

EXT RESCUE® 4011

Above all else, an extrication glove must be tough. Built to last through countless difficult missions, the EXT Rescue® 4011 is the strongest, most dependable rescue safety glove available. We armed this glove with our improved IR-X® Impact Exoskeleton™ and an ISEA Level 5 cut-resistant palm, reinforced with our proprietary TP-X® technology for added durability and grip. We also double-stitched all exterior and interior seams and added a breathable cuff with Velcro® closure, so this glove fits as well as it lasts. The EXT Rescue® 4011 is the HexArmor® commitment to the rugged vigilance of our first responders. HexArmor® knows that you will never give up, and neither should your glove.

the science of safety®

HexArmor®  ELITE WITH SuperFabric.

EXT RESCUE® 4011

Equipped with the most protective impact-resistance system in the industry and a durable high-grip palm, the EXT Rescue® 4011 outworks every other protective glove available and outlasts the roughest and toughest operations.

FEATURES:

- SuperFabric® brand material palm provides ISEA Level 5 cut resistance and maintains the highest level of protection available in the industry (interior layer)
- Durable TP-X® palm reinforcement utilizes the highest-level of abrasion resistance while maintaining an oil-resistant grip (exterior layer)
- Full Impact Exoskeleton™ with high-performance IR-X® smash guards provides greater impact protection than the leading competitor
- Printed PVC synthetic leather palm provides reliable grip in dry or light oil situations
- Exterior and interior seams implement a double stitched core-spun thread, adding further durability and longevity
- Reinforced index finger and thumb saddle extends glove life
- Breathable Neoprene™ cuff with Velcro® closure
- Hi-vis color scheme increases visual awareness
- Launderable
