforced side walls.

\* **WARNING:** Cancer, Birth Defects and Reproductive Harm - www.P65Warnings.ca.gov

## PIG® Oil Pipe Leak Diverter Kit — Respond to overhead leaks in a jiffy.

- Hangs from a leaking pipe or other overhead oil system to **catch nuisance leaks** and channel them to a pail (included)
- Nonpermeable tarp is vinyl-coated for strength and durability and tested for **compatibility with high-viscosity oils**; resists punctures, UV and mildew to last multiple deployments
- 6.5-gallon collection pail has removable plug to allow drainage hose to be inserted **without having to remove the lid**; printed **"Caution" message** on pail for safety
- Preinstalled quick connect **attaches hose in seconds**
- Grommets and 14"L rubber straps make it **easy to hang**
- For low- to medium-viscosity oil, **flow rate of 1 gpm** with a 1/2" ID hose (included)
- For high-viscosity oil, **flow rate of 0.4 gpm** with a 1/2" ID hose (included)

TLS707

### PIG® Oil Pipe Leak Diverter Bucket Kit with Absorbents

Item #	1-4	5+
<b>TLS707</b> • Ext. Dia. 18" x 18"H Tarp	<b>\$267</b>	<b>\$247</b>
* <b>Contents</b> • 1 Leak Diverter • 1 Drainage Hose • 4 Hanging Straps • 1 Quick Connect Set • 1 - 75-Pack Wipers • 10 Mat Pads • 1 Bucket		

NOTE: Not suitable for temperatures over 170°F/77°C.

# PIG PUTTY, PATCH & REPAIR

**PTY123**  
**PIG Pipe Wrap Repair**  
**Kit for Lines & Joints**  
**Under Pressure**  
 (See page 266)

## Burst pipes. Breached drums. Ruptured tanks. Be prepared!

When we say "Be prepared for fast response," we're usually talking about PIG Spill Kits. But some leak and spill situations aren't as simple as cleaning up the liquids that hit the floor. Depending on what's gushing from where, your first response could be to stop it at the source.

### PIG to the rescue!

That's why we offer a variety of high-quality, plant-proven putties, wraps and patches. The products shown in this section are designed for fast fixes and lasting results. Putties that set in minutes. Pipe wraps that restore pipes beyond their original strength. Pastes, patches and plugs that stop leaks instantly. We know these solutions work, because we use them in our own facilities when something springs a leak.

So don't underestimate the power of preparedness. Having the right supplies on hand in the event of a spill emergency can make a big difference in the damage report.

## PIG PUTTY — THE QUICKER FIXER-UPPER.

**LEAKING  
DRUMS**

**DRIPPING  
PIPES**

**BROKEN  
PARTS**

*"This stuff is awesome. It's better than any of the competition out there! We've used it in several heavy duty applications and it always holds up!"*

— Shane, PIG Putty Customer

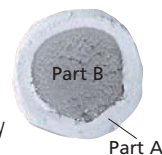

**NOT SURE WHICH PATCH TO PICK?**  
**CALL OUR TECH TEAM AT 1-800-HOT-HOGS!**

# **pig Epoxy Putty** — Top-quality resins bond better and stay stronger so repairs last. Fix it fast!

- Made with the **highest-quality epoxy resins**
- Convenient, premeasured epoxy putty has **Parts A and B in one tube**; knead together and epoxy is ready to use in minutes
- **Sets in minutes** and cures concrete-hard in 1 hour for drilling, tapping, sanding or painting
- **A great addition to any toolbox** or response kit
- **Not intended** to make structural repairs

## **Multipurpose**

- **Sticks** to steel, masonry and most plastics
- **3- to 5-minute** working time

PIG™ Multi-Purpose Epoxy Putty			
Item #	1-3	4-9	10+
<b>PTY201</b> • 7" L • 12/box	<b>\$104</b>	<b>\$99</b>	<b>\$95</b>
<b>PTY202</b> • 7" L • 6/box	<b>\$61</b>	<b>\$57</b>	<b>\$55</b>

PTY124

## Pipe Wrap Repair Kit — Make broken pipes like new.

- Each kit contains materials for restoring **one pipe or joint**
- **Works on** PVC, copper, galvanized steel, rubber, lead and iron; repair is **not affected by salt water**
- Materials adhere to wet or dry surfaces; **no need to drain pipes**
- Polyurethane-impregnated fiberglass wrap **seals over damaged areas** to prevent leakage
- Cures in about **30 minutes at 75°F**
- **NSF Certified** for safe use on potable water lines
- Repair kits for **pipes and joints under pressure** (up to 60 psi) can be used without relieving line pressure; pressure-sensitive tape and PIG Repair Putty apply under outer wrap to strengthen seal
- Repair kits for **pipes and joints not under pressure** require you to relieve line pressure before beginning repairs; butyl patch or PIG Repair Putty applies under outer wrap to strengthen seal

PTY119

1. Apply primary patch layer.

2. Soak outer wrap to activate it.

3. Apply outer wrap.

4. Finish off repair and let it cure.

### PIG™ Pipe Wrap Repair Kit for Pipes & Joints Not Under Pressure

Item #	1-3	4+
PTY122 • For 6.5" to 10" Dia. Non-Pressurized Pipes & Joints • 1/box	\$334	\$317
PTY121 • For 4.5" to 6" Dia. Non-Pressurized Pipes & Joints • 1/box	\$178	\$170
PTY120 • For 2.5" to 4" Dia. Non-Pressurized Pipes & Joints • 3/box	\$311	\$292
PTY119 • For up to 2" Dia. Non-Pressurized Pipes & Joints • 3/box	\$210	\$198

**Contents** • Putty Sticks • Butyl Patch • Nitrile Gloves • Polyurethane-impregnated Fiberglass Wrap

### PIG™ Pipe Wrap Repair Kit for Pipes & Joints Under Pressure

Item #	1-3	4+
PTY126 • For 6.5" to 10" Dia. Pressurized Pipes & Joints • 1/box	\$467	\$440
PTY125 • For 4.5" to 6" Dia. Pressurized Pipes & Joints • 1/box	\$264	\$246
PTY124 • For 2.5" to 4" Dia. Pressurized Pipes & Joints • 3/box	\$411	\$393
PTY123 • For up to 2" Dia. Pressurized Pipes & Joints • 3/box	\$317	\$303

**Contents** • Putty Sticks • Pressure-sensitive Tape • Nitrile Gloves • Polyurethane-impregnated Fiberglass Wrap

"We've used PIG Pipe Wrap to repair leaks during inclement weather on pipe that transports abrasive material under pressure. The pipe wrap **held up extremely well, often outlasting the original steel pipe.**"

— Jeff, PTY124 Customer

## Rupture Seal — Deploy in seconds for a temporary fix.

- Seals any ruptured surface in **less than 20 seconds** — no tools required!
- **Compatible with most fuel and chemical spills** from drums, tanks, IBCs and more
- **Seals** rough, unclean or splintered surfaces; effective from **-58°F to 122°F**
- **Lasts up to 10 hours** depending on conditions

Rupture Seal™			
Item #	1-3	4+	
PTY1000 • For pipes • 1" Dia. x 1" H • 3/pack	\$43	\$39	
PTY1001 • For drums, tanks, IBCs • 1" Dia. x 1" H • 1/pack	\$32	\$29

\* ⚠️ WARNING: Cancer - www.P65Warnings.ca.gov

# RECYCLING & WASTE MINIMIZATION

## Zero in on zero waste — help the environment, help yourself.

According to the EPA in the Resource Conservation and Recovery Act (RCRA), waste minimization is “the reduction of hazardous waste that is generated or subsequently treated, stored or disposed,” and includes both source reduction and recycling. Here’s what you can do:

- **Perform a waste audit** — find out what types and how much waste you are producing and identify processes that are producing unnecessary wastes
- **Improve housekeeping** — this inexpensive but effective method includes proper labeling, storage, disposal and segregation of wastes
- **Reclaim, recycle and reuse wastes** — many wastes can be recycled within a process, used as fuel or sold as scrap

PIG Waste Compactors can help you reduce the volume of your waste, and products like our PIG Aerosol Can Recycler can save you money by avoiding the expenses of haz waste handling. Check out the graphic below for more ways that PIG products can help!

## Need help with RCRA requirements?

Call our Tech Team at  
**1-800-HOT-HOGS!**

## WHAT'S YOUR WASTE STREAM?

### ABSORBENTS, RAGS & PAINT BOOTH FILTERS

Crush disposal costs by compacting up to six drums of waste into one.

#### PIG Waste Compactor

# **pig** Aerosol Can Recycler — Puncture and drain your aerosol cans to avoid the hassle and expense of haz waste handling.

- Recycling system easily punctures aerosol cans, rendering them **exempt from haz waste regulations** when properly emptied
- **Eliminates the risks** associated with illegal aerosol disposal and the expense of haz waste handling
- **Reduces injuries** caused by fire, explosion or volatile organic compound (VOC) release
- Properly emptied cans can be sold as scrap steel; reducing waste can **help you meet recycling goals**
- System works with **domed mini, standard and jumbo aerosol cans** (minimum 2"Dia x 5"H, maximum 3"Dia x 9.5"H with sleeve removed)
- **Unit mounts directly into 2" bung** on a 30- or 55-gallon closed-head steel drum; residual liquids drain directly into drum (drum should not be filled more than 70% full to provide proper displacement for released contents)
- **Timestrip indicator** eliminates the guesswork of filter changeouts (ideal operating temperature range 60–80°F; approximately 3 months of regular use)
- **Replacement gaskets** sold separately;

choose standard neoprene (DRM1237) or upgrade to Viton (DRM1236) for extra chemical resistance

- **New and improved one-piece filter system** (replacement DRM1265 sold separately) is better at removing harmful VOC's, protecting the environment and protecting workers

◆ **Helps you comply** with 40 CFR 261.1(c)(6) that defines scrap metal

*"DRM1266 works very well. We used to pay a hazmat company to dispose of our aerosols — quite expensive. Since we got the Aerosol Recycler, we recycle the cans and recoup even more money. We've more than paid for the unit with these savings. **Very good investment.**"*

— **Chuck, DRM1266 Customer**

Punctured cans have no sharp, jagged edges.

**NEW & IMPROVED!**

**DRM1265**  
Combination  
Coalescing/  
Carbon Filter

**DRM1266**

One-piece filter captures odors and VOCs released by punctured aerosol cans.

## **Pig® Aerosol Can Recycler**

Item #	1-2	3+
<b>DRM1266</b>	<b>\$867</b>	<b>\$820</b>
<b>DRM1266 Contents</b> • 1 Puncture Unit • 1 Goggles • 1 Instruction Sign • 1 Plastic Sleeve • 1 Combination Filter 1 Grounding Wire • 8 various-sized gaskets		
Item #	1-3	4+
* <b>DRM1265</b> • Combination Coalescing/Carbon Filter • 1 each	<b>\$295</b>	<b>\$232</b>
<b>DRM1236</b> • Viton Replacement Gasket • 1 each	<b>\$16</b>	
<b>DRM1237</b> • Neoprene Replacement Gasket • 1 each	<b>\$9</b>	
<b>DRM1238</b> • Repair Kit with Viton Replacement Gasket	<b>\$88</b>	
<b>DRM1238 Contents</b> • 1 Grease • 1 Puncture Pin • 1 Spring • 2 Viton Gaskets		

\* **NEW**

Disposal of empty aerosol cans as  
**HAZARDOUS WASTE**  
is too expensive

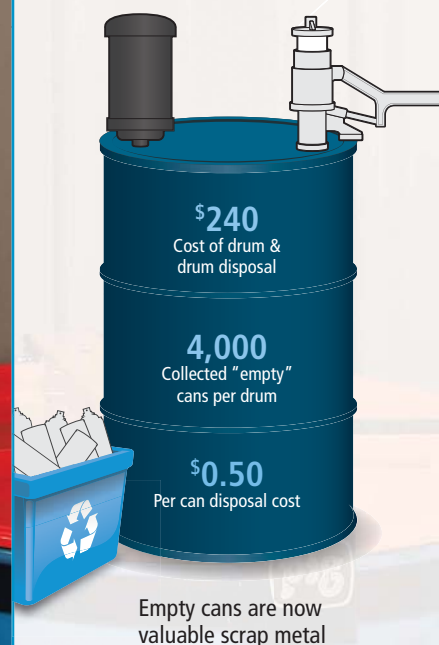

### 55 GALLON DRUM

## PUNCTURE & RECYCLE INSTEAD!

The PIG Aerosol Can Recycling System (DRM1266) will help:

- Exceed compliance
- Reduce disposal costs
- Reduce handling requirements
- Recoup profits

Durable aluminum construction resists rust and corrosion.

Hardened steel pin cleanly punctures cans.

Ground wire helps prevent static electricity buildup.

Instructions come attached to the unit.

## AEROSOLV XL Can Puncturing System — Designed to comply with California regulations.

- Properly-emptied cans are **exempt from haz-waste regulations** and can be recycled as scrap steel
- **Unit quickly pays for itself** as you sell recycled steel rather than pay for can disposal
- System works with **domed mini, standard and jumbo** aerosol cans
- **Mounts into 2" bung** on 30- or 55-gallon closed-head steel drum; residual liquids drain directly into drum

Complete system includes everything you need—can counter, padlock and key, goggles and more!

### AEROSOLV® XL CA-Compliant Can Puncturing System

Item #	1+
DRM1334	\$2128

**DRM1334 Contents** • 1 Counter for Can Puncturing System • 1 Goggles  
1 Padlock & Key • 1 Deluxe Can Puncturing Unit • 1 Plastic Sleeve  
1 Grounding Wire • 1 Colorimetric Indicator Replacement Cartridge  
1 Drum Cover/Under Containment

DRM1334

Pressure gauge tells you when valve stem can be removed.

## Propane Cylinder Recycling System — Recycle cylinders and avoid haz waste disposal.

- **Pays for itself** with recycling of three standard propane cylinders
- Safely removes valve stem so **canister can be recycled as scrap steel** rather than be disposed of as hazardous waste
- Inserts **"Recyclable" steel certification tag** into cylinder valve
- **Activated carbon filter** helps remove Volatile Organic Compounds (VOCs) from propellant
- Unit **can be handheld** or mounted on bench
- **Antistatic wire** grounds unit
- **One-piece replacement carbon cartridge (DRM451)** threads directly into ProSolv unit without special tools
- **Replace carbon filter after 40 uses** which can be tracked with the 40 certification tags included
- ◆ **Helps you comply** with 40 CFR 261.1(c) (6) that defines scrap metal

### ProSolv® Propane Cylinder Recycling System

Item #	1-2	3+
DRM429	\$1609	\$1538

**DRM429 Contents** • 1 Unit • 1 Anti-Static Wire • 1 Carbon Filter  
1 Safety Goggles • 40 Certification Tags

<b>DRM451</b> • ProSolv Replacement Carbon Filter	\$302	\$276
---	-------	-------

**DRM451 Contents** • 1 Carbon Filter • 40 Certification Tags

NOTE: Not for use with oxygen or ether cans.

## PIG Absorbent Wringer — Reclaim up to 90% of liquids from PIG Absorbents to minimize waste.

- Polyurethane **"gripper" rollers** feature channels to direct liquids away from absorbents and into a collection drum
- 12"-wide throat **adjusts to accommodate a wide variety of PIG Absorbents**: PIG Super Absorbent Socks, PIG Super Pillows, Mats, Booms and Re-Uz-It Pads
- **Mounts on standard open- or tight-head 55-gallon drum** (not included)
- Geared for **easy hand cranking**

### PIG® Absorbent Wringer

Item #	1+
RNG202 • Manually Operated	\$1842

**RNG202 Contents** • 1 Wringer • 1 Tray

NOTE: Wringing or compacting waste may be considered "treatment" by RCRA regulations. You may require a permit to use this product. Please consult with your state EPA waste management office prior to use.

**Wondering about waste minimization?**  
**Call our Tech Team at 1-800-HOT-HOGS!**

## **PIG® Waste Compactor** — Crush up to six drums of waste into one and save money.

- Crushes waste with **12,000 lbs. of force**
- **Ideal for minimizing waste** such as absorbents, rags, plastic, paper and cardboard (not recommended for wood, metal or other hard materials)
- **Residual liquids** are forced through holes in ram top
- **Spark-resistant aluminum** is ideal for flammables
- **Durable 5"-channel profile frame** prevents flexing and failure over time
- **No need to move** heavy drum for access
- **Reinforced base plate** keeps drum from bowing under pressure
- **Safety interlock** shuts off compactor if safety cover is opened during operation

Tilt-back frame makes loading easy.

PIG® Waste Compactor		
Item #	1	2+
DRM655	\$7665	\$7436
Treatment Notice: Wringing or compacting waste may be considered "treatment" by RCRA regulations. You may require a permit to use this product. ## **PIG® Drain 'N Contain Workbench** — Do messy jobs on a self-draining workbench with a built-in sump.

- **Built-in 22-gallon sump** catches leaks and drips from wet, leaking or disassembled parts while you work
- **Integral drain** accommodates a 30-gallon container underneath for added capacity (available separately)
- **Removable polyethylene grates** allow liquids to pass into sump
- Heavy-gauge steel workbench **holds up to 400 lbs.**
- **Keeps your workspace and benchtop neat** while capturing the mess and grime from degreasing, repairs or rebuilds

PIG® Drain 'N Contain® Workbench		
Item #	1-2	3+
PAK399 • 27.5"W x 54.5"L x 53"H • 22 gal. sump capacity	\$865	\$806

# **PIG® Lamp Recycling Program** — The safest mail-back kits you can buy to package, label, ship and recycle spent bulbs.

DRM1400  
For 4' Fluorescent Lamps

- **Includes everything you need** — collection and shipping containers, prepaid UPS shipping label to our recycling partner, specially reinforced packing tape and access to your recycling certificate upon completion
- Packaging meets **ISTA 3A Standard Shipping Performance Test** to ensure no hazardous chemicals, including mercury powder or broken glass, can escape during shipping; no other recycling program meets these standards
- **Tyvek and vapor-seal bonded bag** with self-adhesive seal contains haz waste if breakage occurs during shipping
- **Multi-layered cardboard** collection box with reinforced shipping tape holds the bag
- Multi-layered outer shipping box contains the sealed inner box and provides **strength during shipment** to the recycling center
- Program includes a downloadable **Certificate of Destruction** to prove your compliance with Regulations during audits
- Performance-tested system helps **protect all key stakeholders** within the supply chain (generator, transporter and recycler)
- **Helps you manage waste streams**, reduce costs and avoid fines associated with throwing out bulbs in regular trash
- **Minimizes the risk of breakage** or leakage that can occur in mail-back programs utilizing cheap polyethylene containment bags

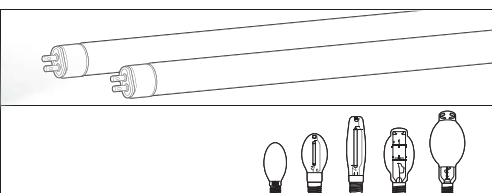

## **Q: Do I have to recycle my lamps?**

### **A: Yes, you do!**

Many businesses aren't aware that it's illegal to throw fluorescent lamps into a garbage can or dumpster. Other companies are aware, but find it difficult to sort through complex environmental regulations to determine what they need to do.

All fluorescent lighting — even when it's marketed as a "green" product — contains mercury, which can leach into groundwater and cause neurological problems in children and adults. That's why EPA has established **Universal Waste Regulations** that streamline the requirements for fluorescent lighting that will be recycled.

Keep reading at [newpig.com/spent-lamps](http://newpig.com/spent-lamps)

PIG® Lamp Recycling Program 		
Item #		1+
	<b>DRM1400</b> • For 4' Fluorescent Lamps Holds up to 74 T8 or 32 T12 Lightbulbs	<b>\$126</b>
	<b>DRM1401</b> • For HID Lamps Holds up to 20 Lightbulbs	<b>\$119</b>

## Recycling your fluorescent lamps *the right way* couldn't be easier!

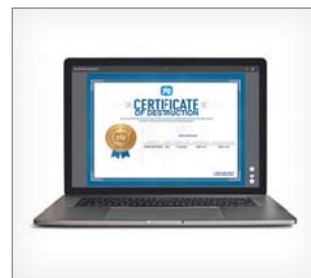

1. We send you the boxes, Tyvek collection bag, reinforced tape and prepaid shipping labels.

2. Collect your spent bulbs in our bag/box/box container system (Passes ISTA 3A Shipping Test).

3. Schedule your prepaid UPS shipment and send your bulbs off to our recycling partner.

4. Visit [newpig.com/COD](http://newpig.com/COD) and download your Certificate of Destruction (allow 5–7 days).

## Fluorescent Lamp Storage Drum — Store bulk quantities of spent bulbs in these sturdy, lightweight fiber drums.

DRM1149

- Cost-effective way to **store spent fluorescent tubes** (not a shipping container)
- Lightweight but sturdy kraft material **minimizes breakage**
- DRM1149 and DRM1148 hold **4' lamps**; DRM805 telescopes to hold **6' or 8' lamps**

Fluorescent Lamp Storage Drum		
Item #	1-9	10+

### Handle universal waste the right way.

Batteries, pesticides, fluorescent lamps (bulbs) and mercury-containing equipment are all universal waste that must be stored in closed containers with the proper labels.

**reghelp@newpig.com • 1-800-HOT-HOGS**  
GET FREE ADVICE ON REGS! See page 365 for details.

## Used Battery Container — Dry-cell battery container helps you meet regs.

- **Easy-to-reseal polyethylene container** safely stores used dry-cell batteries for disposal
- Clearly **labeled for waste battery collection** to prevent improper disposal
- Eliminates open containers of dead batteries that **might not meet universal waste regulations**
- **Extra used battery labels** (SGN242) sold separately below

NOTE: Not a shipping container.

## ULV Cold Disinfectant Fogger — Quickly disinfect an entire room to speed up surface cleaning protocols.

- **Ultra-low volume (ULV)** cold fogger provides maximum coverage while using minimal amounts of disinfectant
- Disperses your solution **over large areas** to help disinfect spaces that are frequently used by multiple groups
- **Corded unit (SAN400)** produces 30+ feet of reach; covers up to 935 sq. ft. depending on disinfectant and surfaces
- **Battery-powered unit (SAN401)** reaches 25+ feet; covers up to 1,265 sq. ft. depending on disinfectant and surfaces

- **Adjustable nozzle** controls flowrate and droplet size
- **Reservoir level window** shows when it's time to refill tank
- Compatible with **NOVA™ Germicidal Disinfectant** (sold below)

### XPOWER ULV Cold Disinfectant Fogger

Item #	Type	Cord	Spray Distance	Max Flow Rate	Speeds	1+
<b>SAN400</b>	Electric	25' Power Cord	30+ ft	250ml/Min.	2	<b>\$371</b>
<b>SAN401</b>	Battery	10' Rechargeable	25+ ft	200ml/Min.	1	<b>\$575</b>

DIS100

## NOVA™ Germicidal Disinfectant — Disinfect hard surfaces with this EPA LIST N solution.

- Multi-purpose **quaternary disinfectant** works on floors, walls, metal, stainless steel, glazed porcelain and plastic; controls cross-contamination after treatment
- EPA List N disinfectant that's **effective against a wide range of pathogens**
- **Ideal for** commercial and retail facilities, schools, restaurants, work areas and more
- Lemon scented, phosphate-free formula **cleans, deodorizes and disinfects** in one step

### Pioneer Eclipse NOVA™ Germicidal Disinfectant

Item #	1+
<b>DIS100</b> • 4 - 1-gallon Bottles	<b>\$72.45</b>

SAN210

## Boot Sanitizing Footbath Mat — 2"H walls hold more disinfectant for deeper cleaning.

- Fill with disinfecting solution of your choice; immerse soles and treads of boots to sanitize and clean; **helps reduce cross-contamination**, germs and viruses and maintain a clean facility
- 2" high reservoir **holds 5 gallons of disinfectant solution**; high-viz sidewall reduces splashes and is easy to see
- Contains rubber fingers that **scrape the bottom of boots**, dislodging debris and contaminants

### Boot Sanitizing Footbath Mat

Item #	1-4	5+
<b>SAN210</b> • 32"W x 39"L x 2"H	<b>\$142</b>	<b>\$131</b>

## Broom Head — Quality broom has chemical-resistant bristles.

- **Resists chemicals**, petroleum-based liquids and solvents for a long, reliable life
- **Stiff-fibered broom head** scrubs and sweeps on rough or smooth concrete
- **Handle (CLN279)** locks into **reinforced head** to prevent breaking or stripping (Handle sold separately)

### PRO-SWEEP™ Broom

Item #	1-11	12+
<b>CLN278</b> • 24"W Broom Head	<b>\$29</b>	<b>\$27</b>
<b>CLN279</b> • Handle Ext. Dia. 1.13" x 60"L	<b>\$29</b>	

## Caution Wet Floor Cone — Go bananas on floor safety with this highly-effective, can't-miss cone.

- Ideal for high traffic, high risk areas; yellow banana peel-shaped cones are **proven to be more noticeable** than traditional floor signs
- **Fun design** catches people's attention to reduce risk of slip and fall accidents on wet, slippery floors
- **Space-saving**, stackable design with "stem" as handle
- **Trilingual** (English, French and Spanish)
- **OSHA Compliant**

**NEW!**

**SGN1040**  
Specify size  
when ordering

### Caution Wet Floor Cone

Item #	Size	Unit	1-3	4+
SGN1040	Small: 11.15"W x 11.15"L x 20.63"H	3/case	\$131	\$125
	Large: 14.1"W x 14.1"L x 34.9"H	3/case	\$180	\$173

**NOTE: Drum not included.**

**TLS271**

## VAC-U-MAX Vacuum — Make short work of cleaning up liquid spills.

- Must be used with 55-gallon open-head steel drum (without clamps) for cleaning spills in one step
- **Ideal for cleaning up spills** of water or machine oils, removing oil from sumps, and picking up metal chips and other small debris
- Includes **static-conductive PVC 1½" x 15' hose, aluminum wand, floor tool and crevice tool**
- Produces a maximum static lift of **215" H<sub>2</sub>O** and **110 SCFM suction**
- **Input operating range** from 37–70 SCFM at 60 psig
- For vacuuming flammables, search **TLS417** at [newpig.com](http://newpig.com)

### VAC-U-MAX® Industrial Wet Vacuum

Item #	1+
TLS271 • Air: 35 SCFM at 60 PSI (Minimum)	\$3200

**NOTE:** Not for use with flammable or corrosive liquids and requires a minimum ½" airline for operation.

**NEW!**

**SGN1041**

## Caution Wet Floor Sign — Reduce the risk of slips and falls at your facility.

- **Quick to set up**; folds flat for compact storage
- **Bilingual** (English and Spanish)
- **OSHA Compliant**

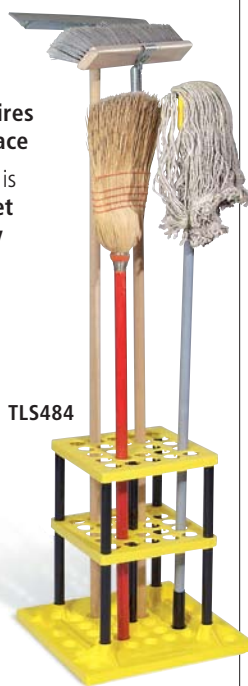

### Caution Wet Floor Sign

Item #	1-5	6+
SGN1041 • "Caution Wet Floor" 10.75"L x 24.63"H	\$17	\$15

## Tool Stand — Store 24 tools in an 18" x 18" space.

- Accepts tools with long handles **up to 1⅜" in diameter**
- Compact and **requires minimal floor space**
- Plastic construction is **unaffected by wet tools or humidity**
- **Assembles easily** without tools

**TLS484**

### Tool Storage Stand

Item #	1-4	5+
TLS484 • For tools up to 1.375" Dia.	\$54	\$50

**CLN552**

## MaxiRough Tool Organizer — Grips tools, but lets go easily.

- Wall-mountable unit **holds four tools**, from mops and brooms to shovels and squeegees
- Flexible rubber holders securely hold tools yet release easily; **brackets slide along track and can be positioned** to adjust space between tools
- **Durable, lightweight aluminum-and-plastic frame** won't rust or corrode
- Holder is **20¼" wide**

### MaxiRough® Tool Organizer

Item #	1-4	5+
CLN552 • 20.25"W	\$46	\$43

GRP7004

Full coverage adhesive backing holds tight with no shifting.

## Restroom Mats with Adhesive Backing — No-shift mats fight odor and stains.

Adhesive-backed mats keep your floors cleaner, drier and safer for a more professional restroom environment.

- Full product line to **protect your entire restroom**: antimicrobial urinal mats, toilet mats, sink/dryer mats and more
- **Proprietary adhesive formulation** applied across entire backing of mats ensures they stay in place with no shifting, curling or flipping up
- Sticks to your floor to **stop slip and trip hazards** and eliminate time spent repositioning mats that have shifted; mats peel up easily when you need to remove them
- Mats won't budge while you clean them; simply **mop them with the rest of the floor**
- Permanently infused with **antimicrobial technology** to help prevent the growth of odor-causing bacteria and mold on the mats
- **Absorbent top surface** is engineered to pull in urine and water on contact, wick it away and dry out quickly
- Two impermeable backing layers ensure **zero liquid pass-through**, protecting your flooring and grout against degradation and discoloration from uric acid
- Release paper on the bottom of the mat **should be removed** prior to installation

Durable, low-profile mats can be mopped or scrubbed without shifting or sliding, allowing you to extend product life.

### Urinal Mat

- **GRP7001, GRP7601, GRP7501** — catches drips and splashes in standard applications
- **GRP7002, GRP7602, GRP7502** — extra-large for extended coverage, place with one end abutting your wall for **easy alignment**

### Urinal Mat Runners

- Industry-first design lets you **roll out and cut to length** the perfect size runner for continuous drip/splash coverage
- 25-foot roll provides enough **coverage for up to 10 urinals**; also ideal for rows of sinks or wherever custom sizes are needed

### Toilet Mat

- Mat design fits around the base of your toilet to absorb urine and provide maximum **drip/splash coverage**

### Plunger Mat

- **Controls drips and eliminates puddles** under toilet plungers and brushes, soap dispensers and other small-footprint areas

### Sink & Dryer Mat

- Provides effective **drip/splash coverage** on floors underneath and between sinks, hand dryers and towel dispensers
- Can also be used in front of drinking fountains, showers, transition, areas or anywhere you need to **control slip hazards**

# LIDS AND FUNNELS DESIGNED FOR COMPLIANCE

We make it easy for you to stay on top of Closed Container Regulations.

If you're using a drum to collect materials that are considered hazardous waste, you can't take the drum lid off and not put it back on properly. If you're hassling with the bolt ring every time you access the drum, you'll be out of compliance the first time the lid ends up on the floor. Same goes for funnels that are on-again and off-again. Our **Latching Lids** and **Burpless Funnels** allow you to keep drums closed until they're ready for disposal. That helps you meet these regs:

- ◆ **Helps you comply** with 40 CFR 264.1086(c)(1)(ii) requiring haz waste containers to be sealed to prevent VOC emissions
- ◆ **Helps small and large quantity generators comply** with 40 CFR 262.16(b)(2)(iii) and 40 CFR 262.17(a)(1)(iv) requiring haz waste containers to be kept closed

## EPA's Solvent-Contaminated Wipes rule could lower your shipping costs.

The EPA passed the *Solvent-Contaminated Wipes Management Rule* that allows properly managed wipes with no free liquids to be exempted from full haz waste regulations. That can save you money, and **PIG Latching Drum Lids** can help you with the "properly managed" part of that equation!

- ◆ **Helps you comply** with 40 CFR 261.4 for management of solvent-contaminated wipes

Learn how EPA's rules about the management of solvent-contaminated wipes could save you time and money.

**DOWNLOAD YOUR FREE WHITE PAPER:**  
[newpig.com/solventwipes](http://newpig.com/solventwipes)

## Using a funnel to meet regs? Your transfer station probably needs a pallet, too!

Once you've got a PIG Burpless Drum Funnel on top of your drum to satisfy closed container regs, bring your transfer station full circle with a **PIG Containment Pallet** underneath for compliance with EPA secondary containment regulations.

- ◆ **Helps you comply** with 40 CFR 264.175 requiring full containment for hazardous waste to prevent releases into the environment.

**LEARN MORE ABOUT OUR SPILL PALLETS  
ON PAGES 360-365.**

# HOW TO CHOOSE LIDS vs FUNNELS

For solid waste in  
open-head drums choose  
**PIG LATCHING LIDS**

**OPEN  
HEAD  
DRUMS**

Safely cover drums of solid waste without the fuss of a nut and bolt ring.

- **PIG Latching Drum Lids** give quick, easy access but keep contents dry and secure
- One-handed access makes it easy to add to drum contents and helps you comply with regs
- **Nitrile gasket and locking mechanism** seal drum lid to help reduce vapors and protect contents

For liquid waste in  
tight-head drums choose  
**PIG BURPLESS FUNNELS**

**TIGHT  
HEAD  
DRUMS**

Our patented funnel designs help you pour liquids quickly and safely.

- **Burpless vents** allow fast pouring without venting through  $\frac{3}{4}$ " bung; a possible reg violation if left open
- Easy-access design helps you **meet closed container regs** and minimize vapor exposure
- **Nitrile gasket and locking mechanism** seal drum funnel lid to reduce vapor emissions

**SEE OUR FULL LINEUP OF LIDS AND FUNNELS ON PAGES 288–299.**

# NO NUTS. NO BOLTS. NO FUSS!

DRM659

Drum sold separately on page 300

**EXCLUSIVE!**

## **piig** Latching Drum Lids — One-hand access makes it easy to meet haz waste regulations.

**Problem:** Taking the bolt ring and lid off an open-head drum that's being used to store hazardous waste and not replacing it is a violation of closed container regs.

**Finding the solution:** Our idea was simple — make a lid with a latch that was easy to install and use. Early models were compliant but clunky. Pins broke. Hinges got pinched. We had lots of failures and replaced lots of lids. But the customers who worked with us helped us perfect them.

Now we make a lid that controls vapor. We have a lid that has FM Approved fusible plugs for flammables, plus we have the first lids for poly and fiber drums and outdoor storage.

**Problem solved:**  
**PIG Latching Drum Lids**

- Hinged lid has a latching handle that easily **opens and closes with one hand**; hinge stops **keep lid upright** when open
- Nitrile gasket and locking mechanism **seal drum lid** to help cut vapors and keep drum contents dry and secure
- Drum lid **improves appearance of drums** and storage areas
- Easy-access lid closes securely to help you **meet regulations**; **lockable latch** helps prevent unauthorized access
- Durable, **chemical-resistant powder coat** for long service life
- ◆ **Helps you comply** with 40 CFR 264.1086(c)(1)(ii) requiring haz waste containers to be sealed to prevent VOC emissions
- ◆ **Helps small and large quantity generators comply** with 40 CFR 262.16(b)(2)(iii) and 40 CFR 262.17(a)(1)(iv) requiring haz waste containers to be kept closed
- ◆ **Helps you comply** with 40 CFR 261.4 for management of solvent-contaminated wipes
- ◆ **Helps you comply** with 40 CFR 262.15 for containers in satellite accumulation areas

**SIZES AVAILABLE TO FIT YOUR STEEL DRUMS FROM  
5 TO 85 GALLONS. CHOOSE FROM THREE COLORS!**

Adjustable tension means the latching handle will close properly every time!

Removable hinge pin lets you remove the lid without loosening the band.

*"One of the simplest ways to ensure compliance is to make the process easy. This drum lid does just that for drums that must be kept secured and closed when not in use...no more wondering where the wrench is. **Extremely helpful and worth every penny.**"*

— Matthew, DRM659 Customer

#### PIG™ Latching Drum Lid

(Specify Color for DRM659 & DRM821: Black Red Yellow)

Item #	1-2	3+
DRM1201 • Red only • For 85-gal. Open-head Steel Drums	\$512	\$486 *
DRM659 • For 55-gal. Open-head Steel Drums	\$425	\$405 *
DRM821 • For 20- and 30-gal. Open-head Steel Drums	\$405	\$386 *
DRM167 • Red only • For 5-, 8-, 10- and 16-gal. Open-head Steel Drums	\$341	\$323 *

#### PIG™ Latching Drum Lid with Fast-Latch Ring

(Specify Color: Black Red Yellow)

Item #	1-2	3+
<b>BEST SELLER!</b> DRM1072 • For 55-gal. Open-head Steel Drums	\$436	\$413 *
DRM2072 • For 20- and 30-gal. Open-head Steel Drums	\$416	\$394 *

\* ⚠ **WARNING:** Cancer, Birth Defects and Reproductive Harm - www.P65Warnings.ca.gov

\* **NEW**

Fast-latch ring makes installation easy on new or reconditioned steel drums; no clumsy nut-and-bolt ring.

**PIG** **EXPERT  
ADVICE**

Watch our latching lid make it easy to access drums with no bolt ring hassles. See it at: [newpig.com/drumlid](http://newpig.com/drumlid)

# Latching Lids — Choose a lid to suit your

DRM1065

## Latching Lid with Fusible Plugs — Turn a 55-gallon steel drum into a container for flammable materials.

- The only latching drum lid **designed specifically for NFPA 30** venting requirements
- In a fire, 2" and 3/4" FM-Approved **nylon plugs melt to vent pressure** and prevent drum from bursting
- Ideal for **safe storage of flammable or combustible solids** such as used rags and absorbents
- **Plus all the lid features** listed on page 288
- ◆ **Helps you comply** with the regulations listed on page 288

FM Approved plugs melt if there's a fire.

### Latching Drum Lid with Fusible Plugs

(Specify Color:  Black  Red  Yellow)

Item #	1-2	3+
DRM1065 • For 55-gal. Open-head Steel Drums	\$485	\$461

\*  **WARNING:** Cancer, Birth Defects and Reproductive Harm - [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov)

DRM1033

## Vapor-Control Latching Lid — Small port limits exposure to vapors.

- Offers **controlled, temporary containment** of oil-soaked rags, used oil or solvent containers and lab waste
- 5" port to insert waste **minimizes lid opening to limit emissions**
- **Plus all the lid features** listed on page 288
- ◆ **Helps you comply** with regulations listed on page 288

DRM1033

Open the entire lid to dispose of larger items.

*"We use these lids for solvent-covered rags. No more fighting rings and bolts just to add to or remove from the drum."*

— Paul P., DRM1033 Customer

### Vapor-Control Latching Drum Lid

(Specify Color:  Black  Red)

Item #	1-2	3+
DRM1033 • For 55-gal. Open-head Steel Drums	\$734	\$694
DRM1034 • For 30-gal. Open-head Steel Drums	\$747	\$715

\*  **WARNING:** Cancer, Birth Defects and Reproductive Harm - [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov)

# application from these exclusive designs.

## **PIG Outdoor Latching Lid** — Protect a drum with an easy-on, easy-open lid that sheds water and resists weather.

- Outdoor drum lid is zinc-primed for **extra protection against rust and corrosion**
- Fast-latch ring allows **easy installation** on new or reconditioned 55-gallon steel drums; no clumsy nut-and-bolt ring
- **3"-wide polyethylene foam gasket and locking mechanism** seal lid to reduce vapor emissions and help protect drum contents
- **Includes all the lid features** listed on page 288
- ◆ **Helps you comply** with the regulations listed at 288

Rainwater rolls right off without puddling.

### PIG™ Outdoor Latching Drum Lid with Fast-Latch Ring

(Specify Color: Black Red)

Item #	1-2	3+
<b>DRM1111</b> • For 55-gal. Open-head Steel Drums	<b>\$506</b>	<b>\$476</b>

\* **WARNING:** Cancer, Birth Defects and Reproductive Harm - [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov)

## **PIG Latching Bucket Lid** — Secure contents and help meet regs with the **ONLY** latching lid that fits both steel and poly buckets!

- Latching mechanism and EVA gasket provide a **tight seal to secure contents and reduce vapor emissions**
- **Easy-open and close, single latching hasp**; padlockable
- Fast-latch ring installs easily; **no nut/bolt ring**
- ◆ **Helps small and large quantity generators comply** with 40 CFR 262.16(b)(2)(iii) and 40 CFR 262.17(a)(1)(iv) requiring haz waste containers to be kept closed
- ◆ **Helps you comply** with 40 CFR 262.15 for containers in satellite accumulation areas
- ◆ **Helps you comply** with 40 CFR 264.1086(c)(1)(ii) waste emissions with VOC regs

### PIG™ 5-Gallon Latching Bucket Lid with Fast-Latch Ring

Item #	1-2	3+
<b>DRM1200</b> • For 5-gal. Plastic & Steel Buckets	<b>\$295</b>	<b>\$284</b>

\* **WARNING:** Cancer, Birth Defects and Reproductive Harm - [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov)

Patent 8,480,139

## **PIG™ Latching Lid for Poly Drum —** **Equip your 30- or 55-gallon poly** **drums with our easy-access lids.**

- 3"-wide EVA gasket and locking mechanism seal lid to protect drum contents; **included spacers** help lid fit a variety of poly drums
- **Crowned lid won't accumulate clutter**
- Includes all the lid features listed on page 288
- ◆ **Helps small and large quantity generators comply** with 40 CFR 262.16(b)(2)(iii) and 40 CFR 262.17(a)(1)(iv) requiring haz waste containers to be kept closed
- ◆ **Helps you comply** with 40 CFR 262.15 for containers in satellite accumulation areas

Lid fits the most common poly drums. See our selection on page 303.

PIG™ Latching Lid with Fast-Latch Ring for Poly Drum 			
(Specify Color for DRM1084:  Black  Red  Yellow)			
Item #	1-2	3+	
<b>DRM1084</b> • For Most 55-gal. Open-head Poly Drums	<b>\$548</b>	<b>\$514</b>	
<b>DRM1084 Contents</b> • 1 Latching Drum Lid • 5 Small Spacers • 5 Large Spacers			
<b>DRM1085</b> • Red Only • For Most 30-gal. Open-head Poly Drums	<b>\$475</b>	<b>\$448</b>	*
<b>DRM1085 Contents</b> • 1 Latching Drum Lid • 4 Spacers			

Flammables Warning: Not for use with flammables (f.p.<141°F/60.5°C).

Patent 8,480,139

## **PIG™ Latching Lid for Fluorescent Lamp** **Storage Drum — Made to fit your drum** **and meet waste management regs.**

- Replaces conventional slide-on lids for **fast, easy access**
- **Latching handle** is easy to open or close with one hand
- 3"-wide EVA gasket and locking mechanism **seal lid to container;** hinge pin for **easy lid removal** without loosening drum band
- **Crowned lid** keeps debris from accumulating on top
- ◆ **Helps you comply** with 40 CFR 273.13(d) for managing universal waste in a manner that prevents releases into the environment

PIG™ Latching Lid for Fluorescent Lamp Storage Drum 			
Item #	1-2	3+	
<b>DRM1129</b> • For 23" Dia. Fluorescent Lamp Storage Drums	<b>\$464</b>	<b>\$428</b>	*

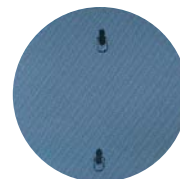

\* **WARNING:** Cancer, Birth Defects and Reproductive Harm - www.P65Warnings.ca.gov

## PIG™ Latching Drum Lid for Draining — Drain liquids with our one-hand lid to meet closed container regs.

- **Latching design** opens and closes with one hand for easy drum access; no nuts, no bolts, no fuss
- **Nitrile gasket and locking mechanism** seal lid to help reduce vapor emissions and keep drum contents secure
- Add a **screen** (sold separately) for easy draining of waste liquids in 55-, 20- and 30-gallon open-head drums
- **Lid stays closed** while filters or containers are draining; **hinge stop** keeps lid upright when open; lockable for security
- Multiple **lid color options** let you segregate drums
- Lever Ring (DRM1049) lets you quickly attach or remove your latching drum lid **without handling a bolt**
- ◆ **Helps you comply** with regulations listed on page 288

**DRM1204**  
Coarse mesh screen holds heavier containers and parts for draining.

**DRM553**  
Fine mesh screen filters out debris such as metal shavings or small parts.

**DRM1049** Lever Ring adjusts up to 1" for bent or out-of-round reconditioned drums.

### PIG™ Latching Drum Lid for Draining

(Specify Color: Black Red Yellow)

Item #	1-4	5+
<b>DRM1213</b> • Tall • For 55-gal. Open-head Steel Drums • Ext. Dia. 23.75" x 18.75"H	<b>\$602</b>	<b>\$578</b>
<b>DRM1212</b> • Short • For 55-gal. Open-head Steel Drums • Ext. Dia. 23.75" x 6.75"H	<b>\$498</b>	<b>\$478</b>
<b>DRM1214</b> • Short • For 20- and 30-gal. Open-head Steel Drums • Ext. Dia. 19.5" x 6.75"H	<b>\$458</b>	<b>\$437</b>
<b>DRM602</b> • Replacement Gasket Kit • For DRM1213 and DRM1212	<b>\$77</b>	

Patent 5,931,330; 5,954,218

### Screen for PIG™ Latching Drum Lid

Item #	1-4	5+
<b>DRM553</b> • Fine Mesh • For DRM1213, DRM1212 and DRM965 • 0.125" Dia. Mesh Opening	<b>\$88</b>	<b>\$84</b>
<b>DRM1204</b> • Coarse Mesh • For DRM1213, DRM1212 and DRM965 • 0.438"W x 1"L Mesh Opening	<b>\$79</b>	<b>\$75</b>
<b>DRM600</b> • Fine Mesh • For DRM1214 • 0.125" Dia. Mesh Opening	<b>\$80</b>	<b>\$72</b>
<b>DRM1205</b> • Coarse Mesh • For DRM1214 • 0.438"W x 1"L Mesh Opening	<b>\$61</b>	<b>\$58</b>

DRM672

DRM459

**Drum funnel strainer** filters metal chips and debris from liquid as you pour.

DRM245

**Pop-up drum fill gauge** helps prevent overfilling. Two sizes available.

## PIG® Poly Drum Funnel — Cover your entire drum top for clean, easy draining and pouring.

- 4"-high sidewalls and zigzag ridges **prevent splashes** and catch tools or parts
- **Double-wall polyethylene** construction resists UV rays, corrosion and most chemicals
- **Level inside surface** allows easy draining
- **Fits 55 gal.** tight-head steel or poly drum
- **Attached hinged lid** blocks dirt and contaminants; still allows quick access
- **Access to 3/4" bung** for liquid-level gauge
- **Pop-Up Drum Fill Gauges** and **Strainer** sold separately

### PIG® Universal Poly Drum Funnel with Hinged Lid

(Specify Color: Black Red Yellow)

Item #	1-4	5+
<b>DRM672</b> • Ext. Dia. 29" x 11"H	<b>\$88</b>	<b>\$82</b>

### Pop-Up Drum Fill Gauge

Item #	1-3	4+
<b>DRM317</b> • 11" Float Indicator Depth • For Drums w/ 0.75" NPT Bung	<b>\$31</b>	<b>\$30</b>
<b>DRM245</b> • 5" Float Indicator Depth • For Drums w/ 0.75" NPT Bung	<b>\$30</b>	<b>\$29</b>

Flammables Warning: Not for use with flammables (f.p.<141°F/60.5°C).

### Strainer for PIG® Poly Drum Funnel

Item #	1-4	5+
<b>DRM459</b> • Use with DRM672 • 0.044"W x 0.044"L Mesh Opening	<b>\$23</b>	<b>\$20</b>

**BEST  
SELLER!**

## PIG® Open-Head Poly Drum Lid — Replaces waste drum lid; no hassling with bolts.

- Large **18"-diameter opening** allows easy waste collection
- Thick-wall, **100% polyethylene construction** resists UV rays, rust, corrosion and most chemicals; optional screen (see page 332)

NOTE: Does not meet closed container regulations.

### PIG® Open-Head Poly Drum Lid

(Specify Lid Color: Black Red Yellow)

Item #	1-4	5+
<b>DRM965</b> • For 55-gal. Steel & Poly Drums • Ext. Dia. 24.5" x 11.25"H	<b>\$167</b>	<b>\$160</b>

Flammables Warning: Not for use with flammables (f.p.<141°F/60.5°C).

DRM965

PIG Barrel Top Mat  
sold on page 17.

Now you can easily **pour into your IBCs** without struggling to reach over the top of the container.

## PIG Poly Funnels — Reduce splashback while safely pouring liquids into your drums, totes and tanks.

- Non-threaded funnels **stay securely in place** after installation and are easily removed
- **Molded-in nozzles** easily fit 2" drum bung openings (DRM1406), 4-6" IBC openings (DRM1407) or 8" tank openings (DRM1408)
- Lightweight LLDPE **resists chemicals and corrosion**
- Clamshell design directs the flow of liquid toward the drum opening, **reducing splashing and spilled liquid**
- Smooth surface allows for **easy cleanup**
- Black color **hides grime**
- **Can be hung on a wall** for easy storage when not in use

PIG® Poly Funnel		PIG
Item #		1+
<b>DRM1406</b> • For 20- to 55-gal. Plastic or Steel Tight-Head Drums with a 2" bung 16"W x 18"L x 8.125"H		<b>\$69</b>
<b>DRM1407</b> • For IBC Totes with a 4" - 6" Opening • 16"W x 19.875"L x 10"H		<b>\$75</b>
<b>DRM1408</b> • For Tanks with an 8" Opening • 16"W x 20.375"L x 10.5"H		<b>\$90</b>

Flammables Warning: Not for use with flammables (f.p.<141°F/60.5°C).

## Double Capped Funnels — Plastic funnel assortment with screw-on caps eliminates spills and contaminants.

- **Screw-on caps** on both the funnel and the spout keep contaminants out so your funnel is clean and ready to use
- Clean fluid transfer **prevents mechanical damage**
- **GEN1000** comes in a set of three colors and three sizes; **GEN1001** comes in a set of four sizes and seven colors

WirthCo® Double Capped Funnels		
Item #	1-2	3+
<b>GEN1000</b> • 3 Funnels/box • 3 different sizes: 1.25 quart, 1.3 quart, 1.5 quart	<b>\$35</b>	<b>\$32</b>
<b>GEN1001</b> • 7 Funnels/box • 4 different sizes: 1 pint, 1.25 quart, 1.3 quart, 1.5 quart, 1.6 quart	<b>\$74</b>	<b>\$70</b>

Flammables Warning: Not for use with flammables (f.p.<141°F/60.5°C).

## THE DREADED SPLASHBACK

DRM1125

PIG Barrel Top Mat  
sold on page 17.

**EXCLUSIVE!**

## **PIG** Burpless Funnels — Clean pouring, no splashback and a one-hand latch for easy reg compliance.

- **Latching handle** opens and closes lid in a one-handed operation
- Lets you pour **without having to vent through 3/4" bung**, a possible closed container reg violation if left open
- **Chemical-resistant powder coat** helps ensure long service life
- **Lockable** to prevent unauthorized access
- ◆ **Helps small and large quantity generators comply** with 40 CFR 262.16(b)(2)(iii) and 40 CFR 262.17(a)(1)(iv) requiring haz waste containers to be kept closed
- ◆ **Helps you comply** with 40 CFR 262.15 for containers in satellite accumulation areas
- ◆ **Helps you comply** with 40 CFR 264.1086(c)(1)(ii) for VOC emissions

## PIG Drum Funnels set the standard for performance.

These funnels offer features you won't find anywhere else!

Patented Burpless design vents during pouring for fast, smooth flow with no splashback.

One-hand latch for easy opening and secure closing.

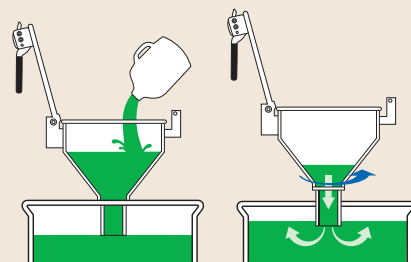

Nitrile gasket and locking mechanism create a vapor-tight seal, tested to 2 psi.

Overfill preventer stops messy overflow (available on DRM1127, DRM1032 and DRM1050).

### How the overfill preventer works:

1. When liquid level reaches the bottom of preventer, funnel stops draining and starts to fill up, so you know when to stop pouring.
2. Air trapped between inside of drum and outside of tube stops liquid from rising.
3. To empty funnel, twist funnel and preventer counterclockwise and slowly lift to drain contents into remaining airspace.

## PIG Original Burpless Funnel

Our original bestselling drum funnel is great for everyday pouring needs.

## PIG Large Burpless Funnel

Wide-mouth funnel has more volume for larger draining and pouring jobs — you can empty a 5-gallon pail in 17 seconds!

Sturdy, coarse mesh screen (DRM1203) holds heavier containers and parts for draining.

## PIG Small Burpless Funnel

Designed for 5-gallon pails and smaller drums; 5"-diameter fill mouth limits vapor, odor and VOC emissions.

## PIG Tall Burpless Funnel

The extra height lets you drain tall containers such as paint cans and filters inside funnel while keeping the lid closed, reducing vapor emissions.

### PIG® Burpless® Steel Drum Funnel

Item #	Name	Overfill Preventer	Drum Size (gal.)	Type of Drum	Type of Thread	Dimensions	Color Options Available	1-4	5+

### PIG® Overfill Preventer — Pour with confidence.

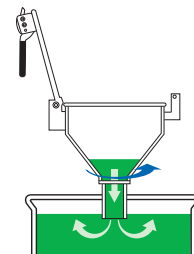

- Two-piece brass adapter acts as a **shutoff valve**, closing off a 55-gallon drum when it reaches 53½ gallons
- Can be used with **nearly any liquid**
- Fits steel Burpless Funnels

Overfill Preventer for PIG® Burpless® Steel Drum Funnel			
(Specify Color: <span style="background-color: black; color: black;">Black</span> <span style="background-color: red; color: red;">Red</span> )			
Item #	1-4	5+	
<b>DRM919</b> • 5"H	\$183	\$166	*

\* ⚠ **WARNING:** Cancer, Birth Defects and Reproductive Harm - www.P65Warnings.ca.gov

When liquid level reaches the bottom of preventer's outer tube, funnel stops draining and starts to fill up, so you know to stop pouring.

To empty funnel and preventer counterclockwise to drain contents into remaining airspace.

DRM138

Interior ridges create a level surface for easy draining of buckets and other large containers.

DRM166

Our fastest draining funnel, DRM166, has a superwide opening and 7-gal. capacity.

DRM1680

Built-in overfill preventer (DRM1680, DRM1681) acts as a shutoff; alerts you to stop pouring.

## PIG® Burpless Poly Funnel — Keeps on chugging without burps or splashbacks.

- **Burpless design** vents during pouring with no splashback; Lets you pour **without having to vent through ¾" bung**
- **Designed for use with nonhazardous liquids:** coolants, non-flammable oils and water-based liquids
- Thick-wall, **100% polyethylene construction** resists UV rays, rust, corrosion and most chemicals
- **Threaded brass** insert screws right into bung; **vent tube** prevents liquid from burping back
- **Lockable hinged lid** won't get lost or separated from funnel; choice of three colors to help segregate waste
- **Built-in debris strainer** captures large particles
- DRM1680 and DRM1681 feature a **built-in overfill preventer** to stop flow and avoid messes when drains are almost full

NOTE: Does not meet closed container regulations.

PIG® Burpless® Poly Drum Funnel			
(Specify Lid Color for DRM1680, DRM1681 & DRM138: <span style="background-color: black; color: black;">Black</span> <span style="background-color: red; color: red;">Red</span> <span style="background-color: yellow; color: yellow;">Yellow</span> )			
Item #	1-4	5+	
<b>DRM1680</b> • Standard w/Overfill Preventer • For 30- and 55-gal. Steel or Poly Drums w/ 2" NPT • 13.5"W x 16.25"L x 13.9"H	\$90	\$84	*
<b>DRM1681</b> • Standard w/Overfill Preventer • For 30- and 55-gal. Poly Drums w/ 2" Buttress Thread • 13.5"W x 16.25"L x 13.9"H	\$103	\$99	*
<b>DRM138</b> • Large • For 30- or 55-gal. Steel or Poly Drums w/ 2" NPT 19.5"W x 22"L x 11.5"H	\$126	\$119	*
<b>DRM166</b> • Extra Large • Red Only • For 55-gal. Steel or Poly Drums w/ 2" NPT • 20"W x 22"L x 10"H	\$306	\$300	*
Fine Mesh Screens			
Item #	1-4	5+	
<b>DRM600</b> • Use with DRM138 • 0.125" Dia. Mesh Opening	\$80	\$72	

Flammables Warning: Not for use with flammables (f.p.<141°F/60.5°C).

## Open-Head UN Rated Steel Drums — Open-head design and removable lid offers full, convenient access.

Tough, UN Rated steel drums are **made for liquid or solid hazardous waste**, so you can rely on them to deliver safety and compliance.

- Removable lid offers **full, convenient access** to inside of drum
- Optional **phenolic/epoxy lining** adds corrosion resistance
- **12-gauge bolt ring closure**, sponge rubber gasket and plated bolt/nut (on all except DRM833–DRM837) provide tight seal to help prevent leaks and spills
- **Quick-style lever lock rings** (DRM833–DRM837) make it easy to comply with closure regs; no tools required and shippable “as is” — no need to switch closure rings as with other lever lock ring assemblies
- DRM970 and DRM1973 feature **2" NPT and ¾" NPT bungs**

**BUY AN EXTRA DRUM AND TURN IT INTO A SPILL KIT! SEE PAGES 89 AND 102.**

<b>DRM1061</b> • 55-gal. • 1.1/1.1/1.1 mm • UN6HA1/X1.6/300	<b>\$485</b>

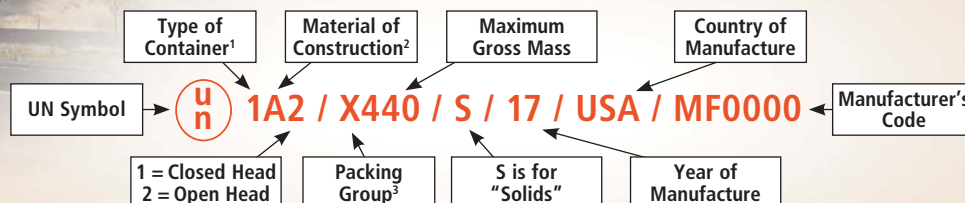

## THOSE CODES ON YOUR DRUMS? HERE'S WHAT THEY MEAN.

The UN marking system identifies several characteristics of hazmat packaging, including information on the test levels the packaging has successfully passed. It's very important to know the shipping requirements for the materials you work with, so we've spelled it out for you below.

Need help deciphering the code? We've partnered with DOT experts **Daniels Training Services** to cover all the bases. Contact us with all your DOT questions, and we'll figure it out together!

## OUR BEST-SELLING DRUM ACCESSORIES

MAT208

### PIG Barrel Top Mat

Absorb messy pump drips to keep them off your drum tops and floors.

See pages 17, 47 and 69

DRM659

### PIG Latching Drum Lid

No nuts, no bolts, no fuss! One-hand access makes it easy to meet haz waste regs.

See page 289

PAK210

### PIG Poly Spill Containment Pallet

The strongest standard pallet you can buy for everyday drum storage.

See page 360

## Open-Head HDPE Drums — Store and ship solid waste in these UN Rated containers.

- Rigid, lightweight **high-density polyethylene** won't rust and is compatible with a wide range of chemicals
- **UN Rated for storage and transport** of solid hazardous materials
- **Lever lock band** can be wire sealed to prevent tampering
- DRM1147, DRM386 and DRM385 are made from **FDA-Compliant resins** for containment of food and cosmetic products
- **Straight-sided drums** (DRM1059, DRM1060) have ribs for extra strength; allows broader use of drum grabs, parrot beak lifters and other equipment that can't move tapered drums

DRM798

## UN Rated All-Fiber Drum — Incinerable drum can store or dispose of hot-fills and dry materials.

- No need to empty drum to burn contents for waste reduction or fuels blending; drum is **completely incinerable**
- **Flat top and bottom** make stacking simple and safe
- **Telescoping cover** slips over top, so you can utilize entire inside capacity
- **Ideal for pelletized resins, colorants and other dry materials**

### UN Rated All-Fiber Drum

Item #	1-9	10+
<b>DRM798</b> • 12 gal. • UN1G/X60/S	<b>\$55</b>	<b>\$51</b>

## Tight-Head UN Rated Poly Pails — Store and ship almost any liquid in our selection of easy-to-carry pails.

- One-piece, blow-molded construction **has no seams to hold residue or develop leaks**
- High-density polyethylene is **compatible with a wide variety of liquids** for safe storage and shipping
- **Built-in handle** is comfortable for carrying loaded pails; folds down for storage and stacking
- **Reike screw cap** on DRM1892 and DRM892 features a 70mm bung opening for venting (other models have standard 2.25" screw cap)
- **Translucent walls** (DRM1892 and DRM282) show content levels to help prevent overfilling or running out of material
- **Opaque walls** (DRM892 and DRM524) block light to protect contents
- DRM282 is made from **FDA-Compliant resins** for containment of food and cosmetic products

BEST  
SELLER!

Just pinch the lid to unlock — so much easier to open and close than pails with separate latches or locks.

DRM934

DRM934

Easy-open/close, screw-top lid with easy-pour spout is tamper-evident and child-resistant.

### Life Latch Poly Pail with Spout — Built-in features for easier access and pouring.

- Screw top lid features tamper-evident, child-resistant **closing mechanism** and a **spout** for easy pouring
- Made from **FDA-Compliant** resins for containment of food and cosmetic products
- Built-in **locking mechanism** allows you to close lid securely

Life Latch® Screw Top UN Rated Poly Pail

Item #	1-9	10-49	50+
<b>DRM934</b> • 5 gal. • UN1H2/Y1.5/30, UN1H2/Y30/S Ext. Dia. 13.35" x 16.75"H	\$49	\$47	\$44

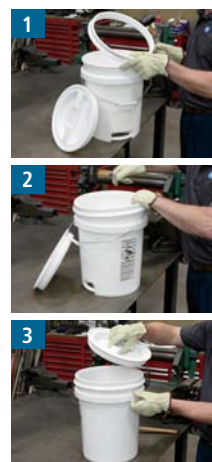

### Leaktite Screw-Top Bucket Lid — Reseal buckets with an airtight lid.

- **Fast and easy assembly**; snap ring and screw-on/off design
- **Fits most** 3- and 5-gallon buckets
- **Ideal for** loose absorbent storage, food storage, pet food and lawn and garden use
- Manufactured from **food-grade material**

Leaktite Screw-Top Bucket Lid

Item #	1-2	3+
<b>DRM2500</b> • Use with 12" Dia. Plastic Bucket • 1 each	\$15	\$14

## **pig** Overpack Salvage Drum — Ship hazardous waste our UN Rated, FDA-Compliant containers.

- **X-rated for Packing Groups I, II, and III** (except PAK998); ideal for regulated packaging including shipping hazardous waste
- **100% plastic material with UV inhibitors** is durable, lightweight and chemical resistant
- **Containers are nestable** when empty to save storage space; will keep hazardous waste safely contained during shipping
- **Leakproof, twist-on lid** (except PAK998) is notched so you can easily tighten it with a 2x4 or pole
- **Integrated ledges** allow you to move overpack with a forklift; smaller units have integrated handles
- **Made from FDA-Compliant resins** for containment of food and cosmetic products
- ◆ **Helps you comply** with 49 CFR 173.3(c)(1) requiring salvage drums to meet UN specs for shipping

### Special features:

- **PAK998** has one-piece sealable lid with flip-up handle allowing for quick open/close
- **PAK708 and PAK709** feature **two broom holes** on opposite sides of the lid; allows 100% positive leverage for easy opening and closing with a broom handle or bar (Patent 10,273,038)
- **PAK489 and PAK710** have **6" polyolefin wheels** and integrated handle for easy transportation to your shipping vehicle
- **PAK674** is **oversized** for shipping distorted or bulging drums

## DID YOU KNOW?

Spent spill response materials, including absorbents and PPE, may be placed in compatible UN Rated salvage drums for shipment. If the container is certified as both a salvage drum and an overpack and is used as a salvage drum, any references to the overpack must be removed prior to shipment.

**EXPERT  
ADVICE**

Overwhelmed by overpacks?  
We can help:  
[newpig.com/overpacks101](http://newpig.com/overpacks101)

PAK725

PAK725 is sized to fit leaking drums up to 55 gallons.

When containers are placed in salvage drums, they must be surrounded with absorbents that are capable of soaking up leaks that could occur during shipment. See our loose packing absorbent on page 36.

PAK414

**pig Dolly** — Quickly move an overpack or spill kit.

- **Wide-base design** helps keep overpacks stable during transport
- Heavy-duty rolled steel construction **holds up to 800 lbs.;** includes lockable casters

# UN Rated Steel Salvage Drum — Safely ship a damaged or leaking container.

- **UN Rated and tested** to help ensure safe shipping of hazardous materials
- **Open-head design** and removable lid offer full, convenient access
- Interior is coated with a **corrosion inhibitor**; choose optional phenolic/epoxy lining for added resistance
- **Quick-style drums** (DRM842, DRM846) have quick-style lever lock rings, require no tools; easier to comply with closure regs
- **Bolt & ring drums** (DRM400, DRM1000, DRM1001, DRM1002) provide a tight seal with plated bolt/nut, EPDM gasket

◆ **Helps you comply** with 49 CFR 173.3(c)(1)

Quick-style lever is easier and less time-consuming to use than traditional bolt-and-ring closures.

Flammables Warning: Not for use with flammables (f.p.<141°F/60.5°C).

Oil Storage Regulations: Be sure to check federal, state and local oil storage regulations prior to purchasing.

## DID YOU KNOW?

Used oil destined for recycling is not subject to full hazardous waste regulation. Collecting waste oil in bulk tanks makes it easier to pump the oil into trucks for transport to the recycling facility.

# CHEM TANKS YOU CAN TRUST.

**pig**  
Chemical Storage Tank

PAK5114

## **pig** Double-Wall Chemical Storage Tanks — Dual containment tank helps you meet secondary containment regulations.

- Double-wall tank provides bulk storage secondary containment; **no need for a separate sump or basin**
  - Enclosed design keeps out dust, rainwater and other contaminants to **maintain purity of stored liquids**
  - **Molded-in pump mounting platform** on top of tank provides a flat surface for safer use of tank accessories up to 240 lbs.
  - 8" vented lid is threaded for **easy access to contents** (PAK5200, PAK5201 have a 4" non-vented lid)
  - **Linear low-density polyethylene (LLDPE)** with UV inhibitors offers excellent resistance to corrosion, chemicals and UV rays
  - 1.5 specific gravity rating is ideal for storing chemicals; **full tank can stand alone without support**
  - Made from **FDA-Compliant resins** for containment of food and cosmetic products
  - **Choose round or square**; square tanks are space efficient
- ◆ **Helps you comply** with 40 CFR 112.7 SPCC Regulations

## Tank Spill Containment Sump with Grate — Provide secondary containment for single-wall tanks.

Corrosion-resistant fiberglass grating (included) elevates stored tanks above accumulated liquids.

- Sump is **designed to work with the single-wall tanks** sold above for affordable secondary containment
- **Create a compliant sump/tank setup** to keep leaks, spills and splashes off of floors
- Medium-density polyethylene construction with UV inhibitors **resists corrosion and most chemicals** for a long, trouble-free life; **seven sizes** for tanks from 25–150 gallons
- ◆ **Helps you comply** with 40 CFR 112.7 SPCC Regulations

## Double Wall Waste Oil Tank — Store up to 500 gallons of waste oil.

- Bulk capacity eliminates multiple small containers and **centralizes waste oil storage**
- **Double-wall, 10-gauge steel construction** helps tank withstand impact and provides leak-tested containment
- **Generous 10"-diameter fill hole** features a lockable hatch and debris screen
- Durable powder coating **resists chipping, rust and corrosion**
- **Heavy-duty locking swivel casters** for easy repositioning (PAK248–PAK250 only)
- **Dipstick measures oil volume** in tank (PAK248–PAK250 only) while level gauge monitors content at a glance
- Individual ports and tank exterior are **labeled for easy identification**
- 2" vent helps **prevent pressure buildup**
- **Arrives assembled** and ready to use

Individual ports and tank exterior are fully labeled for easy identification.

*"The quality is above and beyond our expectations and, no pun intended, **it's built like a tank**. It was shipped on a very sturdy pallet and arrived without a scratch on it and it was very easy to set it up."*

— Paul, PAK250 Customer

Oil Storage Regulations: Be sure to check federal, state and local oil storage regulations prior to purchasing.

NOTE: Not intended to be used as storage for new oil.

### Make used oil useful again — recycle it!

One gallon of used oil produces 2.5 quarts of high-quality lubricating oil — and a bulk collection area makes it easy to recycle it.

**reghelp@newpig.com • 1-800-HOT-HOGS**  
GET FREE ADVICE ON REGS! See page 365 for details.

Lids and containers sold separately.

## Oil Safe Container — Store and dispense your lubricants, and choose from ten lid colors to help prevent contamination.

- Compact, ergonomic, wide-mouth containers are **easy to fill**
- **Five lid styles available** including stretch spouts and utility lids (sold separately)
- **Industrial-grade HDPE** has antistatic treatment and resists heat, UV and contamination
- **Liquid levels are easy to read** and measure in quarts or liters
- Keeps stored lubricants pure and **free of contamination**
- **Optional pump** (GEN550) dispenses lubricants in hard-to-reach spots

**Premium pump** (GEN172) features fill port and non-return valve; requires **utility lid** (GEN594). **Quick connect hose** accepts a quick connect fitting (not included) to avoid drips; choose **5' hose** (GEN170) or **10' hose** (GEN171).

Lids available in 10 colors:

13" stretch spout extension (GEN547) reaches tough places; replaces tip of stretch spout lid.

Storage lid (GEN593) with molded handle fits all containers; prevents contamination.

Utility lid (GEN594) with screw cap allows you to pour without removing lid; also accepts pump.

Stretch spout lid (GEN595) has a twist-open valve to regulate flow of low-viscosity liquids.

Stumpy spout lid (GEN596) has a 1" spout opening; hose extension (GEN835) also available.

Pump (GEN550) dispenses liquids in hard-to-reach places; requires utility lid (GEN594).

## Rotary Hand Drum Pumps — Whatever liquid you need to move, we've got a pump that's compatible!

- Manual pumps are rotary operated for **fast, easy dispensing**
- **No power source required** — ideal for applications where you don't have access to electricity or compressed air
- Lightweight designs can be broken down for **compact storage** or disassembled for easy cleaning
- **Use with** any 15- to 55-gallon drum with 2" NPT bungs

*"This drum pump works efficiently. It is **sturdy while turning the handle**. My company bought one of these pumps over a year ago and it gets used many times every day and we still use it with no problems."*

— Robin, DRM983 Customer

Wesco Iron Rotary Hand Drum Pump with Drip Pan reduces spills and leaks during and after use.

### Wesco Iron Rotary Drum Pump with Drip Pan

- Drip pan helps to **eliminate spills** due to overpumping or draining at the nozzle

DRM1310

### Wesco Aluminum Rotary Pump — Non-Sparking

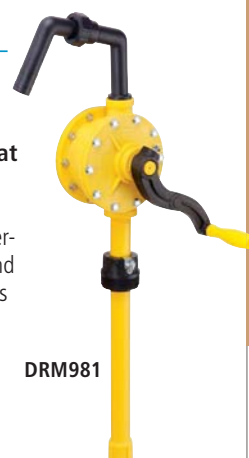

- **Self-priming** and non-sparking to help you safely pump oils and noncorrosive liquids

DRM1311

### Zee Line Poly Rotary Pump — PTFE Seals

- Corrosion-resistant plastic body is **great for dispensing fleet fluids**, oil-based liquids, water-based chemicals and chlorinated solvents

DRM981

### Zee Line Ryton Rotary Pump — Viton Seals

- **Corrosion-resistant plastic body** is great for dispensing corrosive chemicals and chlorinated solvents

DRM982

### Zee Line HDPE Rotary Pump — Viton Seals

- Capable of **pumping in reverse** using discharge hose (not included) for transferring fluids into drums
- **Built-in strainer** filters out particulate to help avoid contamination

DRM311

### Zee Line Aluminum Rotary Pump — NBR Seals

- **High-flow** pump includes 54" polypropylene discharge hose
- Gear-driven design provides **fast, smooth operation** to pump a full quart of liquid per stroke

DRM983

### Zee Line Stainless Steel Rotary Pump — PTFE Seals

- PTFE tape (included) provides an **excellent seal** between pickup tube sections

DRM988

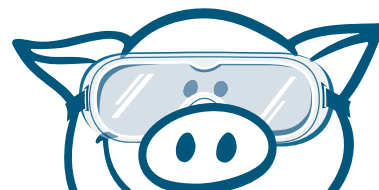

### Zee Line Cast-Iron Rotary Drum Pump

- DRM1414 is FM **approved for use with flammables**; non-sparking discharge nozzle and holder prevent accidental fires

DRM1414

**DISPENSING FLAMMABLES?  
DON'T FORGET THE  
GROUNDING WIRE!  
SEE PAGE 334**

# PROFESSIONAL PUMPS FOR INDUSTRIAL LIQUIDS

DRM1420

## Lever Action Drum Pumps — More hand-powered options to satisfy your liquid dispensing needs.

- Lever action pumps deliver **fast and easy dispensing**
- **No power source required** — ideal for applications where you don't have access to electricity or compressed air
- **Lightweight designs** can be broken down for compact storage or disassembled for easy cleaning
- **Use with** 15- to 55-gallon drums with 2" NPT bungs (DRM106–DRM108 also fit 1¼" bungs)
- **DRM694** works with 6½-gallon open-head pails
- Each pump includes an **adjustable suction tube** for easy access to high or low levels of fluid
- DRM461, DRM694 and DRM106–DRM108 feature **three handle pin locations for adjustable flow rates** per stroke (closest position to piston rod produces lower rates, farthest position produces higher rates)

**STUMPED ABOUT A PUMP?  
CALL OUR TECH TEAM AT 1-800-HOT-HOGS.**

DRM1421

**Aluminum Lever Action Drum Pump with Drip Pan** catches stray liquids and channels them back into your drum.

### Action Pump Double Diaphragm Pump

- **Rapidly transfer** fuels and other flammable liquids
- Features a **locking latch** for security
- Inlet is fitted with **mesh screen** to prevent contaminants from entering pump

DRM1420

### Action Pump Diaphragm Pump

- Ideal for applications involving the transfer of **strong alkalis** and acids, machine oil and water
- Durable **Ryton body** can handle up to **40% nitric acid**

DRM1419

### Action Pump Stainless Steel Drum Pump

- Move **high viscosity** liquids including detergents, acids and oils
- Built to handle liquids **up to 140°F**

DRM1416

### Action Pump Aluminum Drum Pump with Drip Pan

- Attached drip pan **catches stray liquids** and channels them back into drum
- High-angle discharge spout is **ideal for filling bottles**

DRM1421

### Zee Line Steel Drum Pump — Nitrile Seals

- Durable **all-steel** body for light oil (max 40 wt.), ATF, hydraulic fluid, kerosene and diesel fuel

DRM461

Spout turns up to stop drips.

### Zee Line Steel Pail Pump — Nitrile Seals

- Turn any standard bucket into a **mobile** lubricant dispenser
- Includes 4'L hose with curved discharge nozzle (**pail not included**)

DRM694

### Zee Line Poly Drum Pump — Viton Seals

- Simple design makes an **economical choice** for non-corrosive, water-based liquids

DRM106

### Zee Line Poly Drum Pump — Poly Seals

- General-purpose pump for **water-based chemicals**, light acids, bases and alkalis

DRM107

### Zee Line Ryton Lever Action Drum Pump

- Ryton body pump handles stronger acids (**including 20% nitric acid**), bases and water-based chemicals

DRM108

#### Lever Action Hand Pumps

Earthing stud on tube allows pump to be grounded for safer dispensing of flammable liquids (DRM343, DRM3435).

## Piston Hand Pumps — Affordable solutions for easy dispensing of any liquids you work with.

- Piston action pumps deliver **fast and easy dispensing**
- **No power source required** — ideal for applications where you don't have access to electricity or compressed air
- **T-handle design** offers easy operation (all models except DRM1289)
- **Use with** 15- to 55-gallon drums with 2" NPT bungs (all models except DRM3435)

### Choose from four pumps that are safe for flammables:

- **DRM343 and DRM3435** feature an earthing stud for proper grounding (wires not included) and safer dispensing of flammable liquids like alcohol and alcohol-based sanitizers
- **DRM1092 and DRM1109** have built-in bonding and grounding wires that are always visible to encourage use

The Beckson Industrial PVC Drum Pump with Buna-N Seals is a great solution for moving oil-based liquids.

**KEEP DRUM TOPS CLEAN WITH PIG BARREL TOP MAT (SHOWN AT RIGHT). SEE PAGE 17.**

### Action Pump Stainless Steel Drum Pump

- Stainless steel and **PTFE construction** is compatible with gas, diesel fuel, kerosene, diesel exhaust fluid (DEF), light oils and water-based fluids of 40 wt. maximum viscosity

DRM343

### Action Pump Stainless Steel Piston Pail Pump

- Quickly dispense gas, diesel fuel, kerosene, diesel exhaust fluid (DEF), light oils and water-based fluids of **40 wt. maximum viscosity**
- Fits 5 gal. pails** with 2" NPT or 2" buttress bung

DRM3435

### Beckson Industrial PVC Piston Drum Pump — Viton Seals

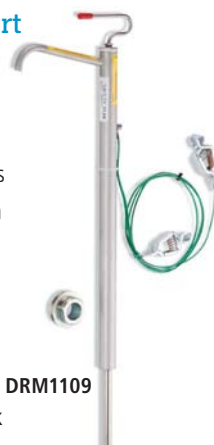

- Economical choice** for acids; moves up to one full gallon in just six strokes, compatible with up to 50% sulfuric acid
- 3'L discharge hose**

DRM221

### Ayling & Reichert Stainless Steel Piston Hand Drum Pump

- Entire pump **resists corrosive** chemicals
- FM Approved** with built-in bonding and grounding wires to control static electricity
- Internal flame arrestor helps **prevent flashback**

DRM1109

### Ayling & Reichert Steel Piston Hand Drum Pump

- FM Approved** with built-in bonding and grounding wires to control static electricity
- Internal flame arrestor helps **prevent flashback**

DRM1092

### Beckson Industrial PVC Piston Drum Pump — Buna-N Seals

- Economical choice** for oil-based liquids; moves up to one full gallon in just six strokes
- 3'L discharge hose**

DRM222

### Zee Line Nylon Piston Hand Drum Pump

- Easily handle** small water-based dispensing jobs with 16 oz. per stroke/lift

DRM462

Spout turns up to stop drips.

### Zee Line Poly Piston Hand Drum Pump — Viton Seals

- Polypropylene construction is **compatible with** antifreeze, chemicals and detergents
- Spout rotates up to **prevent messy drips** between uses

DRM681

### Fill-Rite Poly Piston Hand Drum Pump

- Transfer Diesel Exhaust Fluid (DEF) **easily and economically**
- Made from materials that **will not taint or alter** the chemical structure of the DEF being transferred

DRM1289

### Heavy-Duty Siphon Pump — Moves up to 7 gal. per minute from your 55 gal. drums.

- **Compatible with** light oils, diluted acids/caustics and disinfectants
- **Moves up to 7 gallons** of liquid per minute
- Maximum recommended viscosity equals **30–40 wt.**

#### Action Pump Polyethylene Heavy-Duty Siphon Drum Pump

Item #	1-6	7+
<b>DRM344</b> • For Oil-Based Liquids & General-Purpose Chemicals 7 gal./Minute • Fits 15- to 55-gal. Drum w/ 2" NPT Bung	\$39	\$36

Notice: Call Technical Services at 1-800-HOT-HOGS (468-4647) or visit [newpig.com](http://newpig.com) for chemical compatibility.

### Brass Piston Transfer Pump — Transfer fluids from hard-to-reach places.

- **Non-corroding brass body** and removable neoprene caps are compatible with engine oil, coolants and more
- **Portable, self-priming hand pump** uses piston action for smooth and easy operation
- Includes **2'-long discharge hose, 3.5'-long suction hose**

#### Action Pump Brass Piston Transfer Pump

Item #	1+
<b>DRM1415</b> • For Engine Oil, Coolants, Transmission Fluid, Power Steering Fluid, Oils, Diesel, Water and Antifreeze • 3.2 oz./stroke	\$47

Notice: Call Technical Services at 1-800-HOT-HOGS (468-4647) or visit [newpig.com](http://newpig.com) for chemical compatibility.

## FDA Compliant Piston Pumps — Food-grade pumps dispense viscous liquids and harsh chemicals. Four sizes fit pails to IBCs!

**DRM1318**  
Need to dispense from an IBC? No problem! This pump is designed specifically to fit your totes.

- **FDA Compliant** pumps are made from polypropylene with polyethylene wetted materials
- **Ideal for dispensing** olive oils, syrups and honey; also compatible with a wide range of chemicals including sanitizers, acids, bases, glycerine, chlorines, crop chemicals and liquid fertilizer
- **Manual pump** is more affordable than electric or air-powered pumps; can be used when power supplies are unavailable
- Handles liquids up to 140°F at a **maximum viscosity of 8,800 cP**
- Attach 1" diameter hose (not included) onto spout **for dispensing at a distance**
- Safety strap "locks out" the pump to **help reduce waste**
- Spout can be rotated to **eliminate messy drips**
- **Four sizes available** to fit your pails, drums and IBCs (models for drums fit both 2" NPT and 2" buttress threads)

#### Action Pump FDA-Compliant Piston Pump

Item #	1+
<b>DRM1315</b> • For Food Products, Lubricants, Oils, High Viscosity Fluids, Mild Acids 5 oz./Stroke • Fits 5-gal. Pail w/ 70mm Rieke Screw Cap	\$97
<b>DRM1316</b> • For Food Products, Lubricants, Oils, High Viscosity Fluids, Mild Acids 15 oz./Stroke • Fits 15- to 30-gal. Drum w/ 2" NPT or Buttress Bung	\$107
<b>DRM1317</b> • For Food Products, Lubricants, Oils, High Viscosity Fluids, Mild Acids 15 oz./Stroke • Fits 55-gal. Drum w/ 2" NPT or Buttress Bung	\$130
<b>DRM1318</b> • For Food Products, Lubricants, Oils, High Viscosity Fluids, Mild Acids 15 oz./Stroke • Fits IBC Totes w/ 2" NPT Opening	\$143

## Lutz Pump System — Take control of your outflow with this variable speed motor.

### Lutz Electric Drum Pump Motor (DRM767)

- **Variable speed 0.85 HP electric pump motor** lets you easily control output flow
- Open-flow, **drip-proof motor** is ventilated and cooled by air

DRM768

### Pickup Tube (DRM768)

- Polypropylene construction is compatible with a wide range of **light-viscosity, oil-based liquids**
- **Nonlubricated tube** prevents contamination of liquids being pumped
- No-seal tube **can run dry** for short periods of time with residual liquids

### Lutz Electric Drum Pump System

Item #	1+
<b>DRM767</b> • Motor for Thin-bodied & Slightly Viscous Liquids in Nonexplosive Areas Electric: 110V/60 Hz	<b>\$753</b>
<b>DRM768</b> • Pickup Tube • For Corrosive and Noncorrosive Liquids • 39" L	<b>\$622</b>
<b>DRM768 Contents</b> • 1 Polypropylene Pickup Tube • 1 Wall Hanger • 1 PVC Hose • 1 Barrel Adaptor • 2 Hose Clamps	

\*This product is subject to restrictions and cannot be shipped to California.

## Air-Operated Double Diaphragm Pumps — Make the job of moving waste oil quicker and easier with these mountable transfer pumps.

- **Pump construction** is all-polypropylene or aluminum and polypropylene
- **For transferring** oil, waste oil, gear lube and automatic transmission fluid (ATF)
- Pump motors are **non-stalling and lube-free**
- Buy just the pump or **entire system (DRM1286–DRM1288)** including cam locks, valves, adapters, hoses, filters, mounting bracket and more; system can be mounted to a wall, table or cart

### Zee Line Air-Operated Double Diaphragm Transfer Pump

Item #	1+
<b>DRM1283</b> • Polypropylene Body • 1/2" Inlet • For Motor Oil, Waste Oil, ATF 14 gal./Minute	<b>\$607</b>
<b>DRM1284</b> • Aluminum Base with a Polypropylene Center Section • 3/4" Inlet For Motor Oil, Waste Oil, ATF • 14 gal./Minute	<b>\$610</b>
<b>DRM1285</b> • Aluminum Body with a Polypropylene Center Section • 1" Inlet For Motor Oil, Waste Oil, ATF • 37 gal./Minute	<b>\$952</b>

### Zee Line Air-Operated Double Diaphragm Transfer Pump System

Item #	1+
<b>DRM1286</b> • Polypropylene Body • 1/2" Inlet • For Motor Oil, Waste Oil, ATF 14 gal./Minute	<b>\$1058</b>
<b>DRM1287</b> • Aluminum Base with a Polypropylene Center Section 3/4" Inlet • For Motor Oil, Waste Oil, ATF • 14 gal./Minute	<b>\$1071</b>
<b>DRM1288</b> • Aluminum Body with a Polypropylene Center Section 1" Inlet • For Motor Oil, Waste Oil, ATF • 37 gal./Minute	<b>\$1693</b>

**Pump System Includes** • Male & Female Cam Locks • Brass Ball Valves • Hydraulic Adapter Swivel Suction Hose • Discharge Hose • Nipple • Strainer • Wall Mount Bracket • Airline Filter

# POWER UP!

DRM8008

ELECTRIC

## FTI Powered Pump Systems — Everything you need for easy continuous dispensing across all liquids.

- System includes all components needed to pump liquids from your drum or IBC including pump motor, pump tube, dispensing hose and drum/IBC adapter
- Choose from **electric, air and battery-powered** pump motors
- Air units also include **filter/lubricator**
- Battery systems also include **charger and wall mount bracket**
- Various models available to fit on **55-gallon steel or plastic drums or 275- or 330-gallon IBC totes**
- **Detailed specifications** available at [newpig.com](http://newpig.com)

AIR (PG 326)

IBC8008

BATTERY (PG 326)

DRM8010

### TTS Series Pump System – Safe for flammables.

- For transfer of **corrosives, solvents and flammable liquids**
- **Pickup tubes** are made from stainless steel and Teflon
- **Static hose protection kit** helps to properly ground motor and eliminate static-generated sparking

NOTE: Includes power cord; plug must be installed to match receptacle in use

DRM8000

### TTS Series Pump – Transfer medium-viscosity, non-flammable liquids.

- For transfer of **shear-sensitive liquids or oils**
- **Pickup tubes** are made from stainless steel and Teflon to withstand corrosives and non-flammable solvents
- Includes **5'L PVC discharge hose**

IBC8001

### PF Series Pump System – High-output for corrosives.

- Rated continuous-duty for **light to medium viscosities**
- Sealless **polypropylene pickup tubes** (DRM8007, IBC8010, IBC8011) are ideal for acids, caustics and other chemicals
- **Stainless steel pickup tubes** (DRM8008, IBC8012, IBC8013) are great for non-flammable solvents and mild corrosives
- Includes **5'L PVC discharge hose**

IBC8011

### Light-Duty Pump System – Economical for mild corrosives.

- Lightweight system is **perfect for intermittent transfers** of various liquids (See ordering information below)
- 0.33 HP electric motor @ 10 gpm has dual speed toggle switch for **better flow control**
- Includes **5'L PVC discharge hose**

DRM1082

IBC8004	FTI 0.5 HP Air-Operated Explosion-Proof IBC Tote Pump System w/TTS Pick-Up Tube	Corrosives; Solvents; Flammables	Air	80-100 PSI @ 15-32 CFM	330	22	275 gal. IBC w/ 2" NPT Bung	<b>\$2138</b>

### TTS Series Pump System (Non-Flammables)

DRM8004	FTI 0.5 HP Air-Operated Drum Pump System with TTS Pick-Up Tube	Corrosives; Solvents; Shear-Sensitive Liquids	Air	80-100 PSI @ 15-32 CFM	330	22	55 gal. Drum w/ 2" NPT Bung	<b>\$1577</b>
IBC8005	FTI 0.5 HP Air-Operated IBC Tote Pump System with TTS Pick-Up Tube	Corrosives; Solvents; Shear-Sensitive Liquids	Air	80-100 PSI @ 15-32 CFM	330	22	275 gal. IBC w/ 2" NPT Bung	<b>\$1623</b>

### PF Series Pump System

DRM8005	FTI 0.5 HP Air-Operated Drum Pump System with PFP Pick-Up Tube	Acids, Bases and Other Corrosives	Air	80-100 PSI @ 15-32 CFM	330	22	55 gal. Drum w/ 2" NPT Bung	<b>\$1181</b>
IBC8006	FTI 0.5 HP Air-Operated IBC Tote Pump System with PFP Pick-Up Tube	Acids, Bases and Other Corrosives	Air	80-100 PSI @ 15-32 CFM	330	22	275 gal. IBC w/ 2" NPT Bung	<b>\$1250</b>
IBC8007	FTI 0.5 HP Air-Operated IBC Tote Pump System with PFP Pick-Up Tube	Acids, Bases and Other Corrosives	Air	80-100 PSI @ 15-32 CFM	330	22	330 gal. IBC w/ 2" NPT Bung	<b>\$1090</b>
DRM8006	FTI 0.5 HP Air-Operated Drum Pump System with PFS Pick-Up Tube	Mild Corrosives; Non-Flammable Solvents	Air	80-100 PSI @ 15-32 CFM	330	22	55 gal. Drum w/ 2" NPT Bung	<b>\$1596</b>
IBC8008	FTI 0.5 HP Air-Operated IBC Tote Pump System with PFS Pick-Up Tube	Mild Corrosives; Non-Flammable Solvents	Air	80-100 PSI @ 15-32 CFM	330	22	275 gal. IBC w/ 2" NPT Bung	<b>\$1663</b>
IBC8009	FTI 0.5 HP Air-Operated IBC Tote Pump System with PFS Pick-Up Tube	Mild Corrosives; Non-Flammable Solvents	Air	80-100 PSI @ 15-32 CFM	330	22	330 gal. IBC w/ 2" NPT Bung	<b>\$1735</b>

## BATTERY PUMP SYSTEMS

### Lithium Battery-Operated Drum Pump System

Item #	Name	Compatible With	Powered By	Power Requirements	Max Viscosity (CentiPoise)	Max Flow Rate (gal./minute)	Use With	1+
DRM8009	FTI Lithium Battery-Operated Drum Pump System with EFS Pick-Up Tube	Light Acids; Solvents; Cleaners; Coolants; DEF	Battery	12V 3200mAh Lithium Ion Battery	100	14	55 gal. Drum w/ 2" NPT Bung	<b>\$1249</b>
DRM8010	FTI Lithium Battery-Operated Drum Pump System with EFP Pick-Up Tube	Thin-Bodied & Slightly Viscous Liquids in Non-Explosive Areas	Battery	12V 3200mAh Lithium Ion Battery	100	14	55 gal. Drum w/ 2" NPT Bung	<b>\$687</b>
IBC8014	FTI Lithium Battery-Operated IBC Tote Pump System with EFP Pick-Up Tube	Thin-Bodied & Slightly Viscous Liquids in Non-Explosive Areas	Battery	12V 3200mAh Lithium Ion Battery	100	14	275 gal. IBC w/ 2" NPT Bung	<b>\$791</b>
IBC8015	FTI Lithium Battery-Operated IBC Tote Pump System with EFP Pick-Up Tube	Thin-Bodied & Slightly Viscous Liquids in Non-Explosive Areas	Battery	12V 3200mAh Lithium Ion Battery	100	14	330 gal. IBC w/ 2" NPT Bung	<b>\$852</b>

Flammable Notice: See page 327.

## NiCad Battery-Operated Pump System — Put away your cords and air lines ... this pump is portable!

- **Convenient and portable;** can be used remotely in different locations without the use of power cords or air lines
- **Works with** diesel exhaust fluid (DEF), water-based chemicals, soap, detergents, insecticides and antifreeze with maximum 20 wt. viscosity
- **Maximum flow rate of 7 gal./minute**
- Pumps **106 gallons per charge** and uses a 19.2V rechargeable NiCad battery and Charging Dock (included and also sold separately)

DRM1220 comes with a 70" L polyethylene hose, nozzle, holster and stainless steel spout.

### Zee Line NiCad Battery-Operated Pump System

Item #	1+
<b>DRM1220</b> • Pump System • For DEF, Water-Based Chemicals, Insecticides, Antifreeze (Max. 20 wt.) • 7 gal./minute • Fits up to 55-gal. Drum & Container with 2" Bung	<b>\$315</b>
<b>DRM1222</b> • Replacement Battery	<b>\$75</b>
<b>DRM1223</b> • Charging Dock	<b>\$43</b>

Notice: Call Technical Services at 1-800-HOT-HOGS (468-4647) or visit [newpig.com](http://newpig.com) for chemical compatibility.  
Flammable Notice: See details below.

## Alkaline Battery-Operated Pump — Hand-held pumps are great for small jobs.

- **Portable design** can be used remotely, unlike standard pumps that require power cords or air lines
- **Ideal for moving material** from 5-gallon and smaller cans to equipment or other containers; fits sumps, bladders and containers
- DRM1410 **automatically shuts off** to eliminate overflows
- Batteries not included (**DRM1226** requires two D size; **DRM1410** requires two AA size)

### Zee Line Alkaline Battery-Operated Pump

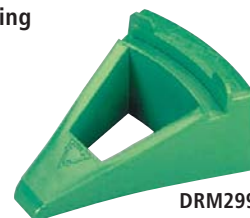

Item #	1+
<b>DRM1226</b> • For Water and Light Oil (Max. 20 wt.) • 2.5 gal./minute	<b>\$28</b>
<b>DRM1410</b> • Auto Shutoff • For DEF, Light Oils and Water-Based Fluids • 2.4 gal./minute	<b>\$29</b>

Notice: Call Technical Services at 1-800-HOT-HOGS (468-4647) or visit [newpig.com](http://newpig.com) for chemical compatibility.  
Flammables Notice: If using this product with flammable liquids, please consider the regulations that apply to storage and handling of flammable liquids and the safety of this application, specifically flammable vapors, static discharge and heat sources. For further assistance, please call Technical Services.

## Wedge — Durable wedge helps you pump every last ounce out of your drums.

- Easy-to-use wedge **props up 30- and 55-gallon drums**
- Moves liquid to one side for **easy pumping**
- Made of durable, nonsparking **100% recycled polyethylene**
- Reduces waste; ideal for use with **expensive process chemicals**

### Drum Wedge

Item #	1-9	10+
<b>DRM299</b> • 9.625" W x 12" L x 5.625" H	<b>\$26</b>	<b>\$24</b>

**BUY SEPARATE COMPONENTS OR  
SAVE ON A COMPLETE SYSTEM (DRM699)**

## Metered Dispensing System — Ideal for fleets, this system ensures fast, consistent oil and fluid fills.

- **Accurately dispenses motor oils**, gear oils, automatic transmission fluids or other petroleum-based lubricants from 30- or 55-gallon tight-head drums
- **System consists of** air-operated pump, quart meter and 32' open oil hose reel
- 3:1 ratio low-pressure pump is specifically designed for **pumping liquids through a hose reel**
- **32' rubber hose reel** reaches your work area, retracts when you're finished
- Hand-operated **quart meter** tracks the amount of liquid dispensed in 8 oz. increments; comes with 12" flexible hose and non-drip nozzle

Zee Line Air-Operated Metered Oil Drum Pump System	
Item #	1+
<b>DRM699</b> • Complete System For Oil-Based Liquids • Air: 50-145 PSI • Fits 30- and 55-gal. Tight-Head Drums with 2" NPT Bung	<b>\$1933</b>
<b>DRM699 Contents</b> • 1 Pump - (DRM696) • 1 Open Oil Hose Reel - (DRM697) • 1 Quart Meter - (DRM698)	
<b>DRM696</b> • Pump For Oil-Based Liquids • Air: 100-145 PSI • Fits 30- and 55-gal. Tight-Head Drums with 2" NPT Bung	<b>\$818</b>
<b>DRM696 Contents</b> • 1 Air Operated Pump Motor • 1 Pump Tube • 1 Oil Hose • 1 Air Hose • 1 Air Regulator Combination Unit	
<b>DRM697</b> • Open Hose Reel	<b>\$756</b>
<b>DRM698</b> • Quart Meter	<b>\$484</b>

\* **WARNING:** Cancer, Birth Defects and Reproductive Harm - [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov)

## Air-Operated IBC Pump — Dispense fleet lubricants from IBC units.

- Move liquids **up to 90 wt.**
- **Positive displacement pump** is designed for pumping liquids through meters and oil hose reels with minimum flow loss
- 3:1 pump delivers steady flow of liquid up to **5 gpm**
- Includes two sized **pick-up tubes** for versatility
- Meter and hose reel **sold separately**

Zee Line Air-Operated IBC Tote Pump	
Item #	1+
<b>DRM367</b> • For Oil-Based Liquids • Fits 275-gal. IBC Tote and 55-gal. Drum w/2" NPT Bung • Air: 50-145 PSI	<b>\$761</b>
<b>DRM367 Contents</b> • 1 Air-Operated Pump Motor • 1 42" L Pump Tube • 1 22.5" L Pump Tube • 1 4" L Oil Hose • 1 Air Regulator Combination Unit	

\* **WARNING:** Cancer, Birth Defects and Reproductive Harm - [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov)

## Air-Operated Metered Oil IBC Pump System — Easily transfer lubricants and oil-based liquids from your IBC tanks.

- Ideal for dispensing **motor oils**, **gear oils**, **automatic transmission fluids** and similar petroleum-based lubricants from IBC tanks
- **3:1 ratio** low-pressure pump is specifically designed for pumping liquids through a hose reel
- **Nozzle with flex spout and inlet swivel** dispenses lubricants and oil-based liquids accurately
- **Mounting plate** allows easy attachment to your IBC tote
- **32' L Hose reel** features dual arm support with adjustable hose stop
- **Fits 275-gallon IBC tote** and 55-gallon drum with 2" NPT bung

## Gravity-Fed Hose with Nozzle — No pump needed to dispense from IBCs.

- Simple gravity-fed application **requires no electricity or air source**; produces flow rates of up to 10 gpm
- **2" female NPS fitting** attaches easily to your IBC; working temperature range 40°F to 120°F
- 8'-long PVC hose and aluminum dispensing nozzle **resist most chemicals**

IBC Tote Gravity-Fed Hose with Nozzle	
Item #	1+
<b>IBC021</b> • For use with IBC Totes	<b>\$182</b>

Zee Line Air-Operated Metered Oil IBC Tote Pump System	
Item #	1+
<b>IBC008</b> • Mechanical • Measures in Quarts • Air: 50-145 PSI • Fits 275- and 330-gal. IBC with 2" NPT Bung	<b>\$2058</b>
<b>IBC009</b> • Mechanical • Measures in Gallons • Air: 50-145 PSI • Fits 275- and 330-gal. IBC with 2" NPT Bung	<b>\$2132</b>
<b>IBC011</b> • Digital • Measures in Pints, Quarts, Liters or Gallons • Air: 50-145 PSI • Fits 275- and 330-gal. IBC with 2" NPT Bung	<b>\$2006</b>

\* **WARNING:** Cancer, Birth Defects and Reproductive Harm - [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov)

### IBC Mixer — Re-suspend settled solids and maintain uniformity of contents.

- Air-powered direct drive motor **mounts to any IBC** with 6" opening
- **Adjustable bridge and tote clamps** let you position motor at proper location
- Dual turbines are specially designed for mixing material in **square or rectangular containers** with corners

IBC Tote Mixer	
Item #	1+
<b>IBC014</b> • For Dyes, Inks, Paints, Solvents & Mild Corrosives • 36" L	<b>\$3168</b>

### Dual-Force Vac Pump — Air-operated vac sucks liquids into a drum or pumps out for reclamation.

- Dual-mode design **pumps or vacuums**
- Quiet, air-powered pump has no motor; **requires virtually no maintenance**
- **Automatic safety shutoff valve** prevents overflows
- **Fast-turn switch** changes from fill to empty mode in seconds
- **Installs quickly** on a 55-gallon tight-head steel drum (requires drum with UN Rating of at least 1A1/X1.8/300)
- Pumps up to **33 gpm of oils, coolants and non-flammable solvents**

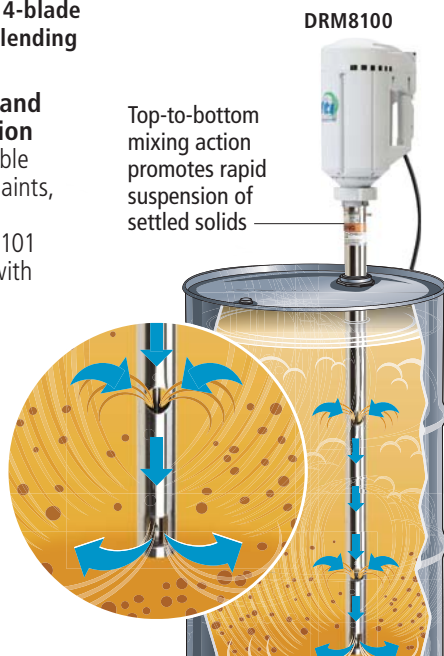

#### Vortec Air-Operated Dual-Force Vac Pump

Item #	1+
<b>DRM903</b> • For Oils, Coolants and Non-Flammable Solvents • Air: 50 PSI at 15 SCFM (Min.), 100 PSI at 23 SCFM (Max.)	<b>\$897</b>
<b>DRM903 Contents</b> • 1 Pump Body Assembly With Overflow Preventer • 1 Hose • 1 Drum Evacuation Tube • 1 Extension Wand • 1 Hose Drum Connection • 1 Ball Valve With 1/4" NPT • 1 Air Line Filter	

### Drum Mixer System — Motor and mixer easily combine liquids in drums.

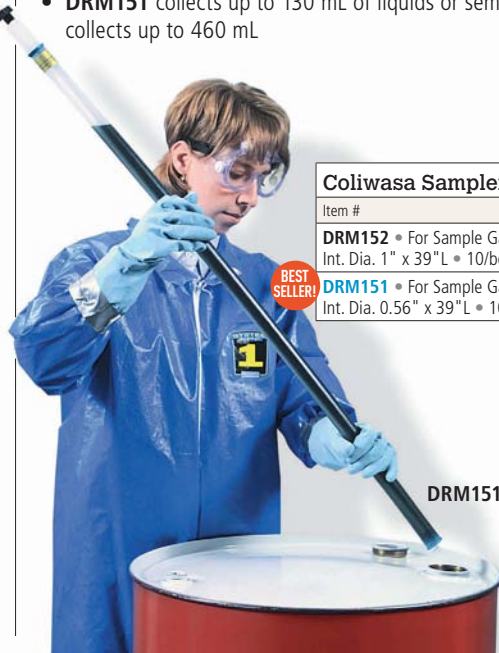

- Sealed mixer offers **4-blade turbine mixing/blending capabilities**
- **Stainless steel and PTFE-construction mixer** is compatible with dyes, inks, paints, solvents and mild corrosives; DRM8101 also compatible with flammables
- Choice of **motor systems** sold below

FTI Drum Mixer System	
Item #	1+
<b>DRM8100</b> • FTI 0.33 HP Electric TM Drum Mixer System	<b>\$2143</b>
<b>DRM8101</b> • FTI 0.5 HP Air-Operated TM Drum Mixer System	<b>\$1674</b>

### Coliwasasampler — The easy way to sample liquids and semisolids in drums.

- **100% chemical-resistant**, see-through tube (polypropylene), rod (thermoplastic polymer) and stoppers (neoprene)
- Features a unique **screw-down locking device** for transferring liquids and semisolids to your in-house lab
- **DRM151** collects up to 130 mL of liquids or semisolids; **DRM152** collects up to 460 mL

Coliwasasampler		
Item #	1-2	3+
<b>DRM152</b> • For Sample Gathering Int. Dia. 1" x 39" L • 10/box	<b>\$270</b>	<b>\$260</b>
<b>DRM151</b> • For Sample Gathering Int. Dia. 0.56" x 39" L • 10/box	<b>\$270</b>	<b>\$260</b>

## Poly Drum Faucet — Chemical-resistant and great for disposable use.

- Inexpensive faucet **can be discarded** after dispensing liquids that may harden or gel on the faucet over time
- Economical **alternative to steel**; helps ensure chemical compatibility
- DRM346 ideal for use with **non-viscous oils, coolants and fixatives**
- DRM347 ideal for use with **adhesives, resins and fixatives**

### Polyethylene Drum Faucet

Item #	1+
<b>DRM347</b> • For Viscous, Non-Corrosive Liquids • 2" NPT Bung • Not Adjustable	<b>\$21</b>
<b>DRM346</b> • For Non-Viscous, Non-Corrosive Liquids • 0.75" NPT Bung Not Adjustable	<b>\$11</b>

## Brass Gate Valve — Easily dispenses viscous liquids heavier than SAE 30.

- **Drains thick resins**, lubes and other noncorrosive liquids from 55 gal. drums
- Able to dispense noncorrosive liquids **up to SAE 30**
- Solid cast brass construction is **strong and chemical resistant**
- **FM Approved** for dispensing flammables

### Brass Gate Drum Valve

Item #	1+
<b>DRM217</b> • For Non-Corrosive High Viscosity Fluids • 2" NPT Bung • Not Adjustable	<b>\$278</b>

## Adjustable Stainless Steel Drum Faucet — Ideal for dispensing flammables.

- **FM Approved faucet** features a built-in flame arrestor to help prevent ignition
- Stainless steel for **added chemical resistance** and long service life
- Faucet **adjusts to desired pouring angle** without remounting
- PTFE seals offer secure, **leak-free operation** with a wide range of liquids

### Adjustable Stainless Steel Drum Faucet

Item #	1+
<b>DRM489</b> • For Flammable & Corrosive Liquids 0.75" NPT Bung • Adjustable	<b>\$238</b>

## Brass Drum Faucet — Flame arrestor helps prevent ignition.

- **FM Approved faucet** features a built-in flame arrestor to help prevent ignition
- Self-closing with a **PTFE seal** to help prevent spills
- **Lockable** to prevent unauthorized access
- Available in standard design (DRM244) or **adjustable** (DRM244-01)

### Brass Safety Drum Faucet

Item #	1+
<b>DRM244</b> • For Non-Viscous, Non-Corrosive, Flammable Liquids • 0.75" NPT Bung	<b>\$78.20</b>
<b>DRM244-01</b> • For Non-Viscous, Non-Corrosive, Flammable Liquids • 0.75" NPT Bung • Adjustable	<b>\$94</b>

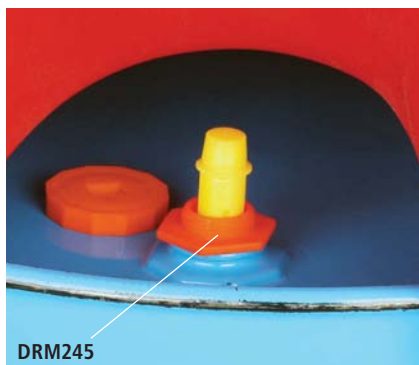

## Zinc Drum Faucet with Gauge — See exactly what's left in your drum.

- **Chrome-plated steel drum gauge** with visible fluid level gives quick reading for horizontal drum
- **Zinc faucet** is FM Approved for use with flammable liquids
- For **nonviscous oils and chemicals** except chlorinated solvents or concentrated acids or bases

### Zinc Drum Faucet with Gauge

Item #	1+
<b>DRM205</b> • For 55-gal. Horizontal Drums w/ 0.75" NPT Bung	<b>\$176</b>

DRM245

## Pop-Up Drum Gauge — Economical gauge signals when drum is nearly full.

- Durable gauge **helps prevent overfilling** by popping up when drum is near capacity
- **Corrosion-resistant polyethylene** withstands most liquids
- Highly visible red and yellow colors offer **easy indication**
- Available in extra-long **11" model (DRM317)** to give an even earlier warning that your drum is nearly full

### Pop-Up Drum Gauge

Item #	1-3	4+
<b>DRM317</b> • For 30- and 55-gal. Vertical Drums w/0.75" NPT Bung 11" Float Indicator Depth	<b>\$31</b>	<b>\$30</b>
<b>DRM245</b> • For 30- and 55-gal. Vertical Drums w/0.75" NPT Bung 5" Float Indicator Depth	<b>\$30</b>	<b>\$29</b>

Flammables Warning: Not for use with flammables (f.p.<141°F/60.5°C).

BEST  
SELLER

## Drum Gauges — Check levels across a wide range of liquids.

- **Avoid overflows and downtime** by quickly checking a drum's liquid level; no guessing or messy dipsticks
- High-contrast, transparent design is **easy to read**, even in low light
- **Simple mechanical design** helps minimize upkeep
- Indicator tube **shows high and low barrel levels** in gallons, liters and volume percentage
- Designed for use with **vertical drums**

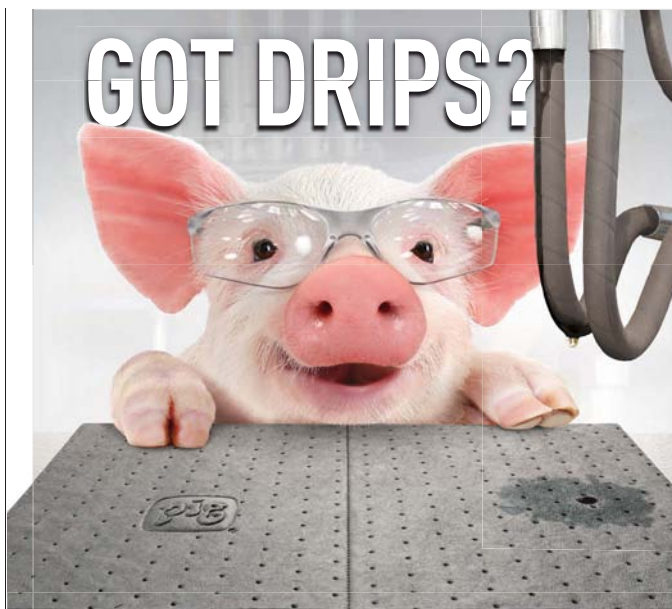

DRM467

### Drum Gauges

# GOT DRIPS?

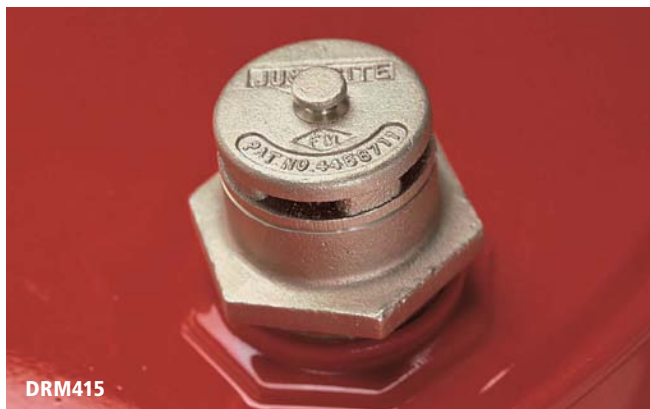

Don't face oily messes with anything less than the best.  
**Trust the one and only PIG Mat.**

Our perfect balance of absorbency, retention and durability makes PIG Mat the world's #1 brand.

◀ **PIG Absorbent Mat in Dispenser Box (MAT240)** See page 11

DRM415

## Safety Drum Vent — Relieves dangerous pressure in vertical or horizontal drums.

- **DRM415** automatically **relieves vacuum and pressure** at 5 psi
- **DRM201** automatically **relieves pressure at 5 psig**; vent manually to relieve vacuum
- **Flame arrestor** prevents flashback ignition
- **Solid cast brass** construction

DRM201

### Safety Drum Vent

Item #	1+
<b>DRM415</b> • For 55-gal. Vertical Drums w/2" NPT Bung	<b>\$126</b> *
<b>DRM201</b> • For 55-gal. Horizontal Drums w/2" NPT Bung	<b>\$99</b> *

DRM1295

## IBC Fill Cap Wrench — Tightly closed center caps are no problem for this tool.

- Lightweight IBC tote wrench can help you **achieve the right torque to remove a tightly closed IBC cap**
- **Double handles** ease the opening of previously torqued fill caps; **can also be used to tighten fill caps** for in-plant use
- **Helps you comply with UN/DOT closure requirements** prior to shipping by inserting a 1/2" drive manual torque wrench (sold separately) into the center and applying the specified torque

DRM1295

### IBC Tote Fill Cap Wrench

Item #	1+
<b>DRM1295</b> • Aluminum	<b>\$99</b>

DRM322

DRM323

## Non-metallic Drum Vent — Relieves pressure and vacuum for easy dispensing.

- Automatically **relieves vacuum and drum pressure buildup** at 5 psi
- **Flame arrestor** extinguishes flames and sparks
- Choose DRM322 for **petroleum-based liquids**; DRM323 for **chlorinated solvents**

### Non-Metallic Drum Vent

Item #	1+
<b>DRM322</b> • For 55-gal. Vertical Drums w/2" NPT Bung For Petroleum Based Liquids • FM Approved	<b>\$73</b>
<b>DRM323</b> • For 55-gal. Vertical Drums w/2" NPT Bung • For Chlorinated Solvents	<b>\$109</b>

\*FM = Factory Mutual tested/approved

DRM135

## Draining Screen — Fits inside a 55-gallon drum for easy draining.

- Steel screen **allows drum to be closed with a latching lid** or covered with a funnel with screen in place
- **Mounts securely** and holds up to 40 lbs.
- Use to **drain filters, buckets and more**
- Mesh **filters out debris**, but lets liquid pass through
- 1" finger hole with rubber grommet for **easy removal**

### Draining Drum Screen

Item #	1-4	5+
<b>DRM135</b> • For 55-gal. Open-head Steel Drums • 0.125" Dia. Mesh Opening	<b>\$139</b>	<b>\$132</b>

## Deluxe Drum Plug Wrench — Open almost any drum bung with ease.

- Versatile **wrenches** open **standard and nonstandard drum bungs**; also work as ring and faucet wrenches
- Available in durable **zinc-plated steel** or **nonsparking bronze alloy**
- Deluxe wrench** (DRM1019, DRM1020) features an elongated handle for extra leverage and knuckle protection
- Multi-purpose wrench** (DRM1017, DRM1018) features an angled handle for knuckle protection

Deluxe Drum Plug Wrench			
Item #	1-3	4+	
<b>DRM1019</b> • Polished Zinc Cast Steel • 2"W x 12"L	<b>\$81.40</b>	<b>\$75.90</b>	
<b>DRM1020</b> • Non-Sparking Bronze Alloy • 2"W x 12"L	<b>\$128</b>	<b>\$121</b>	
Multi-Purpose Drum Plug Wrench			
Item #	1-3	4+	
<b>DRM1017</b> • Polished Zinc Cast Steel • 5"W x 13"L	<b>\$94</b>	<b>\$86</b>	
<b>DRM1018</b> • Non-Sparking Bronze Alloy • 5"W x 13"L	<b>\$192</b>	<b>\$179</b>	

## **pig** Drum Plug Socket & Wrench — Tighten bungs to the proper spec.

- Exclusive** Drum Plug Torque Socket (DRM818) fits DRM1818 or any 3/8" torque wrench
- Tightens most **2" and 3/4"** poly/steel plugs, including Tri-Sure and Rieke®
- 3/8" drive torque wrench clicks when desired torque value is reached to **help meet DOT regs**

PIG™ Drum Plug Torque Socket			
Item #	1-3	4+	
<b>DRM818</b> • Zinc-plated Steel	<b>\$74</b>	<b>\$58</b>	
Drum Torque Wrench			
Item #	1-2	3+	
<b>DRM1818</b> • Measures 10–80 ft./lbs. in Increments of 5 ft./lbs.	<b>\$105</b>	<b>\$99</b>	

## Non-sparking Tool Kit — For use around flammables.

- Aluminum bronze** tool set is designed for safe handling in hazardous environments
- Tools are **nonsparking** and **nonmagnetic**
- ◆ **Helps you comply** with 29 CFR 1910.120 (j)(2)(v) requiring hand tools appropriate for flammable atmospheres

Non-Sparking Tool Kit	
Item #	1+
<b>GEN310</b> • 9.5"W x 16"L x 9.5"H	<b>\$1390</b>

Notice: Call Technical Services at 1-800-HOT-HOGS (468-4647) or visit our website at newpig.com for kit contents.

## Non-sparking Drum Plug Wrench — Safer for hands.

- Durable, **nonsparking aluminum** is safe around flammables
- Offset handle design **reduces user stress** and prevents knuckle scraping
- Fits most **round- and hex-style** bung plugs (not compatible with 3/4" Rieke plugs)

Non-Sparking Drum Plug Wrench			
Item #	1-3	4+	
<b>DRM1058</b> • 10.5"L For Most Round- & Hex-style Drum Plugs (Not Compatible w/ 0.75" Rieke Plugs)	<b>\$31</b>	<b>\$29</b>	

## Drum Plug Wrench — Cast iron wrench is built to last.

- Inexpensive way** to open and close most domestic steel and plastic drum plugs
- Durable cast iron** construction and zinc-plated finish
- 12" handle with offset allows **two-handed use** for stubborn bungs

Drum Plug Wrench			
Item #	1-2	3-5	6+
<b>DRM315</b> • 2.5"W x 12"L	<b>\$43</b>	<b>\$41</b>	<b>\$36</b>

## Retractable Grounding Reel — Provides tangle-free flexibility for high-use areas.

- Spring-loaded retracting reel maintains a handy length of wire; **prevents tangles to avoid accidents**
- Reel **locks when cable is at desired length** and retracts with a light tug

### Rota-Reel® Retractable Bonding/ Grounding Wire Reel

Item #	1-2	3+
DRM133-50T • Reel Grounding End Hand Clamp Bonding End • 50'L	\$508	\$490
DRM133-20T • Reel Grounding End Hand Clamp Bonding End • 20'L	\$396	\$378

## Grounding Wires — Work safer with a coiled grounding wire to prevent tripping.

- Bonding and grounding assemblies **control static electricity** to prevent sparking during flammable liquids transfer or storage; FM Approved, NFPA 77 compliant
- **Coiled wire** provides a solid grounding connection with no tripping hazard
- **Vinyl coating** protects wire from corrosion for outdoor use and longer life

### Retract-a-Clamp® Insulated Bonding/ Grounding Wires

Item #	1-3	4+
DRM416 • Hand Clamp Grounding End Hand Clamp Bonding End • 10'L	\$126	\$121
DRM441 • 1/4" Eyelet Grounding End Hand Clamp Bonding End • 10'L	\$91	\$88

## Grounding Clamp — NFPA- and FM-compliant grounding for flammables storage.

- Bonding and grounding assemblies **prevent spark danger** while transferring or storing flammable liquids
- **3' galvanized uncoated steel wire** is easy to inspect for dangerous breaks and frays (DRM627)
- ◆ **Helps you comply** with 29 CFR 1910.106(e)(6)(ii) for grounding and bonding when transferring flammables

### Tuffite® REB2960 Grounding Clamp

Item #	1-3	4+
DRM376 • Hand Clamp	\$41	\$39
DRM627 • Hand Clamp Grounding End Hand Clamp Bonding End • 3'L	\$116	\$110

## Bonding/Grounding Wires — Safer flammables transfers.

- **Choose insulated or uninsulated** drum grounding wires
- Available with **various clamp options** to ensure a solid connection on barrels
- ◆ **Helps you comply** with 29 CFR 1910.106(e)(6)(ii) for grounding and bonding when transferring flammables

### Bonding/Grounding Wires

Item #	1-3	4+
DRM492 • Insulated • 1/4" Eyelet Grounding End • Hand Clamp Bonding End • 10'L	\$71	\$66
DRM493 • Uninsulated • C-Clamp Grounding End • Hand Clamp Bonding End • 3'L	\$80	\$78
DRM494 • Uninsulated • Hand Clamp Grounding End • Hand Clamp Bonding End • 3'L	\$105	\$101
DRM1235 • Insulated • #10 Ring Terminal Bonding End • Alligator Clip Grounding End • 5'L	\$60	\$57
DRM495 • Uninsulated • Alligator Clip Grounding End • Alligator Clip Bonding End • 3'L	\$48	\$45
DRM498 • Insulated • C-Clamp Grounding End • Alligator Clip Bonding End • 3'L	\$55	\$52

DRM474

### Straight-Sided Inserts

Thick 15-mil construction is durable for mixing, pumping and when using follower plates. (See ordering information below)

DRM1903

DRM1901

### Anti-Stat Insert and Liners

Specially treated to dissipate static charges; an extra safety measure when you're handling flammable products. Color-coded pink for easy identification. (DRM1900–DRM1903)

### Round-Bottom Liners

Thinner design (4-mil to 10-mil) is more baglike with a full rounded bottom that won't trap liquids. (See ordering information at right)

### Chemical-Resistant Liner

Multi-layered nylon/poly film resists chemicals, paints, solvents and hot fills that break down standard liners. (DRM143)

DRM143

BEST  
SELLER!

GEN302

Accordion-Sided Insert has pleated walls to accommodate variations in reconditioned drums.

## Drum and Bucket Liners — Reuse your containers and save on cleaning costs.

- **Reduces the costs** and time associated with cleaning, reconditioning and disposing of used drums and pails
- Helps **eliminate container residues** that could make you liable for future contamination
- Protects contents and **extends drum life**
- Contoured design is **easy to insert**, won't leave folds or pockets that can trap liquid
- Made from **FDA Compliant resins** for containment of food and cosmetic products
- Ideal for storing paints, inks, coatings and other **hard-to-clean materials**
- Three top styles: **snap-over** rolls over the rim of open-head drums and covers the lip; **peel-over** slides over the side of the drum, about 5" past the lip; **tie-off** can be lifted and tied like standard trashbags

*"Buckets are very costly and this liner reduces the need to change the bucket often. **The liners are durable and up to the task.** We've used them for years in a heavy industrial setting and never had one rip or tear."*

— John, GEN308 Customer

### Snap-On Covers — Protect your drums against dirt, moisture and rust.

- **Economical covers** protect drum heads and bungs from dirt, moisture and rust; **tough and rigid** to stay on for reliable protection
- Constructed of **weather-resistant** polyethylene; suitable for use indoors or out
- **Clear covers** for easy view of labels on drum heads; **black covers** shield contents from light

#### Snap-On Drum Covers

Item #	1+
<b>DRM144</b> • Clear • For 55-gal. Open-head Steel Drums • 25/box	<b>\$196</b>
<b>DRM145</b> • Clear • For 55-gal. Tight-head Steel Drums • 25/box	<b>\$196</b>
<b>DRM146</b> • Black • For 55-gal. Tight-head Steel Drums • 25/box	<b>\$196</b>
<b>DRM147</b> • Black • For 55-gal. Open-head Steel Drums • 25/box	<b>\$196</b>

### Drum Lock — Protect drums and their contents with a sleek bung lock.

- **Protects steel drum contents** from cross contamination, theft or sabotage; electrophoretic lock coating is **corrosion-proof and made to last a lifetime**
- **Set includes a 2" and a 3/4" drum lock** for bungs on 15–110-gallon steel drums
- **Hinged, one-piece design** is heavy-duty, nonsparking zinc alloy with an all-weather locking mechanism; gator-like grips clamp around the bung plugs

#### Drum Lock

Item #	1	2+
<b>DRM1340</b> • For Steel Drums with 0.75" and 2" Bungs	<b>\$75</b>	<b>\$72</b>

### Tamper-Evident Capsel — Protect materials with these one-time use bung seals.

- Attaches over the 2" bung on most **tight-head poly drums**
- **Tear tab design** makes it obvious if seal has been removed
- Capsel can only be **removed with pliers**; once tabs have been peeled, seal must be replaced

Installs easily with a rubber mallet.

#### Right-Seal™ Tamper-Evident Capsel

Item #	1+
<b>DRM1342</b> • For Poly Drums w/ 2" Bungs 10/bag	<b>\$6</b>

### IBC Ball Valve Cap — Keep your valve assembly clean during transportation.

- **Prevent dust and foreign objects from entering** the valve assembly of your IBC
- **Fits 2" IBC valves** (two sizes available to fit different thread depths)
- **Polypropylene construction with foam liner** keeps contaminants out

#### IBC Tote Ball Valve Cap

Item #	1+
<b>IBC019</b> • Fits IBC Valves w/ 1/2"-deep NPT threads • 5/package	<b>\$13</b>
<b>IBC020</b> • Fits IBC Valves w/ 2"-deep NPT threads • 5/package	<b>\$10</b>

# Drum Replacement Parts — Salvage those still-usable drums and put them back in business!

- **Steel drum replacement parts:** Ring and bolt sets for 55 gal. open-head steel drums; lever drum rings for 55 gal. open-head drums
- **Open-head drum replacement parts:** Rubber gaskets for 55 gal. drums (sold 10/box); drum lids for 55 gal. drums with and without bung fittings; DRM1037 gasket stretches over drum lip to create an air- and liquidproof seal
- **Bungs for tight-head steel drums:** Choose either 2" NPT or 3/4" NPT plated steel bungs with bung gaskets
- **Bungs for tight-head poly drums:** Choose either 2" poly buttress bung or 2" poly NPT bung (both have gaskets)

Drum Replacement Parts

## 55-Gallon Steel Drum Heater — Warm thick liquids for easier handling.

- **Clamps onto a 55-gallon steel drum** to gradually warm liquids for easier pumping and dispensing
- Thermostat-controlled band can be **adjusted up to 550°F** to accommodate liquids of varying temperatures
- Powered by a **standard 120 V outlet**
- **3¼" H heating band** fits drums up to 22½" in diameter

55-Gallon Steel Drum Heater	
Item #	1+
<b>DRM1004</b>	\$313

NOTE: Not for use with flammable or hazardous liquids.

# STICK A FORK IN IT?

**You'd be done for without PIG Poly Spill Containment Pallets!**

*The strongest pallets you can buy at any load capacity you need. See page 360.*

## PIG Adjustable Dolly — Durable steel dolly fits your drums and overpacks.

- Fits 55-gallon drums and most overpacks (**adjustable diameters from 22¾" to 26½"**)
- **Heavy-duty 3/16" steel frame** adjusts in minutes with bolts and lock nuts
- **Curved ends** hold drum tight
- **Hard rubber casters** for smooth rolling
- Brakes **keep dolly from moving**

DLY301-01

### PIG™ Steel Adjustable Drum Dolly

Item #	1+
<b>DLY301-01</b> • For 55-gal. Drums and Containers from 22.75" to 26.5" Dia. 800 lb. Load Capacity	<b>\$223</b>

## PIG Spill Containment Cart — Mobile sump with lockable wheels catches leaks and spills from drums.

- Sump holds up to **57 gallons of spilled hazardous liquids** from leaking drums
- Grate and drain plug remove for **easy emptying and cleaning**
- ◆ **Helps you comply** with 40 CFR 264.175 for containment of haz waste

### PIG® Poly Spill Containment Cart

Item #	1-2	3+
<b>PAK648</b> • For 5- to 55-gal. Drums • 500 lb. load capacity 57 gal. sump capacity	<b>\$959</b>	<b>\$918</b>

Flammables Notice: If using this product with flammable liquids, please consider the regulations that apply to storage and handling of flammable liquids and the safety of this application, specifically flammable vapors, static discharge and heat sources. For further assistance, please call Technical Services.

Graduated steps accept various containers.

DRM876

## Multi-Level Quad Dolly — Holds or moves buckets, LP tanks or drums.

- **Dolly base has multiple levels** to accommodate 5-gallon buckets, LP tanks and 30- and 55-gallon drums
- Durable steel construction; polished zinc finish **resists corrosion**
- **DRM876** rolls on 3" hard rubber wheels; **DRM877** features 3" cast iron wheels for more load capacity

### Vestil® Steel Multi-Level Quad Dolly

Item #	1-2	3+
<b>DRM877</b> • Heavy-Duty • For 5-gal. Bucket and 30- to 55-gal. Drums 1,200 lb. load capacity	<b>\$209</b>	<b>\$195</b>

# DRUM HANDLING DONE EASY

## Wesco Drum Trucks — Simple solutions that let you roll, drain and dispense from just about any drum.

- Drum trucks make it easy for one person to **safely move drums** around your facility, even in busy areas
- Heavy-duty, welded steel construction **holds up to 1,000 lbs.**; (DRM1078–DRM1079 are lightweight aluminum, hold up to 700 lbs.)
- Stable, **4-wheel design** helps you move drums without strains or tipovers (select models, see table at right)
- DRM250, DRM211 and DRM1251 are specially designed **for use with poly or fiber drums**; wide feet and security belt help prevent gouges and punctures
- **Built-in kickstand** secures drum truck when not in motion (DLY303, DRM250, DRM464, DRM997 and DRM1251)
- **Wheel options:** Shock-absorbing **Moldon rubber wheels** for rough or outdoor surfaces; **Polyurethane wheels** are made to handle rough surfaces indoors; chemical-resistant **polyolefin wheels** for hard, smooth surfaces indoors; **pneumatic tires** offer a smooth, cushioned ride over any surface

### Multi-Purpose Drum Truck

Rear wheels help you maneuver stand when it's in draining position

DLY303

Truck doubles as a cradle for draining; just add a spigot to have an **all-in-one mobile dispensing rig**

DRM250

### Draining Drum Truck

- Add a spigot and this truck doubles as a **dispensing cradle**
- **Rear wheels** help you maneuver stand when it's in draining position

DRM1078-DRM1079

### Aluminum Drum Truck

- Corrosion-resistant aluminum is lightweight and **safe for use with flammables**
- DRM1079 includes a **handle brake** for extra stopping power

DRM211

### Poly Drum Truck

- Specially formed nose pads help you **safely transport poly drums** and overpacks without damage

DRM1251

### Knock Down Drum Truck

- Ergonomic design for easier handling; **ships boxed to save on freight**

DRM464

### Easy Load Drum Truck

- Extra-stable, **4-wheel design** and double-welded steel pipe frame make this drum truck ideal for harsh environments

### Economy Drum Truck

- Wide 24" handle with vinyl grips ensures **easy maneuvering**
- Double-welded, **budget friendly design** is ideal for occasional drum handling

DRM997

### Wesco® Drum Trucks

(Specify for DRM250: Polyolefin or Moldon Rubber Wheels; **Add \$50** to price shown for Moldon Rubber Wheels)

(Specify for DRM997: Polyolefin or Moldon Rubber Wheels; **Add \$34** to price shown for Moldon Rubber Wheels)

## Poly Drum Rack — Save valuable floor space with this storage and dispensing system.

- Lets you **stack and dispense** from multiple 30-gallon or 55-gallon drums
- Vertical storage is ideal when **floor space is limited**
- Polyethylene construction **resists corrosion and most chemicals**
- **Rack** (PAK182, PAK573) sits on floor for secure dispensing and storage; forkliftable while unloaded for easy transportation
- **Stacker** (PAK183, PAK574) lets you double your drum capacity without sacrificing valuable floor space
- **Dispensing shelf** (PAK575) attaches to front of any stacker to hold a 6-gallon pail

Build a 4-drum system (shown far right) or 2-drum system to fit your facility.

### PIG® Poly Drum Rack

Item #	Name	Use With	Load Capacity	Sump Capacity	1-2	3+
<b>PAK182</b>	Double Rack	(2) 30-Gal. or (2) 55-Gal. Steel Tight-Head Drums	3,000 lbs.	102 gallons	<b>\$746</b>	<b>\$708</b>
<b>PAK183</b>	Double Stacker	(2) 30-Gal. or (2) 55-Gal. Steel Tight-Head Drums	2,400 lbs.	N/A	<b>\$330</b>	<b>\$306</b>
<b>PAK573</b>	Single Rack	(1) 30-Gal. or (1) 55-Gal. Steel Tight-Head Drum	1,600 lbs.	70 gallons	<b>\$385</b>	<b>\$365</b>
<b>PAK574</b>	Single Stacker	(1) 30-Gal. or (1) 55-Gal. Steel Tight-Head Drum	800 lbs.	N/A	<b>\$256</b>	<b>\$244</b>
<b>PAK575</b>	Dispensing Shelf for Stacker	Up to 6-Gal. Containers	N/A	N/A	<b>\$122</b>	<b>\$116</b>

Flammables Notice: If using this product with flammable liquids, please consider the regulations that apply to storage and handling of flammable liquids and the safety of this application, specifically flammable vapors, static discharge and heat sources. For further assistance, please call Technical Services.

**DO YOU HAVE  
DRUM TAPS? WE DO!  
SEE PAGE 330**

## Drum Cradle — Economical cradle is great for one-person use with drums up to 600 lbs.

- To make room for dispensing, **handle removes and stores under unit** when it's horizontal
- Sturdy, **all-steel frame** holds up to 600 lbs.
- Rolls on nonsparking **2½" polyolefin wheels**; resists oils and chemicals

### Wesco® Steel Drum Cradle

Item #	1+
<b>DRM207</b> • For 55-gal. Steel Tight-head Drums • 600 lb. Load Capacity	<b>\$168</b>

## Drum Pallet Rack — Optimize floor space with a high-capacity rack.

- **Heavy-duty structural channel steel** holds several tons; accommodates **30- and 55-gallon drums** as pallet rack
- Position drums on **included cradles** or remove for pallet storage

### Drum Pallet Rack

Item #	1-2	3+
<b>DRM570</b> • Holds (12) 30- to 55-gal. Steel or Poly Tight-head Drums 14,475 lb. Load Capacity	<b>\$1503</b>	<b>\$1430</b>

## **IBC Dispensing Stand** — Elevate your totes to a safer working height for easier dispensing and access.

- Add **26" of ground clearance** to your IBC totes for easy dispensing of non-hazardous liquids into 5-gallon pails and other small containers
- Provides **easy access to connections and valves** for more convenient filling, monitoring and mounting of equipment
- Keeps totes **raised off of work floor** to help prevent damage
- **Eliminates extraneous labor** and back strain from constantly bending over to fill containers
- Durable, all-welded construction is sized to **fit most standard IBCs**
- Powder-coated steel **resists rust and corrosion**

### **PIG™ IBC Tote Dispensing Stand**

Item #	1+
<b>IBC200</b> • 12,000 lb. load capacity • 45.5"W x 52"L x 26.5"H	<b>\$789</b>

**NEED IBC CONTAINMENT?  
SEE PAGES 376-381 AND 385.**

### IBC200

High load capacity allows for double stacking to maximize space.

IBCs sold on page 311.

### DRM237

Two 2-drum units shown

## Stackable Rack — Save floor space with a rack that stacks drums up to four high.

- Welded, bolted racks **stack up to four high** to save floor space
- Some easy assembly required to **minimize freight cost**
- **4-way** forklift entry
- **2-drum model** (DRM237) holds up to 1,600 lbs./level;  
**3-drum** (DRM729) holds up to 2,400 lbs./level

### Wesco® Stackable Rack

Item #	1-2	3+
<b>DRM729</b> • Holds (3) 55-gal. Steel Tight-head Drums 2,400 lb. Load Capacity	<b>\$272</b>	<b>\$260</b>
<b>DRM237</b> • Holds (2) 55-gal. Steel Tight-head Drums 1,600 lb. Load Capacity	<b>\$201</b>	<b>\$188</b>

# PIG FLAMMABLE SAFETY CABINETS

**Built to last a lifetime.  
Guaranteed.**

No other cabinets on the market are stronger or have better features. From fully MIG-welded construction to door faces that are 56% thicker than the competition, our cabinets are built to last decades of industrial use. And with our lifetime warranty, you can buy our cabinets once and use them forever — if there's ever a problem, we'll replace your cabinet or refund your money.

**We have dozens of sizes and styles to match your application. See our full selection on pages 348–351.**

**The only Flammable  
Safety Cabinets tough  
enough to wear the PIG label!**

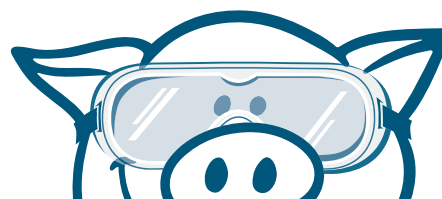

CAB714

**Mike Kinney**  
New Pig Product Development

## PIG Cabinets are built to outperform the competition!

NEW PIG	The Other Guys
<b>FULL LIFETIME WARRANTY!</b>	5- or 10-Year Warranty
Thicker 14-gauge door faces	18-gauge door faces
Heavy-duty, self-lubricating bullet hinges	Grime-prone piano hinges
MIG-welded, full-width shelf supports	Spot-welded support strips
Rounded, one-piece corners	Fastened 90-degree corner pieces
Hybrid powder coating	Conventional powder coating or enamel paint

## EXPERT ADVICE

Watch this video to see why our cabinets are the best-built, best-backed on the market: [newpig.com/safetycabinets](http://newpig.com/safetycabinets)

Check out these FAQs for help choosing the best cabinet to store flammables: [newpig.com/flammable-cabinet-FAQs](http://newpig.com/flammable-cabinet-FAQs)

# Every PIG Flammable Safety Cabinet is built

Self-closing models have a fusible link that melts in a fire; allows you to prop doors open.

Full-width shelf hangers are stronger than individual, spot-welded column hangers.

Fully enclosed bullet hinges won't trap grime. More durable than piano hinges.

Three-point zinc latch ensures spark-free closing every time.

Recessed door handle with keyed lock won't snag on passing traffic.

## LIFETIME WARRANTY

If you're not satisfied, we'll replace the cabinet or offer you a full refund.

- **FM Approved** for the storage of flammables (meets NFPA and OSHA specs); models with self-closing doors meet UFC standards
- **Fully MIG-welded** 14- and 18-gauge steel body is built for a lifetime of continuous use
- Impact-resistant, 14-gauge steel door faces are **56% thicker than competing cabinets**
- **Three-point zinc latch** ensures fail-safe, nonsparking door closure
- **Recessed handle** won't catch on passing traffic
- **4" bullet hinges** feature self-lubricating, fully enclosed brass pins
- Double-wall construction with 1½" of insulating air space **adds fire protection**
- **2" leakproof sump** contains leaks, drips and spills
- **Flame arrestor** vents on right and left sides of cabinet help prevent flashback ignition
- **Full-width, welded shelf hangers** offer maximum support and increase sidewall thickness
- **Grounding connection** inhibits static buildup
- Hybrid powder-coat finish **resists chemicals and corrosion**
- Leveling feet can be **adjusted for stability**
- Most models include **adjustable shelving**; shelves provide 350-lb weight capacity when evenly loaded
- Cabinets are intended for **indoor use only**

NOTE: OSHA codes state that no more than 60 gallons may be Category 1, 2 or 3 flammable liquids, and no more than 120 gallons may be Category 4 flammable liquids.

## Poly Self-Closing Oily Waste Can — Delivers the fire-safe qualities of steel.

- **FM Approved can melts inward during a fire** to seal out oxygen and keep contents from reaching flashpoint
- **Self-closing lid** helps prevent fires caused by sparks or spontaneous combustion
- **100% polyethylene** resists rust, dents and chemicals
- Convenient foot lever provides **hands-free access**
- **Hi-viz label** reminds you to "Empty Every Night"

### Poly Self-Closing Oily Waste Can

## Dip/Wash Tank — Durable tank can stay wide open for parts washing and soaking.

- Fusible link melts at 165°F; **lid snaps shut in the event of a fire**
- 100% leak-tested and **fully FM Compliant** construction
- Durable galvanized steel construction with **powder-coated finish** helps prevent corrosion
- **Dip tanks (CAN132–CAN134)** are ideal for use with larger parts
- **Wash tanks with basket (CAN135–CAN137)** include a stainless steel small parts basket for easy submersion of parts; after cleaning, the basket can be positioned at the top of tank for draining

CAN121

### Type I Poly Safety Can — Store your corrosive, volatile liquids in storage containers that won't rust or dent.

- 100% leak-tested and **fully FM Compliant** construction
- **High-density poly** resists dents, punctures and chemicals
- **Stainless steel fittings** are ideal for corrosive chemicals
- Spring-loaded, self-closing lid is airtight to **help control vapors** and prevent accidental spills
- Positive pressure relief cap automatically vents to **guard against rupture and explosion**
- Current-carrying carbon insert **prevents arc flash** and provides proper bonding
- Double stainless steel mesh **flame arrestor stops flashback ignition** but still provides fast liquid flow
- **Rounded handle** swings while you carry heavy loads

*"Thank you! This is EXACTLY what I was looking for.  
Super sturdy. Super easy to set up. Super easy to use.  
I'm in Hog Heaven!"*

— Mark, PIG Heavy-Duty Poly Modular  
Spill Deck Customer

# SPILL CONTAINMENT

Store and secure your liquids on field-proven PIG Containment products.

Keep dangerous liquids in drums, IBCs and tanks on lockdown! PIG Spill Containment products are tested and proven to handle real-world abuse and harsh weather, year after year. No matter what conditions you're dealing with, your liquids stay secure.

- **PIG Pallets and Decks** are the strongest you can buy for drum storage at any capacity
- **IBC Containment** is designed to handle your totes' larger capacities for safe, compliant storage
- **Roll Top Hardcovers** deliver weathertight security to meet your outdoor drum storage needs
- **Collapsible Containment** offers portable roll-over and drive-in solutions for easy loading and fast setup
- **Trays and Basins** capture leaks and drips from just about anything to keep floors safe and dry

## “TRUST US — THIS STUFF IS TOUGH.”

We know that containment products take a beating in the real world, so we engineer ours to a higher standard that won't fail you. Guaranteed.

Greg Harpster — Product Development

## ◆ HELPS YOU COMPLY

Depending on your application and capacities, many PIG containment products can help you meet EPA regulations.

**40 CFR 264.175** requires full containment for hazardous waste to prevent releases into the environment. Full containment is defined as 100% of the largest container or 10% of the total volume, whichever is greater.

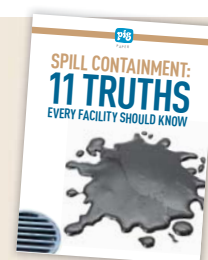

## EXPERT ADVICE: FREE WHITE PAPER

Spill containment is a big part of complying with water pollution regs. Know these 11 truths! Download the white paper: [newpig.com/11truths](http://newpig.com/11truths)

# YOU CAN'T BUY A STRONGER PALLET OR DECK.

DESIGNED  
& TESTED  
**PIG**  
TOUGH

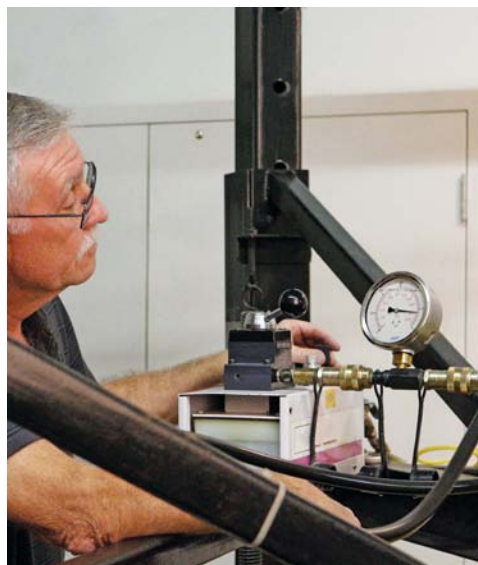

Containment products are your last line of defense against nasty liquids — so failure is not an option. That's why we tend to go a little overboard with our product testing.

## Extreme measures

We built the hulking machine shown on this page to push the limits of our decks and pallets. It can easily simulate your real-world applications, but that's just the beginning. We crank up the pressure — and keep it there for months — to ensure performance when it counts. So whatever you do to your PIG Pallets, we've torture-tested ours even worse.

## It pays to be PIG Tough.

Don't waste your money on products that can't take the pressure. PIG Decks and Pallets are designed, tested and guaranteed not to fail.

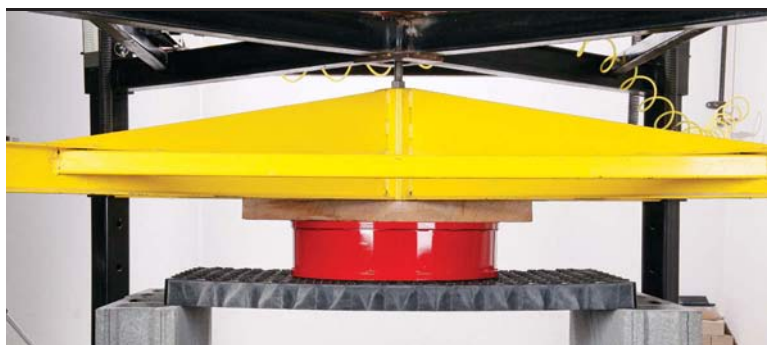

## 30,000 reasons why PIG won't fail.

Our in-house compression tester can deliver loads equivalent to 30,000 lbs. of drum weight. Way more than you'll ever see in the real world.

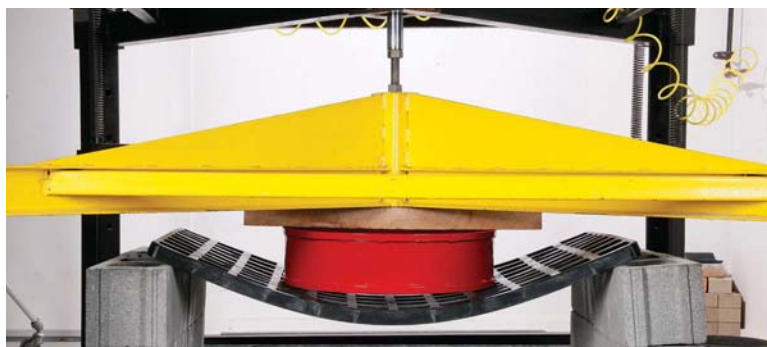

## PIG EXPERT ADVICE

Decks and pallets can fit multiple needs. Read this article for help choosing which is best for your application: [newpig.com/deck-or-pallet](http://newpig.com/deck-or-pallet)

## PASS! PIG grates can take the pressure.

Our compression tester simulates long-term, full-capacity drum storage. PIG Decks and Pallets pass the test with flying colors!

## FAIL! Other brands bend and bow.

Anything less than level is an accident waiting to happen. Why risk it? Play it safe with stronger grates from PIG!

# HOW TO CHOOSE PALLETS vs DECKS

PAK210  
PIG Poly Spill  
Containment Pallet

PAK531  
PIG Poly  
Modular Spill Deck

## Pallets are best when:

- **You need full containment** for your drum storage area to meet EPA regulations; Spill Pallets have larger sumps to accommodate the number of drums they're intended to be used with
- **You need to move your containment** with a forklift; most models can only be moved without drums, but our Heavy-Duty Pallets can be moved fully loaded (see pages 362–363)
- **You don't have enough floor space** to build a modular drum storage system; pallets are taller, making them a better choice when you can't build outward

## Decks are ideal when:

- **You need to store drums of non-hazardous liquids** in order to catch leaks and drips, but compliance is not required
- **You need to store smaller containers** of hazardous liquids in full containment to meet EPA regulations; as long as the math works out, decks can help you meet regs, but not as efficiently as pallets (call us for help if you're not sure!)
- **You need easier access** to your drum tops or containers; decks are lower profile than pallets, keeping stored items closer at hand
- **You need to connect multiple units** with shared sumps

## ◆ HELPS YOU COMPLY

### When compliance is a must, put your trust in PIG.

Storing drums or leaky equipment on PIG Pallets and Decks is about more than just maintaining a professional appearance. They also play a big role in maintaining regulation compliance at your facility.

- ◆ **Helps you comply** with 40 CFR 264.175 **Secondary Containment Regs** requiring full containment for hazardous waste to prevent releases into the environment
- ◆ **Helps you comply** with 40 CFR 122.26 **Stormwater Regulations** requiring facilities with an SWPPP to describe the plan and equipment available to prevent illegal discharge of pollutants into waterways
- ◆ **Helps you comply** with 40 CFR 112.7 **SPCC Regulations** requiring facilities to have written plans and documentation of the products that are in place to prevent discharge of oil into waters

## Create a top-to-bottom compliant transfer station.

Once you've got a PIG Spill Pallet underneath your drums, top off your transfer station with a PIG Burpless Steel Funnel to help satisfy the EPA's closed container regulations.

- ◆ **Helps small and large quantity generators comply** with 40 CFR 262.16(b)(2)(iii) and 40 CFR 262.17(a)(1)(iv) requiring haz waste containers to be kept closed

SEE OUR FUNNELS  
ON PAGES 294–299.

PAK210

**BEST  
SELLER!**

## **Poly Spill Pallet** — The strongest standard pallet you can buy for everyday drum storage.

- **6,000 lb. UDL capacity** holds four fully loaded steel or poly drums
- Low 10" height means **easy loading and unloading**
- **Molded-in sump** catches leaks, drips and spills to help you comply with regulations and keep your storage areas clean and safe
- Low-density polyethylene (LDPE) construction **resists UV rays, rust, corrosion and most chemicals**
- Textured grating **adds traction and lifts out** for easy sump access
- **Two-way forklift entry** allows easy movement from either direction (unloaded only)
- **Compact footprint** reduces floor space needed for drum storage
- **Optional ¾" drain plug**; empty sump without removing drums or grate
- **Poly Loading Ramp (PAK734)** is chemical-resistant and easy to position

- ◆ **Helps you comply** with 40 CFR 264.175 for storage of haz waste
- ◆ **Helps you comply** with 40 CFR 112.7 SPCC Regulations
- ◆ **Helps you comply** with 40 CFR 122.26 when used as a BMP in a Stormwater Pollution Prevention Plan

PIG® Poly Spill Containment Pallet 			
(Specify: With drain or without drain • Add \$15 to price shown for Pallet with drain)

## REMOVABLE GRATES FOR QUICK SUMP ACCESS!

PAK210

Engineered to handle poly drums too!

Nestable design lets you stack unused pallets and saves money on bulk shipping.

PAK734

Load drums onto PAK210 using a poly loading ramp (PAK734).

# DON'T LET THIS HAPPEN TO YOU!

Did your bargain-basement containment pallet come with a warning? Not all pallets are created equal. First there's a little bending, bowing or warping. Then drums are leaning, tipping and spilling. A cheap pallet might save you a few bucks up front, but you'll always pay more in the end.

**PIG Pallets won't FAIL. Guaranteed.**

# HEAVY LOADS? BRING 'EM ON.

TOP 10  
BEST  
SELLER!

PAK672

Nonslip structural grates on the deck surface won't bow, buckle or break.

Only 8¾" high!

Optional ¾" drain plug

Four-way forklift entry for easy movement — even when strapped and fully loaded!

## Heavy-Duty Spill Pallet — The strongest pallet on the market won't bow or buckle. Guaranteed.

- The strongest, **most durable** containment pallets you can buy
  - Innovative design **transfers weight to load-bearing channels** to maximize capacity
  - Molded-in sump **catches leaks, drips and spills** to help you comply with regulations and keep your storage areas clean and safe
  - Low height means **loading and unloading require less effort** and drum tops are within easier reach
  - Low-density polyethylene (LDPE) construction **resists UV rays, rust, corrosion and most chemicals**
  - Textured grating **adds traction and lifts out** for easy sump access; optional ¾" drain plug lets you **empty sump without removing drums** or grating
  - ◆ **Helps you comply** with 40 CFR 264.175 for storage of haz waste
  - ◆ **Helps you comply** with 40 CFR 122.26 when used as a BMP in a Stormwater Pollution Prevention Plan
  - ◆ **Helps you comply** with 40 CFR 112.7 SPCC Regulations
- NOTE: Loaded drums MUST be properly secured before moving.

### PIG Heavy-Duty Grates — Up to 2X thicker and 4X stronger than the competition.

OURS

The grates in our Heavy-Duty Pallets are tested and proven to support the weight of fully loaded poly drums — long term — without failing.

THEIRS

Other grates bow and sag under poly drums, and over time, the weight will cause the pallet to fail.

**PAK604**

Engineered to be moved fully loaded.  
(Straps not included.) NOTE: Loaded drums  
MUST be properly secured before moving.

**PIG® Heavy-Duty Poly Spill Containment Pallet**

## PIG® Bladder Deck — Roll out 55 gallons of additional sump capacity!

**PAK523**  
Full bladder deployment requires clearance of 66"W x 58"D in front of deck.

### PIG® Bladder Spill Containment Deck

Item #	1-2	3-6	7+
<b>PAK530</b> • Holds (4) 55-gal. Steel or Poly Drums • 99 gal. sump capacity • 6,000 lb. load capacity • 52"W x 56"L x 5.75"H	\$503	\$490	\$480
<b>PAK528</b> • Holds (2) 55-gal. Steel or Poly Drums • 77 gal. sump capacity • 3,000 lb. load capacity • 26"W x 56"L x 5.75"H	\$375	\$363	\$353
<b>PAK523</b> • Holds (1) 55-gal. Steel or Poly Drum • 66 gal. sump capacity • 1,500 lb. load capacity • 26"W x 30.38"L x 5.75"H	\$314	\$298	\$285
<b>PAK525</b> • Replacement Bladder	\$94		

Flammables Notice: If using this product with flammable liquids, please consider the regulations that apply to storage and handling of flammable liquids and the safety of this application, specifically flammable vapors, static discharge and heat sources. For further assistance, please call Technical Services.

- Patented **"flow-through" sump design** lets liquid pass freely from the sump to the bladder to help you comply with containment regs
- Modular design with exclusive bulkhead fittings and predrilled ports to connect to other decks; **5¾"H decks are ready to use**
- Integrated bladder box provides extra **55 gallons of containment**
- **Predrilled, plugged ports** allow you to connect to any PIG Poly Modular Spill Deck
- **Molded-in sump** catches leaks and spills to keep storage areas clean
- Low-density polyethylene (LDPE) construction **resists UV rays, rust, corrosion and chemicals** (call for compatibility)
- **Replacement Bladder** (PAK525) recommended after bladder is used; Loading Ramps (PAK726 and PAK538) sold on opposite page
- ◆ **Helps you comply** with 40 CFR 264.175 for storage of haz waste
- ◆ **Helps you comply** with 40 CFR 122.26 when used as a BMP in a Stormwater Pollution Prevention Plan
- ◆ **Helps you comply** with 40 CFR 112.7 SPCC Regulations

Deck captures small spills and leaks. Bladder stays rolled up behind trap door until sump is full and then deploys automatically.

## PIG® Poly Deck with Pallet Jack Pockets — Transfer drums on this drip-catching deck. No forklift required!

**PAK1020**  
Fork channels are sized and spaced so you can roll right in.

NOTE: Straps not included.

- **Fork pockets are spaced to fit most pallet jacks**; deck can be moved fully loaded with properly secured drums
- **2,000 lb. UDL capacity** is strong enough to support two fully loaded steel or poly drums; PIG Decks won't buckle or bow
- **Low-profile 6½"H design** is easy to load or unload; pumps and funnels are easy to access
- 22-gallon molded-in **sump catches leaks, drips and spills** during drum transfers
- Low-density polyethylene (LDPE) construction **resists UV rays, rust, corrosion and most chemicals**
- **Textured grating adds traction** and lifts out for easy sump access

### PIG® Poly Deck with Pallet Jack Pockets

Item #	1-2	3+
<b>PAK1020</b> • Holds (2) 55-gal. Steel or Poly Drums • 22 gal. sump capacity • 2,000 lb. load capacity • 26"W x 52"L x 6.5"H	\$333	\$321

Flammables Notice: If using this product with flammable liquids, please consider the regulations that apply to storage and handling of flammable liquids and the safety of this application, specifically flammable vapors, static discharge and heat sources. For further assistance, please call Technical Services.

NOTE: Loaded drums must be properly secured before moving.

**PAK1020**

## Poly Drip Deck — Low-profile deck is easy to load and unload. Guaranteed for life.

- **Molded-in sump** catches leaks, drips, spills; keep areas clean, safe
- **Low-profile 5¾"H design** is easy to load or unload; pumps and funnels are easy to access
- Low-density polyethylene (LDPE) construction **resists UV rays, rust, corrosion and most chemicals**
- **Textured grating** adds traction and lifts out for easy sump access
- **6- and 8-drum decks** feature a wide, one-piece design; eliminates the expense and labor of connecting multiple decks
- ◆ **Helps you comply** with 40 CFR 264.175 for storage of haz waste (depending on size of containers stored)
- ◆ **Helps you comply** with 40 CFR 122.26 when used as a BMP in a Stormwater Pollution Prevention Plan
- ◆ **Helps you comply** with 40 CFR 112.7 SPCC Regulations

For further assistance, please call Technical Services.

*"Delivered just when I needed it. The **low height** makes it easy to get product on and off yet maintain compliance with spill prevention requirements."*

— Joseph M., PAK566 Customer

## PIG Poly Modular Spill Deck — Build up to your required sump capacity with our connectable, sump-sharing decks.

- Patented **flow-through sump design** lets liquid pass from one sump to another; helps you meet containment regs
- Modular design features bulkhead fittings and predrilled ports to **connect to other decks**; ready to use as soon as they arrive
- **Mix and match** the sections you need to fit your space and help meet sump capacity requirements
- **Special tools and hardware** to connect sections included
- Low-density polyethylene (LDPE) construction **resists UV rays, rust, corrosion and most chemicals**
- **Textured grating** adds traction and lifts out for easy sump access
- Translucent white sidewalls allow **easy visual inspection**
- ◆ **Helps you comply** with 40 CFR 264.175 for containment of haz waste (depending on size of containers stored and number of deck sections)
- ◆ **Helps you comply** with 40 CFR 112.7 SPCC Regulations where absorbents, barriers and containment devices can be used to control or prevent oil discharges
- ◆ **Helps you comply** with 40 CFR 122.26 when used as a BMP in a Stormwater Pollution Prevention Plan

NOTE: PIG Heavy Duty Poly Modular Deck and PIG Poly Modular Deck components cannot be joined together due to their different heights.

Our patented bulkhead fittings let liquids from leaking drums flow from one connected deck to another.

Removing the predrilled ports lets you connect deck sections, creating a larger storage or work area and increasing sump capacity.

Choose our standard decks for drum storage and everyday applications.

#### PIG® Poly Modular Spill Deck

Item #	1-2	3-6	7+
<b>PAK531</b> • Holds (4) 55-gal. Steel or Poly Drums • 44 gal. sump capacity • 6,000 lb. load capacity • 52"W x 52"L x 5.75"H	\$411	\$400	\$390
<b>PAK529</b> • Holds (2) 55-gal. Steel or Poly Drums • 22 gal. sump capacity • 3,000 lb. load capacity • 26"W x 52"L x 5.75"H	\$278	\$268	\$256
<b>PAK524</b> • Holds (1) 55-gal. Steel or Poly Drum • 11 gal. sump capacity • 1,500 lb. load capacity • 26"W x 26"L x 5.75"H	\$173	\$167	\$162

Patent 5,562,047; and other foreign patents

Flammables Notice: If using this product with flammable liquids, please consider the regulations that apply to storage and handling of flammable liquids and the safety of this application, specifically flammable vapors, static discharge and heat sources. For further assistance, please call Technical Services.

Go with heavy-duty decks for extra-heavy loads — check out these UDLs!

#### PIG® Heavy-Duty Poly Modular Spill Deck

Item #	1-2	3-6	7+
<b>PAK466</b> • Holds (4) 55-gal. Steel or Poly Drums • 35 gal. sump capacity • 50,000 lb. load capacity • 54.5"W x 54.5"L x 4.25"H	\$512	\$487	\$463
<b>PAK465</b> • Holds (2) 55-gal. Steel or Poly Drums • 18 gal. sump capacity • 25,000 lb. load capacity • 27.25"W x 54.5"L x 4.25"H	\$338	\$328	\$317

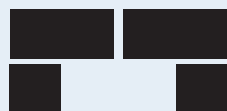

Patent 5,562,047; and other foreign patents

Flammables Notice: If using this product with flammable liquids, please consider the regulations that apply to storage and handling of flammable liquids and the safety of this application, specifically flammable vapors, static discharge and heat sources. For further assistance, please call Technical Services.

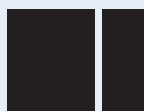

Lift truck? No sweat. The 9-deck system shown here has a combined 300,000 lb. UDL capacity and 264-gallon sump.

#### Combine sections to create a custom containment area:

Configure to tight spaces easily.

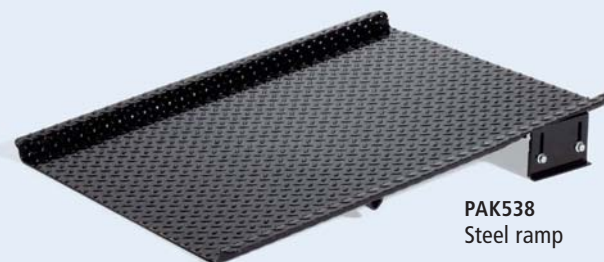

Create a 6-drum deck that complies — with just 2 sections.

Create a linear storage area.

**DID YOU KNOW?**

**Uniform Distribution Load (UDL)** refers to the amount of weight a product can handle over its entire surface. For example, a unit with a 50,000-pound UDL capacity will not be able to support the weight of a 50,000-pound tank on four legs. The weight needs to be evenly distributed over the entire surface. For more information about load capacity and testing, see page 358.

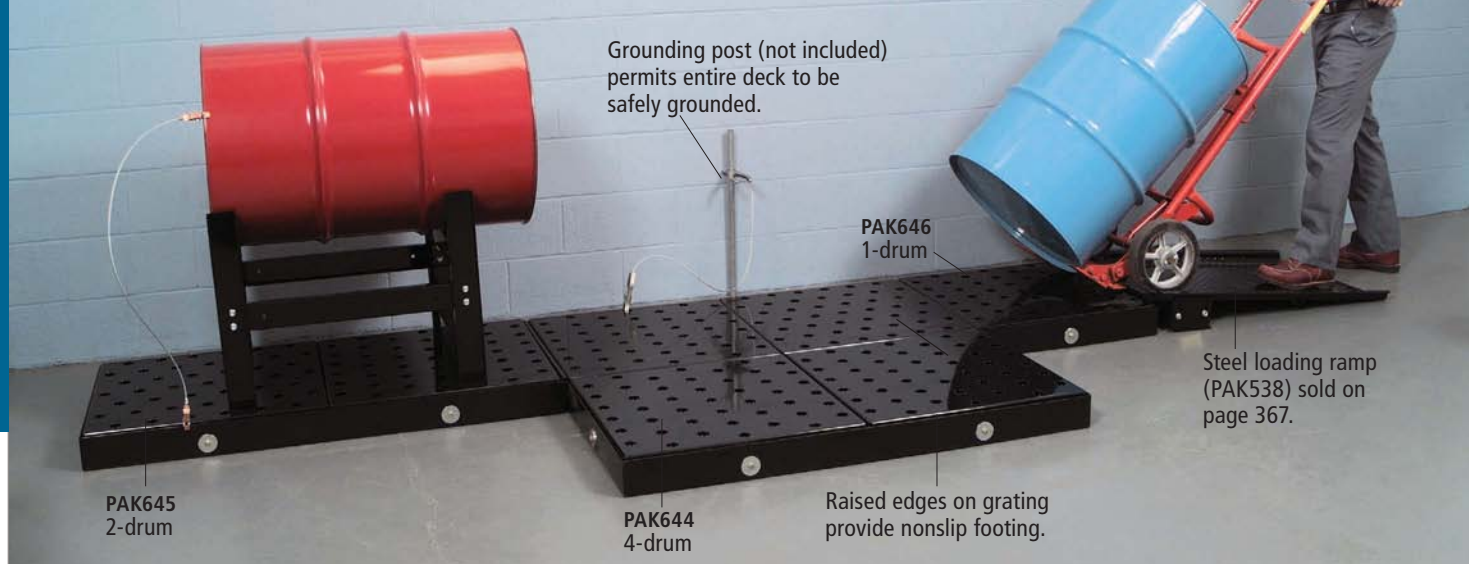

Add a ramp to make drum loading and unloading easier.

- A poly ramp (PAK726, shown on page 368) is easy to handle and more economical
- A steel ramp (PAK538) has a heavier weight capacity

#### Loading Ramps

Item #	1+
<b>PAK726</b> • Poly • Use with 5.75"H Decks sold above (except PAK524) 600 lb. load capacity	\$187
<b>PAK538</b> • Steel • Use with all Decks sold above • 1,000 lb. load capacity	\$415

## **PIG** Steel Modular Deck — Create groundable custom drum storage for flammable liquids.

- **Flow-through sump** design lets liquid pass freely from one sump to another
- Exclusive bulkhead fittings and predrilled ports to **connect to other decks for customized storage**
- Special wrench (included) makes it easy to **connect multiple deck sections**
- **11-gauge hot-rolled steel** can be bonded and grounded for safer storage of flammable liquids
- **4" height** is easy to load or unload; easy-access pumps and funnels

◆ **Helps you comply** with regulations listed on page 368

# ROLL TOP HARDCOVERS

PAK601  
PIG 2-Drum Roll Top  
Hardcover Spill Pallet  
(See page 372)

## Why do I need a Roll Top?

Drums stored outdoors are an easy target for EPA inspectors. Without containment, your leaks and spills are direct contaminants to the environment. Even regular pallets don't cut it — they just fill up with rainwater and spill out. But New Pig has you (and your drums) covered. PIG Roll Top Hardcover stands up to even the toughest conditions, keeping liquids in and the elements out.

- **Weathertight roll top slides up** for easy access while the rest of the hardcover stays closed
- **Covered pallet has built-in sump** to catch leaks, drips and spills; helps you meet drum containment regs
- **Heavy-duty construction** allows entire unit to be moved with drums in place
- ◆ **Helps you comply** with 40 CFR 264.175 for storage of haz waste
- ◆ **Helps you comply** with SPCC and Stormwater Regs

## STORE YOUR HAZ WASTE OUTDOORS AND IN COMPLIANCE.

FROM IBCs  
TO BATTERIES,  
WE'VE GOT YOU  
COVERED!

### PIG EXPERT ADVICE

Storing containers outdoors in areas where rain and snow are common could lead to run-on entering your secondary containment systems. Run-on is rain or snowmelt that accumulates in sumps. If hazardous waste is being stored outside, EPA says that run-on "must be prevented," or there must be sufficient sump capacity to accommodate both run-on and the largest potential spill.

Keep reading at [newpig.com/prevent-run-on](http://newpig.com/prevent-run-on)

# DRUM STORAGE FOR RAIN, SHINE, SLEET OR SNOW

## Roll Top Spill Pallets — Protect your drums from the elements using our roomy roll tops.

- Roll top slides up for **easy access to drum tops** while the rest of the unit stays closed; store drums with pumps or funnels in place
- **Low-profile pallet** with sump catches leaks, drips and spills while keeping drum tops and accessories within reach
- **Weather-resistant design** prevents contaminants from entering stormwater
- Heavy-duty construction allows unit to be **lifted by a forklift with drums in place**
- Low-density polyethylene (LDPE) with UV inhibitors **resists UV rays, rust, corrosion and most chemicals**
- **Optional 3/4" drain plug** lets you empty sump without removing drums or grating
- Durable **swing-out doors** on front for easy loading and unloading (PAK601); swing-out doors on front and rear provide easy access from both sides (PAK901)
- Doors and roll top **can be secured with padlock** (not included)
- **Single drum roll top** features a two-piece design to provide protected storage and liquid containment
- ◆ **Helps you comply** with 40 CFR 264.175 for storage of haz waste (except DRM828)
- ◆ **Helps you comply** with 40 CFR 112.7 SPCC Regulations
- ◆ **Helps you comply** with 40 CFR 112.26 Stormwater Regulations

Hardcover and pallet (PAK901, PAK601, PAK150) can be lifted by a forklift with drums in place. No need to unload them!

Forklift collar on DRM828 lets you move fully loaded unit.

PAK901

Setup is simple! Just load a drum on the pallet, drop sleeve over drum and attach roll top hardcover.

PAK150

DRM828

Removable top lets you insert and replace drums.

### PIG® Roll Top Hardcover Spill Pallet

# CLEAN AND COMPLIANT

Balancing totes on bricks might save you a few bucks, but it's an accident (and violation) waiting to happen.

Optional bucket shelf makes dispensing easy.

PAK736

**EXCLUSIVE!**

## **PIG** IBC Spill Pallet — Your heavy tote is no problem for our 8,000 lb. capacity pallet.

### PIG-ENGINEERED SOLUTIONS

**Problem:** Customers needed a compact, easy-to-use pallet for their IBCs with enough sump volume to meet regs.

**Finding the solution:** Our Poly IBC Spill Containment Pallet has an innovative support system that doesn't cut into sump capacity but keeps the unit low and easy to use. We topped it with the heaviest grates in the industry for unbeatable strength and added 17% more surface area to make it easier to position your totes. As a final touch, we gave it the only closed sump on the market to keep out debris and make liquid recovery easier.

**Problem solved:** PIG Poly IBC Spill Containment Pallet

- The best blend of **strength and value** without paying for more capacity than you need
- Strong enough for long-term storage of IBCs, this innovative design **transfers weight** to load-bearing channels
- Molded-in sump catches leaks, drips and spills to **help you comply with regulations** and keep storage areas clean
- **Low profile** for easy access to and dispensing from IBC tanks; 26" height for single unit, 22" height for twin
- Low-density polyethylene (LDPE) construction **resists UV rays, rust, corrosion and most chemicals**
- **Two-way forklift entry** allows movement when not loaded
- **Textured grating** lifts out for easy access to sump
- Optional ¾" drain plug lets you **empty sump without removing totes** or grating
- **Pallet with attached bucket shelf (PAK736, PAK940)** drains collected liquids into main sump for neater, easier dispensing (extra bucket shelf sold separately as PAK1011)

◆ **Helps you comply** with regs listed on page 378

## WE SWEAT THE SMALL STUFF, TOO.

PIG Decks and Pallets are great for handling your big leakers and drippers. What about small leaky containers? **PIG Utility Pans** are perfect for them (at left, page 390). Need absorbency also? **PIG Pillow-In-A-Pan** (at right, page 33) can stop little piddles from becoming bigger puddles.

PAN201

**IBC100**  
Includes removable  
grates and bucket  
shelf (dispensing  
hose sold on page 328)

## **pig** Steel IBC Spill Containment Pallet — Steel pallet provides secondary containment for flammables.

- Store oils, lubricants, solvents and flammables; grounding lug included
- Made of long-lasting, heavy-duty steel; **durable, powder-coated finish** protects against rust and corrosion for long life
- Pallet holds **two stacked 330-gallon IBCs**
- **Built-in 3/4" plug** makes draining easy; two-way forklift access

- ◆ **Helps you comply** with 40 CFR 264.175 for storage of haz waste
- ◆ **Helps you comply** with 40 CFR 122.26 when used as a BMP in a Stormwater Pollution Prevention Plan
- ◆ **Helps you comply** with 40 CFR 112.7 SPCC Regulations

## IBC Rack with Sump — Four IBCs fit on this easy-access steel sump.

- Powder-coated racking with shared sump **saves valuable floor space** while protecting against large-scale leaks and ruptures
- 385-gallon sump provides **containment volume for four IBCs**
- **Splash guards on back and sides** help keep liquids inside the sump
- **Pallet stops** on each level prevent IBCs from being pushed or positioned too far back
- Removable galvanized steel grating provides **easy access to sump**
- ◆ **Helps you comply** with regulations listed above

IBC Tote Rack with Spill Containment Sump			<b>DENIOS</b>	
Item #			1+	
<b>PAK252</b> • 54"W x 126"L x 120"H • 10,000 lbs. Load Capacity UDL Per Shelf 385 gal. sump capacity			\$6651	

NOTE: Actual color of racking may vary from photo shown.

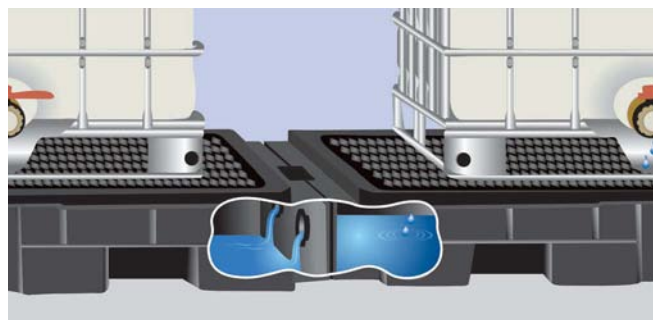

**PAK120**

Three-IBC Pallet includes three pallet sections and two expansion tanks. (IBCs not included)

## **pig** Modular IBC Spill Pallet — Create a low-profile, expandable storage system.

- Each heavy-duty pallet section supports **9,000 lb.** UDL and accommodates almost any size IBC unit
- Pallet sections and tanks are **100% polyethylene** to resist corrosion and most chemicals, including acids, solvents and oils
- Each pallet section features **four-way forklift pockets for easy moving** (when not connected) and nonslip grates that lift out for easy sump access
- **Low profile** for easy loading and access
- **Increase sump capacity** by adding on an individual pallet section (see PAK672 on page 363)
- Includes **specially designed tool kit** for connecting components
- ◆ **Helps you comply** with regulations listed on opposite page

Flow-through connections let system components share sump capacity to help you meet regulations.

Each system includes the pallets, expansion tanks and bulkhead fittings to create your IBC storage area.

### CHOOSING THE RIGHT IBC PALLET SYSTEM IS EASY!

**Two-IBC pallet (PAK119)**

Includes: 2 pallets, 2 expansion tanks • Capacity: 280 gallons  
 (Helps meet secondary containment requirements for two IBC units.)

**Three-IBC pallet (PAK120)**

Includes: 3 pallets, 2 expansion tanks • Capacity: 355 gallons  
 (Helps meet secondary containment requirements for three IBC units.)

**Four-IBC pallet (PAK121)**

Includes: 4 pallets, 1 expansion tank • Capacity: 365 gallons  
 (Helps meet secondary containment requirements for four IBC units.)

**Five-IBC pallet (PAK122)**

Includes: 5 pallets • Capacity: 375 gallons  
 (Helps meet secondary containment requirements for five IBC units.)

# PIG IBC Roll Top Hardcover Pallet — Store totes outdoors and meet EPA standards.

- Provide **protected storage** and liquid containment for IBCs up to 52"L x 52"W x 61"H
- **Weather-resistant design** prevents contaminants from entering stormwater
- Low-density polyethylene (LDPE) construction with UV inhibitors **resists UV rays, rust, corrosion and most chemicals**
- Durable rolling cover and **swing-out doors on both sides** provide easy access
- **Two-way forklift entry** for easy movement (unloaded only)
- **Optional ¾" drain plug** lets you empty sump without removing IBC and grating
- ◆ **Helps you comply** with 40 CFR 264.175 for storage of haz waste
- ◆ **Helps you comply** with 40 CFR 122.26 when used as a BMP in a Stormwater Pollution Prevention Plan
- ◆ **Helps you comply** with 40 CFR 112.7 SPCC Regulations

Collapsible sidewalls have attached skirt with aluminum-reinforced supports.

PAK793

Sides easily fold down to allow pallet jacks and forklifts to be driven into and out of containment.

Quick setup!  
Just pull out one support and the entire wall takes shape.

## Collapse-A-Tainer Berm — Our most affordable model sets up quickly for portable containment.

- Re-engineered to provide **exceptional value** while maintaining the quality and performance you expect from PIG Collapse-A-Tainers
- Durable, coated geomembrane **resists chemicals, abrasion and tearing**
- Folds to a compact size for **easy handling** and storage
- **Ideal for use** under storage tanks, pillow tanks, pallets loaded with drums and more; can be stowed in a vehicle for containment in remote locations
- **One-piece design** requires no additional parts or tools
- **Can be held in place** by positioning sand bags on skirting or by staking to the ground through grommets
- ◆ **Helps you comply** with 40 CFR 112.7 SPCC Regulations
- ◆ **Helps you comply** with 40 CFR 122.26 Stormwater Regulations

Even the 12' x 12' system (PAK793) folds to a size that's easy to handle, carry and store.

### PIG® Collapse-A-Tainer® Spill Containment Berm

Item #	1	2+
<b>PAK793</b> • 12'W x 12'L x 1'H Overall dimensions 10'W x 10'L x 1'H Sump dimensions • 748 gal. sump capacity	\$1668	\$1584 *

\*  **WARNING:** Cancer, Birth Defects and Reproductive Harm - www.P65Warnings.ca.gov

*"Easy compliance! Just unroll where you need containment and you're done! Easy to use as well, forklift just rolls right over sides without operator having to get out to collapse."*

— Tom, PAK793 Customer

**PAK1002**

Berm provides constant drive-through capability, while sides can be locked in place.

**PAK1598**

Optional belting helps protect containment berm from sharp debris collected in tires. See page 386 for information.

## Self-Rising Containment Berm — Endwalls rise with a leak or can be locked in place.

- Endwalls can remain folded down during use, but **automatically rise** with the liquid level of a leak
- **Heavy-duty hinges** can be locked into place when snow, hoses or other heavy objects could prevent the flotation system from functioning
- Folds to a **compact size** to let you store the system in a vehicle and transport it to a remote location; included strap secures unit in place
- Made of durable XR-5 to **resist chemicals, abrasion and tearing**
- **Grommets** at each support hinge allow unit to be staked to the ground when needed
- **Ideal for use** under storage tanks, pillow tanks, pallets loaded with drums and more
- **Custom sizes and colors** available; call 1-800-HOT-HOGS (468-4647) for details

◆ **Helps you comply** with regulations listed on opposite page

Hinges can be locked in place to prevent snow, hoses or other heavy objects from interfering with the flotation system.

Endwalls rise with the liquid level for round-the-clock protection.

Heavy-duty hinges are tough enough to withstand vehicle traffic.

# HOW TO ORDER: CUSTOMIZED COLLAPSE-A-TAINER

Get the perfect containment berm for your facility in three easy steps.

Don't see a Collapse-A-Tainer Berm that fits your application on pages 382–387? Just follow these three easy steps to get your custom order underway. You can customize the shape, dimensions and reinforcement to create the perfect system for your needs — large, small and anywhere in-between!

## 1 CALCULATE SIZE

Let's make sure your new berm is *juuuuust* right.

First, determine the number of gallons you need to contain, factoring in the volume displaced by vehicles, containers or other items. Then, estimate the desired width (W) and choose a wall height (H) in feet. (Standard Collapse-A-Tainer is available .66'H, 1'H, 1.5'H and 2'H; Self-Rising Collapse-A-Tainer comes 1'H only.) Complete the formula to calculate the length (L):

$$\text{Gal} \div 7.48 \div W' \div H' = L'$$

## 2 DETERMINE APPLICATION

Use our handy checklist to help determine your system's specifications.

## 3 CALL US FOR A FREE QUOTE!

Call **1-800-HOT-HOGS** (468-4647) for more information and a free quote for your design.

- ☐ What is your application?
- ☐ How many gallons will you need to contain?
- ☐ Are there size restrictions?
- ☐ What type of material is required to contain your liquid?
- ☐ Do you need drive-through? 2 or 4 sides?
- ☐ Will you use it on smooth or rough surfaces?

## PIG Collapse-A-Tainer IBC Containment Berm — IBC spill containment has never been easier.

- Sidewalls collapse completely flat for **fast and easy forklift access** to your IBC
- Easy to set up and tear down; lightweight and portable for **on-the-go containment** of IBCs at job sites
- Exterior skirting and aluminum supports help **sidewalls stay upright**
- Folds up flat for **easy storage** and transport
- **Can be held in place** with sandbags or with stakes through attached grommets
- Constructed of a durable, coated geomembrane that **resists chemicals, abrasion and tearing**
- **Helps meet secondary containment regs** with a small footprint
- Can use with **PIG IBC Dispensing Stand** (shown on page 346) for easy dispensing from IBC
- ◆ **Helps you comply** with 40 CFR 264.175, 40 CFR 122.26 and 40 CFR 112.7

Pallet jacks roll right in for easy loading and unloading.

## PIG® Collapsible Tray — Our leak and drip tray rolls up for storage but deploys instantly.

- Collapsible trays require **less storage space**, so it's easy to keep them handy wherever you need to catch leaks and drips
- **Easy-to-clean PVC trays** are perfect for small liquid transfers, maintenance, fluid changing areas, and engine part degreasing and cleaning
- **Deploy quickly** to easily catch unexpected leaks and drips
- **Rigid corner supports** hold shape when trays are deployed

PAK1290

Rolls up for easy transport and compact storage; secures with attached hook-and-loop strap.

### PIG® Collapsible Utility Tray

Item #	1+
PAK1292 • 48"W x 48"L x 4.75"H • 47 gal. sump capacity	\$106
PAK1291 • 30"W x 30"L x 4.75"H • 18.5 gal. sump capacity	\$68
PAK1290 • 18"W x 18"L x 4.75"H • 6.6 gal. sump capacity	\$52

PAN404

## PIG® Utility Pan — You'll use our multipurpose pans all around your facility.

- **Capture drips**, temporarily contain small parts, organize a workbench and much more
- **Chemical-resistant** polyethylene can be used with a variety of workplace materials
- **Nestable** design occupies minimal space for shipping and storing
- **Cleans easily** with soap and water

### PIG® Utility Pan

Item #	1-3	4+
PAN404 • 10.375"W x 10.375"L x 3"H Sump capacity: 1.07 gal./pan; 12.8 gal./box • 12 pans/box	\$50	\$49

PAK371

Ideal for lab tabletops, too!

PAK372

## PIG® Mini Drip Deck — Portable containment on the floor or in the lab.

- Chemical-resistant polyethylene tray features **built-in sump containment** to trap leaks and drips while you work
- Translucent sidewalls let you **easily inspect fluid level** in sump
- **Pour spout** for easy draining

### PIG® Mini Drip Deck

Item #	1+
PAK372 • 16.63"W x 20.63"L x 3.88"H • 3 gal. sump capacity	\$65
PAK371 • 12"W x 16.63"L x 3.88"H • 1.5 gal. sump capacity	\$49

Flammables Notice: If using this product with flammable liquids, please consider the regulations that apply to storage and handling of flammable liquids and the safety of this application, specifically flammable vapors, static discharge and heat sources. For further assistance, please call Technical Services.

PAK472

## PIG® Utility Spill Basin — High sidewalls contain spills and splashes.

- 12"-high sidewall creates **75-gallon total capacity** (14-gallon sump capacity below grate)
- **Open sump and removable grate** keep parts above the grime
- ◆ **Helps you comply** with 40 CFR 264.175 for storage of haz waste

### PIG® Utility Spill Basin with Grate

Item #	1	2-5	6+
PAK472 • 35"W x 58"L x 12"H • 14 gal. sump capacity	\$318	\$303	\$290
PAK472 Contents • 1 Grate • 1 Sump			

Flammables Notice: If using this product with flammable liquids, please consider the regulations that apply to storage and handling of flammable liquids and the safety of this application, specifically flammable vapors, static discharge and heat sources. For further assistance, please call Technical Services.

PAK922

PAK921

## **PIG** Utility Tray — Keep your greasy parts and leaky containers in a durable spill tray.

- Thick-wall, chemical-resistant polyethylene **won't bend or warp**
- Ribs on bottom of trays **add strength and elevate parts** to keep them away from trapped liquids
- Ideal for **temporary storage** of small containers that may leak or drip liquids onto the floor
- **Stackable** trays store easily when not in use
- **Ideal for storing liquids, granules or powders** that may leak, drip or cause contamination if they reach the ground
- **PAK123 has heavy-duty grate** to raise parts and containers out of deeper liquids in sump
- **PAK112 is designed to fit on top of pallet** for easy mobility with a forklift; 40" x 48" pallets can also be placed inside of tray

### PIG® Utility Containment Tray

Item #	1-3	4+
<b>PAK922</b> • 40"W x 40"L x 5"H • 26.92 gal. sump capacity	<b>\$88</b>	<b>\$83</b>

**BEST  
SELLER!**

PAK112

*"This tray **works perfectly for the used batteries** we store. The acid will not eat it up and the lip is big enough to catch any spills. I would recommend this product to anyone."*

— Jim B., PAK920 Customer

PAK123

NOTE: Wooden pallet not included

PAK661

## Poly Utility Tray — Line your bench or shelf with a poly tray to hold small parts.

- Light-colored, flat-bottomed, modular design makes it **easy to see small parts**
- All-poly construction **resists most chemicals**; will not rust or corrode

### Poly Utility Tray

Item #	1+
PAK662 • 24"W x 37"L x 4"H • 13.48 gal. sump capacity	\$73
PAK661 • 25.5"W x 38"L x 2.5"H • 8.83 gal. sump capacity	\$72
PAK659 • 29.5"W x 29.5"L x 2"H • 6.18 gal. sump capacity	\$56
PAK658 • 17"W x 24"L x 2.25"H • 3.27 gal. sump capacity	\$45
PAK657 • 16"W x 20"L x 2.5"H • 3 gal. sump capacity	\$44
PAK656 • 10.75"W x 15"L x 1"H • .5 gal. sump capacity	\$29

Flammables Notice: If using this product with flammable liquids, please consider the regulations that apply to storage and handling of flammable liquids and the safety of this application, specifically flammable vapors, static discharge and heat sources. For further assistance, please call Technical Services.

PAK640

## Tank Spill Containment Tray — A big oil tank needs a big containment tray!

- **Catch drips** from 275-gallon tanks before they create messes and slippery floors
- Made of 100% polyethylene; **won't rust, dent or corrode**
- **Galvanized steel footplates** prevent tank legs from puncturing tub

### Tank Spill Containment Tray

Item #	1-2	3+
PAK640 • 30"W x 60"L x 4.5"H • 35 gal. sump capacity	\$150	\$140

Flammables Notice: If using this product with flammable liquids, please consider the regulations that apply to storage and handling of flammable liquids and the safety of this application, specifically flammable vapors, static discharge and heat sources. For further assistance, please call Technical Services.

PAK253

## Steel Spill Tray — Working with flammables? Keep drips off the floor with a steel tray.

- **100% leak-tested** tray is ideal for temporary storage of gas cans and small containers that may leak or drip flammable liquids
- New and improved design features **built-in handles** so you can easily move or carry trays
- 12-gauge galvanized steel **can be grounded** to limit the buildup of static electricity when handling flammables

### Steel Spill Tray

Item #	1+
PAK254 • 24"W x 36"L x 3"H • 11 gal. sump capacity	\$306
PAK255 • 18"W x 48"L x 3"H • 11 gal. sump capacity	\$376
PAK257 • 18"W x 72"L x 1.5"H • 8 gal. sump capacity	\$412
PAK253 • 18"W x 36"L x 3"H • 8 gal. sump capacity	\$300

PAK744

## Fiberglass Chemical Tray — Smooth, seamless tray controls messes and is easy to clean.

- Reinforced thermoset composite fiberglass **resists chemicals**, retains shape even with heavy loads
- Smooth corners, seamless design; **can be steam cleaned or sterilized**
- **Molded edges** contain minor spills or leaks

### Fiberglass Chemical Tray

Item #	1-9	10+
PAK744 • 20"W x 30"L x 2"H • 3.58 gal. sump capacity	\$84	\$80
PAK741 • 16"W x 21.88"L x 0.7"H • .94 gal. sump capacity	\$41	\$39
PAK739 • 10.63"W x 13.25"L x 0.7"H • .36 gal. sump capacity	\$32	\$31

\* ⚠️ **WARNING:** Cancer - www.P65Warnings.ca.gov

## **PIG Tank Containment Sump** — Contain leaks up to 1,100 gallons to avoid major spills, indoors or out.

- Safely stores up to 1,000-gallon oval tanks; **no measuring or guesswork required**
- **Extra-large sump** contains leaks, spills and overfills; helps prevent groundwater contamination outdoors and slippery floors indoors
- Low-density polyethylene **resists UV rays, rust, corrosion and most chemicals** for a long, troublefree life
- Choose **either ¾" or 2" drain plug** for convenient emptying; also available without drain
- **Use with tarp** (sold separately) to prevent accumulation of rainwater outdoors
- ◆ **Helps you comply** with 40 CFR 112.7 SPCC Regulations
- ◆ **Helps you comply** with 40 CFR 126.26 Stormwater Regulations

PIG™ Tank Spill Containment Sump		
(Specify for PAK108 & PAK750: With drain or without drain; <b>Add \$15</b> to price shown for Tank with drain) (Specify: 2" or .75" Drain Plug size)		
Item #	1-2	3+
<b>PAK108</b> • For 1,000-gal. tanks • 1,100 gal. capacity 63"W x 148"L x 33"H	<b>\$2500</b>	<b>\$2428</b>
<b>PAK750</b> • For 500- and 550-gal. tanks • 605 gal. capacity 59.75"W x 89"L x 32.75"H	<b>\$845</b>	<b>\$799</b>
<b>PAK949</b> • For 275-gal. tanks • 360 gal. capacity 43.63"W x 84.5"L x 29"H • With .75" Drain	<b>\$605</b>	<b>\$592</b>
<b>PAK580</b> • For 275-gal. tanks • 360 gal. capacity 43.63"W x 84.5"L x 29"H • Without Drain	<b>\$605</b>	<b>\$592</b>
Flammables Warning: Not for use with flammables (f.p.<141°F/60.5°C).		
PIG® Elasticized Tarp		
Item #	1+	
<b>PAK969</b> • For PAK750	<b>\$336</b>	
<b>PAK579</b> • For PAK949 & PAK580	<b>\$234</b>	

## **PIG Under-Rack Containment Tray** — Capture leaks and drips underneath pallet racking to make floors safe.

- Install **low-profile containment trays** under pallet racking to capture liquids before they can reach your floor
- Black polyethylene trays are **lightweight and durable**
- **Trays slide forward** to capture drips during dispensing or for cleaning
- Sectional design **prevents liquids from spreading** to multiple trays
- Available in **single tray** (PAK963), **double tray** (PAK964) and **triple tray** (PAK965) configurations for up to 72" of coverage
- **Connectors** join trays to eliminate an open area that liquids could pass through; included with PAK964 and PAK965

PIG® Under-Rack Containment Tray	
Item #	1+
<b>PAK965</b> • 3 Trays and 2 Connectors • 72"W x 44"L x 3.25"H 24 gal. sump capacity	<b>\$240</b>
<b>PAK964</b> • 2 Trays and 1 Connector • 48"W x 44"L x 3.25"H 16 gal. sump capacity	<b>\$163</b>
<b>PAK963</b> • 1 Tray • 23.5"W x 44"L x 2.75"H • 8 gal. sump capacity	<b>\$66</b>

Flammables Notice: If using this product with flammable liquids, please consider the regulations that apply to storage and handling of flammable liquids and the safety of this application, specifically flammable vapors, static discharge and heat sources. For further assistance, please call Technical Services.

# LEAKS & SPILLS ARE RISKY BUSINESS...

## We know you do hard work.

When it's your job to keep workers safe and protect the environment, it requires you to wear many different hats. Problem is, the more hats you wear, the harder it is to do your job.

Unfortunately, it only takes one slip-and-fall injury or a single spill into the environment to saddle your facility with serious consequences. Since the dangers posed by leaks and spills aren't always known, it can be pretty stressful to manage the risks. It's not a matter of if, but when, so you need to be prepared.

## Cleaner, safer, better is our goal.

We're on a mission to guide you through the pitfalls of leak-and-spill management so you can stay clean, safe and productive. And that includes helping you avoid the accidents, injuries and regulatory relapses that can happen so quickly in today's fast-paced facilities.

We understand how overwhelming it can feel, which is why everything we do is to create better ways to work. We don't just want you to get through your workday — we want you to feel good about it, too! Who couldn't use a little more peace of mind?

## EXPERT ADVICE

### Experience you can trust.

Each member of our Technical Services Team receives hundreds of hours of training. From in-depth product and regulatory training to emerging trends across industries, we're educated on the issues that affect you most.

### Getting help is **FAST** and **FREE!**

# DON'T GO IT ALONE!

## Expert advice to get the job done right.

You can always count on PIG for products that work, people who know their stuff and an experience that'll put a smile on your face. We're experts at things like catching leaks and overspray, containing spills, and preventing slips, trips and falls. But we're even better at listening to your problems, finding solutions that fit your facility, and paying attention to the little things, like getting back to you when we say we will.

Check out the topics listed at the right to see how we can help. We've loaded the next eight pages with info and resources to help you do your job right and keep hazards in check. Any questions? Give us a squeal!

*"New Pig knows their stuff ... They're not just selling X. They're telling you how to use X or when maybe Y is better."*

— Norman, EHS Manager

*"They'll do whatever's necessary to get you that information, time and time again. They have the knowledge to ask the right questions to help you out as a customer."*

— Rick, Maintenance Manager

We're on a mission to help you stay clean, safe and productive:

### Catch Leaks and Overspray

Find out which PIG products are best for containing oily messes from your machinery and equipment.

See page 396

### Contain Spills

Spills are a matter of *when*, not *if*. Be prepared to respond fast and clean up quickly.

See page 397

### Floor Safety

50% of same-level falls are caused by unsafe floors. Reduce slips and trips with tips from the pros.

See page 398

### Secondary Containment

Get up to speed — and into compliance — on these critical EPA regulations.

See page 399

### Store and Contain Liquids

Everything you want to know about drums, overpacks, UN ratings and more.

See page 400

### Hazardous Waste

Understand your RCRA responsibilities and meet the PIG products that can help you comply.

See page 401

### Drain Protection and Filtration

Keep an eye on the environment with best practices to help prevent stormwater pollution.

See page 402

### Storm Preparedness

Learn what a Business Continuity Plan is and see our best solutions for weather response.

See page 403

## THE DIFFERENCE GRANT PROGRAM

New Pig directly funds local grassroots projects that restore, conserve and protect America's rivers, streams and estuaries.

Apply for a grant, learn more and take action: [pigdifference.org](http://pigdifference.org)

# CATCH LEAKS & OVERSPRAY

## A messy workstation is no way to work.

### THE PROBLEM

Machines that leak, drip and spray oil are guilty of more than just making a mess. They're also to blame for mucking up your productivity and creating slip hazards. A greasy, grimy workstation is a daily distraction that slows you down and only gets worse if you ignore the problem.

### HOW WE CAN HELP

PIG Absorbents stop oil in its tracks. We make mats, socks and pillows in dozens of styles to soak up leaks, drips and overspray of any liquid. By keeping liquids in check before they create a slip hazard, you can spend more time working and less time working around the problem.

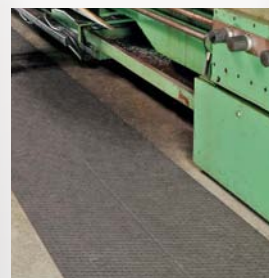

### ◆ OSHA regulation summary

**29 CFR 1910.141(a)(3)(ii)** requires that workplace floors shall be maintained in a dry condition, and where wet processes are used, mats or other dry standing places shall be provided.

PIG Products help you do the job right:

PIG Absorbent Socks 404 ..... page 30

PIG Universal Mat MAT230 ..... page 6

Pig Blue Absorbent Mat BLU101..... page 8

## CHOOSE THE RIGHT ABSORBENT FOR THE JOB

### 10-PART ABSORBENTS TRAINING SERIES

## Part 1: Choosing the right absorbent

There are so many choices of absorbents, it can be a little tricky to pick a single product that's best for your application. Our 10-part series covers the basics (and then some) to help you find the best solutions for your facility.

READ MORE: [newpig.com/absorbents101](http://newpig.com/absorbents101)

**EXPERT ADVICE**

Get FREE answers from our experts — **1-800-HOT-HOGS**

# CONTAIN SPILLS

## Spills are inevitable — a fast response is your best defense.

### THE PROBLEM

An open container of solvents is kicked over. A drum of waste oil is hit by a forklift. A fueling mishap pours diesel into a retention pond. If you're not prepared to respond, the damages can quickly multiply. From EPA fines to worker injuries, not having a plan can prove to be extremely costly.

### HOW WE CAN HELP

New Pig has spill response down to a science. Every PIG Spill Kit is filled with plant-proven supplies to contain liquids, and they're packed in the order you need them for fast cleanup. Trust our Absorbent Booms for oil spills on water, and ask us about other PIG solutions to help satisfy your facility's spill plan.

### ◆ EPA regulation summary

40 CFR 112.7 states that facilities subject to **SPCC Regulations** must have written plans discussing what measures are in place to prevent spills. Facilities must also have documentation of the products, countermeasures and procedures that are in place, or will be in place, to prevent discharge of oil into waters.

PIG Products help you do the job right:

PIG Big Daddy Spill Caddy KIT820..... page 86

PIG Absorbent Booms BOM304..... page 56

PIG SpillBlocker Dike PLR267..... page 158

### HOW TO ASSESS A SPILL RISK

### 5-PART SPILL RESPONSE SERIES

#### Part 1: Assessing risk and retraining instincts

PIG-exclusive series covers risk assessment, proper protection of responders, spill planning and training requirements, spill response techniques, decontamination and reporting requirements.

READ MORE: [newpig.com/spillresponse101](http://newpig.com/spillresponse101)

# FLOOR SAFETY

## An ounce of prevention is worth a ton of safety.

### THE PROBLEM

Slips, trips and falls are the second-leading cause of worker accidents and lost work-time injuries. On top of the pain and suffering, a single workers' comp claim can cost your company tens of thousands of dollars. According to the National Safety Council, 50% of these incidents are caused by unsafe floors. Knowing how to find these hazards is the first step in making your workplace safer.

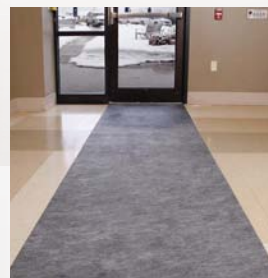

### HOW WE CAN HELP

Once you know *where* to focus your floor safety efforts (see the article below), we can hook you up with the best products on the planet to do the job right. Stick down some Grippy® Floor Mat for instant traction at entrances, and use Grippy® Absorbent Mat to help keep your workstations safe. Need to call attention to hazards, too? Try our High-Visibility Safety Floor Runner. Our proven solutions are built to make a difference.

### ◆ OSHA regulation summary

**29 CFR 1910.22(a)(2)** requires that workplace floors be maintained in a clean and, so far as possible, dry condition.

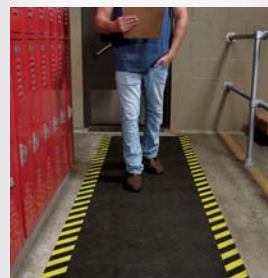

PIG Products help you do the job right:

PIG Grippy Floor Mat  
**GRP36206** ..... page 218

PIG Grippy Absorbent Mat  
**MAT32100** ..... page 22

PIG Safety Floor Runner  
**GRPSB36200** ..... page 224

### ARTICLE

## How to Prevent Slips, Trips and Falls at Your Facility

Learn how to prevent floor-related incidents and how to achieve world-class floor safety at your facility. Article includes downloadable posters, a safe floor program checklist and more.

# SECONDARY CONTAINMENT

**PIG Products help you do the job right:**

PIG Collapse-A-Tainer Berm  
**PAK793** ..... page 382

PIG Poly Spill Pallet  
**PAK210** ..... page 360

PIG IBC Containment  
**PAK735** ..... page 376

## Give your hazardous liquids a safe space to spill into.

### THE PROBLEM

A simple container failure can start a chain reaction of damages and fines, from lost inventory (\$) to slip-and-fall injuries (\$\$) to environmental contamination (\$\$\$). That's why the EPA requires secondary containment — something for your spills to spill into. Even if your facility has measures in place, things like rainwater accumulation, chemical reactions and insufficient volume capacity can render your containment system useless.

### HOW WE CAN HELP

We're not the type of company that just sells you a product and sends you on your way. We'll help you find the best solution for your specific application — whether it's a PIG Spill Pallet for small transfer stations, a Collapse-A-Tainer Berm for drive-in access or IBC Containment for your totes. Not sure what you need to maintain compliance? Get in touch with our experts — we're always happy to help!

### ◆ EPA regulation summary

**40 CFR 264.175** requires full containment for hazardous waste to prevent releases into the environment. Full containment is defined as 100% of the largest container or 10% of the total volume, whichever is greater.

### ARTICLE

## 5 Main Points of Secondary Containment Regulations

We know how mind-numbing federal regulations can be. So we broke it down into the five main things to consider under the EPA's haz waste storage regs.

READ MORE: [newpig.com/containmentregs](http://newpig.com/containmentregs)

# STORE & CONTAIN LIQUIDS

**PIG Products help you do the job right:**

PIG Overpack Salvage Drum  
**PAK725** ..... page 308

UN Rated Poly IBC  
**DRM1141** ..... page 346

UN Rated Steel Drums  
**DRM1844** ..... page 300

**Our most-popular reads deliver best practices:**

## Overpacks 101

Like drums and other performance-oriented packaging, overpacks have to pass specific tests in order to qualify as overpacks. Get the lowdown on salvage drums, lab packing and how UN ratings come into play when you ship containers.

**READ THE ARTICLE:** [newpig.com/overpacks101](http://newpig.com/overpacks101)

## Cracking the Code: Explaining UN Ratings

You probably know that you need DOT packaging or a special container to ship dangerous goods. You may even know that these containers require a UN rating. But did you know which UN rating each container needs to have?

**GET THE ANSWERS HERE:** [newpig.com/UN-ratings](http://newpig.com/UN-ratings)

## Steel Drums 101

The liquids and chemicals that steel drums come in contact with are varied and the jobs they do change with your plant's needs. When it's time to match your drum to your application, how do you know which one is best?

**LEARN MORE:** [newpig.com/steeldrums101](http://newpig.com/steeldrums101)

# HAZARDOUS WASTE

If haz waste handling has been a problem, we can help.

## THE PROBLEM

Chemical spill catastrophes make headline news, but there are thousands of smaller spills from drums, IBC totes, tanks, hoses and all sorts of machinery that result in violations and “smaller,” five-figure fines. These get piled on facilities every year as EPA auditors look for dysfunctional processes and mismanaged hazardous waste systems during visits.

## HOW WE CAN HELP

We can help you understand your RCRA responsibilities (see below), and there’s a full lineup of PIG products to help you comply. Our Burpless Drum Funnels and Latching Drum Lids are must-haves for Closed Container requirements. And you’ll find dozens of recycling solutions like our Aerosol Can Recycler to help keep your haz waste handling costs in check. Need help navigating all the red tape? Give us a squeal — we’re happy to help!

### ◆ EPA regulation summary

**40 CFR 262 (RCRA regulations)** state that hazardous waste must be appropriately identified and handled safely to protect human health and the environment, while minimizing interference with daily business operations.

PIG Products help you do the job right:

PIG Burpless Steel Funnel  
**DRM1125**..... page 296

PIG Latching Drum Lids  
**DRM1072**..... page 288

PIG Aerosol Can Recycler  
**DRM1266** ..... page 270

## 15-PART RCRA SERIES

### Part 1: How to Make Solid Waste Determinations

In this series on the Resource Conservation and Recovery Act (RCRA), we’ll guide you through proper hazardous waste handling to keep you safe and compliant.

START HERE: [newpig.com/RCRA101](http://newpig.com/RCRA101)

# DRAIN PROTECTION & STORMWATER FILTRATION

## Preventing water pollution is everyone's responsibility.

### THE PROBLEM

Your storm drains are a system of passageways that empty into nearby rivers, lakes and streams, and it's your job to protect those waters. Stormwater runoff and its contaminants can pose a serious threat to the environment, and the EPA will levy heavy fines if you're in violation of their regulations. Many facilities don't understand their risks, or how easy and affordable it can be to get into compliance.

### HOW WE CAN HELP

We understand the Clean Water Act, we speak SWPPP and NPDES, and we have an entire line of products designed to protect your drains and prevent runoff pollution. Ask us about our DrainBlockers to temporarily keep everything out, or our redesigned Storm Drain Filters for round-the-clock, below-the-grate filtration. You can also stock up on Oil-Only Spill Kits for fast response to outdoor spills.

### ◆ EPA regulation summary

**40 CFR 122.26 (Stormwater)** requires a Stormwater Pollution Prevention Plan (SWPPP) in place when applying for an NPDES Permit.

**40 CFR 112.7 (SPCC)** requires written plans in place to prevent discharge of oil into waters.

# STORM PREPAREDNESS

## Sooner or later, every roof is gonna spring a leak.

### THE PROBLEM

It doesn't take a "storm of the century" to interrupt your business. If you're not prepared to protect your people, inventory and assets, even a moderate weather event can have big consequences. Roof leaks and flooding can quickly lead to downtime, lost customers, falling stock prices, worker injuries and other costly outcomes.

### HOW WE CAN HELP

The key is to be ready before the storm hits, and New Pig offers some great products to help you prepare for Mother Nature's worst. A PIG Roof Leak Diverter catches leaks and channels them to a drain or container, away from your people and inventory. Stock up on PIG Water Absorbent Mats to soak up any wet weather that intrudes — they're the best in our lineup for water. We also carry Water-Activated Flood Bags and Barriers to help you stay dry out there.

### ◆ Best practice summary

**Business Continuity Planning (BCP)** is a strategy that's established through the recognition of threats and risks facing a company, ensuring that personnel and assets are protected and able to function in the event of a disaster.

## Uncle Ben's Item Listing

## Find specific products — fast!

Some years ago, our chairman of the board, Ben Stapelfeld, asked for an item-number listing to find things faster. Customers loved the quick reference, and it's been here ever since. Not good with names? This is the index for you!

# Index

4 in 1 Mat ..... 20, 44

## A

Absorb-&Lock Water Mat ..... 63  
Acid Solidifying Absorbent Powder ..... 71

## Absorbent Accessories

Disposal Bags ..... 124  
Mat Dispensers/Holders ..... 27  
PIG Picker ..... 27  
Waste Compactor ..... 273  
Wringer ..... 272

Absorbent Mats ..... See Mats  
Absorbent Pillows ..... See Pillows  
Absorbent Socks ..... See Socks  
Absorbent, Loose ..... See Loose  
Absorbents in a Workstation Box ..... 34  
Acid Absorbent Loose ..... See Loose  
Acid Absorbent Mats ..... See Mats  
Acid Absorbent Pillows ..... See Pillows  
Acid Absorbent Socks ..... See Socks  
Acid Absorbing Spill Kits ..... See Spill Kits  
Acid Cabinets ..... 352  
Acid Neutralizing Loose ..... 73-75  
Acid Neutralizing Mat ..... 73  
Acid Neutralizing Pillow ..... 72-73  
Acid Neutralizing Sock ..... 73  
Acid Neutralizing Kits ..... See Spill Kits  
Acid-Resistant Oil-Only Sock ..... 53

## PIG Grippy Caution Adhesive-Backed Absorbent Mat

**MAT32400** –  
See page N6

## Adhesive-Backed Mats

Carpet Protection Runner ..... 222-223  
Grippy Absorbent Mat ..... 23  
Grippy Antimicrobial-Infused Mat ..... 219  
Grippy Caution Mat ..... N6  
Grippy Entrance Mat ..... 220  
Grippy Floor Mat ..... 25, 219  
Grippy Floor Mat with Custom Logo ..... 221  
Grippy Tools ..... 227  
High-Visibility Safety Floor Runner ..... 224  
Paint Booth Floor Covering ..... 226  
Restroom Mats ..... 283  
Safety Message Mats ..... 225  
Social Distancing Markers ..... N5  
Aerosol Can Cabinet ..... 351  
Aerosol Can Recycler ..... N1-N2, 270-272  
Air Blowers ..... 227  
Ansul Neutralizing Adsorbents ..... 75

Anti-Fatigue Mats ..... N3-N4, 231-235  
Anti-Static Absorbent Mat ..... 45  
Anti-Static Absorbent Sock ..... 53  
Aprons ..... 191

## B

### Bags

DeWatering Bag ..... 182  
Disposal Bags ..... 124  
DrainBlocker Carry Bag ..... 171  
Portable Pool Storage Bag ..... 389  
Sandless Sandbags ..... 163  
Soil & Debris Bags ..... 310  
Barrel Top Mat ..... 17, 47, 69  
Barrels ..... See Drums  
Barricades ..... 246

## PIG Build-A-Berm Barrier

**PLR264** – See page 155

## Barriers and Berms

Build-A-Berm Barriers ..... 154-157  
Collapse-A-Tainer Berm ..... 382-387  
Containment Booms ..... 185  
DrainBlockers ..... 166-171  
FlexBerm Containment Pad ..... 388  
Flood Barriers ..... 163  
Foam Wall Spill Berm ..... 387  
Outdoor Filter Berm Pad ..... 181  
Sandless Sandbags ..... 163  
SpillBlockers ..... 158-162  
Base Neutralizing Kits ..... See Spill Kits  
Base Neutralizing Loose ..... 72, 75  
Base Neutralizing Mat ..... 72  
Base Neutralizing Pillow ..... 72  
Base Neutralizing Sock ..... 72  
Basin ..... 390  
Bathroom Products ..... 139, 283

## Battery Management

Battery Acid Cleaning Wipes ..... 120  
Battery Acid Loose Absorbent ..... 74  
Battery Acid Neutralizing Pillows ..... 72  
Battery Acid Spill Kit ..... 119  
Battery Cleaning Kit ..... 120  
Battery Containment Trays ..... 72  
Battery Handling PPE Kit ..... 120  
Used Battery Container & Label ..... 275  
Belly Drum Patch ..... 265  
Big Daddy Spill Caddy ..... 87, 101, 113  
Biohazard Spill Kit ..... 122-123  
Bioremediation (Biobugs) ..... 182-183  
Bladder Containment Deck ..... 366  
Blanket, Absorbent ..... 51

Blockers ..... See Barriers & Berms  
Bloodborne Pathogen Kit ..... 122-123  
Blue Mat ..... 9, 17  
Blue Sock ..... 31  
Bollard Covers ..... 248  
Bonding/Grounding Wires ..... 334  
Book, Emergency Response ..... 242  
Booms, Absorbent ..... See Socks  
Booms, Nonabsorbent ..... 185  
Boot Cleaning Mat ..... 277  
Boots ..... 192-193  
Brackets, Cylinder ..... 352  
Brooms ..... 280  
BubbleZorb Anti-Fatigue Absorbent Mat ..... 235  
Bucket, Mop ..... 280

## Need to buy from a company with ISO certified systems? You're looking at it!

When you're ready to make a purchase, the last thing you want is another obstacle in your path. That's one of the reasons we're committed to maintaining our ISO 9001:2015 and ISO 14001:2015 certifications — to make sure that anybody who wants to do business with New Pig can!

Even if you're not *required* to buy from an ISO-registered company, you can still benefit from the rigorous processes we have in place. Our quality and environmental management systems help ensure that we make PIG products the best they can be — and in a safe and environmentally responsible way, too.

*"The PIG brand represents more than just products — it's the full customer experience from start to finish. We're committed to exceptional quality, from ordering and delivery to product performance and support."*

Jason Emes, CQE  
New Pig QMS/EMS Manager

### Mailing List Rental Preference:

We occasionally make our customer list available to a few reputable, carefully screened companies whose products we feel may be of interest to you. If you do not wish to receive such mailings, you may do any of the following and we will promptly remove your name from our rental list.

Mail: New Pig Customer Lists, One Pork Avenue, P.O. Box 304, Tipton, PA 16684; call: 1-800-643-OINK (6465); or email: [hothogs@newpig.com](mailto:hothogs@newpig.com).

**Limited Warranty:** Except as described in our No Guff Guarantee®, there are no express warranties or implied warranties including, but not limited to, merchantability and fitness for a particular purpose. New Pig shall not be subject to and disclaims: 1) All obligations or liabilities arising out of breach of contract or of warranty, 2) All obligations whatsoever arising from tort claims (including negligence and strict liability) or arising under other theories of law with respect to products sold or services rendered by New Pig or any undertakings, acts or omissions relating thereto, and 3) All consequential, incidental and contingent damages whatsoever.

**Prices and Availability:** All published prices are in U.S. dollars and must be paid in U.S. dollars. In the event of a printing error, New Pig reserves the right to charge the correct price. New Pig works hard to maintain prices and product availability, but they are subject to change due to market conditions. If a published product becomes discontinued, New Pig reserves the right to no longer offer that item for purchase.

**Terms:** These terms and conditions shall constitute the entire agreement between New Pig and the purchaser, and shall be governed by and construed according to the laws of the state of Pennsylvania and the United States of America.

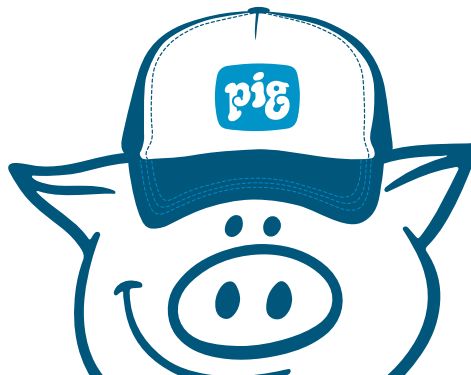

### OSHA Hazardous Substance Product Information:

Safety Data Sheets are enclosed with all orders where required. If you would like a Safety Data Sheet prior to order, please call customer service at 1-800-468-4647.

**Attention Distributors:** If you hold integrated supply contracts with your customers and would like to provide PIG Products to them, give us a holler. You may qualify for special pricing. Please call our Integrated Supply Team at 1-800-328-2464.

**Trademarks:** All rights reserved. PIG, the PIG logo, Pigalog, 1-800-HOT-HOGS and WORLD'S BEST STUFF FOR LEAKS, DRIPS AND SPILLS, are trademarks of New Pig in the U.S. and other countries. See more at [tm.newpig.com](http://tm.newpig.com). Other company, product or service names used may be trademarks of others.

**Offers:** Expire in 30 days.

# Pigging out on workplace messes since 1985.

Back in '85, our founders ran a small, industrial cleaning business and needed a better way to clean up the oil leaking from machinery. They were sick and tired of dealing with clay — it was a mess to clean up the mess. After many failed experiments, they filled their wives' pantyhose with corncob and it worked like magic. The first PIG Sock was born and the contained absorbents revolution was alive!

## Made right here in Tipton, PA

More than three decades later, we're still making our own absorbents in the same small town where we started. And while we've grown to become the world's leading brand, we've always stayed true to our roots. Tipton, Pennsylvania, may not be the most exciting place in the world (we do have two traffic lights), but there's no shortage of pride in what we do here. From the engineers on our Product Development team to the operators on our PIG Mat line, our people have a rich history of making dependable products that keep customers coming back for more.

## The World's #1 Mat

As demand for our cleaner, safer way of working grew, PIG wasn't about to be penned in by a couple of oceans. By establishing offices in the UK, Europe, China and India, and partnering with thousands of distributors and resellers around the globe, PIG products have reached more than 300,000 facilities in over 100 countries — on all 7 continents! No matter where messes are made, people everywhere love PIG: it's the *World's Best Stuff for Leaks, Drips and Spills.*®

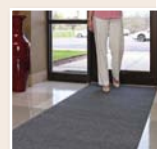

Our home base is in the United States, but we're fluent in many different languages of leak-and-spill expertise.

## Award-winning designs with your messes in mind.

We've won more **Plant Engineering Product of the Year** awards than anyone. Check out our history of innovative problem-solvers!

# At New Pig, looking for a better way is the only way we work.

## ◀ INNOVATION THEN: Corncobs and pantyhose

If our founders had settled for the status quo, workers might still be throwing clay on their leaks and spills. But after spending countless hours shoveling mountains of oil-soaked kitty litter from factory floors, they were determined to find a better way.

Most of their experimenting took place in a sloppy corner of an old warehouse dubbed the "Pig Pen." It wasn't pretty, but that's where the corncobs, rice hulls and pantyhose hit the floor — and eventually gave birth to the world's very first contained absorbent. The PIG Original Sock would be the first of many New Pig innovations to come.

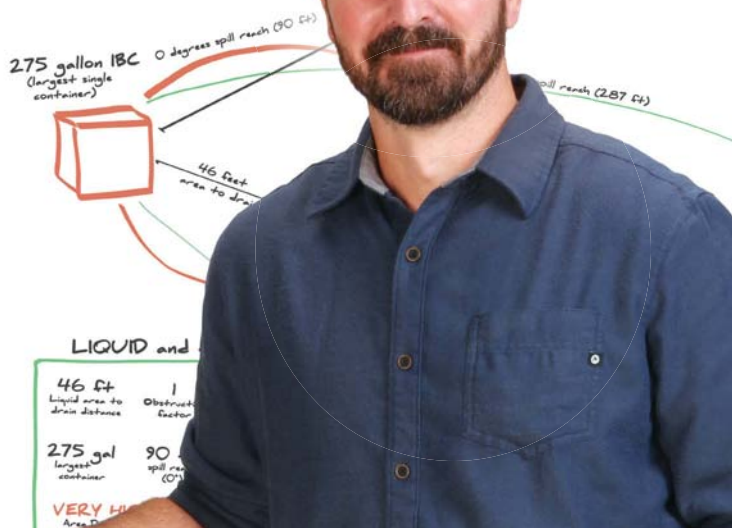

## INNOVATION NOW: ▶ Adhesives and algorithms

A lot has changed on the leak-and-spill landscape today, but our passion for finding better ways to work has been a constant through the years. We've developed dozens of industry firsts and engineered hundreds of product improvements to help you work cleaner, safer and be more productive. (Check out some of our award-winners on the opposite page!)

One of our most recent inventions, PIG Grippy Mat, never would have happened if we hadn't stepped outside our comfort zone. We knew that a sticky-backed absorbent mat would solve a ton of problems, but we knew nothing about adhesives. So we did what all good inventors do — we failed, and failed and failed some more (53 times, in fact) until our P54 adhesive backing was just right.

That's not to say that PIG innovation is all about sloppy testing areas and sticky experiments. Our Spill Risk Algorithm (locked inside the top-secret box at right) is evidence that even the leak and spill experts at New Pig are always learning how to learn. This PIG-original, patented algorithm applies physics — over 600 calculations are performed — and industry-specific research to help you really understand your spill risks.

### Spill Risk Algorithm

**Prof. Andy James ▶**  
Chief Marketing Officer  
(and really good at physics)

# WORLD'S BEST STUFF FOR LEAKS, DRIPS AND SPILLS.®

**Top products to get the job done right.** When you're going up against industrial hazards like acid baths, oil-slicked floors and runaway spills, you need products you can trust. And nobody can beat the quality, engineering or performance of PIG. As the global leader since 1985, we've helped more than 300,000 customers in 100 countries (on all seven continents!) absorb, contain and control their liquid messes.

*"We have tried other less expensive brands, but as the saying goes, 'you get what you pay for' — we always return to the best!"*

— Tanya  
Happy Customer

## ABSORBENTS

**PIG Mats & Socks** are the best you can buy for soaking up leaks, drips and spills. Invented here in 1985 and still the World's #1 Brand.

See pages 5–7

## SPILL KITS

**PIG Spill Kits** are designed for superfast response, and nobody offers more sizes, styles and options to fit your facility.

See pages 77–79

## SPILL CONTROL

**PIG DrainBlocker Covers** go down fast and seal tight to stop spills and protect drains.

See pages 166–171

## STORMWATER FILTRATION

**PIG Drain Filters & Inserts** remove oil and sediment from runoff to protect waters and stay compliant.

See page 172

## MAINTENANCE

**PIG Leak Diverters** go up fast to safely channel overhead leaks — it's a simple solution, made superior.

See pages 252–253

## ADHESIVE-BACKED MATS

**PIG Grippy Mats** won't shift or bunch up — eliminate slips, trips and falls at your entrances and walkways!

See pages 216–217

## STORAGE & MATERIAL HANDLING

**PIG Latching Drum Lids & Burpless Funnels** are built for speed and ease so you can work clean and comply with regs.

See pages 286–287

## CONTAINMENT

**PIG Spill Pallets & Decks** give your hazardous liquids a safe space to spill into. Guaranteed not to fail!

See pages 358–359

# WE'LL KEEP YOU HAPPY!

## THAT'S THE PIG PROMISE.

### Super-Awesome Service

You'll never have to wade through recorded phone menus at New Pig. An actual human being answers your call within two rings, and orders only take a few minutes. Our team is fast, friendly and up to snuff on all our stuff!

### FREE Expert Advice

From product support to regulatory compliance, and every head-scratching subject in between, our Technical Service Reps are educated on the issues that affect you most. We love solving problems and figuring out fixes for the issues at your workplace.

### Reliable Shipping

Thanks to our speedy warehouse crew, modern logistics and massive in-stock inventory, most orders ship same day. And when you order using Autoship, your favorite products ship automatically so you never run out. (See [newpig.com/autoship](http://newpig.com/autoship)).

### Risk-Free Shopping

We stand behind 100% of our products, 100% of the time. So if you're not happy, we'll refund every single penny, including shipping both ways. We'll even schedule the return from your location. Zero risk. No guff. All good.
